MINING AND MINERAL STATISTICS OF CANADA.

Sixteen and a Half Millions of Dollars Produced During the Year—Output of Coal, Gold, Iron and Other Ores.

OTTAWA, Oct. 16.—The annual report on the mining and mineral statistics of Canada for the year 1888 prepared by Mr. H. H. Brumel has been issued from the geological and natural history survey. The total value of the production of minerals of all kinds for the year was $16,500,000. The most valuable mineral product of the year was coal. The output in 1888 was 2,658,134 tons valued at the pits' mouth at $2,259,832, an increase of 230,640 tons. Of the total output 1,989,263 tons came from Nova Scotia mines, 548,017 tons from British Columbia mines, 115,124 tons from the Northwest Territories and 5780 tons from New Brunswick. The quantity of anthracite coal imported during the year 1888 was 1,326,164 tons valued at $5,450,748 and of bituminous coal 1,287,189 tons valued at $3,469,025.

The value of the gold product of the year was $1,008,610 representing 61,310 ounces, showing a slight decrease when compared with the product of 1887, which is attributed to a bad season in the Yukon district. The number of ounces produced in Nova Scotia was 22,407, in British Columbia 36,278 ounces, in the Northwest Territories including Yukon 2628 ounces and in Quebec 197 ounces. No production was reported from Ontario though small shipments were made from some localities in the vicinity of Sudbury and it is believed small quantities of gold were extracted from some of the ores of Hastings. As in previous years a small amount of gold was obtained from the Saskatchewan River near Edmonton.

The quantity of iron ore produced in 1888 was 78,587 tons valued at $152,068 showing an increase of 2257 tons over the quantity produced in 1887. By provinces the production in tons was as follows:

PROVINCE.	TONS.	VALUE.
Nova Scotia	42,611	$74,569
Quebec	10,710	24,289
Ontario	16,894	37,710
British Columbia	8,372	14,950

The quantity of phosphate mined and marketed in 1888 was 22,485 tons valued at $242,285, showing a decrease of 1205 tons as compared with 1887, the decrease being in the Province of Ontario. There was a slight increase in the production of Quebec. The quantity of phosphate exported in 1888 was 18,776 tons to Great Britain, 18,937 tons to the United States, 2643 tons to Germany, 1176 tons to other countries. The production of salt for the year 1888 was 59,070 tons, valued at $185,460, a decrease in quantity as compared with 1887 of 1103 tons. There was however an increase in value of $19,066. In 1887 the average price was $2.76 per ton whereas for this year the average price is $3.14.

The values of other leading mineral products of 1888 are: Asbestos $255,007, bricks $1,036,746, building stone $641,712, cement $35,593, charcoal $87,000, copper $667,643, glass and glassware $375,000, granite $147,305, graphite $51,129, gypsum $179,393, lead $27,472, lime $339,951, manganese ore $47,944, mica $30,207, mineral water $11,456, moulding sand $75,557, pyrites $285,656, slate $90,689, steel $472,611, sulphuric acid $121,515, terra cotta $49,800, tiles $114,067.

Capital Notes.

OTTAWA, Oct. 16.—Mr. Peter O'Brian of L'Orignal has been appointed Judge of the counties of Prescott and Russell, in the place of the late Judge Olivier.

R. S. White, M.P. for Cardwell, was here presenting Hon. Mackenzie Bowell with a couple of petitions from the business men and Town Council of Orangeville asking for the establishment of an outport of customs at that place.

The Souris and Rocky Mountain Railway has instituted a suit in the Exchequer Court against the Great Northwest Central for two claims against the latter read.

Clark Wallace, M. P., and George Taylor, M. P., were in the city yesterday.

TORONTO TOPICS.

The Hicks Murder Trial — Stabbed in a York-Street Dive.

TORONTO, Oct. 16.—The Hicks murder trial was continued yesterday morning. The evidence for the prosecution took up the whole day, but was of an unimportant nature until Mrs. Norton was called in the afternoon, when the strongest evidence against the prisoners so far came out. She testified that she heard Arthur Hicks tell Mrs. White: "Cousin Sarah, that stuff I put in uncle's tea has made him awful sick. They took him home in a hack and sent for a doctor. I don't think he's going to get well. But they don't think its Rough on Rats, they think it's blue vitriol." The case will be resumed to-day.

William Yeomans was stabbed in a York-street dive last night. His injuries are probably not fatal.

Fatal Shooting Accident.

SARNIA, Oct. 16.—Three young Point Edward men named Samuel O'Neil, Fred Kaupp and Nelson Wager were out hunting yesterday on the London-road about ten miles from here and about noon O'Neil was shot dead by the accidental discharge of Wager's gun. The contents entered the back of O'Neil's neck and he was instantly killed. The three were looking up a tree after squirrels and Wager took aim, his foot caught in a root, he stumbled and his gun fell over his shoulder going off and shooting O'Neil, who stood behind him. O'Neil was 17 years of age, a son of J. F. O'Neil, the postmaster of Point Edward, and was an intelligent and industrious young man.

The Coming Fuel.

PORT COLBORNE, Oct. 16.—Gas has been struck at No. 2 well which the McLaren Company are putting down near Sherkston, about seven miles east of this place. The flow is not so great as at their first well, but it is expected it will increase as a greater depth and after torpedoing it. The gas commenced to flow at about 840 feet, about the depth of No. 1 well. No. 2 well was drilled with gas from No. 1, used as fuel, McLaren & Co. have No. 3 well down about 400 feet and a derrick up to commence on fourth well. They are working westward and it is the intention to put down nine or ten wells this fall, and then to lay pipe to Welland, Thorold St. Catharines and probably to Hamilton and Toronto.

A Conductor Killed.

OTTAWA, Oct. 16.—An accident occurred on the Canada Atlantic Railway track at Clark's Island Monday afternoon from the effects of which John Vail, a popular freight conductor, died yesterday morning. The deceased conductor was engaged at the time in looking after some cars in the freight yard when he was run down by a shunting locomotives. Two of his legs and one arm were taken off. Vail was standing with his back towards the engine. He had been employed on the road for the past two years on the run between Rouse's Point and Cotesa. He leaves a family.

MATTERS IN MONTREAL

DROWNED WHILE TRYING TO AID A COMRADE.

A Former St. Marys Girl Pilfers From Her Employer—Fifty Dollars' Balm for a Broken Heart.

MONTREAL, Oct. 16.—Matthew Risdale Tyndale, for seven years in the employ of G. W. Clarke, stationer, and for a number of years manager of the establishment, met his death by drowning. On Saturday last the deceased accompanied by a fellow employe went to Chateauguay to spend a two weeks' holiday camping and hunting on one of the islands near there. Muirhead attempted to shove a boat off but in doing so missed his footing and fell into the deep water. The current being very swift and the water very cold he found that his strength was leaving him and cried out for assistance to his comrade who was some distance up the bank. Mr. Tyndale ran down to the water's edge and jumped into the swift and dangerous current to save the life of his comrade. No sooner had he struck the water than he sank and never rose to the surface. The body has not yet been recovered.

Eliza Blackburn an attractive young saleswoman who was arrested on Saturday last by Detective Carpenter for pilfering from the store of her employer, W. H. Scroggie of St. Catharine-street, pleaded guilty to the charge. She stated that she originally belonged to St. Marys, Ont., and was married there but not being able to live with her husband she left him and came to Montreal. She was sentenced to 18 months imprisonment.

Daisy Wilson was arrested to-day charged with stealing $500 from Freman Standish, a young fellow hailing from Springfield, Mass.

Mary Aiken was allowed $50 to-day in the Superior Court as damages in a breach of promise suit against Alexis Beddoce who declined to marry her. He announced his refusal only 5 hours before the time appointed for the ceremony.

East Elgin Reform Convention.

AYLMER, Oct. 16.—At the convention of the Reformers of East Elgin held here yesterday to elect a candidate for the Ontario Assembly in the coming elections Mr. J. C. Dance, the present member was chosen. Addresses were made by Mr. Dance and Dr. J. H. Wilson, M.P.

Victims of New York Thugs.

NEW YORK, Oct. 16.—Edward H. Woodridge, a Custom House Inspector, and Thomas Carey, a wealthy saloon keeper of Middletou, Conn., were found in the street a few mornings ago badly injured and have since died. The police are of opinion that both were sandclubbed and robbed. Inspector Byrnes has placed four skilful detectives on the track of the thugs.

The Halifax-Bermuda Cable.

OTTAWA, Oct. 16.—It is announced that the telegraphic cable between Halifax and Bermuda will be laid next month. There is also a probability that the cable will be extended to the Bahama Islands and Jamaica.

Cornering the Potato Market.

QUEBEC, Oct. 16. Montreal jobbers are here buying up all the potatoes they can procure. Over 20,000 bags have been sent to the Montreal market within the past week by the Richelieu line boats.

U. S. Harbor Improvements.

WASHINGTON, Oct. 16.—General Casey, chief of engineers, in his annual estimates submitted to the Secretary of War recommends among others for appropriations for continuing work on improvements under his charge during the year ending June 30, 1891: Buffalo harbor $400,000, Tonawanda harbor and Niagara River $100,000.

THE SPHERE OF SPORT.

Speculation on the World's Baseball Championship series.

NEW YORK, Oct. 16.—The big Brooklyn bridge separates the two pennant winners of the major baseball organizations of this country. The Brooklyn team returned home yesterday and were welcomed by an immense crowd who greeted them enthusiastically. The speculation is on the result of the world's championship series, the first game of which it is likely will be played on Saturday next. New York opinion, and the cranks who bet on the game on the outside favor the Giants by long odds, and in fact it is the general impression that the New York team will once more wear the title of "world's champions." Both the pennant winners have fought hard for the honors and shekels which the last contest between the winning nines of the big organizations brings with it, and each is winner in racing parlance "by a nose" only. Both have superb pitching talent for the last contest but the New York men are conceded to be the better batters and hope to win on this account. Should they be unable to do efficient stick work against Terry and Carruthers then there is fair hope that the Association champions may get the world's flag. All depends on these two great pitchers so far as Brooklyn is concerned.

Yesterday's Ball Games.

At Cincinnati (first game): Cincinnati 8, St. Louis 3. Second game: Cincinnati 1, St. Louis 2.

At Philadelphia: Athletics 10, Baltimore 2.

At Indianapolis: Kansas City 11, Indianapolis 7.

At Cleveland: Cleveland 5, Columbus 3.

At New York: New York 15, Mets 8.

Field and Turf.

The racing season in New York closed yesterday. The winners at Jerome Park were Duplicity, Germinea, Banflag, Successor, Volunteer II, Raymond.

At Morris Park yesterday the winners were Bridgelight, Express, Reporter, Quesal, Glendale, Civil Service.

At Latonia yesterday Daisy Woodrad, Littrell, Dollikins, Nevada, Retriever and Prince Fonso were the winners.

Threshers Poisoned by Weeds.

BELLEVILLE, Oct. 16.—A remarkable case of poisoning comes from the fourth concession of Sidney. As is customary among the farming community, a number of the neighbors had assembled at the barns of Charles Ross for the purpose of helping him with the year's threshing. After the work was done several of the threshers were taken violently ill, and becoming no better were forced to take to their beds. When a doctor was finally summoned he pronounced it a bad case of poisoning, as a result of inhaling dust of poisonous weeds, which grow in abundance in that section. With medical treatment the men rallied and are now out of danger.

Tried to Shut the Canal.

DULUTH, Minn., Oct. 16. William Boeing, who claims to be the owner of certain lots through which the Duluth ship canal is built, attempted yesterday to stretch ropes across the canal to prevent the passage of shipping. The rope was stretched from the Canadian to the United States shore. It was stretched four times and cut once by the police, broken twice by a steamer and once by a small vessel. No further attempts were made.

TRANSATLANTIC NEWS

GROUNDLESS RUMORS ABOUT THE PRINCE OF WALES.

The King of Bavaria's Debts—The Czar Shoots Red Deer—Russia Relies on Bismarck to Maintain Peace.

LONDON, Oct. 16.—Reports about the Prince of Wales' health are widely exaggerated. To say that he is in rude health wouldn't be accurate, but he is for all practical purposes perfectly strong and able to do nearly as much as he used to do ten years ago. His leg is much better, and he can walk and ride a little, and he is now much more careful as to his diet and smoking than formerly. There is really no cause for the alarmist rumors which are flying about.

The Imperial party at Fredensborg has now broken up, and it is improbable that there will ever again be so unique a gathering there as an emperor and empress, three kings, two queens, four heirs apparent to thrones, and a host of princes and princesses. The royal party enjoyed the most absolute privacy apart from the incessant surveillance of the Russian secret police, with whom Denmark has been literally garrisoned during the emperor's visit, and the whole neighborhood of Fredensborg for many miles around has been practically in a state of siege. There have been very few shooting parties. The Emperor of Russia having lately been in a state of acute panic, has given up his favorite diversions, such as hunting. In Tidsvild forest, forty deer and a large number of foxes and hares were killed, and last week in Jagersborg park, the bag consisted of fifty deer and a number of white foxes and hares.

The payment of the debts of the late King of Bavaria will not be completed until 1905. They are now being paid off out of the Bavaria civil list at the rate of £55,000 a year.

Prince Lucien Bonaparte's numerous friends will be glad to hear that he has succeeded, quite unexpectedly, to a fortune of £30,000. The story of the windfall may be fairly described as a romance. In 1826, Lord Dudley Coutts-Stewart, son of the first Marquis of Bute and member of parliament for Arundel at the time of the reform bill, married Christiana Alexanderine, in Egypt, a daughter of Lucien Bonaparte, Prince of Canino. Lord Dudley Stuart died in 1854, having survived the princess seven years. For many years her only son, Paul Armadeus Francis Coutts-Stuart, has led the life of a recluse in Brompton, unknown and almost forgotten. He recently died, and a solicitor called one day at Norfolk terrace and informed Prince Lucien that his nephew whom he had never seen, had bequeathed him the whole of his property.

Very strong representations have been made to the lord mayor-elect and his co-religionists, and especially by those who inhabit West Portsoken, as to the grave offence which his appearing in a coach no Saturday, Nov. 9, is likely to cause. After mature consideration Sir Henry Isaacs has resolved to walk in the procession and so obviate any possible pretence of controversy.

Russia Relies on Bismarck.

ST. PETERSBURG, Oct. 16.—The semi-official Novoe Vremiya in an inspired article affirms the friendship of Russia for Germany and says that Russia relies upon Prince Bismarck to maintain peace.

Shooting Red Deer.

BERLIN, Oct. 16.—The Czar, Grand Duke Vladimir and Grand Duke George took part in the hunt on the estate of the Grand Duke of Mecklenburg-Schwerin at Ludwigslust yesterday morning. A number of red deer were shot. The Czar and his party left Ludwigslust last evening en route to Russia returning by way of Berlin and Dantzic. The Czar has repeatedly expressed gratification with his reception in Germany.

Not in Vain.

BERLIN, Oct. 16.—The Cologne Gazett believes that the Czar's visit to Berlin will tend toward the maintenance of peace, and was, therefore, not made in vain.

King Luis of Portugal Dying.

LISBON, Oct. 16.—The condition of the King is critical. His whole body is paralyzed. He is thought to be dying. The last sacrament has been administered.

INSURRECTION IN ALABAMA.

An Anti-tax Riot—Four Men Killed and a Dozen Wounded.

BOSTON, Oct. 16. | A special from Atlanta Ga., says: The Alliance men have taken possession of the town of Dothen, Ala., to resist the Lyons tax. A riot in which two leading men have been killed is in progress. The town officers were mortally wounded and a dozen others injured.

A "Queer" Shower Arrested.

DETROIT, Oct. 16.—Last June Sam Ashman, a Detroit man 20 years old, was discharged from state prison where he had served a five years term for burglary. Some days ago the police were notified that first class counterfeits of silver dollars were being passed in the western part of the city and yesterday a detective arrested Sam Ashton as the man who had been passing the spurious coin. None of it was found on his person but the officers say a number of men have identified him as the one from whom they received the bogus money.

NOT BONUS HUNTERS.

T., H. & B.'s Secretary Talks—Ambitious City Notes.

HAMILTON, Oct. 16.—Secretary Miller, F. C. Helm and L. D. Latham, of the Toronto, Hamilton and Buffalo railway, were seen by a reporter yesterday. "You can say," said Secretary Miller, "that we don't want the city to give us a cent of money until the road is finished. If the city will agree to give us a bonus we will buy the right of way through the city ourselves, but we don't ask the city to pay over any money until the railway is completed, I don't think that looks as if we were bonus hunters. It is certainly an evidence that we have a good financial backing behind us." From an inspection of the plans it appears that the railway from Toronto to Hamilton runs along the lake shore, and through the heart of the towns of Burlington, Oakville, Port Credit, etc. At Hamilton the line leaves here along the old N. & N. W. Railway, and runs in almost a direct line to Welland, opening up a tract of country which has hitherto been virtually without railway accommodation. From Welland there are two routes to Buffalo—one direct and the other via the Falls.

J. D. Bissonnette, the recently dismissed headmaster of the Dundas High School, has been sued by A. B. Cook, one of the teachers for $3000 damages for slander, the allegation being that Bissonnette circulated a report that Cook stank and that he was an infidel."

Judge Sinclair not being able to attend, the investigation of the Hawkins shooting case by the police commissioners was adjourned until Friday.

Wilson D. Pierce, one of the best known and most popular commercial travelers in Canada, died Monday afternoon after a long illness, at the residence of his brother-in-law, James Pierce. The deceased was the youngest son of the late William Pierce, C. E., and was 36 years of age.

THE CINCINNATI CASUALTY.

Six Persons Killed—List of the Dead and Injured—The Engineer Missing.

CINCINNATI, Oct. 16.—The killed in the accident on the Mount Auburn inclined plane railway yesterday were: Judge W. M. Dickson, Miss Lilian Oakamp, Joseph Hochstetter, Mrs. Caleb Ives, Michael Kneins, Joseph McFadden.

The injured are: Charles McFadden, both legs broken; Mrs. Joseph McFadden, cuts and internal injuries.

Mr. Kneins was a teacher in a public school. He was on his way home to dinner. His body was badly disfigured. Mrs. Ives was the wife of Caleb Ives, treasurer of the Globe Soap Works. She was on her way to visit her son, who was married a few weeks ago. Mrs. Ives was aged about 60, and her neck was broken. Joseph McFadden, aged 60, died at 2.20 p.m. Charles McFadden is his son.

The accident is described as follows: As car No. 29 reached the top of the plane, Geobel, the cabman, forced down the lever which shuts off the steam. For some reason the apparatus refused to work and the car rushed on upon the iron railing. Geobel beat all his strength upon the lever but it failed to bridge. On the car rushed madly, the iron work pierced deeply into the wooden flooring and still the cable tugged. Finally with a grating noise the cables slipped from the brass clamps that held them, the bolt that secured them opened and the car was free. The passengers unconscious of trouble were about to step from the vehicle as it shot downward. The passengers who had arisen fell together upon the floor of the car. Down the plane of several hundred feet it shot and plunging fiercely upon the railing at the bottom was dashed to pieces. The car shot far out upon Main-street and was shivered into a thousand fragments.

Charles Geobel, who was the man at the lever and unable to stop the engine, says he complained that the "cut off" was not working properly. "I told the engineer about it this morning," he said, "and the engineer told me he had repaired it, but it was evidently still out of order and this must have been what caused the accident."

CANADIANS Work Too Hard!

The Result is Sleeplessness, Nervousness and a Broken-Down System, often

Ending in Insanity.

Thousands of overworked business men, wearied brain-workers industrious mechanics, and tried women, in all parts of the Dominion are to-day in a terrible position. Their nerves are weak, digestion poor, head aching, and they cannot sleep, work or live in comfort. This is what fills our Insane Asylums. This is the cause of that terrible Paresis Before it is too late, use Dr. Phelps' wonderful discovery, Paine's Celery Compound. It removes the results of overwork, restores strength, renews vitality, regulates the whole system, and tones up the overworked brain and body. Do not despair, but use this wonderful remedy, and be restored to health and happiness, the same as was Mr. John L. Brodie, of Montreal, who writes: "I have great pleasure in recommending your Paine's Celery Compound. My system was run down and I was not fit for business, could not sleep well at night and was nervous. I commenced taking Paine's Celery Compound and improved immediately. I am now able to transact my business and endure any amount of excitement without bad effect."

Paine's Celery Compound can be purchased at any druggist's for one dollar a bottle. If he should not have it on hand, order direct from WELLS, RICHARDSON & Co., Montreal.

Burleigh Fair.

A Successful Exhibition.

On Friday Oct 11th Agility put on holiday appearance the occasion being the annual Township Fair. A large number of entries were made but not as many as last year, owing to the threatening aspects of the weather in the morning. A very small exhibit of cereals was shown which is accounted for by the fact that but little threshing has been done in the vicinity. There was a good attendance of the public, and consequently there is a gratifying report for the Directors.

NEW YORK, Oct 16.—The 80th Annual meeting of the American Board of Commissioners of Foreign Missions was begun yesterday afternoon in the Broadway Tabernacle. The Board has not met here since 1832. There was a large attendance. Rev. Dr. Storrs of Brooklyn presided. An address of welcome was made by Rev. Dr. Taylor and responded to by Dr. Storrs. The reports of the treasurer and the annual survey of the mission fields by the foreign secretaries followed. The treasurer's report showed that for the year ending Aug. 31 last the cost of maintaining missions has been $635,133 and the total expenditure $686,001. The remainder of the legacy of S. A. Otis of New London has been set apart for new missions. The legacy of Samuel W. Swett of Boston is set apart to meet special calls in the evangelistic and educational departments of the missionary work abroad. During the year $83,000 of this legacy has been spent. The permanent funds of the board amount to over $333,000. The survey of the missionary fields was read by Rev. D. Judson Smith and Rev. D. Story. The reports showed the mission work had been very successful. The Board adjourned until to-day.

Catarrh is in the blood. No cure for this loathsome and dangerous disease is possible until the poison is thoroughly eradicated from the system. For this purpose, Ayer's Sarsaparilla is the best and most economical medicine. Price $1. Six bottles, $5. Worth $5 a bottle.

A Strong Following.

MANY diseases result from neglected constipation, such as rich headache, bad blood, foul humors, heartburn, dizziness and general ill health. From one to three bottles of Burdock Blood Bitters is guaranteed to cure constipation and all diseases caused by irregularity of the bowels. 2w41d

Cannot Fail.

MRS. JOHN E. THOMPSON, of Shelburne, P.O., writes: My two children received great benefit from Fowler's Extract of Wild Strawberry for Diarrhoea and summer complaint. I gave it according to direction and they soon recovered. Be sure and get the genuine. 2w41d

In Many Forms.

DYSPEPSIA assumes many phases, all disagreeable to the sufferer, yet it takes no form which from two to four bottles of Burdock Blood Bitters will not cure. B.B.B. cures dyspepsia, tones the weak stomach, aids digestion, sharpens the appetite, and renovates the system. 2w41d

COLD, wet weather is very hard on sufferers from Neuralgic troubles, and to those Dyer's Quinine and Iron Wine is strongly recommended. It is palatable, easily assimilated, and can be safely taken by the weakest invalid. W. A. Dyer & Co., Montreal. 6d70

NEVER ALLOW the bowels to remain constipated lest serious evil ensue. National Pills are unsurpassed as a remedy for constipation. dw

SKINS ON FIRE.

Agonizing, Itching, Burning and Bleeding Eczema in its worst stages. A raw sore from head to feet. Hair gone. Doctors and Hospitals fail. Tried everything. Cured by the Cuticura Remedies for $6.

CURED BY CUTICURA.

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and been through the hospital, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA SOAP, I find myself cured at the cost of about $6. I would not be without CUTICURA REMEDIES in my house, and I think they are the only skin and blood medicines.
ISAAC H. GERMAN, Waterboro, N Y.

Burning and Itching.

I was sick in the fall of 1888 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some doctors thought it might be salt rheum (eczema), and others they never seen anything like it before. I spent [illegible] in help from any of them, or from all medicine that I could get hold of until I used your CUTICURA REMEDIES. After three weeks I found myself able to work, and [illegible] I was entirely cured, and all suffering [illegible] skin disease.
C. E. OSBORN, Telleville, Va.

Cuticura Resolvent

I [illegible] that CUTICURA REMEDIES [illegible] for my baby, who was afflicted with eczema, and had such intense itchings that he got no rest day or night. The itching is gone, and my baby is cured, and is now a healthy, rosy cheeked boy.

SPLENDID BUILDING SITES

Have placed on the market

That Desirable and Well Situated Property

in the western part of the Town, and offer it in lots as per plan annexed. This affords a splendid opportunity to secure a location for your home in a rapidly improving and in every respect the best part of the town. The properties are situated on Cedar and Hatton streets and within a stone's throw of the West Ward Schools and a short distance of the principal churches and the Hamilton Co's. Works.

"ERIN COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had at a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and merchants should inspect this property as it offers the best sites available and convenient to the business part of the town.

WONDERFUL WATCHES.

THE INGENIOUS CHRONOMETERS OF THE PAST 200 YEARS.

Timepieces That Were Wonders in Design and Workmanship—Watches in the Ends of Umbrella Handles and Lead Pencils—The Physician's "Familiar Spirit."

For years old Dr. Allan, the Scottish physician, was suspected of being a wizard, an opinion which was considered all but confirmed when, in 1620, he provided himself with a silver watch of the regulation size and style. Chancing to stop with a neighbor over night and it being somewhat cold, he laid the watch near his body and covered it with the bed quilts so that the chilly weather would not affect the works. Next morning he arose rather abruptly and left the house without removing his treasure from its cozy nest in the bed.

In ridding up the room the servant discovered "the infernal chattering thing," and immediately concluded that it must be the old doctor's "familiar spirit," conclusions which were hardly arrived at before she had fled wildly from the room. Other servants were called and the whole array charged the "chattering thing" in the bed. Clubs and tongs were freely used, but the case was strong and the thing still chattered defiantly. One of the girls, more courageous than the others, finally agreed that she would take the tongs and carry the thing to the moat and drown it, a proceeding fraught with danger, but at last decided upon. The others followed at a respectable distance with hoes, clubs and shovels, with which they proposed to pounce on the thing should it attempt to attack the heroic girl. When the old doctor returned for his watch he was informed of what had been done, one of the servants leading the way to where the thing had been drowned. It was found hanging on a bush on the bank of the moat. The failure to beat or drown the thing to death fully convinced the servants that it was in reality the old wizard's spirit, and they could not be persuaded to touch it.

This story is related simply to show what rarities watches must have been even at that late period of the Seventeenth century.

A MARVEL IN ITS WAY.

In 1769 one of the admirers of George II caused to be made for that monarch a watch which was a marvel in its way. It had a calendar hand which pointed to the days of the month and of the year. Instead of making a revolution every month, like the calendar watches of today, it took the whole 365 days to get once around. The dial plate was only two inches in diameter, therefore, the figures must have been very minute, otherwise the 365 numerals could not have been arranged around the border.

The annual dial calendar was but one of a number of extras with which this watch was provided. A movable diamond performed diurnal revolutions as regular as did the great orb after which it was modeled; it struck the hours, the half hours and the quarters, while an inside dial plate revolved in a manner clearly exhibiting the variations of the seasons.

The English house of commons, following a suggestion of Sir Isaac Newton, appointed a committee June 11, 1714, with power to offer a reward of £20,000 to any one who would invent an accurate time keeper for use at sea in determining longitude. After many years of labor and study the invention was announced as perfected. However, the inventor, one John Harrison, did not receive the reward for his labor until Sept. 18, 1764.

Keyless watches have been known for the past 100 years, but not until within the past twenty-five have they come into general use.

It would take columns to enumerate all the dainty and wonderful little timepieces that have been made during the past 400 years. They have been made not larger than peas, and set in rings for physicians to facilitate the counting of the pulse. They have been fixed in bracelets, brooches, eye glasses, tops of umbrella handles and even on the ends of lead pencils, where they occupy the same position as the rubber on the average Faber.

In 1888 a watchmaker of Dresden exhibited a watch made entirely of paper. The paper was chemically prepared, and the maker claimed that it would be as serviceable as if made of the material ordinarily used.

The same year, at a fair held at Worcestershire, England, the Crowthers Bros. & Co. exhibited one made entirely of iron.

WONDER OF THE NINETEENTH CENTURY.

An ingenious prisoner at Kariaus, Bohemia, recently constructed a watch, eight centimeters in diameter, with no other tools or material except two needles, a spool of thread, a newspaper and some rye straw. The wheels, posts and cogs are all made of the rye straw, which, it is well known, is quite course and tough. It runs six hours without winding and keeps good time. It is now in possession of the prefect of Kariaus, who considers it the greatest marvel of the Nineteenth century.

The most ingenious, perfect and complex watch ever manufactured was sent out from the works of Patek, Philippe & Co., of Geneva, Switzerland, in July, 1877, and is now in the possession of Baron Nicholas. It is what is known as the full sized "hunter." On one side there is a dial of the regulation kind, exhibiting the hour, minute and second hands, also an independent chronographic hand which marks the fifths of seconds. The same dial has repeating mechanism, which strikes the hours, quarters and minutes.

The opposite dial has hands pointing to the months, weeks and days. Another large central hand on this dial, if set at the beginning of each year, correctly points to all moon phases and also acts as a perpetual calendar. It is so constructed as to admit of its keeping two different times, say standard on one side and sun time on the other.—John W. Wright in St. Louis Republic.

Day and Night

During an acute attack of Bronchitis, a ceaseless tickling in the throat, and an exhausting, dry, hacking cough, afflict the sufferer. Sleep is banished, and great prostration follows. This disease is also attended with Hoarseness, and sometimes Loss of Voice. It is liable to become chronic, involve the lungs, and terminate fatally. Ayer's Cherry Pectoral affords speedy relief and cure in cases of Bronchitis. It controls the disposition to cough, and induces refreshing sleep.

I have been a practicing physician for twenty-four years, and, for the past twelve, have suffered from annual attacks of Bronchitis. After exhausting all the usual remedies

Without Relief,

I tried Ayer's Cherry Pectoral. It helped me immediately, and effected a speedy cure.—G. Stovell, M. D., Carrollton, Miss.

Ayer's Cherry Pectoral is decidedly the best remedy, within my knowledge, for chronic Bronchitis, and all lung diseases.—M. A. Rust, M. D., South Berlin, Me.

I was attacked, last winter, with a severe Cold, which, from exposure, grew worse and finally settled on my Lungs. By night sweats I was reduced almost to a skeleton. My Cough was incessant, and I frequently spit blood. My physician told me to give up business, or I would not live a month. After taking various remedies without relief, I was finally

Cured By Using

two bottles of Ayer's Cherry Pectoral. I am now in perfect health, and able to resume business, after having been pronounced incurable with Consumption.—S. P. Henderson, Sailsburgh, Penn.

For years I was in a decline. I had weak lungs, and suffered from Bronchitis and Catarrh. Ayer's Cherry Pectoral restored me to health, and I have been for a long time comparatively vigorous. In case of a sudden cold I always resort to the Pectoral, and find speedy relief.—Edward E. Curtis, Rutland, Vt.

Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he finally prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine a short time, and was cured.—Ernest Colton, Logansport, Ind.

It can be taken in a cup of tea or coffee, without the knowledge of the person taking it; it is absolutely harmless and will effect a permanent and speedy cure, whether the patient is a moderate drinker, or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. An Afternoon Arrest.
George Murdock, of Harvey, walked into a trap laid for his arrest this afternoon. He is charged with being of unsound mind and dangerous to be at large, it being claimed that he attempted to kill his father. The prisoner's brother came to town with him to-day and laid the information, and then told him to call around at the police station as there was a letter waiting for him. Shortly after three o'clock Murdock walked in and was arrested by the Chief. At first he was inclined to be violent and struggled a little, but he could do nothing between the Chief and P. C. Adams. After he was put in the cells he was allowed to read the warrant. He said he never tried to kill any one, but had threatened to shoot Tom Brumbell, who had reported him, but he didn't have any gun, and he was sorry afterwards he had said it. He accused Brumbell of being a dog poisoner, and said such persons as that should not be around. The prisoner is a strongly built young man, but not very intelligent of appearance.

The Mossom Property
will be offered in four parcels. The entire front of the lot, 230x70 feet, will be dedicated for a private park for the common use of the three parcels fronting it. The house will have a lot 110 feet by 198 to a lane, and on each side of the house will be a lot 60 feet by 198 feet. All these lots will face the little park. The purchasers of the lots on either side of the house will be bound, when building, to keep the house, which must cost complete not less than $2,500, in a line with the Mossom house. The lane at the rear will save the front from being cut up with waggon entrances. Thus arranged the property will make a very beautiful place. The Mossom house is known as "Blair Athol House," the place will be known as Blair Athol Place. A plan, showing the property as it is proposed to sell it, is in Mr. W. J. Mason's window. 2d

Still on the Throne.
Occasionally a temporary retirement from print occurs on the part of Bellegheen, the furniture king, but in spite of that he is still on the throne and still maintains the position of ruler in the domain of cheap and excellent furniture. He is a constitutional monarch and hereby agrees to abdicate the throne the moment his subjects, the public, cease to have confidence in him. But their is no sign of the withdrawal of this confidence. He has built it up by virtue of supplying first class furniture for years. He always keeps faith and alway gives the largest amount of goods for the least amount of money. He keeps an unlimited stock of the very best goods suitable for every kind of home and every kind of purse. Bellegheen still rules the furniture market, not by any sort of despotism, but by virtue of the spontaneous suffrages of the people, who recognise in him the man who gives the best of goods at the lowest prices. Don't forget this when you think of buying new furniture.

Making Home Attractive.
At this season of the year when outdoor enjoyments can no longer weather the storm, home comforts and enjoyments gather increasing value. There are many ways of making home attractive, but there is no other more effective than brightening the interior of the home itself in a material sense. Compare a sitting room with black, staring, plastered walls with the same neatly covered with warm toned, cheerful paper. The first exhales discomfort and dreariness, the second breathes out comfort, coziness, gives rest to the eye, and soothes the senses. Now the best place in the Midland district to secure a satisfactory selection of handsome wall paper is at the Peterborough Bookstore. An immense stock, comprising the latest designs most fashionable colourings and combinations and at the lowest prices. While the fine weather in on and before the fierce frost sets in go to the Peterborough Bookstore and select the papers you require. You will have no difficulty in finding something elegant and suitable, no matter how hard you are to please, and the prices will be a pleasant surprise. Do not delay; the present is the most suitable time. J. R. STRATTON. dw

GOD SAVE THE QUEEN.

Much of the credit for the success of the entertainment is due to the exertions of Miss Sophie Cameron, who as executive abilities enabled her to compass the management of the social most creditably. Her efforts were ably seconded by the young ladies of the society, who in this, as in every other affair of the kind, scored a gratifying success. It is such pleasant gatherings as these that nurture the social element and interest young people in the affairs of the church.

The Protestant Home.

Annual Meeting—The Secretary's and Treasurer's Reports—Election of Officers, etc.

The annual meeting of the directorate of of the Peterborough Protestant Home was held Tuesday afternoon. Owing to an overnight in not advertising the meeting there was not a large attendance as usual. The lady directors and indeed the public in general take a deep interest in the affairs of this charitable institution, which is largely maintained through the efforts of the ladies of the different Protestant churches in town. About $1400 was expended during the past year in the carrying on of the noble work and the managing committee ask the public to show a more practical interest in this deserving institution. Funds are needed, and every encouragement, financial and otherwise, should be given the Protestant Home.

At the meeting Tuesday the reports of the Secretary and the Treasurer, which are appended, were read and adopted, and the officers elected as follows:—

PRESIDENT.—Mrs. Vernon.
VICE-PRESIDENT'S.—Mrs. T. G. Hazlitt and Mrs. Smith.
SECRETARY.—Miss M. C. Roper.
TREASURER.—Miss Roper.

SECRETARY'S REPORT.

Another year has passed and again we present our report of the progress made during the past year.

There have been some changes amongst the inmates, two have died. Peter Whitlock, who had been five years an inmate, died in the House, on the 16th December, and Edward Connors, who died in the Hospital July 16th.

There have been several cases of illness, generally those incident to old age, as some of the inmates are over 90, and are thankful for a peaceful happy home in which to spend their closing days.

The Home was inspected in July, by Mr. Christie, of Toronto, the Government Inspector, who found everything in and about it thoroughly clean and orderly. He suggested some improvements in the heating of the house, also in the cellar. The funds will not allow anything to be done about these actors at present.

The Committee of the Peterborough Protestant Home desire to thank, first the giver of all good for His many mercies in providing for the needs of these old people; the clergymen and laymen for the services held by them during the year, which have been a help and blessing to the inmates. To the physicians who so generously give their services; to the editors of the daily papers, who so kindly insert any notices sent them free of charge and for copies of their papers regularly received. Also those who have kindly sent donations; the Evangelical Laymen, the Oddfellows, Orangemen, Foresters and 'Prentice Boys, for collections taken up on several occasions; Mrs. Lewis for her kind efforts which resulted in the handsome sum of $117.57. Messrs. Meldrum & Davidson for oatmeal; Mr. Mingora, for soda bescuits weekly; the curlers and Gun Club, for their gifts of barrels of flour.

The Matron, Mrs. Dillon, had a much needed rest of two weeks in September, the care and responsibility of this institution being a great strain upon her.

Since the last annual meeting the former Secretary, Mrs. J. G. Hall, has been obliged on account of ill health to resign her position, much to the regret of all.

In conclusion we would earnestly ask the sympathy and assistance of the people of Peterborough towards so worthy an institution. "If ye have done it unto the least of these my brethren, ye have done it unto me."

All of which is respectfully submitted.

M. C. ROPER,
Secretary Peterborough Protestant Home.

The Cheese Industry.

To show the importance of the cheese trade, we may say that 23 factories boarded 6,261 boxes of cheese at the sale here on Tuesday, or 413,226 pounds—20 car loads. Mr. Clurton bid 10 cents per pound for the lot, equal to a money value of over $41,000; and, compared with the New York and Liverpool quotations, it was apparently a fall price for it. Besides this, Mr. Clurton had 200 boxes of an outside factory, which he is shipping to-day. So his bids amounted to the tidy sum of over $43,000.00. This is not bad for Peterborough's enterprise, and shows there is still a good deal of fire left in this old war horse. Mr. Clurton has bought the bulk of the cheese sold in Peterborough this season. It may be pointed out, how great a magnitude the Canadian cheese trade has assumed. In 1882 the total export of cheese amounted to 55,325,167 pounds; in 1887 this had increased to the enormous amount of 78,780,858 pounds, an increase of 42.4 per cent. The value of the cheese exported in 1882 was $6,979,537, and in 1887 $7,552,008, an increase of 26.3 per cent. The figures for 1888 and 1889 are not available, but they will, doubtless, show a corresponding increase.

A Prize of $100,000
is a good thing to get, and the man who wins it by superior skill, or by an unexpected turn of Fortune's wheel, is to be congratulated. But he who escapes from the clutches of the dread monster, Consumption, and wins back health and happiness, is far more fortunate. The chances of winning $100,000 are small, but every consumptive may be absolutely sure of recovery, if he takes Dr. Pierce's Golden Medical Discovery in time. For all scrofulous diseases (consumption is one of these), it is unfailing remedy. It is guarantee to cure in all cases of diseases for which it is recommended, or money refunded.

Those who wish to partake of something very fine in the shape of a cup of tea should try W. J. Morrow's direct importations! Why is it farmers are giving up buying from pedlars and tea men? Simply because they can buy tea from ten to fifteen cents per lb. cheaper from us, as it does not pass through so many hands, owing to us importing direct. We are offering an extra Japan at 25c., a beautiful blend of Black at 40c., and all other lines away down to 5 lbs and 6 lbs for $1 00. W. J. MORROW, 340 Opera House Block, George street. dw

Police Court.

WEDNESDAY, Oct. 16th.

Florence McAuliffe was arrested last night on a charge of being drunk and disorderly. This morning he was remanded to gaol for one week.

Henry Faubier, who claimed to live in Smith, was last night arrested by P. C. McGinty and locked up. The young man was evidently of weak intellect, and when the magistrate asked him what he had done, he said he came to town to buy a ping of tobacco, and as the night was chilly he went into a place where the door was open to warm himself by the stove. This was probably true, as he was taken from Dr. Stevenson's office, where he had captured and refused to leave when ordered out. There was, however, no fire in the stove. After being placed in the cell the prisoner stood in the corner against the wall as one left and remained standing all night. The magistrate told the prisoner to start at once for his home and discharged him.

Personal.

Mr. Charles Curtis, of the firm of Curtis & Sons, left this morning for a trip to Bad Axe, Michigan. He will be absent a fortnight or three weeks.

Alderman Sawtelle, of Woodstock, is in town to-day. He expresses surprise at the size and appearance of Peterborough, which were beyond his expectations.

Mr. R. J. Lillico, of Chesley, county Bruce, entered the Peterborough Business College Tuesday for a course in shorthand and typewriting. Mr. Lillico graduated from the commercial department last January and was so well pleased that he has returned. This is surely sufficient proof of the thoroughness of the instruction received at this institution when it is considered that Mr. L. passed several other colleges on his way here, one using within an hour's ride of his home.

Wholesome Comedies.
It has been nearly a year and a half since Miss Victoria Vokes appeared upon the stage, until she recently inaugurated her starring tour in Philadelphia, Pa. Since then she has been winning hosts of new admirers in a repertoire of delightful wholesome comedies, and will present two of them here on the evening of October 18th. Her plays and company are spoken of as containing merit of an extraordinary degree, and her appearance here will be an enjoyable occasion for our amusement-loving public. The *North American* of Philadelphia, of Sept. 17th said: "Miss Victoria Vokes, so agreeably remembered by play-goers as one of the brightest members of the well-known Vokes family, made her appearance at the Arch street Theatre last evening, and was seen in this city for the first time in several years. The performance opened with an amusing comedietta entitled "A Mere Cipher," which was cleverly enacted. The new two-act comedy "Hubby," which followed, proved to be a very entertaining piece, dealing with the adventures of a Mr. Jonathan Hopscotch—a young dentist, whose life is rendered far from pleasant by an all too lively mother-in-law, Mrs. Belinda Cattermole. At a ball Hopscotch forms the acquaintance of an opera singer, a certain Signora Catlaenini, who in private life is known as Mrs. O'Braggerty. A flirtation follows, Hopscotch purposely allowing his mother-in-law to discover the affair in hopes it may induce her to leave his house. A worthy Major figures in the play, in which many cross purposes arise and while not a few catastrophes are threatened, every evil is averted and all ends serenely. As Mrs. O'Braggerty, the lively Signora Miss Victoria Vokes appeared in a role well suited to her, and display the same vivacity and cleverness that in the past rendered her a favorite. The quaint peculiar methods of the Vokes family possess the attraction of originality and never fail to entertain. The musical selections introduced in "Hubby" are quite the feature of the piece, and were rendered with spirit and effect. Nature endowed Victoria Vokes with a fine voice which still retain its beauty.

An excellent company supported the star. As Hopscotch, the much-tired husband, Mr. Evelyn Vernon was clever, and Mme. Anna de Nancaza enacted admirably the character of the mother-in-law, Mrs. Cattermole. Miss Vokes was warmly welcomed, and the sprightly Rosina Vokes (Mrs. Clay) occupied one of the proscenium boxes, and joined in the hearty applause accorded her attractive sister."

The Curler's Council.
The semi-annual meeting of the Ontario branch of the royal Caledonian Curling Club was held in Toronto Tuesday. There was a good attendance, Peterborough being represented by Dr. Boucher. In the grouping for the Ontario Tankard primary competitions, the following clubs in this district were bunched:—

No. 1.—Ogdensburg, Brockville, Port Hope, Belleville, covener.

No. 2.—Cobourg, Bowmanville, Oshawa, Stouffville, Whitby, Lindsay, Peterborough, covener.

No. 3.—Campbellford, Lakefield, Keene, Millbrook, Port Perry, Bobcaygeon, convener. Playing mainly at Peterborough.

In the allocation for the district medal competition Cobourg was pitted against Peterborough, Bobcaygeon against Lakefield, Campbellford against Millbrook and Port Hope against Lindsay. The officers for the year were elected, Mr. John Harvey, of Hamilton, President; Dr. Boucher, Peterborough, Vice-President; Secretary Treasurer, J. S. Russell, Toronto.

French-American Convention.
TROY, N. Y., Oct. 16.—The state convention of French-American citizens met in this city yesterday. Nearly 100 delegates from all parts of the state are present. The convention will consider how to secure naturalization of all French Americans, to educate Frenchmen in their duties as citizens and to get better protection and justice in political rights. President Manny spoke of the necessity of sending the children to Ameri an schools for their education instead of to the schools in Canada, also of the necessity of receiving an education that will fit them to hold any office under the United States. Mr. Manny emphasized the necessity of higher education.

CLEVELAND'S SUPERIOR BAKING POWDER
THE PUREST AND BEST
Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and economical in use, and it always affords wholesome, nutritious, and delicious food.
It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.
Sold only in cans, full weight.

NOTES FROM THE CAPITAL

THE VALLEY OF THE PEACE AND ATHABASCA RIVERS.

Fatal Accident—Mr. Chisholm said to Contemplate an Application for a Canadian Divorce—Central Fair Details.

OTTAWA, Oct. 17.—Mr. R. G. McConnell, of the geological survey, has returned from his inspection of the region between the Peace and Athabaska rivers. He commenced about 200 miles north of Calgary and extended his operations for some 300 miles farther north to the vicinity of Vermillion. This embraces an area of 30,000 or 40,000 square miles. Very little of this tract was ever explored before by white men. A great deal of it is good farming land but muskeg swamps abound and make it unfit for settlement. The trees are principally spruce and poplar. Speaking of the deposits of oil reported to be there, Mr. McConnell said he certainly found quantities of tar indicating the presence of oil but just in what quantities it existed he was not prepared to say before making his report.

A report reached town yesterday of a sad accident, said to have occurred on Mr. Sam Rathwell's farm, at Navan, on Saturday by which a young man of 18, a son of Mr. Joseph Kinsella, of Canaan, was killed by a screw stump-drawing machine falling on him. His two legs and backbone were broken, his skull crushed in and his body generally mangled. The funeral took place yesterday.

Sir Chas. Tupper is on a visit to Spain reopening negotiations commenced some years ago, which fell through when Sir Charles went to Washington in regard to the fishery question.

The appointment of Rev. Canon Fulton of Montreal as Protestant chaplain of St. Vincent De Paul penitentiary is officially announced.

Says The Free Press: It is reported that Mr. D. B. Chisholm, ex-M. P. for Halton, who is now living in Minnesota, will apply to the senate at the coming session of Parliament for a divorce from his former wife, who was recently married to Mr. Foster Minister of Finance. Mr. Chisholm, it is said, wants a Canadian divorce, so that he may marry in Canada again.

The deputation of printers lately discharged from the Government printing bureau again waited on Sir Hector Langevin Acting Secretary of State, yesterday morning and presented their petition on the subject of their dismissal. In reply Sir Hector stated that he would allow them half-pay until the three months' work had been finished. The deputation thanked the Minister and retired. They will lay the promise before their confreres and it is likely that it will be accepted.

There was a deficit of $8000 in connection with the Central Canada Fair here.

Messrs. Hann and Holt, contractors of the Regina and Long Lake Railway, expect to have their contract finished in a fortnight. The road is already constructed over 35 miles and there is a continuous grading of 45 miles further.

HAMILTON AND THE C.P.R.

Engineer Jennings' Plan—Senator Sanford Talks About the Northwest.

HAMILTON, Oct. 17.—Engineer Jennings of the Canadian Pacific Railway met the Railway Committee of the City Council here yesterday afternoon at 4.30 and presented for approval his plan for a route through the city. The route runs from west to east, tunnelling at the western entrance under the cemetery, and running thence direct east near the heart of the city. After some discussion the committee adjourned to meet this evening, when they will discuss the plans of the Toronto, Hamilton and Buffalo and also the C.P.R.

Senator Sanford returned yesterday morning from a trip to the Northwest. He says the Canadian Pacific Railway is doing an enormous passenger business. The passengers are largely composed of colonists. It is roughly estimated that the emigration this year will reach 12,000 or 14,000, made up largely of a much better class; that is, practical farmers of some means. The yield of wheat is being threshed out, and proves to be a much heavier crop than was expected, giving a fair average to the acre. On the line of the Manitoba and Northwestern the yield has been unusually large, some parties threshing as high as from 40 to 47 bushels. A farmer residing within two miles of Westbourne paid $19 an acre for 160 acres. One hundred and forty acres were sown in wheat. He harvested his first crop this fall, from which he will realize an amount more than enough to pay for his farm and a portion of his improvements. There is a very general feeling of renewed confidence on the part of the settlers.

Flour and Wheat.

MINNEAPOLIS, Oct. 17.—The Northwestern Miller says: The aggregate flour output for the week ending Saturday was 168,030 barrels against 164,200 the previous week and 187,000 for the corresponding week in 1888. Twenty-one mills are now in operation producing at the rate of 27,000 barrels per 24 hours. Only one mill is idle. Quite a lull has come over the flour market during the past week, it apparently being due to the weakness caused in wheat by the government crop report. For about four days at least the market has been most inactive. Local millers however have considerable orders on their books and are holding prices firm. It is contended that wheat is too high, even for present prices of flour and millers feel strong in their position. Foreign trade is usually reported light though about everybody is well sold ahead on bakers. The call for the latter grade is all that can be met. The direct export for the week were 55,070 barrels against 31,830 for the preceding week. Two years ago the surplus wheat in country elevators and in Duluth and Minneapolis exceeded 20,000,000 bushels. It is now less than 10,000,000 with about a free movement as then. There were in transit for the last week the heaviest on record on this crop.

In the Wild West.

KANSAS CITY, Oct. 17.—An exciting scene was witnessed by the passengers on the Wabash train from St Louis yesterday morning. Albert Holt of Moberly, Mo., on his way to Seattle, Wash., and having a large amount of money was swindled out of $300 by two three card monte men. When the swindlers attempted to leave the train one of the passengers pretended to be an officer and placed one of them under arrest. In the excitement that ensued the monte men escaped. The true state of affairs dawned on Holt about that time and borrowing a revolver he gave chase to the swindlers. He captured one of them and marched him back to the train at the point of a revolver. At the next station the prisoner jumped suddenly to his feet and keeping the excited passengers at bay with a pistol jumped off the car just as the train was moving out.

A Big Electric Plant Sold.

BOSTON, Oct. 17.—It is understood that the entire plant of the Brush Electric Company has been sold to the Thomson-Houston Electric Company for $3,250,000.

THE COLLIERY DISASTER.

A FIRE RAGING AND ANOTHER EXPLOSION FEARED.

Special Cables from European Capitals—The County Council's Swag in London—Mr. Clemenceau's Ambition.

LONDON, Oct 17.—The bodies recovered at the Bentilee colliery show that the victims died of gas poisoning. The rescuers were compelled to relinquish their search by the accumulation of gas. The latest advices from the scene state that a fire is raging and that another explosion is feared. The underground manager is among the victims. The record of the men down the mine has been lost hence it is impossible to verify the number.

THE LATEST FROM LONDON.

Threatened Avalanche of Lawsuits—A Long Account to be Settled.

LONDON, Oct. 17.—Joseph Chamberlain, writing to a correspondent, declares that the time will come when the Government will give proofs of its readiness to propose a substitute for Mr. Gladstone's rejected bills in relation to reforms in the government of Ireland.

All sorts of disasters have been confidently predicted as the result of the county council's sway in London, and it is useless to deny that in other quarters than the ultra Conservatives a great deal of anxiety is felt as to the issue of some of the measures proposed, and others which it is confidently asserted are being considered. The Marquis of Salisbury, among others, stoutly opposed the creation of the body, and his efforts to deprive it of its power for mischief may yet effect serious results, especially if he is aided by the council itself by such unpopular measures as the closing of places of amusement because some of the female habitues are not all that could be desired. Great real estate owners like the Duke of Westminster are opposing with all the means in their power improvements involving the sequestration of ground in the heart of the city for widening the streets and piercing new thoroughfares to relieve the congested state of some of the main avenues of traffic. A new outlet from the Strand to Holborn will involve the demolition of a line of buildings, not very ornamental to be sure, but yielding large rentals and the owners are frantic with indignation at what they do not hesitate to call open robbery. The amount of compensation in such cases is always unsatisfactory, and it is certain that the scheme for street improvements will bring upon the heads of the council a perfect avalanche of lawsuits. Visitors to London, as well as residents, will hail with joy the widening of the Strand, but owners of the buildings on that great thoroughfare are much concerned at the threatened obstruction of all business while the improvements are being made and the consequent loss of rents.

Socialists feel a grim satisfaction in every incident which increases the discontent of the rank and file of any of the continental armies with their governments. The recent strike of the dock laborers at Flensboro was easily crushed by the authorities, who put soldiers at work loading and unloading vessels in the strikers' places. The strike of the bakers in Berlin recently was ended by the same arbitrary process, bakers having been detailed from the ranks of the soldiers to supply the places of the men who had refused to work, and the latter had to submit. The memory of these facts will not quickly die out. The soldiers do not obey such orders willingly, and these are only so many more it will add to the long account which the down-trodden are patiently awaiting an opportunity to settle.

PARISIAN GOSSIP.

A Noted Gambling House Closed—A Man Who May be President.

PARIS, Oct. 17.—It is reported that the police have closed a well-known gambling house in the Avenue Mathepiques, in which according to gossip, several Americans have recently lost their fortunes. It is said that this action was taken in response to the request of the German and Turkish ambassadors here.

In the gallery of the chamber where Boulanger, Compte Dillon and Rochefort were tried, there sat yesterday a well-built man with gray hair and a strong, intellectual face. The man has a large nose and a large mouth, and he was regarded with interest by most of those present. This was not strange, for he is most interesting. He is a man who expects to be president of France some day, and who has a fighting chance to reach the goal of his ambition. He was none other than Dr. Eugene Clemenceau, one of the most important figures in the chamber of deputies. Whether Clemenceau ever becomes president of the French republic remains to be seen. That he is one of the leading orators and statesmen of France at present is very certain. There is none among the leading French politicians who are so closely connected with America as Clemenceau is. It is just about twenty years ago that the then young and ambitious Frenchman, an exile in the United States because of his belief in republicanism and his opposition to the empire, was married in the New York city hall, just as the present Duke of Marlborough and Mrs. Hammersley were married by Mayor Hewitt. This was in 1869, and it was Mayor Oakey Hall who performed the marriage ceremony. The lady whom Clemenceau married was Miss Mary A. Plummer, who had been a member of Clemenceau's French class in New York. Her father had at first opposed the match. He was wealthy, and it is just probable that he looked upon the young Frenchman as an adventurer. But in the end he relented and the young couple had their way. It is pretty evident now that Miss Plummer did not make an unwise choice. Clemenceau has had a varied career. He loves to chat of the days when he was a school teacher in rural Connecticut, struggling as a physician in the French quarters in New York, or toiling as a teacher of French in a ladies' seminary in the same city. The latter was compensated for by the fact that it was in this calling that he met his wife. He is keeping quiet and is making no mistakes just now. He is comparatively a young man yet, as European statesmen go, and there is no telling what may happen to him yet.

A Russian Intrigue.

Death of Elmira's Mayor.

ELMIRA, Oct. 15.—Mr. John Ratz, Mayor of Elmira, died last night at 7.30 after a painful illness of about three days. Mr. Ratz was in his 56th year and his life began and ended in the county of Waterloo.

SLIGHTLY BEHIND TIME.

AND TWO TRAINS COME TOGETHER WITH A FATAL CRASH.

Terrible Wreck on the Burlington and Missouri Railroad—Fifty Passengers Injured—Engines and Cars Smashed to Atoms.

OMAHA, Oct. 17.—A terrible wreck occurred on the Burlington and Missouri Railway at Gibson, a few miles from Omaha, at 6.45 Tuesday evening. About 20 passengers were injured, two engines were completely demolished and a chair car and combination car were thrown from the tracks and reduced to atoms.

Train No. 6, the local between Lincoln and Chicago, ran into No. 9, the former was east and the latter westbound. Gibson is the meeting-point and the place where the crew on No. 9, which is a stub train that makes connections with the Kansas City express, stops to register. Both trains were due at 6.45 p.m., but No. 9 was slightly behind. When the accident occurred the latter had just crossed the spur and the engine on No. 6 struck the end hurling both engines and the two coaches from the track. The combination coach and the chair car were both crowded with passengers, all of whom were more or less injured, while Peter Reuland, proprietor of the Tremont House, was injured so badly that he died shortly after being taken to the hospital. The chair car, after being overturned, caught fire and many passengers were burned in addition to their other injuries, but these who had escaped comparatively safe aided in relieving their pain. The number of the injured has not as yet been ascertained. The following thus far have been reported:

Engineer Gillespie, on No. 6 of Plattsmouth, badly bruised about the body.

Harry S. Waller of the Richardson Drug Co., Omaha, badly cut and bruised about the head and shoulders.

Mary Butler, South Omaha, hand crushed and body badly bruised. She is in a precarious condition.

Charles Laure of Craig, Mo., ear cut off, face severely cut and body and limbs badly bruised. His condition is almost hopeless.

R. Mix of New York, shoulder dislocated and lower limbs badly bruised.

Francis Elder, New York, representing the William Demuth Co., bruised and thought to have received internal injuries.

Fred Schultz, New York, slightly cut about the head and face.

J. Falkenburg, Chicago, lower limbs bruised and shoulder dislocated.

G. W. Chaffee, Boston, slightly bruised about the body.

Isaac Tabold, Cincinnati, injured about the shoulder and head, not seriously.

S. Kalaher, New York, shoulder sprained and bruised about the body.

S. Kemper, Buffalo, N.Y., bruised about the body, hand slightly cut and lower limbs bruised.

Isaac W. Rooks, Hartford, Conn., injured about the body.

Conductor Lowrin of No. 9, right lower limb badly bruised—amputation may be necessary.

Engineer McCoy, No. 9, slightly bruised.

The two firemen, Hankin and Martin, escaped with slight injuries.

This Was in Indiana.

LEBANON, Ind., Oct. 17.—A construction train bearing section men on the Midland Railway, three miles from here, backed into a freight train yesterday. Sherman Moore, brakeman, was killed, Oliver Heath and John Fitch were fatally hurt and several others seriously injured. The freight train had failed to clear the main track in switching.

Halifax News.

HALIFAX, Oct. 17.—It is said that two Italians have been smuggling cheap jewelry into Halifax by steamer from Boston for some months and that they have brought in some thousands of dollars worth which was peddled about the streets. The men took turns in going to Boston once a month and returning with a new stock. The Customs officers are reported to be looking for them.

Word has been received in the city that Special Custom Inspector Wall and Inspectors McLaren and Belton have gone to St. John to examine the importation of a large firm which is suspected of making false entries, thereby defrauding the Government of a large sum of money. It is said that the inspectors have sufficient evidence in their possession to warrant them in formulating a charge against the firm in question.

James Campbell, the Amherst burglar, was tried yesterday under the speedy trials act. He pleaded guilty and will be sentenced to-morrow.

United States Consul Lewis, against whom serious charges have been made, returned to New York yesterday from Tangier.

Last night the condition of King Luis of Portugal was announced to be worse. Gangrene has set in and the patient was delirious.

The annual Cutlers' banquet was held at London last night. A master cutler of Sheffield in a speech said he did not fear American competition, but he did fear foreign manufacturers who palmed off inferior goods as Sheffield wares.

Gen. A. B. Campbell of Kansas, one of the prominent candidates for the pension commissionership, has been tendered the position of Consul at Melbourne, Australia. He will accept.

Yesterday at Osgoode Hall, counsel for parties appeared in the several actions for damages against the Grand Trunk Railway Company arising out of the St. George accident. The question of changing the place of trial from Woodstock was strongly argued. The court decided that the place of trial should be changed but did not decide to what place, that being left for decision until Friday. The place fixed will be to suit counsel and will probably be Toronto.

Fred Stammler yesterday was charged with forgery by Albert Baker. At the last Division Court Stammler got judgment upon a note for $50, dated May 7 and apparently made out in his favor by Baker, and which Stammler states was given in part payment for a horse bought from him. Baker swore positively that the signature is a forgery and that he never signed a promissory note in his life. The Magistrate told him to write his name. He did so and it was found to correspond very accurately with that upon the note. The Magistrate remarked that if he had to try the case he would very soon throw it out, but as there appeared to be slight evidence he committed Stammler for trial.

THE FOREST CITY.

A Big Batch of News from London the Loss—A Determined Suicide.

LONDON, Oct. 17.—William Smith, alias Harris, is the name given by a clean-built, powerful looking fellow, about 25 years of age, whose long red hair stands almost straight up on his head, who was brought to the police station after 2 o'clock yesterday morning by a policeman and a charge of burglary entered against him on the books. The burglarious attempt was made at the house of Jacob Saunders, painter, 567 King-street. A common table knife with notches in it was used to slip back the bolt and pry the window open. He had hardly got into the house before the women were aroused, and their screams brought Mr. Saunders into the room, besides attracting the attention of the policeman who was on duty near the corner of King and William-streets. The unwelcome visitor lost no time in getting out. The policeman arrived on the scene just as he jumped out of the window. A very pretty sprinting race over the fences and through the back yards ensued but the officer overhauled the thief at a difficult fence and caught him by the leg. Smith had his boots off. He is big enough to make a bad fight, but when he turned the officer drew his club, and a couple of persuasive applications convinced the man that he was in strong hands and had better yield gracefully. A pair of diamond studs were found in his possession. There were also a couple of photographs, one of a girl taken in New York and the other of a child about 4 years old, and an open-faced silver watch, stem-winder, with the word "Pioneer" inside the case and a silver coin with an elephant on one side of it, as well as a florin, knife, keys, etc. He refused to answer any questions, saying he would tell nothing even if he was hung up by the neck, and if he did tell the truth the detectives wouldn't believe him.

The quiet village of Ailsa Craig was startled yesterday morning by the announcement that the wife of Charles Harris, a well known and respected resident, had taken her life by means of a razor. The unfortunate woman had been troubled with a large tumor in the stomach for a couple of years past, and on June 20 last was admitted to the city hospital to have an operation upon her. After she had sufficiently recovered her strength she returned home in July, but was suffering such pain that she was unable to get any sleep and took very little nourishment. Her husband had occasion to go away on business on Monday, intending to remain out of the village until Saturday, and left his wife in charge of the latter's sister. Yesterday morning the last named got up to light the fire about 7 o'clock and into the pantry and with a butcher knife she cut a great gaping wound but did not think the knife sharp enough to finish the work, and with the greatest coolness placed it back in its accustomed place, and got her husband's razor. With this the half-crazed woman made a terrible gash under her chin, extending from ear to ear and completely severing the wind pipe. When her sister found her she was lying on the floor with the blood flowing from a large from the wound. Medical assistance was summoned but before the doctor arrived the vital spark had fled.

Three boys, who live in the southern part of the city went out on a squirrel shooting expedition early in the morning, but before a single piece of game had been bagged Charles Johnstone, one of the boys, received a charge of shot in the abdomen while ramming his gun. He was carried to a neighboring farm house where the people did all they could to relieve his sufferings. Yesterday he was pronounced out of all danger.

A burglar effected an entrance into the residence of J. J. Spettigue, in Westminster, opposite the Guthrie Home building, Tuesday night, after making the dog secure in the porch. Some of the family were aroused while the burglar was going through the pockets of the clothing in one of the bedrooms, and he made a hasty retreat without securing any boodle.

Suspected Murder.

QUEBEC, Oct. 17.—Yesterday morning Coroner Belleau was notified of the sudden death of a young man named Tanguay at Levis during the night. Circumstances surrounding the case are wrapped in mystery and foul play is suspected. It appears that on Monday night last a Mr. Tanguay of Levis, who is employed on board a steamer, arrived home rather late and found his wife, son and another man in an intoxicated state lying in bed together. He immediately ejected the stranger from the house and nothing more was known of the scandal till it was rumored yesterday morning Tanguay jr., aged 25 years, had died during the night His mother and a man named Levallee were put under arrest and brought to town. An inquest will be held.

Mr. Stevens, who was sent to Africa by The New York World, arrived at Zanzibar yesterday. He has not found any trace of Stanley.

Prince Ferdinand of Bulgaria visited the Paris Exhibition yesterday.

The French Government will send neither a representative nor a squadron on the occasion of the wedding of Princess Sophie of Prussia and the Crown Prince of Greece.

IMPORTANT!

Remarkable Restoration to Health of Well Known Gentleman whose Cases were Given up as Incurable.

From the few of the hundreds of letters we have received from those who have been restored to health and strength by the use of that wonderful discovery, Paine's Celery Compound, we make a few extracts. We hope that the thousands of Canadian men and women who are suffering from nervous and wasting diseases, will profit by these true and plain statements of facts.

D. S. Dunlop, of Montreal, suffered for years with nervous dyspepsia, pain in his back, and sleeplessness. He tried doctors without relief, was losing flesh rapidly, and had almost given up heart when he commenced the use of Paine's Celery Compound. "Now," he says, "I am a new man. I sleep well and my food does not hurt me."

Mr. Jas. Johnson, 208 St. Charles Borromee Street, Montreal, was weak and nervous, had no appetite, and could not rest at night. His nerves were soothed and strengthened by Paine's Celery Compound, and he soon became well and strong.

Annie Gourley, of River Beaudette, P. Q., found the Compound a certain cure for weakness, and now feels as well as she ever did.

A customer of Harrison Bros., druggist, Hamilton, Ont., told them that he was entirely cured of nervous weakness by the use of two bottles of the Compound, after everything else has failed.

The little child of Mrs. G. E. Meredith, 76 D'Arcy St., Toronto, was cured of St. Vitus' Dance by Paine's Celery Compound.

THE DAILY EXAMINER is delivered every lawful evening to any part of the Town for 75c. a week; 30c. a month; $2.00 for six months; $4.00 per annum.

The Protestant Share

Of the Money Granted by the Jesuit Estates' Act—Hon. Mr. Mercier Concedes the Wishes of the Quebec Protestant Council of Public Instruction.

It will be remembered that the Protestant Council of Public Instruction of the Province of Quebec passed certain resolutions, setting forth the conditions on which they would accept the Protestant share ($60,000) of the money granted by the Jesuit Estates' Act. The acceptance had attached four conditions, which were submitted to Hon. Mr. Mercier, as recited in the following reply which he sent to the Protestant Council, addressed to Bishop Williams, of Quebec. Hon. Mr. Mercier writes:—

I am indeed very happy to hear that the members of the Protestant Committee declare their readiness to discharge the duties devolving upon them and to administer any sums placed in their hands by the Provincial Legislature for superior education.

I understand, therefore, that they accept, in the name of the Protestants of this Province, the public trust imposed upon them to distribute the $60,000 given them by the Jesuit Estates Act.

I understand also that this acceptance is made upon four conditions, viz.:—

(a) That the superior education fund in existence before the Jesuit Estates Act be restored;

(b) That the Protestant Committee should receive in capital the sixty thousand dollars instead of the right to distribute the income arising from the investment of the said amount;

(c) That this amount of $60,000 should be increased, because it is less than the amount due to the Protestants according to population;

(d) That the interest on the said amount of $60,000 be allowed from the time the Jesuit Estates Act came into effect till the said amount is paid.

The intention of the Government never was to abolish the fund, and therefore we cannot have the slightest objection to recommend that the law be reconstituted as it was before the Jesuit Estates Act, if it is found necessary.

In support of this he quotes from correspondence with Cardinal Simeoni and Mr. Oliver, Law Clerk of the Legislature.

In regard to the demand that the Protestant Committee should receive in capital the $60,000 instead of the right to distribute the income, he shows that in the bill as originally drawn that was what the Government proposed to do, but then in accordance with the request of the Protestant members of the House the clause was changed to its present form, substituting disbursement of interest instead of capital.

On this point Mr. Mercier establishes his position by quotations from the Legislative proceedings and by a letter from Judge Lynch, then in the Legislature, and further shows that the amendment as adopted was in the handwriting of Rev. Mr. Renaud, Protestant Secretary of Public Instruction.

He then proceeds, "I need dwell no longer on the subject. These documents will be found conclusive no doubt by an intelligent man, and if the fourth section of the Jesuit Estates Act is objectionable in the point raised by the Protestant Committee it is not the fault of the Government nor of the Roman Catholic members of the House. The responsibility of the change lies entirely and exclusively on the Protestant members. Of course, however, there cannot be the slightest objection on the part of the Government to accept the second conditions contained in the resolutions transmitted in connection with the payment of the $60,000. It was the intention of the Government to give the $60,000 in capital to the Protestant Committee in the same way and with the same effect as the $400,000 were given to the Roman Catholics, and the Government is ready, if the Protestant members of the House agree to it, to restore in the law the original section 4 as placed in bill 169.

"(c) That this amount of $60,000 should be increased because it is less than the amount due to the Protestants according to population.

"(d) This condition cannot be refused if it is proved that the amount is insufficient. We thought at the time that the amount was the fair proportion to which the Protestants were entitled.

"(d) That the interest on said amount of $60,000 be allowed from the time the Jesuit Estates Act came into effect till said amount is paid.

"(7) The Government cannot consent, My Lord, to the fourth condition, in the form it is stated, but it is ready to place the Protestants on the same footing as the Roman Catholics in this connection. The interest of the grant to Roman Catholics dates from the 30th August, 1888, and the Government is prepared to recommend to the Legislature that the interest on the grant to the Protestants should run from the same date and at the same rate.

"(8) I conclude the remarks I have to offer My Lord, upon your honored communication, and I hope they will be found satisfactory.

"The desire of the Government is to render justice on every occasion and give full satisfaction to the Protestant minority in this Province wherever it is possible, and we hope Your Lordships, your colleagues the other members of the Protestant Committee, and generally the Protestants of the Province will appreciate the friendly and liberal way in which we try to meet the views expressed in the resolutions of said Committee.

"I do not think proper to add anything more, my intention being to limit myself to a mere statement of facts and the publication of documents, and chiefly to avoid any reference to the most regrettable agitation that has taken place recently in connection with this question, leaving to the sound judgment and honest feeling of the people of this country to decide who is wrong and who is right in this very important matter."

That the Protestant Council of Public Instruction was satisfied with the reply of Mr. Mercier, is shown by the fact that they have accepted the $60,000. A meeting arranged with the Dominion Cabinet to hear Dr. Davidson and Dalton McCarthy, the council of the petitioners that asked for the disallowance of the Jesuit Estates Act, on the ground that involved a violation of the educational trust, was cancelled, the exceptions of the $60,000 having made any argument unnecessary.

Keene.

(From Our Own Correspondent.)

The members of the Presbyterian church, of Keene, presented Miss Moore with a gold watch and chain, in consideration of her usefulness to the choir in past years, accompanied by the following address:—

DEAR MISS MOORE,—Understanding that at this time you are about to enter relative life, we the members and adherents of the Presbyterian church of Keene judge that on such an auspicious occasion it might be becoming to present you with some token of our esteem and regard. You have been born and brought up amongst us, you were baptized in our church. You, when young, entered into fellowship with the church and remained since, showing much Christian consistency. You were a teacher in our church. God has given to you a rich, powerful and melodious voice which you employed in the praises of the sanctuary, first, in helping our efficient choir, and then since death called away our excellent leader you were pleased to step forth unsolicited and take his place as leader of the choir. You have led the choir in such a manner as to become the admiration of the whole congregation. Reflecting, then, upon your excellent character and your great usefulness in the church, we beg to present you with this gold watch and chain as a token of our esteem and regard to you. As you wear it, it will be a memento of your Christian fellowship with us. And now may the blessing of Him who sets the solitary in families accompany you and him whom you have accepted as your partner in life, and may your married life prove all that you expected, and even more than you expected, is the earnest wish of your Christian friends.

Signed on behalf of the congregation.

This affords a splendid opportunity to secure a location for your home in a rapidly improving and in every respect the best part of the town. The properties are situated on Cedar and Hutton streets and within a stone's throw of the West Ward School and a short distance of the proposed Christian and the Hamilton Co's. Works.

"ELM COTTAGE," into the grounds of which Elm Cottage, is situated in the centre of the block. This property is for sale or can be had as a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and mechanics should inspect this property as it offers the best location for shops and business part of the town.

THE GERMAN WOMAN.

How She Lives from Maid to Wife, with Incidents of Courtship.

The German woman is neither the excellent housewife which she professes to be nor the blue-stocking she is often thought. "Gretchen" exists no longer, except on the lids of the boxes of candied fruits, and she is quite a match for Faust when she meets him. In fact, the German girl of today, especially in Berlin, is not so much like the Marguerite of Goethe as the Lealuoi of "Gyp."

German school life is a serious business. It begins at 7 years old, and the two subjects of study which are specially in favor with all classes of people of any pretensions are French and the piano. "I do not think it is an exaggeration," says the writer, "to say that 95 per cent. of the daughters of parents in easy circumstances play the piano and 90 per cent. speak French."

As soon as a girl becomes confirmed her education is generally concluded, unless she goes in for special higher branches of study. Her parents begin to think of getting her married, and she goes to her first ball. Courtship, the preliminaries to which generally take place on the floor of the ball room, or, in the winter, to the rhythm of the same waltz time played by the same military band on the ice, is inaugurated thus: If the young man means business he calls on the young lady's parents one Sunday and breaks the ice. He will then be asked to dinner, and a ceremonious exchange of little sentimental presents will take place between the pair, interlarded with sentimental gentenoes—always in French.

When an engagement has been definitely announced the young people are allowed quite an English amount of freedom in their intercourse. Indeed, if we may believe the writer, their manners and customs are considerably more frankly free than ours in this country, for, she says, "they do not scruple to kiss each other in public as often as they feel inclined, and there is nothing more disagreeable at a soiree than the spectacle of one of these sentimental couples." Before marriage the German girl is a mighty reader of novels, her capacity for sentimental stories being simply inexhaustible. Rarely, however, does marriage in Germany prove the realization of any of the dreams in which her girlish fancy has taken delight.

The German married woman has never occupied the same place as does the French woman, by reason of the total absence of any sentiment of chivalry or romance in the treatment of women by men in Germany. True, the sons, the husbands, the brothers of the woman of Germany deserve our respect for their energy, their character—all that supplies a nation with its force. But how disastrous is that force for the women. Force is more fatal to grace than even to right. What hardness in the dignity! What carelessness, what supreme indifference on the part of these proud and selfish heroes, who do not ask their companions of the other sex to understand them and appreciate them, but only to keep house satisfactorily and to bear a number of children! So far, indeed, does the German husband carry his want of gallantry that he absolutely dislikes to see his wife make use of any of those advantages of the toilet the receipt of which are comprised in the epithet scornfully applied to a well dressed woman—emparisienne.

The state of intellectual, moral and social subjection of the German woman naturally does not tend to develop any originality in her. She never starts a new idea or strikes fashion. Imitation, not invention, is the utmost of which she is capable, and even in imitating she is slow. The German woman is crushed beneath the overwhelming superiority of her lord and master. The famous "deutches weib," who is the traditional type of the German woman, is just the German of Tacitus—the servant of man. —Cor. London Globe.

This Dog Can Tell Time, Too.

County Clerk Wolff owns a little black and tan dog that has a habit of visiting his master daily at 4 o'clock p. m. One day during the recent rains a hard shower set in just about 4 o'clock, and the clerk and his deputy were speculating as to whether the dog would make his usual visit, when he was heard rushing up stairs. He reached the office dripping wet, two minutes late, which fact he seemed to feel. After the adjournment of the county commissioners last Wednesday, and before the board left the room, the clerk was busy writing up the minutes of the meeting, when he heard the well known footsteps of his visitor. Without raising his eyes from the minute book, George remarked that it was 4 o'clock. There being no clock in the room and the clerk not having referred to his watch, those present asked what made him think so, when he replied that his dog was coming. Watches were drawn, and although some of them varied a minute or two, that of the clerk pointed to precisely 4 o'clock. Another peculiarity of the dog, and one his master greatly appreciates, is that he is never at home at meal times, preferring to take the same with neighbors.—Fernandina Mirror.

He Got His Wedding Fee.

A certain justice of the peace near Brunswick had a call recently from a colored man with the request that he come down and marry him. The justice, remembering his past experience, told the fellow that he would consent to go on condition that he be paid $2.50, and that amount in cash. Assent was given and the officer of the law set out, lantern in hand, and covered with an umbrella (for it was pouring down rain). Arriving at the spot, he called out the couple and forthwith "tied the knot." When all was over the groom stepped up to the justice and informed him that he would "call and settle." This did not please the majesty of the law, and he at once called the couple back to untie the knot. This was too much for the bride and groom. A few minutes' conversation ensued. The bride retired and soon returned with the cash.—Macon Telegraph.

Day and Night

During an acute attack of Bronchitis, a ceaseless tickling in the throat, and an exhausting, dry, hacking cough, afflict the sufferer. Sleep is banished, and great prostration follows. This disease is also attended with Hoarseness, and sometimes Loss of Voice. It is liable to become chronic, involve the lungs, and terminate fatally. Ayer's Cherry Pectoral affords speedy relief and cure in cases of Bronchitis. It controls the disposition to cough, and induces refreshing sleep.

I have been a practicing physician for twenty-four years, and, for the past twelve, have suffered from annual attacks of Bronchitis. After exhausting all the usual remedies

Without Relief,

I tried Ayer's Cherry Pectoral. It helped me immediately, and effected a speedy cure.—G. Stowell, M. D., Carrollton, Miss.

Ayer's Cherry Pectoral is decidedly the best remedy, within my knowledge, for chronic Bronchitis, and all lung diseases. —M. A. Rust, M. D., South Paris, Me.

I was attacked, last winter, with a severe Cold, which, from exposure, grew worse and finally settled on my Lungs. By night sweats I was reduced almost to a skeleton. My Cough was incessant, and I frequently spit blood. My physician told me to give up business, or I would not live a month. After taking various remedies without relief, I was finally

two bottles of Ayer's Cherry Pectoral. I am now in perfect health, and able to resume business, after having been pronounced incurable with Consumption.—S. P. Henderson, Saulsburgh, Penn.

For years I was in a decline. I had weak lungs, and suffered from Bronchitis and Catarrh. Ayer's Cherry Pectoral restored me to health, and I have been for a long time comparatively vigorous. In case of a sudden cold I always resort to the Pectoral, and find speedy relief.—Edward E. Curtis, Rutland, Vt.

Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he finally prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine a short time, and was cured. —Ernest Colton, Logansport, Ind.

The College a Success.

Church Parade.

The 57th Battalion will parade next Sunday afternoon at three o'clock to St. John's Church, where Rev. J. C. Davidson will preach to the volunteers. Printed sheets containing the order of service will be distributed among the congregation.

Accident.

Yesterday Mr. Arthur McGarrity, employed in the moulding shops of the William Hamilton works, met with a painful accident. The crane was being used to move to their places the large weights for flasks, weighing from 1,500 to 1,800 pounds each, when one of them rolled against Mr. McGarrity's leg, bruising it very badly.

Hollo to Volunteers.

At the Tuesday night parade of the 57th Battalion, Col. Rogers ordered another parade for this (Thursday) evening, as it is the intention to hold two parades weekly until inspection time. To-night, however, is the date of Sergt. Major Rundle's benefit entertainment, and the Colonel has since given permission to any members of the Battalion to attend the concert in the opera house. Those wishing to do so will be credited with a drill just the same.

A Really Shot Bird.

A party of five town sports went down to Otonabee, near Skibbereen, yesterday and returned home with five brace of partridge, a duck and a hawk. There was some fun over the latter piece of game. The bird was shot and killed by one of the party and put up in a tree for the purpose of playing a joke on another member who then set upon as a crack shot. The latter came along with his double-barrelled gun and plugged the bird so full of shot that it fell to the ground. No amount of argument can persuade him that the bird was not his rightful trophy, and he is correspondingly proud of his exploit.

The Cincinnati Calamity.

The EXAMINER yesterday contained a short telegraphic account of a fatal disaster near Cincinnati, Ohio. In the report was the following paragraph:—"Mrs. Russell Errett, who was instantly killed, was the wife of Russell Errett, President of the *Standard* Publishing Company. She was going to Mount Auburn to look for a house. When Mr. Errett went home Tuesday night she had not returned. The possibility that she might have been in the accident occurred to him and he went first to the hospital and then to the morgue, where he found her mangled body. The shock was terrible." The Russell Errett referred to is a cousin of Mr. R. W. Errett, Peterborough. Mr. Will Errett, of town, is now working in his establishment at Cincinnati.

The Menzies Property

will be offered in four parcels. The entire front of the lot, 230x76 feet, will be dedicated for a private park for the common use of the three parcels fronting it. The house will have a lot 110 feet by 166 in a lane, and on each side of the house will be a lot 60 feet by 106 feet. All these lots will face the little park. The purchasers of the lots on either side of the house will be bound, when building, to keep the house, which must cost complete not less than $2,500, in a line with the Menzies house. The lane at the rear will save the front from being cut up with waggon entrances. Thus arranged the property will make a very beautiful place. The Menzies house is known as "Blair Athol House," the place will be known as Blair Athol Place. A plan, showing the property as it is proposed to sell it, is in Mr. W. J. Moore's window. 2d

Hymeneal.

A very quiet wedding ceremony was performed in St. John's church about seven o'clock last evening by Rev. J. C. Davidson, when Miss Campbell, daughter of Mr. Jas. Campbell, Water street, was married to Mr. Wm Garrett, of Tweed. It was the bride's wish that the wedding should be as unostentatious as possible, and even the usual formalities of bridesmaid and groomsman were dispensed with. There were but a few of the most intimate relatives and friends of the parties in the church. After a quiet supper at the residence of the bride's father, the newly wedded couple took the 11:30 train for their home in Tweed. Mrs. Garrett's many friends in Peterborough will wish her every happiness in life. The bride was highly esteemed among her circle of friends.

Literary Society.

There was a fair attendance at the meeting of St. Peter's *Literary Society* in the Murray street school building last night. Dr. Brennan, President, occupied the chair. The subject of the debate was:—"Resolved, that it would be impolitic for Ireland to accept Balfour's University Bill." Mr. J. D. Mellmoyle led the affirmative and Mr. L. M. Hayes the negative. The audience decided in favor of the latter. After the debate Miss Annie Dunn rendered an admirable vocal solo. The next debate takes place in two weeks, on the subject:—"Resolved, that the Confederate States were justified in rebellion against the Federal Government in 1861." The affirmative will be taken by Messrs. J. J. Sheehy and Dr. Moher, and the negative by Dr. Brennan and Dr. McGrath.

Making Home Attractive.

At this season of the year when outdoor enjoyments can no longer weather the storm, home comforts and enjoyments gather increasing value. There are many ways of making home attractive, but there is no other more effective than brightening the interior of the home itself in a material sense. Compare a sitting room with bleak, staring, plastered walls with the same neatly covered with warm toned, cheerful paper. The first exhales discomfort and dreariness, the second breathes out comfort, coziness, gives rest to the eye, and soothes the senses. Now the best place in the Midland district to secure a satisfactory selection of handsome wall paper is at the Peterborough Bookstore. An immense stock, comprising the latest designs most fashionable colourings and combinations and at the lowest prices. While the fine weather is on and before the fierce frost sets in go to the Peterborough Bookstore and select the papers you require. You will have no difficulty in finding something elegant and suitable, no matter how hard you are to please, and the prices will be a pleasant surprise. Do not delay; the present is the most suitable time. J. E. STRATTON. dw

Hand-Ball Ringers.

The Star Course of entertainments of the Y. M. C. A. will commence on Tuesday, Oct. 29th, in the Opera House, when the celebrated Tedmorden Hand-Ball Ringers, of Lancashire, Eng., will appear. They were established in 1877, and have delighted large audiences in Great Britain, having given their delightful concerts in the Crystal Palace, London; Bridge Hall, Liverpool, and Free Trade Hall, Manchester. This is their first appearance in America, and they are accompanied by Mr. Edward Stanley, the renowned bass vocalist. We have at great expense secured this company, so that our patrons may have the best that is going. Those wishing course tickets can secure the same for a few days at Mr. G. A. Schofield's store. Plan for seats will be opened there next Friday morning, when subscribers can secure their seats for the course. We have substituted the above company for the Schubert Quartette, feeling assured our patrons will be more than satisfied with the change. Course tickets, $1 50, including reserved seats for the five entertainments; single tickets are 50c. each. 1d

Victoria Vokes in Hubby.

H. A. Sherburn's two-act farcical comedy "Hubby" will be the piece Miss Victoria Vokes will appear here in, on the evening of October 18th. The following is the plot. The story is admirably conceived and cleverly told. It deals with the adventures of Mr. Jonathan Hopscotch, a young dental surgeon, whose domestic life is rendered altogether too lively by the efforts of his mother-in-law, Mrs. Belinda Catterncole, to run the house to suit herself. At a ball Dr. Hopscotch makes the acquaintance of a handsome lady, who poses as an opera singer, Signora Catalina, but who is really Mrs. O'Braggerty, the wife of a fire-eating Major O'Braggerty, the two being temporarily separated on account of incompatibility of temperament. Hopscotch arranges a desperate flirtation with the Signora, with the purpose of allowing his mother-in-law to discover it, and thereby induce her to leave the house. In the meantime Major O'Braggerty, who is an old friend of Dr. Hopscotch, come down to pay the latter a visit, is taken home, introduced to the wife and mother-in-law, makes a good impression, and thus became for the time being a member of the family circle.

The Doctor enthusiastically takes him into his confidence regarding the flirtation with the Signora (whose identity the Major does not, of course, suspect), and he is only prevented from showing a photograph of the fascinating operatic star by the sudden entrance of Mrs. Hopscotch and her brother. To prevent Hopscotch's wife and the mother-in-law from discovering the photograph the Major pockets the picture, and thus saves the Doctor. Then it is discovered that Signora is really the Major's wife, and the efforts of both the lady and the Doctor to gain possession of the photograph and thus prevent an exposé and consequent annihilation of the Doctor by the irate Major, keep the fun lively until the picture is safely secured, and a catastrophe averted. These are the leading points in the play, which is full of bright points throughout. Miss Vokes sings several new songs during the play.

The Bridge Works.

A Visit to this Important Industry—The Works Largely Increased—Extensive Buildings for an Immense Business.

Visitors to the Central Iron Bridge Works are surprised at the magnitude of the concern. Since the new buildings have been occupied more machinery has been added and the staff increased, until the works have assumed immense proportions. Mr. W. H. Law, the enterprising and capable manager, has made the industry one of the largest and most important in Peterborough, through his untiring energy and business and mechanical skill.

When the Bridge Works was removed to its present premises it was thought at the time that ample accommodation had been secured, but the business has so increased that the capacity has since been about doubled by the erection of new buildings. The original works comprised simply the old Romaine building, 60x125 feet, with an engine house at the north end 40x80 feet. The machine shop was soon found inadequate for the purpose and new buildings had to be erected. Mr. Law was given a lease of the land at the foot of Dalhousie street by the town council, and thereon has been constructed a mammoth workshop, annexed to the old building, in the shape of an L, the sides 156 and 146 feet, and each 79 feet width.

AN ENORMOUS QUANTITY

of lumber was used in the construction of this building, over 2,500,000 feet, procured from Mr. J. M. Irwin. The new shops were very substantially built, in order to meet the requirements of the business. There is a large arch way between each of the apartments, and looking down the vista of 315 feet, the distance from one end of the building to the other, then glancing at the maze of whirring machinery and the scores of busy employees, the visitor is struck by the magnitude of the industry. The new addition was occupied this week, and already the staff of workmen has been increased. The pay-roll shows about eighty employees engaged at the works.

Besides these main buildings, there are a number of out-houses, one 40x60 feet, another 30x40, another 16x40, and still another 30x90, besides the offices. Taken altogether it is probable the Central Iron Bridge Works covers more ground than any other manufactory in Peterborough. Of course, in a business of this kind large spaces are required, in order to be able to construct the different sections of the bridges and piping manufactured. Mr. Law is now working on a contract for two bridges of two spans each for the C. P. R., and his well-known contract with the city of Toronto for steel piping. There are 10 or 12 carloads of steel slabs lying in the yard now, waiting to be used in the manufacture of the piping.

One portion of the new addition is used as a machine shop, and the main part as the construction shop. Here the large pieces of work are put together ready for shipment. By means of travelling cranes the heaviest material can be easily loaded on the cars, which pass through one end of the building. A line of track form the C.P.R. runs right through the building and further on into the premises. Every facility is thus secured for

SHIPPING MATERIAL.

The shafting has been extended into the new portion and some new pieces of machinery added, among which are a new riveter run by compressed air, a plate planer brought over from the old country, and a monster punch and shears, which will perforate or cut an inch and a quarter plate of steel two feet from the edge.

Among the improvements lately introduced is the electric light. The works are now supplied with twenty lights, two of which are out in the yard, and a new engine and dynamo have just been placed in the engine room for the purpose of supplying the electric current. The men work every night till ten o'clock at present, hence the necessity of good lights.

The "busy hum of industry" so much read about can be heard at the Bridge Works, and no mistake. The pounding of hammers, the rattle of machinery and the rumble of the forge fill the place with a noise so deafening at times that conversation cannot be carried on, and the "hum" can be heard several blocks away. It is highly gratifying to notice the progress our industries are making, and the Central Iron Bridge Works are certainly among the foremost. They are a practical monument of Mr. Law's ability and skill. May the Works continue to thrive and increase under his management. Such an institution is of immense benefit to the town, and it is deserving of every encouragement.

Sunday School Work.

The following pastoral has been received at St. John's from the Bishop of the Diocese:—

INTERCESSION FOR SUNDAY SCHOOLS.

To the Clergy, Superintendents, Teachers and Friends of Sunday Schools:—

MY DEAR FRIENDS.—It has been suggested by the Church of England Sunday School Institute, with the hearty concurrence of the Archbishop of Canterbury, that one observance in Canada should unite with the mother church in the observance of special days of intercession on behalf of Sunday schools.

Such intercession is so well calculated to bring the divine blessing upon our Sunday schools, and to quicken our own interest in this important work, that I shall be glad if the clergy, teachers and friends of Sunday schools throughout the diocese will unite in observing one or both of the proposed days of intercession, as suggested below. The days proposed are:—

Sunday, October 20th, and Monday, October 21st.

* * * * * * *

With hearty prayers for God's blessing on your work, I am,

Your faithful friend and Bishop,

ARTHUR TORONTO.

Annexed to the above pastoral are various suggestions for observing these days of intercession together with appropriate prayers to be used.

The clergy of St. John's have arranged, in accordance with the suggestions just mentioned, for

(1) A special celebration of the Holy Communion for the teachers and workers on Sunday next. This will be at 8 o'clock, when it is hoped that all the teachers of the two Sunday schools attached to St. John's will communicate.

(2) A special sermon in reference to Sunday school work on Sunday morning.

Personal.

Mr. Livingstone, postmaster of Charlevoix, Mich., a former Port Hope boy, and Mr. Jos. Beauvais, of the same place, who lived in Peterborough a few years ago, are in town on a short visit.

The numerous friends of Mr. J. B. Hutchins, formerly of this town, will be pleased to learn that he has entered into business in Montreal, the firm of J. B. Hutchins & Co. having purchased the ladies' and children's underwear business of F. J. Schenk & Co., 2266 St. Catharine street. We wish Mr. Hutchins every success in his new venture.

News Nuggets.

On Wednesday Archbishop Cleary dedicated a new Roman Catholic church in Tweed.

—The Port Hope Association football team has been re-organized and new officers elected. Mr. H. R. Carruth is secretary.

—On Tuesday evening Rev. E. Duane, the new rector of St. John's Church, Port Hope, was tendered a hearty reception by the members of the congregation.

—Archbishop Cleary visits Belleville this evening. He will be received with great preparation. He will administer the rite of confirmation.

—The W.C.T.U. has sent a request to the several churches requesting that collections be taken to aid the Union in its work.

—A meeting of the Charlotte street Methodist church Quarterly Board was held last night. Only routine business was transacted.

—New furnaces are being placed in Charlotte street Methodist church. Mr. Wm. Aldridge is superintending the job.

After the Debentures.

The sound financial position of Peterborough is shown by the enquiries that are already being made by Toronto and Montreal financiers after the $18,000 school debentures voted for on Monday. All the firms are anxious to purchase the debentures at good figures. The town clerk has already received five communications regarding these, and doubtless will receive

Police Court.

THURSDAY, Oct. 17th.

George Murdock, arrested yesterday on a charge of being a dangerous lunatic, was remanded for a week. The prisoner denies that he is insane, but says he has a violent temper and is subject to attacks of softening of the brain.

Half a dozen small boys were charged in front of the magistrate's desk this morning. They all lived in the neighborhood of Queen street, and were charged with doing malicious injury to property by removing the steps from in front of Mr. John Green's residence. Herbie Choate and Willie Morgan admitted doing it, but the latter claimed that Choate and Joe Butler had "set him up to it." The last named stoutly denied the charge, and a broad grin settled on his face during the trial as though he enjoyed it, while the other boys were either crying, or endeavoring to. It appears they laid a trap that might have resulted seriously for Mr. Green. The steps were removed, and then one of the boys was to kick at the door, so that the first person coming out would fall to the ground. The magistrate gave the lads a talking to and discharged all but Butler, who was, apparently, the ring-leader. He was confined in the cells a few hours as punishment, "to see how much fun there was in it," the magistrate said. It didn't appear to affect his equanimity, however, as the grin which had been the cause of his imprisonment never left his face.

Y. M. C. A. Notes.

The General Secretary has just returned from Toronto, having being fortunate in securing N. W. Hoyles, Esq., Q. C., one of Toronto's most eloquent speakers, for the Anniversary which will take place (D.V.) Tuesday, November 12th, in the Baptist church. Mr. Hoyles is an energetic worker in every good work in his city. He belongs to the Episcopal church, and being an honored lay-man, we feel entitled a rare treat is in store for our people at our services, when reports of the work for the past year will be presented and plans laid for the future.

The General Secretary also secured other good things which you will hear about in the future. We are determined with God's blessing to make the beneficial influence of our work felt in our town.

We are so grateful to Messrs. J. W. and Frank Green for their kind gift of the pockets and painting, same to be used as distributers of printed matter in our factories etc.

A Literary T.

Whatever shape an honest statement of fact may take it is entitled to command respect and attention. And we fearlessly make the assertion that the prudent housekeeper can get the best value in the way of choice teas of the finest brands at the great emporium for tip top teas, fragrant coffees and elegant glassware, the tea store of Hawley Bros., 370 George street, Peterborough.

Toronto Markets.

TORONTO, Oct. 15th.—Wheat receipts to-day were about 400 bushels; prices as before at 80 to 85c. for white, red and spring, and 65 to 70c. for goose. Oat receipts about 800 bushels at 32 to 33c. Barley reached 10,000 bushels, which brought 42 to 54c. Peas, 150 bushels, sold at 58 to 64½. Hay abundant, but steady at $12 to $14 for timothy and $8 to $10 for clover. Straw still scarce at $11 to $12 for wheat. Hogs abundant and easy at $6.50 to $7. Butter unchanged at 22 to 23c. for pound rolls, and eggs easy at 21 to 22c. for fresh.

States Barley Market.

BUFFALO, Oct. 15.—The present prices for barley are considered too low and farmers refuse to market their produce. Still buyers are not anxious to take hold of Canadian barley, being apparently satisfied with good western, of which there is plenty at much lower prices than Canadian. A few sales of Canada were made to-day, but bids and asking prices are still wide apart. Sellers are asking 69 to 70c. for No. 1 Canada; No. 2, 65 to 66c.; No 3 extra, 62 to 63c; No. 3, 59 to 60c.; western No. 2, 63c.; other lots, 45 to 55c. Nothing doing in State. At Chicago the market is nominal at 64c. for No. 2 October. At Oswego, inactive; new, 62c. and 64c., and to-day's receipts 41,000 bushels. Albany market fair and unchanged. At Milwaukee, quiet; No. 2, 54½c. for October.

Live Stock Markets.

TORONTO, Oct. 15.—The local demand fair considering the large supplies we have had here lately. Some buying was effected for Montreal, but no other outside agents appeared to be here. Prospects for the remainder of the week are very good.

CATTLE.—Good demand for stockers and feeders at 3 to 4c. per pound as an outside price for the best here. In butchers' cattle the demand was easy, one lot of 26 head of butchers' cattle averaging 880 pounds, sold or $28 each; a lot of 25, averaging 1,075 lbs. sold at $35 each; a lot of 18 head sold at 3c. a pound; a lot of 11 head sold at 3½c.; and a lot of inferior (25 head) sold at 2½c. per lb.

Montreal Market.

MONTREAL, Oct. 15.—Flour market dull, and absolutely no movement in grain. There is a moderate demand for pork and lard, but hams and bacon are dull. Chicago short cut is quoted at $13.50 to $14; Western mess pork, $13 to $13 50; Western lard, in pails, 8½c to 9c; Canadian lard, in pails, 8½c to 9c. Eggs to-day are quoted at 19c to 20c for fresh; 17½c to 18c for good, and 16c to 17c for limed. The butter trade is confined mainly to jobbing in dairy and creamery, but considerable good butter is being picked up in the country at good prices. Buyers of all classes are letting the cheese market drag, 10½c to 10¾c being considered too high for fall goods. No higher bid than 10c was made to-day for the ordinary run of stock. There are more apples reaching this market on consignment this year than for a long time. Fine winters are now selling here at $2.75 to $2.95, and $3 for extra fine.

NEWS OF THE DOMINION.

THE SUPPOSED MURDER AT LEVIS EXPLAINED.

Tanguay Drank Himself to Death—A $25,000 Suit Against the C. P. R. at Montreal—Sale of a Sudbury Copper Mine.

QUEBEC, Oct. 18.—In the case of Amede Tanguay, who was found dead in his bed at his residence in Levis on Tuesday, the coroner examined a number of witnesses who concur in saying that the deceased had been drinking to excess and was very ill during the day prior to his death. The evidence of all the witnesses goes to prove no criminality. The father is expected from Montreal to-day and the inquest will be adjourned till Monday to secure his evidence.

A $25,000 Suit Against the C.P.R.

MONTREAL, Oct. 18.—An action to recover $25,000 from the Canadian Pacific Railway Company was entered in the Superior Court yesterday morning at the instance of A. C. Burgess. Mr. Burgess had a contract with the Canadian Pacific Railway for the restaurant service as well as for the news department on the entire line. Last summer the company took these departments from him and gave them into other hands. Mr. Burgess claims that he had a large quantity of goods in stock at the time and that he offered it to the company who refused to purchase it from him or indemnify him in any manner. He estimates his damages at $25,000 and now claims that amount through the courts.

"BLACK ART."

Queer Doings in Renfrew The Witch of Plum Hollow Consulted.

BRYSON, Oct. 18.—Queer doings have been enacted within the past week or two, so the neighbors affirm, at the house of George Bagg, situated in Claredon Front, Renfrew County. Some mysterious agency is charged with causing no end of mischief in the house and surroundings, in fact so frequent and annoying have the pranks become that Mr. Dagg went back last week to consult the "Witch of Plum Hollow" (Mrs. Barnes). The witchery or whatever it may be commenced on exhibition day, when it seems the good woman of the house had a misunderstanding with a boy named Deane who was then working at the place. The boy went away and the fun commenced. The glass of the windows was demolished and a fire started in the gable end of the house which required four pails of water to extinguish. Again another fire was observed on the wall inside in gummy knotholes. This was put out and several burnt matches were found on the floor beneath. A dress belonging to Mrs. Dagg, which was hanging up caught fire and was partly consumed. A fire originated in the bed on which the inmates of the house were sleeping. Fires also started in other parts of the house during a time so short that those within had hardly time to go out of one apartment into another.

The strangest part of the affair is the miraculous removal of articles from one part of the house to another. A spinning wheel upstairs was taken apart and the portions placed in opposite corners of the room. An ink bottle locked in a cupboard changed its location and was found on a table in an outhouse. It was returned to its place in the cupboard and although the latter was guarded closely by one of the parties present the bottle took wings and again transported itself to the outhouse.

The boy referred to was taken into custody by Constable McNeill and brought before Mr. James Robertson, J. P., charged with being the author of the mischief. But the same evening of his arrest Mr. Dagg returned from Plum Hollow where he learned sufficient to convince him that young Deane was innocent. He accordingly appeared before the magistrate and withdrew the charge. The boy says he has not been near Dagg's since show fair night when the tricks began but has during the interval since been engaged with Mr. Olmstead of Litchfield. Dagg says he was told by the old lady at Plum Hollow that the mischief is being done by a woman and her two children through the medium of "Black Art" and that it is to cease in November.

A Nova Scotian Murdered at Tacoma.

YARMOUTH, Oct. 18.—Word was received here yesterday of the cold-blooded murder of a young Yarmouther named Enoch Crosby at Tacoma, Wash., on Oct. 5. The deceased was returning to his boarding house between 11 and 12 o'clock at night when two unknown men assailed him on the street and one of them fired a revolver at him, the bullet entering his body over the hip and passing through his bowels. The assailants then fled. Crosby died next day from the effects of his wounds. The city of Tacoma is in great excitement over the tragedy. Public meetings were held and the citizens subscribed to a reward of $2500 for information as to the assassin. The deceased was a plumber by trade and went to Tacoma last February to join his father, Captain Freeman Crosby. It is supposed Crosby was shot in mistake for some one else as he was a young man of exemplary life not known to have one enemy in the world.

A Mysterious Murder.

HILLSDALE, Mich., Oct. 18.—A mysterious murder occurred about three miles south of Reading, this county, last night. Frank Brown, aged about 40, was called to the door by someone and shot dead, the ball entering above his left eye, and killing him instantly. His wife, who was alone with him, ran to a neighbor's and gave the alarm. She can tell but very little about the affair. Sheriff Banker and Prosecuting Attorney Bishops have been investigating but no positive trace has yet been found of the murderer. Tracks were found leading toward Reading. The murdered man was an industrious, quiet citizen without enemies so far as known. He had no children.

TORONTO TOPICS.

Louis Deas' Bullet Was Fatal to Mike Birtle—The Hicks Murder Case.

TORONTO, Oct. 18.—Michael Birtle, who has been lying in the Hospital for the past three weeks with a bullet imbedded in his brain, died yesterday morning at 11 o'clock. It will be remembered that on the night of Sept. 26 last Birtle, while under the influence of liquor, tried to force his way into the house of Louis Deas, a colored man residing at 20 Elizabeth street. Deas warned him not to come upstairs upon peril of his life, and then Birtle still insisting shot him in the head with a revolver. Birtle was taken to the Hospital, where he has lingered unconscious until his death yesterday. Deas is at present under arrest. An inquest was begun last night and adjourned till Wednesday.

The nature of the defence in the Hicks poisoning case is such as to weaken the Crown evidence materially. The impression abroad is that Mrs. White and the boy Hicks stand a good chance of being acquitted.

THE JURY FIXERS.

FRESH INDICTMENTS BY THE CRONIN GRAND JURY.

The State's Attorney Refuses Particulars—All the Accused Rearrested but One—It is Believed He Has "Peached."

CHICAGO, Oct. 18.—It is said the grand jury in the Cronin case returned twelve indictments, only one of which related to the Cronin case and that one is believed to be another true bill against John Graham. Judge Baker yesterday issued a writ of habeas corpus for the release of Stottenberg, Alex. Sullivan's clerk, returnable at 4.30 p.m. Judge Longenecker and Chief Hubbard both say Stottenberg was released at noon. He is wanted merely as a witness.

The indictment found by the grand jury yesterday in the Cronin case was a joint bill against Mark Salomon, John Graham, Thomas Kavanagh, Fred Smith, Jeremiah O'Donnell, Alexander Hanks and Joseph Konen. All these men were already under indictment for conspiracy to bribe jurymen in the Cronin case. The State's Attorney is reported as declining to allow the new indictment to be seen. This is taken as an indication that a new charge has been made against the alleged jury fixers. It is suggested that the accused are to be put in the same boat with the Cronin suspects as accessories after the fact. All the persons re-indicted were again arrested except Bailiff Salomon, who is supposed to have confessed. Graham secured bail but the others were kept in confinement.

T., H. & B. AND C. P. R.

Representatives Confer With the Railway Committee of the Hamilton Council.

HAMILTON, Oct. 18.—The Railway Committee of the City Council last night met the Toronto, Hamilton and Buffalo projectorate and received plans and profiles of proposed routes through the city. Mr. Hector Cameron, Q. C., and Messrs. Helm and Miller represented the projectorate and T. H. McPherson, Edward Martin, Alexander McKay and Engineer Jennings represented the South Ontario Pacific and the Canadian Pacific Railway. An attempt was made to arrange a meeting of the engineers of the two companies to decide upon a contiguous route through the city, but this was balked by an unwillingness on the part of the South Ontario Pacific and the Canadian Pacific Railway to have any conference with a road, as McPherson remarked, the standing and respectability of which they knew nothing about.

During the discussion Hector Cameron returned the invidious inference contained in Mr. McPherson's remarks by referring to the Canadian Pacific Railway's action in the Atlantic and Salisbury Railroad matter and claimed that the Canadian Pacific Railway might afterwards repudiate the South Ontario Pacific agreement as they did that of the Atlantic and Salisbury road.

The meeting was finally adjourned until next Wednesday afternoon when the City Engineer will be present to consult with the Canadian Pacific and Toronto, Hamilton and Buffalo engineers as to a common route. The Canadian Pacific Railway ask for right of way 66 to 100 feet wide, but all the Toronto, Hamilton and Buffalo want is 33 feet, which they say is ample for the double track which they propose building at once.

Suicide at Montreal.

MONTREAL, Oct. 18.—James Millard, for 25 years employed in the store of Gibbs the tailor, committed suicide last night. Three months ago he had a stroke of apoplexy and has been acting strangely ever since. Last night he had tea, bade his family good-night and went upstairs. A revolver shot was heard and he was found lying in blood with a ball through the temple. He died in three-quarters of an hour without having spoken. He was 45 years of age and leaves a wife, a grown up daughter and a son who is employed in New York.

Sudden Death at Halifax.

HALIFAX, Oct. 18. Among those applying at the dispensary for medicine yesterday was a respectable looking woman about 50 years of age. While waiting her turn to get her medicine she was observed to turn pale and dropping into a chair, she said she was fainting. A couple of medical gentlemen present endeavored to resuscitate her, but without avail as the life seemed to leave her body immediately. She gasped the name Johnstone and expired. She proved to be the wife of Alex. Johnstone, a laborer.

"That Came on Very Suddenly."

HALIFAX, Oct. 18.—Dr. Honeymath, who has had charge of the Provincial Museum for many years and was a well-known scientist, died suddenly last evening. While walking homeward on Spring Garden-road he fell to the ground and was carried into a shop where he expired. All he said was: "That came on very suddenly." The deceased was about 70 years old.

A Fatal Fall.

BETHLEHEM, Pa., Oct. 18.—By the breaking of a scaffolding yesterday in a new standpipe in course of erection eight men were thrown forty feet to the floor. Foreman George Murphy had his skull broken and died two hours later. John Kiernan sustained a fracture of the jaw and was injured internally. He will die. The others will recover.

Burnt to Death.

BIG RAPIDS, Mich., Oct. 18.—While the family were temporarily absent from home in Colfax township last evening the 2-year-old child of Mrs. Newman Ackley played with the fire and was burnt to death. The mother returned in time to save the other child and the house.

It is stated on the authority of a prominent Irish Nationalist at St. Louis that the sudden visit to England of Dr. Charles O'Reilly and Col. John Atkinson of Detroit is in the interest of a reorganization of the National League in America. They are to consult with Mr. Parnell on this subject and in relation to holding a convention in the United States.

Belleville Briefs.

BELLEVILLE, Oct. 18.—Archbishop Cleary, who made his first visit to Belleville yesterday, was met at Canifton by a large delegation and entertained to supper at Powers' Hotel. He was subsequently escorted to St. Michael's Church, where a numerous gathering had assembled to welcome him and an address was presented, to which His Grace replied in a very happy manner. A substantial testimonial will shortly be presented to the Archbishop by the clergy and people of the archdiocese.

Mr. Charles Wilkins, fishery overseer, fell and broke one of the bones of his left arm.

William Arthurs, a lunatic, was yesterday discharged from jail cured.

Four prisoners sentenced to the Central Prison were taken to Toronto yesterday.

Mrs. Craig, matron at the Institute for the Deaf and Dumb, has been promoted to a similar position in the Agricultural College at Guelph. Miss Walker, assistant matron at the Kingston Asylum, will succeed Mrs. Craig.

TRANSATLANTIC NEWS

FRENCH VIEWS CONCERNING THE FUTURE OF THE PAPACY.

Spanish Trouble in Crete—Insurrection of Four Infantry Battalions—The Turkish Governor Powerless.

LONDON, Oct. 18.—Mr. Morley, Lord Granville, Sir William Vernon-Harcourt and Lord Ripon will have a conference with Mr. Gladstone at Hawarden to-day to decide whether it is opportune to declare the details of their Home Rule proposals.

Four battalions of infantry in Crete have revolted. Chakir Pasha, the governor, is concentrating troops to suppress the revolt.

The objection of the troops to be employed in road-making was the cause of the outbreak. The officers were beaten and wounded. Chakir Pasha, the governor, is helpless.

Father McFadden's Trial.

DUBLIN, Oct. 18.—The trial of Father McFadden and the other persons charged with having participated in the murder of Police Inspector Martin at Gweedore in February last, began at Maryborough yesterday. Counsel for the Crown and for the prisoners alternately objected to certain of the men called as jurors. There was much excitement. Several of the panel protested in an excited manner against the objections advanced by the counsel for the Crown, whereupon the court adjourned for the day.

THE MARINE CONFERENCE.

Views of Members of the English Delegation—Yesterday's Proceedings.

WASHINGTON, Oct., 18.—The delegates to the International Marine Conference met at 11 o'clock yesterday morning and were called to order by Admiral Franklin. On motion of Charles Hall, M. P., secretary of the English delegation, Lieut. Cottman, U. S. N., was appointed chief secretary, Cecil A. Spring Rice, of the English delegation, Charles Vibiere, of France, and Walter Blaese, of Germany, were appointed additional secretaries.

Mr. Hall stated that Her Britannic Majesty's delegates had been instructed that the program for the conference debates was too comprehensive to be exhausted within the limited time at the disposal of the conference. He had therefore to inform the conference that he and his colleagues thought it best to confine the discussions of the conference to divisions 1 and 3 of the program.

General division 1 refers to "marine signals or other means of plainly indicating the direction in which vessels are moving in fog, mist, snow and thick weather, and at night, and rules for the prevention of collisions and rules of the road. Division No. 3 refers to "the draft to which vessels should be restricted when loaded."

Mr. Hall further stated that Her Majesty's government would not consider as binding any of the regulations or conclusions adopted by the conference. Mr. Hall questioned the wisdom of attempting to legislate for the inland waters of all nations. It would be better to limit the action of the conference to regulations for vessels upon the high seas.

Mr. Goodrich explained that it was his idea to make the legislation of the conference general so that it might be adopted by any government for the control of its local waters. His plan was to make the legislation applicable to every navigable water on the globe and then let government after government adopt it. [Hear, hear.]

At this point the hour for recess arrived. Admiral Franklin stated that he had been requested by the President of the metropolitan club to announce that the delegates to the conference were members of the club for all practical purposes as long as the conference was in session.

Only One Smallpox Case on Pelee Island.

DETROIT, Oct. 18.—Health Officer Coventry of Windsor received a telephone despatch from Dr. Chamberlain yesterday asserting that there is but one case of smallpox on Pelee Island. Dr. Chamberlain is in charge at the Island, and has been joined by Dr. Hodgett of Toronto, sent there as advisory doctor by the Government. Dr. Coventry says the scare is greatly exaggerated and that there is no great panic even on the island. The Dominion Government and local health boards are taking every possible precaution to prevent a spreading of the disease.

Drought in Minnesota.

ST. PAUL, Oct. 18.—Gen. J. H. Baker of Blue Earth County, ex-commissioner of pensions, says: "In Southern Minnesota the little streams are all dry. The Blue Earth and Minnesota rivers are lower than ever before in the memory of the oldest inhabitant. The lakes have lowered rapidly in the last two months. Thousands of farmers are hauling water for miles for the stock. Rain this fall is improbable and many farmers will be forced to sell their stock.

Smallpox in Boston.

BOSTON, Oct. 18.—Three cases of smallpox, the first in Boston for over a year, were discovered in an Italian family here. A young man and two young women have the disease while the children display its symptoms and there are seven or eight other families in the house and it is feared other cases will be developed.

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

JOHN HACKETT

A SEPTUAGENARIAN'S ROMANCE.

Col. Mulligan and His Adventure With a Grass Widow.

WHITBY, Oct. 17. — Vice-Chancellor Proudfoot heard an interesting and peculiar case yesterday. Col. James F. Mulligan, an ex-officer of the Imperial service, and more recently of the Hudson Bay Company, met in Winnipeg in 1882 a certain Mrs. Patience Amelia Pass, nee Miss Maud James, of that city. Mrs. Pass was separated from her husband. A disagreement with the wife of the colonel's son, who lived in Winnipeg, induced Mrs. Pass to persuade the colonel to leave with her for Toronto. The gallant widower, however, took the lady to England and lived at Liverpool for a time. The couple made a covenant in effect that Mrs. Pass should act as housekeeper and assume the name of Mrs. Mulligan in consideration of $1000 a year. The commercially united couple returned to Toronto and moved in society, having spread the report abroad that they were married in the United States. They left Toronto a short time ago and lived in Prospect Place, Oshawa, where they resided upto the time of the separation.

While they were living together Col. Mulligan put a bit of property in Mrs. Pass' name. One piece of Liverpool property which he deeded to her is worth £1700 sterling, and a block of land in the Northwest worth $5000 and as she latterly had control of the colonel's purse it is alleged that she had securities and money equal to about $6000. The colonel sued to recover the property and the money, alleging it was obtained by fraud.

Mrs. Patience Amelia Pass is a good-looking woman about 38 years old. When she appeared in court she wore a jaunty feather cap, a perfect fitting black silk dress and a sealskin jacket. Col. Mulligan is a hearty old gentleman, 70 years old and remarkably vigorous for a man of his age. He is fully six feet high and stout in proportion. A ruddy complexion and iron-grey whiskers gave him the appearance of a typical old campaigner.

Depositions were read to the above effect, the defendant however claiming that her salary was $2000 a year and that all the property she got from the Colonel was for services rendered. Before any witnesses had been examined a settlement was suggested by the plaintiff. About an hour was spent talking over the offer made by the plaintiff, and when the parties entered court again Mr. Blake read the following terms of settlement and the court adjourned:

"The Liverpool property to remain in defendant. The plaintiff to pay defendant $1,750 in cash. All other property in dispute to go to the plaintiff and all charges of fraud and impropriety withdrawn on both sides."

TORONTO TOPICS.

Suicide of a Civic Employe—The St. George Victims' Damage Cases.

TORONTO, Oct. 17.—Francis A. Lobb, a brother of ex-Ald. Lobb, and for many years an employe in the City Treasurer's Department at the City Hall, committed suicide at 2.35 yesterday afternoon in the hallway of 53 Wellington street east. His brother, ex-Ald. James Lobb, who is a commission merchant, has an office up stairs at that number. No cause is yet assigned for the deed save that the deceased has been suffering for some months from hypochondria. He killed himself with a "Dictator" revolver, the bullet entering his heart. Mr. Lobb lived at 32 Prospect st. He was a man of about 50 years of age, married and had five children. He entered the service of the city as a clerk in the Treasurer's Department under the late Mr. McCord, nineteen years ago, and has continued in that office ever since. He was a conscientious, straightforward clerk, one of the oldest and most respected in the city's employ.

Fires of a Day.

TRENTON, Oct. 18.—About 3.30 yesterday morning a fire broke out in the furniture factory of James Bros. of this place and in a short time it was almost entirely destroyed. Insured for $2000, loss about $3000, cause of fire unknown.

BELHAVEN, Oct. 18.—The dwelling house of Joseph D. Davidson near Belhaven was burned last evening and most of its contents. Small insurance. Mr. Davidson was in Toronto attending the grand jury.

BATTLE CREEK, Mich., Oct. 18.—The barn, several wheat stacks and house of S. C. Boylan of Battle Creek township, were burned last evening. Loss about $6000. The fire was set by a dog which had taken fire from a burning brush pile and ran into one of the stacks.

ISHPEMING, Mich., Oct. 18.—The barn and stables of the Lake Superior Iron Company burned last night. All the animals and contents of the lower stories were saved but the buildings with a large stock of hay and grain went. Loss $6000, partially covered by insurance.

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realising that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

IMPORTANT!

Remarkable Restoration to Health of Well Known Canadians whose Cases were Given up as Incurable

From the few of the hundreds of letters we have received from those who have been restored to health and strength by the use of that wonderful discovery, Paine's Celery Compound, we make a few extracts. We hope that the thousands of Canadian men and women who are suffering from nervous and wasting diseases, will profit by these true and plain statements of facts.

D. S. Davidson, of Montreal, suffered for years with nervous dyspepsia, pain in his back, and sleeplessness. He tried doctors without relief, was losing flesh rapidly, and had about given up heart when he commenced the use of Paine's Celery Compound. "Now," he says, "I am a new man. I sleep well and my food does not hurt me."

Mr. Jas. Johnson, 302 St. Charles Borromee Street, Montreal, was weak and nervous, had no appetite, and could not rest at night. His nerves were soothed and strengthened by Paine's Celery Compound, and he soon became well and strong.

Annie Gourley, of River Beaudette, P. Q., found the Compound a certain re for weakness, and now feels as well as she ever did.

A customer of Harrison Bros., druggist, Hamilton, Ont., told them that he was entirely cured of nervous weakness by the use of two bottles of the Compound, after everything else has failed.

The little child of Mrs. G. E. Meredith, 76 D'Arcy St., Toronto, was cured of St. Vitus' Dance by Paine's Celery Compound.

The Daily Examiner.

THE POOR MILLERS.

Mr. Plewes told the Millers' Association on Tuesday that the milling capacity of the Dominion is 15,000,000 barrels, while the total consumption is only 6,000,000 barrels. "Many of the Canadian mills are only "running six hours per day, and others "are idle, while if the duty was increased "another 25c. or 50c. per barrel on flour "Canadian millers would get the grinding." In another part of his speech he said that the imports of flour into Canada last year were 264,723 barrels. He did not give the exports. Now it seems to us, says the Hamilton *Times*, on the face of it, that Mr. Plewes' remedy is no remedy at all. The Canadian mills can produce 9,000,000 barrels more than Canadians can consume. If the increased duty kept out the 264,723 barrels now imported, a great deal more than half Canada's milling capacity would still be idle. The only way to employ it is to grind for export, and the only way to grind for export is to take the duty off wheat. The duty on wheat does very little good to Canadian farmers. It only raises the price in scarce years when the farmers have little or nothing to sell. It was not put on to help the farmers, but only to induce them to consent to the imposition of heavy duties on manufactures. The duties on manufactures impoverish the farmers. Take the duties off both wheat and manufactures, and the position of the farmers will be improved, and the millers can go to work grinding for the British market. This is no time for such half remedies as Mr. Plewes proposes.

The *Telegram* declares that typhoid fever is quite prevalent in Brantford and that the sewerage question must be made a live issue at the next municipal elections. In London the same fever is around more than is cared for, and a demand has been made to have the city wells closed.

Moses Oatis, a prominent unit of the meteorological magi, is a philanthropist—in intention, earning the enmity of coal and wood merchants and the gratitude of shivering consumers. He has scientifically "sized up" the goose bone and declares that "for the next month we shall have in Ontario fine warm weather, considering the time of the year, and very dry. The end of October will be decidedly warm, hazy and fine, and the first two weeks in November will be fine and warm for that time of the year. After that put on plenty of underclothing and warm clothes."

Hon. Mr. Lacoste can hardly be the rebel, conspirator and traitor which the *Spectator* would make him out to be, when a Conservative organ like the Brantford *Telegram* is constrained to say of him:

This really eminent statesman may return to his home at Arthabaskaville with pleasant memories of his reception in Ontario, Leader as he is of the opposite political party, we cordially admit and appreciate his sterling good qualities, eloquence and principle. Laurier is a noble politician but is seriously handicapped. Laurier, like Meredith, is both brilliant and gentlemanly in Opposition. He is a great man, and one whom a nation need not blush to own. Pity he isn't a Conservative.

It takes a great and a good man to command the respect of opponents.

British politics are becoming interesting. There are three by-elections to take place in the United Kingdom shortly, two in Ireland and one in England. The Irish constituencies are Home Rule ones, so that there is not likely to be any opposition to Mr. Parnell's nominees. The vacant English seat is that of Brighton, which is the *ne plus ultra* of villadom, and it goes, therefore, without saying that it is a Tory stronghold. In the general elections Brighton returns two members, but it will now elect but one in place of the late senior member, Dr. Robertson. In 1885 when the united Liberal party was triumphant in the elections Brighton returned two Conservative members by over two thousand of a majority, and in 1886 the Gladstonian candidate was defeated by the candidates of the allied Liberal-Unionists and Tories by over thirty-three hundred votes, the Liberals only running one candidate. The fight for this seat seems, therefore, a pretty hopeless one for the Liberals. They have, however, a strong candidate in Sir Robert Peel, who, though a Conservative, voted for Mr. Gladstone's Home Rule Bill. With an historic name, a Conservative record, the prestige of an ex-minister and especially of an ex-Irish Secretary, pleasant, hearty manners, and the gift of the gab, Sir Robert will seem nearer to capturing Brighton than any other candidate the Gladstonians could have secured.

Woman's Smiles and Woman's Tears.

One to enliven, the other to soften the heart of mankind. An old bachelor once said women were either "all smiles or all tears;" but this cannot be true for what would there be "twixt a tear and a smile." Women have enough to bear to make them "all tears" and enough to hope for to make them "all smiles." When afflicted with nervousness, "female weaknesses," sick headache, and the numerous diseases peculiar to their sex there is necessity for contemplation, and for "tears" but when they consider that there is a sure remedy in Dr. Pierce's Favorite Prescription for all such "female complaints," there is reason for "smiles." c

Gradually, but certainly, China is taking her place as a great power, whose voice has a right to be heard at the council of nations. She has borne with patience the violence, the contempt, the injustice of European and American nations, but the time is not far off when she will assert herself and claim the same respect and good faith in the observance of treaties as other powers. During all these years that China has borne the assaults of western civilization, in the form of distasteful trade forced upon her at the muzzles of cannon and the point of the bayonet, she has been gradually reforming her administration, placing her army on the same footing as the armies of Europe and building up a navy. It is now stated that she is in a position to retaliate, if necessary, on those nations who have treated her subjects with indignity. She has a powerful, well-drilled army, and navy fully equipped, has commenced the building of railways and telegraphs, and, as her resources in men and money are practically unlimited, she is really one of the most powerful and independent countries in the world. When this change in the attitude of China towards outside nations is considered in connection with the fact that her millions are beginning to swarm from the parent hive, it would appear that a new and extraordinary element in the problems of civilization is coming to the front.

Millions in Hogs.

If They are Raised on Mr. Drury's Improved Plan.

"There's millions in it!" declared the Hon. Minister of Agriculture the other day to a *Globe* representative. "If I were back on my farm I would have 200 hogs," and the Hon Mr. Drury leaned back in his chair and his eyes were alight with confidence in his new theory. Mr. Drury with Prof. Robertson has started out to show the farmers how to make more money in pork than under the present feeding practice is possible. The theory is that young hogs must be fed more bulky food than is at present the custom. The stomach of an animal enlarges or contracts with the size and nutritiousness of its food. He says there is no reason why hogs should not be fatted by grazing.

A bulletin will shortly be issued from the Department of Agriculture with the object of inducing the farmers of Ontario to follow the American system of grazing hogs instead of making pork altogether in pens. Mr. Drury's object is to show the farmers of Ontario how hogs may be raised so profitably that they will supply the demand of the pork-packers for live hogs. The compiled returns show that there are annually imported from Chicago to Canadian pork-packers forty or fifty thousand hogs. Mr. Drury figures it out that hog-raising may easily be made vastly more profitable than cattle. Farmers keep cattle until they are three years old and sell them for from $4.50 to $5 per 100. Hogs could be fed for little more cost, and after a season on the grass would sell for as much as the cattle.

Catarrh is in the blood. No cure for this loathsome and dangerous disease is possible until the poison is thoroughly eradicated from the system. For this purpose, Ayer's Sarsaparilla is the best and most economical medicine. Price $1. Six bottles, $5. Worth $5 a bottle.

If the Sufferers from Consumption, Scorfula and General Debility will try Scott's Emulsion of Cod Liver Oil, with Hypophosphites, they will find immediate relief and a permanent benifit. Dr. H. V. Mott, Brantwood, Cal., writes: "I have used Scott's Emulsion with great advantage in cases of Phtisis, Scrofula and Wasting Diseases. It is very palatable." Sold by Druggists, at 50c. and $1.00. w29eod

VOICES.

A man died yesternight. Today the town
Makes mention of his taking off, and sums
His virtues and his failings. On the street,
Midst many barterings and lures of trade,
In houses where he was known, in busy marts,
Or public places where the commonweal
Gathers the town folk; up and down his name
Is spoke of in as various ways of speech
As are the voices various sounding it;
Gruff throated bass, shrill treble of old age,
Soft sibilancy of a woman's tongue,
Or reed like utterance of a little child.
Thus one, his mate in business: "Ah! a shrewd
Dry head was that; much ken to us, much ken,
And as for heart"—wise shrug of shoulders now—
"Well, 'tis but little quoted here on 'change."
Another, who had summered with him once
In leisure time: "A right good fellow gone!
'Tis true, he liked his ease; but who does not?
For me, give me the man that Horace loved,
Who deemed it wise to feel when seasonable."
A tiny one who oft had found great store
Of sweetmeats in his hand, and, prised far less,
Great store of tenderness within his heart:
"Oh, won't he come to see us any more?"
His surplliced pastor, bound to save his soul,
Balanced a bit by inconsistencies
He thought he saw, in private to his wife:
"Alas, poor soul! if only he had grasped
That matter of the creed and made us sure!
But then his heart was right, and God is good."
And one, a woman, who had found his arms
An all protecting shelter through long years,
Said naught, but kissed the tokens he had left,
And dreamt of heaven for his sake alone.
Meanwhile, what was this man, and what his place?
You ask, confused by all this Babel talk
Of here and yonder, from his fellow men.
I am as ignorant as any one
Whose speech you heard, and yet I loved him well.
Nay, ask me not; ask only God. He knows.
—Richard E. Burton in Harper's Magazine.

Gounod's First Composition.

The following story is told about the beginning of Gounod's career as a musician: Gounod's parents did not at all fancy his taking up music. They took counsel on the subject with the head master of the school which their son attended, with the following result: "Your son become a minister? Never, sir," replied the master. "He has a decided aptitude for Latin and Greek." The next day Master Charlie was called in M. Poirson's study. "Well, sir, they tell me you've been caught writing music." "Oh, yes, I want to be a musician." "You a musician? Why, that's no profession at all. But here is some paper and a pen. Write me a new air on the words from Joseph, 'Scarcely merged from infancy.' Then we shall see what you can do," said the professor, delighted at the cleverness of his device. It was the noon recess. Before the bell rang to resume studies Gounod was back with his page black with crochets and quavers. "What, already!" said the professor. "Well, sing it." Gounod sat down to the piano and sang, and the tears soon began to gather in the head master's eyes. He embraced his pupil and exclaimed: "Ma foi! let them say what they please, you shall study music." —Albany Express.

Their Soft Snap Was Short.

"Ha! ha! ha!" laughed a Coachman and a Professor as they were merrily swinging in the breeze in the top of a tree. "We are having a good time of it and feel sorry for you miserable fellows who are compelled to lie huddled together in a flybook. An Angler fastened us on a piece of gut, and in trying to make a long cast the brown hackle at the end caught in a branch of this tree and it is there safely imbedded. The Angler tugged at us for a time and then the line broke and we are enjoying ourselves. He cannot reach us here, and our long days of imprisonment in a flybook, succeeded by being dragged over the water and whirled around in the air, are passed."

The Coachman and Professor thought they had attained the height of happiness, and they enjoyed themselves for a number of days. Then came rain, and this was followed by sleet and snow, and the gut which held them rotted and the Coachman and Professor dropped to the ground, where they were trampled in the mire by the cattle. They no longer envied their brethren in the flybook, and amid longings and regrets they ended a miserable existence.—New York Herald.

Not Square.

The Teuton is often a long time in learning American idioms. One who had been here for a year or more, and who could speak some English before his arrival, a very short and corpulent man, by the way, went to his grocer's and paid a bill which had been standing for several weeks.

"Now you are all square, Hans."

"I vas vat?"

"You are square," I said.

"I vas square?"

"Yes—you are all square now."

Hans was silent for a moment, then with reddening face and flashing eyes he brought his plump fist down upon the counter and said:

"See here, mine frent, I vil haf no more peezness mit you. I treat you like a shentleman, I pay my pill, und you make a shoke of me—you say I vas square ven I know I vas round as a parrel. I dond like such shokes. My peezness mit you vas done!"—Youth's Companion.

They Don't Care for Chickens.

Awhile ago Dr. Finsch saw hens scratching around in New Guinea villages, and he learned that the domestic fowl is good for nothing except feathers. The natives could hardly conceive that human beings could eat such a creature, and the bare idea of lunching on eggs was enough to make a respectable Papuan ill. Chicken feathers, however, particularly if white, heighten the charms of the fair sex when tastefully disposed in their abundant tresses, and so, after all, these gentle birds were not made wholly in vain.—"Antipodean Travels."

Novel Antidote.

In these days of the prevalent abuse of tobacco it is well to know that many habitual tobacco users have been cured by the following plan: Those who smoke their first cigarette, say, at 7 o'clock in the morning, begin putting it off just ten minutes past the hour for a few days, then make it fifteen or twenty minutes, and so on until it will be noon and then night before the first one is smoked. It is a slow but sure way of tapering off if faithfully followed, and can be applied by the abusers of stimulants as well as of tobacco.—Exchange.

Peculiarities of the Hair.

There are times when all persons require to pay some particular attention to the hair. To rekindle the life or energy of the roots is a simple matter if taken in time. Dr. Dorenwend's Great German Hair Magic will do the word, it works in accordance with nature, supplys fresh nourishment to the glands keeper, the hair luxuriant and natural in shade. Be sure to get, you cannot afford to miss it. Every druggist sells it. It is money well spent. See Dorenwends advertisement in another column.

Day and Night

During an acute attack of Bronchitis, a ceaseless tickling in the throat, and an exhausting, dry, hacking cough, afflict the sufferer. Sleep is banished, and great prostration follows. This disease is also attended with Hoarseness, and sometimes Loss of Voice. It is liable to become chronic, involve the lungs, and terminate fatally. Ayer's Cherry Pectoral affords speedy relief and cure in cases of Bronchitis. It controls the disposition to cough, and induces refreshing sleep.

I have been a practicing physician for twenty-four years, and, for the past twelve, have suffered from annual attacks of Bronchitis. After exhausting all the usual remedies

Without Relief,

I tried Ayer's Cherry Pectoral. It helped me immediately, and effected a speedy cure.—G. Stovall, M. D., Carrollton, Miss.

Ayer's Cherry Pectoral is decidedly the best remedy, within my knowledge, for chronic Bronchitis, and all lung diseases. —M. A. Rust, M. D., South Paris, Me.

I was attacked, last winter, with a severe Cold, which, from exposure, grew worse and finally settled on my Lungs. By night sweats I was reduced almost to a skeleton. My Cough was incessant, and I frequently spit blood. My physician told me to give up business, or I would not live a month. After taking various remedies without relief, I was finally

Cured By Using

two bottles of Ayer's Cherry Pectoral. I am now in perfect health, and able to resume business, after having been pronounced incurable with Consumption. —S. P. Henderson, Sailsburgh, Penn.

For years I was in a decline. I had weak lungs, and suffered from Bronchitis and Catarrh. Ayer's Cherry Pectoral restored me to health, and I have been for a long time comparatively vigorous. In case of a sudden cold I always resort to the Pectoral, and find speedy relief.—Edward B. Curtis, Rutland, Vt.

Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he finally prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine a short time, and was cured. —Ernest Colton, Logansport, Ind.

There is no better proof of the wide reputation that the Peterborough Business College has earned than the fact that during the past three months students have entered from the following distant points:—Chicago, Montreal, Chesley, London, Mitchell, Sutton West besides the numbers who have entered from places not so remote.

Their First Concert.

On Monday next, in the school room of St. Luke's Church, the Temperance Society will give their first concert of the season. An excellent programme has been provided, and, as the admission is only ten cents, a good large audience should mark the opening concert of the society. The next concert will be on November 4th. Proceeds in aid of the organ fund. 1d

Struck Down by Paralysis.

Last night Mr. Geo. Armstrong, blacksmith, an employe at the Bridge Works, was stricken with paralysis. He was working as usual and while lifting a pair of tongs felt them slip from his grasp. He tried two or three times to use the instruments but could not close his fingers on account of the paralysis that was slowly creeping through his joints, and in a few minutes the stroke spread to his arm and down his left side and leg. Mr. Armstrong was taken home and placed under medical care.

Runaway Accident.

Mr. Wm. Armstrong, of Otonabee, received painful and dangerous injuries by a runaway accident. He was returning home Thursday evening with two young ladies, when his team took fright at a baby carriage near Weir's, in Otonabee, and bolted, upsetting the waggon and throwing the occupants out. Mr. Armstrong received internal injuries which necessitated the constant attendance of two doctors last night. The young ladies fortunately escaped being hurt. The horses did not run very far. Mr. Armstrong will probably recover.

Those who wish to partake of something very fine in the shape of a cup of tea should try W. J. Morrow's direct importations. Why is it farmers are giving up buying from pedlars and tea men? Simply because they can buy tea from ten to fifteen cents per lb. cheaper from us, as it does not pass through so many hands, owing to us importing direct. We are offering an extra Japan at 25c., a beautiful blend of Black at 40c., and all other lines away down to 5 lbs and 6 lbs for $1.00. W. J. MORROW, 340 Opera House Block, George street. dw

The Death Rate.

The Dominion mortuary statistics for September have just been published. Toronto shows a ratio of 1.17 per 1,000 of population, Hamilton is the same, London 1.35 and Kingston 1.78. Quebec has the worst record for the month, viz., 3.47; then comes Hull, 3.30. The Montreal figures are 2.84. Galt stands at the low figure of .63, and St. Thomas .75. Other Ontario cities are:—Ottawa 2.00, Brantford 1.87, Belleville 1.36, Guelph 1.14, Woodstock 1.03, Brockville 1.47, and Peterborough 1.74.

About Situations.

Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. No other institution can show so good a record as this. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

Marriage at Hazel Bree.

On Wednesday a very pleasing ceremony was performed at Dr. Barnardo's Home, the Rev. G. H. Davis uniting together in marriage, Mr William J. Harper, a young farmer living at Caldagrings, and Lydia Louise Croscober, one of the girls brought out from England under the auspices of the "Home." The floral decorations were very pretty, and the bride received quite a number of handsome and useful presents from her friends and companions at Hazel Bree. After the ceremony the company sat down to a substantial breakfast at which the usual speeches were made, wishing the young couple prosperity and happiness. A few songs from the children enlivened the occasion. The bride and bridegroom then drove off amid showers of rice and old shoes sent after them for good luck. It was regretted that after the sad accident that occurred, last week circumstances prevented a postponement of the marriage for a few days.—COM.

A Mysterious Discovery.

While Waterworks workmen were excavating a trench on Bethune street, at a depth of about five feet, they came upon a lead plate containing an inscription, roughly engraved, in an unknown tongue, though in the English characters. Carefully copied, it appears thus:

- - ify ' ouw ' emtat ' ip t ' ooou ' po ' ofte ' ago ' nurn ' stbu ' ytin ' thwvl ' eyb ' rus ' to ' aoto ' re ' 3 ' 7 ' 8 ' ge ' ong ' est ' ro ' et.

It is a great puzzle to the oldest inhabitant, as well as the most learned men in town, who can make neither head nor tail of it. At present it is idle to speculate upon its origin or meaning. A photographic copy has been made of it, by Sproule, which will be sent to day to Dr. Daniel Wilson, President of University College, Toronto, whose antiquarian researches may have furnished him with a key to the mystery.

A Practical Farewell.

Last evening the employes of the Blythe Woolen Mills assembled at the residence of Mr. J. M. Masson, their late manager, and presented him with a complimentary address and a handsome gold-headed cane, and Mrs. Masson with a silver biscuit-holder. Mr. Masson was quite taken by surprise. After the presentation a pleasant evening was spent. Mr. Masson has retired from the management of the Blythe mills, and next Tuesday removes with his family to Carleton Place, where he has accepted the position of manager of a large woolen mill. Mr. Masson was popular and capable manager, and his many friends in Peterborough while sorry to lose him will wish him success in his new home. Mrs. Masson also is a most estimable lady who has endeared herself to a large circle of friends.

The Cheese Factories Act.

In July 1888, it will be remembered, John Wason, sr., of Dummer, was convicted and fined $20 and costs by the Police Magistrate of Peterborough for supplying skim milk to the Warsaw Cheese Factory at Warsaw, contrary to the provision of the "act to provide against frauds in the supplying of milk to cheese or butter manufactories." The conviction was quashed by the Queen's Bench Divisional Court on the ground that the act was ultra vires of the Provincial Legislature, as it affected to create and deal with criminal offences which are within the jurisdiction of the Dominion Legislature only. The case was argued in the Court of Appeal at Toronto Thursday, the principal question of course being the intra or ultra vires of the act. Judgment was reserved. Edward Blake, Q.C., and Irving, Q.C., for the Attorney General of Ontario; E. B. Edwards, Peterborough, for the defendant, contra.

St. Luke's Church, Ashburnham.

The ladies' Aid held their usual weekly meeting on Thursday afternoon in the school room. This very useful and active Society is working very industriously and we shall, doubtless, soon be hearing of the announcement of thier annual dinner and bazar.

The children of the Sunday school have been invited to meet together on Saturday afternoon next at the school by the rectory. For what purpose will doubtless be explained when they get there.

The Young Men's Literary Guild, of St. Luke's, held their weekly meeting last night at the rectory. The usual routine business was gone through and notice was given of a motion one month from date to change the 2nd and 4th articles of the constitution. Messrs. Boreland and Fitzgerald were appointed to assist as ushers at the services on Sunday next. The invitation of the secretary, Mr. K. B. Bart, to hold their next meeting at his house was accepted, and the meeting then adjourned when a very pleasant and social hour was spent at indoor games before parting.

Making Home Attractive.

At this season of the year when outdoor enjoyments can no longer weather the storm, home comforts and enjoyments gather increasing value. There are many ways of making home attractive, but there is no other more effective than brightening the interior of the home itself in a material sense. Compare a sitting room with blank, staring, plastered walls with the same neatly covered with warm toned, cheerful paper. The first exhales discomfort and dreariness, the second breathes out comfort, coziness, gives rest to the eye, and soothes the senses. Now the best place in the Midland district to secure a satisfactory selection of handsome wall paper is at the Peterborough Bookstore. An immense stock, comprising the latest designs most fashionable colourings and combinations and at the lowest prices. While the fine weather is on and before the fierce frost sets in go to the Peterborough Bookstore and select the papers you require. You will have no difficulty in finding something elegant and suitable, no matter how hard you are to please, and the prices will be a pleasant surprise. Do not delay; the present is the most suitable time. J. R. STRATTON. dw

A Trip to Stony Lake.

Saturday last a party of seven gentlemen took the train to Lakefield and chartered the steamer to take them to Stoney Lake for a few days outing. Some of the party owned summer residences, and they were taking the trip to close up the houses for the winter and at the same time have a little sport. Two or three other gentlemen had just purchased islands and went up to chose a building site. They had a pleasant outing, and the last of party returned yesterday. The fishing and shooting was good, and as usual the expedition was attended by a few casualties which fortunately did not result seriously. The party took a trip to Kale' creek, and in running one of the rapid's a canoe containing the two partners in a well-known law firm was upset. The water was cold and the wind still colder, and the two legal lights were in danger of being extinguished forever. However, one of them managed to swim ashore, through the eddying water and sharp rocks, and assisted his less fortunate comrade in also reaching terra firma. Both were chilled to the bone, and the senior member of the firm was almost paralyzed with the cold. What the remainder of the party came up they witnessed an amusing sight. The youngest of the two men, stripped of everything but his shirt, was standing in the whistling wind, on the bleak shore, shouting and waving his arms frantically to the others to hurry up, stopping frequently to twist the single light garment on his person into a knot and wring the water out. His companion was unable to stand, and shook so violently with temporary ague that, had he not been a solidly constructed man, he must have fallen to pieces. The case was serious and demanded prompt action. A warming dose of cordial was administered, and those who had just come up shared up their dry raiment with their unfortunate companions. A quick return was made, and in a short time the heroes of the rapids were once more comfortable and without any serious consequences of their mishap.

There will be some new buildings erected in Bobcink next year. Messrs. B Shortly, A. Stevenson, D. W. Dumble and C. J. Leonard have purchased islands, or building sites, and an American named Sloan, it is said, will expend several thousand dollars in beautifying an island he has purchased hard by, that of the American colony.

The Complimentary Benefit Concert.

Testimonial to Sergt.-Major Rundle—A Good Programme. But only a Fair Attendance.

Sergt.-Major Rundle is noted for his kindness and willingness in contributing to the programmes of public entertainments—church or secular—and he has been liberal with his assistance. He is also an enthusiast in physical culture, and to promote this he equipped a gymnasium, at considerable expense, upon assurances of patronage. But this patronage was not extended and he became liable for a large sum. The idea was suggested to give the Sergt.-Major a complimentary benefit concert. Praise assurances of assistance were also promised. On the strength of these the date of the concert was announced, but the promised assistance was not forthcoming, and to keep faith with the public Sergt.-Major Rundle had all the preparations of the programme thrown upon himself, and the one presented at the Opera House on Thursday evening was a good one.

There was a smaller attendance than could have been expected but the house was fairly well filled.

The curtain rose on a spirited tableau, by the uniformed young lady corps of the Institute, which was very striking and effective.

A selection by the orchestra was followed by a reading by Mr. O. C. Rowse—"Wounded to Death." Next was an exhibition of calisthenics, (with dumb bells) by a class of young ladies. These exercises were capitally executed showing the effects, not only of perfect drill, but of the great physical benefit such exercises produced. The exercises were so well received that the young ladies were encored.

The young ladies taking part were, Miss Mamie Foot, Abbie Robinson, Jessie Minorgan, Ada Gillespie, Vina Bellegheim, Phemie Paterson, Bertie Carr, Lily Bates, Emma Bradshaw and Marion Best.

Miss Jennie Moyse sang very sweetly, to the accompaniment of Mr. Dingle, the song —"If the Waters could Speak as they Flow."

An exciting single stick bout followed—between Capt. Brennan and Principal Long, in which the honors were pretty fairly divided.

Then followed an exhibition of club swinging by the following young ladies:—Misses Mamie Foot, Abbie Robinson, Susie Best, Lily Clark ("fugleman,") Maggie Chase and Lily Davidson. This was beautifully done—with spirit and precision and on vigorous demand repeated later on.

A single stick bout, between two Institute lads, George Edmison and Harry Fitzgerald, in which hard knocks were the order of the minute, was heartily applauded.

The next number was a well finished violin solo by Miss Louise Yokome—"I Puritani", Jansa's arrangement of a theme by Bellini. The performance was loudly applauded, and the young performer recalled, responding with Farmer's "The Harp that Once through Tara's Halls. The effect of these selections was heightened by Miss Eslaud's graceful and judicious accompaniments.

A fencing bout between Capt. Brennan and Lieut. Mason, was full of excitement and skilful thrust and parry. The honors in this fell to Capt. Brennan.

The fancy marching of the uniformed young ladies was a fine exhibition. The most complicated movements were done with the precision of clockwork, the smallness of the stage however, preventing the execution of many beautiful movements.

A humorous reading "The Debate," was capitally given by Sergt.-Major Rundle; it evoked continuous laughter and was followed by hearty applause.

Mr. Rundle prefaced his reading with a brief address, thanking those who had attended to assist him, and briefly adverted to the benefits of physical culture, and to his efforts to promote its cultivation.

The programme closed with a tug-of-war, vigorously pulled by teams of Institute young gentlemen captained by Mr. Geo. Edmison and Mr. Roland McWilliams. The former won two out of the three tugs Capt Brennan was referee.

Mr. Principal Long played the accompaniments to the several exercises.

The Y. M. C. A. orchestra furnished selections at intervals, and concluded the performance by "God Save the Queen." The evening was delightfully spent by those present.

Sergeant-Major Rundle desires to express his thanks to all those who assisted in the preparation or presentation of the programme.

The Zenana Missions.

Miss Ling, a Returned Missionary, Pleads for Funds for the Work.

There was a small audience, and that principally ladies, in the school room of St. John's Church last night to listen to the appeal of Miss Ling, a returned missionary from India, in behalf of the Zenana missions.

Rev. Mr. Kenrick occupied the chair.

Miss Ling has a pleasant face and manner, and speaks rapidly, but clearly. She has been in India since 1881, laboring in the Madras Presidency, and her address displayed a thorough observation of the manners of the country. The speaker first pointed out the need of the Zenana missions, by which means alone the Word of God could be carried to the Indian women by Christians of their own sex. The word Zenana meant, "a place for women," and Miss Ling dwelt upon the dreariness of the lives of the Zenana women, who were practically imprisoned all their lives, with only their false gods to worship, and without the joy of Christianity to lighten their hearts. She then gave some interesting information concerning the dress and habits of the Hindoo ladies. Miss Ling is accompanied on her tour through Canada by a young girl, who appears on the platform dressed in the Indian female attire, while a number of curiosities and articles of Hindoo manufacture are displayed on a table. The social and moral degradation of the women was enlarged upon, as Miss Ling said it was chiefly with them she had to do. A Hindoo woman must never sit in her husband's presence nor pronounce his name; she does not eat with him but afterwards, and eats what he leaves. In walking she must remain behind, and in travelling in cars or carriages a sheet is hung between the husband and wife for fear the latter will talk too much to the former will get tired of looking at the woman. Wife beating is a common practice in India, where the men beat their wives on principle, for their own good, they say. Miss Ling then took her hearers in thought on a visit to some of the Zenana women in their own homes. The shrines of the devil-worshippers were often passed, where on Tuesdays and Fridays the low caste people, who are shut out from worshipping the gods, meet and with their priests

WORSHIP THE DEVIL

and offer up sacrifices. Miss Ling enumerated a few of the gods worshipped by the Hindoos in the temples, and said there were so many gods, some thousands at the least, that one or two more or less did not matter. The Hindoos were ready to worship anything, and would probably be willing to worship Jesus Christ in addition to all their present gods, but when told that Jesus, when accepted, must be their only object of worship they are not so ready to adopt Christianity. Miss Ling described the interior of one of the Hindoo temples, with its hundreds of gods, its robed priests, its vast wealth and its crowds of pilgrims seeking to propitiate the gods by all sorts of gifts and self imposed punishments. The different systems of professional beggary which are followed in India were next touched upon. There were millions of people who in this way lived upon the credulity and superstitions of the people, extorting offerings from them by making them believe they (the beggars) were the gods of death and their curse would bring calamity upon those who did not give them alms enough. The home life of the Hindoos was next described. Much good was being done by the lady missionaries and also by the lady doctors, who gain entrance to the houses on account of their professional skill and afterwards introduce the gospel message. In the girls' schools the young women were taught Christian doctrines. The girls are taken from the schools at an early age and married, and then the teachers go to them in their homes and continue their instruction. Miss Ling described the marriage ceremony and festivities in India, which were usually extended over six or seven days. The hard lot of the widow in India was pointed out. She is without hope of re-marriage, is deprived of all the comforts of life and becomes the common drudge of the household. In their condition the blessed story of the cross is particularly welcome. It cost a great effort for the Hindoo women to

BREAK THEIR HOME TIES

and become baptised as Christians, but there were a number who were doing so, for which they were thankful. The missionaries had many instances which showed that God was blessing their work. The work amongst the women was undermining the fortress of heathenism, and the great Hindoo system of religion would come tumbling down in God's own time.

Miss Ling thanked the good people in Canada and elsewhere for their gifts of dolls for the Hindoo girls, which are given as prizes. These dolls play an important part in the work there, as they are much better made than the dolls of India (and Miss Ling exhibited a sample of the distorted images which the children of India are compelled to accept as dolls.) The girls strive hard to procure one of the prizes, and as there was a constant demand they needed a constant supply. Miss Ling urged her hearers not to be affected in their gifts to this particular work by the demands of missionary work nearer home. This was the missionary age of the church, and without wishing to limit the missions nearer home, she trusted they would see the importance of this work among the Zenana women of India. The speaker also pleaded for more Christians to consecrate themselves to this work, in which the Church of England was behind other denominations.

At the close of the address the collection was taken up by the little representative of India, and Rev. Mr. Kenrick made a few remarks anent the necessity of giving largely for the support of the Zenana mission work. The more one gives, he said, the more one feels able and willing to give.

Rev. Mr. Davidson expressed the thanks of himself and the Ladies' Missionary Society to Miss Ling for her instructive address, which he hoped would be the means of enlisting the sympathies of the ladies in the mission cause in India. He also thanked the lady representatives of St. Paul's and other churches for their attendance.

The proceedings were brought to a close by singing and prayer.

A Conscientious Refiner

Says that Sugar is Watered After Being Refined, to Make it Weigh More—He Owns up Because the Watering Process Injures Trade.

A gentleman from the eastern part of the Dominion, who was in Ottawa a few days ago, and who is a large shareholder in a sugar refinery, told the *Free Press* that the refiners, now that they have completely destroyed competition by means of high customs duties and a combine, are in the habit of watering their sugar after it has gone through the refining process in order to increase its weight. Refined sugar will absorb a great deal of water. "I have protested against the watering business frequently," he added, "but it has not been stopped. The subject ought to be discussed in the press, and public attention directed to it. I think that a law should be passed to prevent such an imposition."

"How is it that you, a shareholder in a refinery make this charge?"

"I claim that it is unfair to the consumers of sugar. Moreover, I am a wholesale grocery merchant, and when the barrels of sugar I buy from the refinery are delivered to me and left standing in my warehouse for a while I find they have leaked molasses all over the floor. Then there is a waste of saccharine matter, and I am the loser. If sugar is refined properly and left without being watered, there will be no leakage from it. I have had Scotch, English and American refined sugar in my stores for months at a time, and never a sign of any liquid oozing from the barrels. Unwatered or unadulterated refined sugar will keep as dry as flour or oatmeal."

"Is it not Mr. Brenner's duty as inspector of refineries to prevent the watering of sugar?"

"Oh no. He is appointed to see that the revenue is not defrauded. It is no part of his duty to look after the interest of consumers of sugar. Some time ago it was found that refiners in New York State were adulterating their sugar with glucose, and a law was passed with the view of preventing such a practice. I have not heard whether it had the desired effect or not. The addition of glucose to refined sugar would of course increase the weight of the sugar. A similar result can be produced by turning the hose upon sugar when it is ready for shipment.

NEWS OF THE DOMINION.

DOCTORS ON TRIAL FOR DISGRACEFUL CONDUCT.

The Hamilton Medical Council Appointed to Investigate Charges of Misconduct Charged with Manslaughter.

TORONTO, Oct. 19.—The committee of the Council of the Provincial College of Physicians and Surgeons appointed to investigate into charges of "disgraceful conduct" preferred against Dr. Lemon of Toronto and Dr. Washington of Ottawa. In his defence Dr. Lemon, who advertises that he cures the absent "in the perfect way," called Miss Healles. She testified that she had been cured of neuralgia of the spine and stomach through Dr. Lemon's "laying on of hands." On being asked as to the method of treatment she stated that the Doctor passed his hands gently over her head and body, at the same time praying half audibly. She had felt better ever since the treatment and she regards her cure as complete. Six other witnesses were heard and they corroborated the first witness' statements. Some of the drugs medicine was also given, and all testified that they had been cured. Nearly all were cases of rheumatism. Dr. Lemon himself was before the committee and was subjected to a rigid cross-examination by Mr. Meredith. He declined to explain the treatment of the absent by the "perfect way," and confessed that his advertisement might be misleading if taken in a certain sense. The evidence taken will be laid before the Council.

James Ross, William Ross, Peter L. Ross, Annie Henderson and William H. Yeomans, the parties who figured in the York-street stabbing affray on Tuesday night, appeared in the Police Court yesterday morning, where the whole affair was investigated. The case was adjourned till Monday.

The interest in the trial of Sarah White and Arthur Hicks for the murder of James Hicks has now reached the climax. Mr. Holmes for the defence and Mr. Cattanach on behalf of the crown delivered their addresses yesterday and Mr. Justice Falconbridge will deliver the charge to the jury to-day.

There was a general melee at Richmond and Bay streets yesterday afternoon, in which Joseph Ross, recently a piano manufacturer, now a match manufacturer, was somewhat severely baldled. Two women of the town accosted him and he replied very shortly telling them to "get out of that." This brusque retort was resented by two of the women's friends Robert Townley, 166 Queen-street, and William Segrist, 179 Richmond-street. In the scuffle which ensued Ross had his hat knocked off. Otherwise he was unhurt. Both his assailants were arrested.

These appointments are announced in to-day's Ontario Gazette: James Alphonsus Devlin of Stratford, M.D., to be Associate Coroner for the County of Perth; John William Seymour Corley of Toronto, Barrister-at-Law, to be a Notary Public; George Heard Smith of Toronto, Barrister-at-Law, to be a Notary Public; William Hutchinson Hawson of Peterborough, Solicitor, to be a Notary Public.

To-day was pension day and the Master in Chambers at Osgoode Hall as the place for trial of the St. George accident cases against the Grand Trunk Railway.

Lieut. J. H. Laurie, eldest son of Major-General Laurie, M.P., and lieutenant in the King's Own Regiment, Imperial service, has been attached to "C" School of Infantry in this city as one of the subalterns. He will remain for five years.

MORNING REAL ESTATE.

The Hamilton Police Commissioners Investigate the Douglas Tragedy.

HAMILTON, Oct. 19.—Although the grand jury at the last session of the County Court here acquitted Constable Hawkins of the charge of murder preferred against him by Æmilius Irving, Q.C., for the shooting of James D. Douglas in the Young-street boarding-house some three weeks ago and the coroner's jury the unpolished Hawkins of all blame, the Police Commissioners met yesterday and ordered Hawkins and others to appear on a charge of manslaughter. Hawkins was immediately taken into custody and his case will come before the Police Magistrate to-day.

The condition of Senator James Turner, who has been seriously ill for some time, was much worse last night and he is not expected to recover.

Immigration Statistics.

MONTREAL, Oct. 19.—An examination of the figures of the Dominion Immigration Office shows that the total number of arrivals has amounted to 24,082. The number last year was 33,414, a decrease for 1889 of 9332. One reason for the falling off is the fact that 6 Government aid since last year. In April of 1888 the number was 11,183 and for May they went up to 11,183 to seize the last chance of assisted passages. The number which passed through to settle in the United States was 3389 showing that Canadian money was used for settling the United States. Of the total number which passed through last year 8896 went to the United States but since the assistance was withdrawn only 6068 have gone. The quality of the immigration has much improved. Last year the immigrants had only $175,000, this year it amounted to $278,700 in spite of the decrease in numbers. Ontario took 7707 against 12,378 last year. Quebec took 2814 against 4973 last year. Manitoba and the Northwest 6532 against 7867.

The Richelieu Election.

SOREL, Oct. 19.—The election in Richelieu to fill the vacancy in the Dominion Commons caused by the death of Captain J. B. Lalelle, Conservative, resulted in the return of Mr. Massue, Conservative, by about 294 majority over Mr. Beaudoheim, Liberal.

CHANCELLOR AND CZAR.

COURT REPORTS OF THEIR CONFERENCE AT BERLIN.

Bismarck Said to Have Advised an Understanding Between Russia and England With Regard to Asia.

BERLIN, Oct. 19.—Court reports appearing in the newspapers of this city credit the Czar with thanking Prince Bismarck for supporting the Russian protests to the Swiss Government against the harbouring of Anarchists, and crediting the Chancellor that the personal proceedings General Obrutschef's discovered a plan of double line of strategic railways when Prince Bismarck, it is said, suggested the construction. It is little concerned regarding Bulgaria as she was regarding Russia's place in Asia, and that in his view an understanding between Russia and England with reference to Asia was desirable and could easily be obtained. The Post says that the two Emperors before separating expressed for another meeting and that Emperor William on the invitation of the Czar agreed to attend the Russian army manoeuvres in 1890.

They Will not Resign.

VIENNA, Oct. 19.—The Hungarian Cabinet will not resign on account of their differences with the Austrian Cabinet upon the question of the recognition of the Bulgarian army by Austria. The Cabinets are very apart from the Austrian forces, in there is every prospect that Emperor Francis Joseph will assent to the demand of Hungary and change the title "Imperial Royal Army" to "Imperial and Royal Army."

Gladstone to Talk Next Week.

LONDON, Oct. 19.—Mr. Gladstone will issue a manifesto in the form of a speech at Southport Wednesday next. He will probably formulate an active program of reforms and expound his Home Rule proposals.

CAPTAIN KIDD'S PETS.

Rendezvous and Protector of a Youthful Band of Criminal Desperadoes.

MARSHALL, Oct. 19.—A large number of small incendiary fires have occurred here recently. The police have discovered that the incendiaries were a band of school boys aged from 11 to 15. They were regularly organized and called themselves "Captain Kidd's Pets." The members are bound by blood-curdling oaths not to reveal the secrets of the order and all their plans were carried out according to written orders signed in blood from the arms of the young desperadoes. The leaders of the band are under arrest.

Fruits of a Spree.

CASTELLE, Oct. 19.—Wedding B Baker of Elba were threshing at Mrs. Shaw's, third line of Mono, and a spark from she engine set fire to the straw. The separator was burnt, also a fine frame barn, sheds and stables with all Mrs. Shaw's farming implements and over 1000 bushels of grain. Mrs. Shaw was insured for $800, no insurance on the machine.

SHERBROOKE, Oct. 19.—The barn of John Hamilton, jr., near Belhaven, was burnt yesterday afternoon with all this year's crop and the implements. The cause of the fire is unknown.

BERNHEIM, Oct. 19.—The sorghum factory owned and operated by Messrs Gerlach, was completely destroyed by fire about 5 o'clock yesterday morning. Loss $20,000, no insurance, cause unknown.

LONG VIEW, Tex., Oct. 19.—The roundhouse of the Texas & Pacific Railway here was burned yesterday morning. Loss $60,000.

DAWSON, Ga., Oct. 19.—L. A. Lowrey's cotton warehouse and a number of buildings in the vicinity were burned Thursday night. Loss $50,000.

The Episcopal Convention.

NEW YORK, Oct. 19.—The P. E. General Convention resumed its labors yesterday. In the House of Deputies the Committee on Canons presented a report on the proposed establishment of a missionary episcopate for the colored people. Even if the church should be permitted by the civil law to register the official statistics from which it appears that the total number of arrivals has amounted to 24,082. The number last year was 33,414, a decrease for 1889 of 9332. One reason for the falling off is the fact that 6 Government aid since last year. PRICES AND PROSPECTS.

BRADSTREET'S WEEKLY REVIEW OF THE STATE OF TRADE.

Farmers in the Southwest Holding Grain for Higher Figures — Depression in Breadstuffs—Talk of a Tea Corner.

NEW YORK, Oct. 19.—Special telegrams to Bradstreet's indicate a slight check in the movement of goods to consumers from several points, but on the whole the volume continues to materially exceed the movement at the corresponding time last year. Collections are active or prompt in a few of the cities heard from. Prices in California wines are stiffening on the short crop. The largest week's business on record at Kansas City has been done at that place. Farmers in various portions of the Northwest are holding grain for higher prices. High rates for money at New York limit share speculation and open the way to new manipulation. This tendency is checked somewhat by the successful profecting of the Richmond reorganization and by condition of depression in the trust shares. Profits are dull. Money on call at New York is higher and the supply of funds limited. Foreign exchange is low and dull on scanty inquiry and free offerings of commercial.

It is claimed in Western markets that large quantities of pig iron have been purchased for speculative purposes and that the scarcity of supply is largely supposed. Very heavy purchases have been made in Ohio and in Western Pennsylvania, in fact, all Ohio valley markets are piled with inquiries for large supplies. The demand for all varieties of iron and steel has been more marked west than east, but as all points is excellent. Prices still tend upward, rates touching $32 as eastern mills with inquiries for 100,000 tons. Anthracite coal is now more active, with the nine months' production 25,587,000 tons to 1888, against 21,523,000 in 1888.

Depression has characterized bread stuffs, influenced by weaker foreign, higher ocean freights and a government crop report increasing the crop estimate. Wheat is off 1½ to 2½c. and flour 5 to 15c., with the export sales noticeably checked. Exports of wheat, (and flour as wheat) both coasts, July 1 to date, are 29,643,060 against 37,357,112 bushels in a like portion of 1888. Exports this week equalled 2,758,538 bushels against 1,825,888 bushels last week and 3,397,846 in the like week last year. Corn is off 1c. and oats, in sympathy, 2½c. The free movement of corn is checked somewhat by the late decline in price.

Hog products have had frequently violent fluctuations in prices at the west. Meat they have been only moderately active with slight variations in prices. Hogs report have continued heavy on slow demand in spite of a concession of 1-16c and prospect of increased yields in Brazil and in there and of improving reports from Louisiana. Refined, on fall offerings and dried, steadily active demand, is off ½ to ¾c. Dealings in coffee are moderate and Brazil grown has declined ¾c. Teas are in limited sale. There is talk of a possible corner in the London market. Leading eastern dry-goods jobbers report trade moderate. Early promises have not been realized. There are liberal orders with agents for spring goods while seasonable goods are dull. Prices are firm except for print cloths and some makes of brown sheetings which are lower on the week. Demand for raw wool is unsatisfactory. Raw cotton is lower on heavy crop movement.

Business failures reported to Bradstreet's number 205 in the United States this week against 243 last week and 195 this week last year. Canada had 41 this week against 29 last week. For the past 42 weeks the United States has had 8943 against 7866 in 1888.

"RED" McKENNA'S GREAT RECORD.

Burglary, Highway Robbery and Felonious Assault, and Only Two Days Out of Prison.

NEW YORK, Oct. 19.—"Red" McKenna, a youthful but hardened criminal with an exceptionally bad record, who was released from the Penitentiary Monday morning, was [illegible] in the [illegible] Market Police Court yesterday on a charge of burglary. In the two days that [illegible] he robbed and [illegible] burglary and attempted burglary, and endeavored to [illegible] a policeman on Seventh avenue, who proved too strong for him.

Early [illegible] McKenna was implicated in [illegible] on West Thirteenth street, [illegible] he [illegible] shot the proprietor. "Red" was caught, but was let off with a light sentence on that occasion. Since then he has served two sentences and is under indictment for an assault [illegible].

On [illegible] Harry [illegible] Mosher, "Red," accompanied by several of his former associates, entered a saloon at No. 450 West Thirteenth street like that evening. John Quirk, the proprietor, and a man named Henry Darkin were the only occupants of the place, and after calling for drinks McKenna's companions apparently quarrelled and started a fight. This was a ruse intended to draw Quirk from behind the bar and afford one of the gang an opportunity to grab the contents of the money drawer. Quirk had been victimized in that way before, however, and instead of playing the peacemaker he bolted up stairs with the cashbox, while Darkin covered his retreat.

McKenna, in his rage at the frustration of the ruse, struck Darkin on the head with a soda water bottle, fracturing the skull. Darkin was taken to the hospital. "Red" broke into a barber shop on West Thirteenth street the same night and secured forty razors, fifteen boxes of cigars, a quantity of cigarettes and $15 in cash.

This active young man again went a-burgling Tuesday evening, and policeman Flynn saw him attempting to break into a butcher's store on Seventh avenue. McKenna saw the policeman and fled. There was a race for a couple of blocks, but "Red" was in good prison training, and left the bluecoat far in the rear.

Hot [illegible] by his narrow escape "Red" [illegible] and named Bridget Healy Wednesday morning and attempted to assault him with a sand club, but Brannigan beat him off and reported the facts to the Thirty-seventh street police. Detectives Carey and Logan were detailed to hunt down the highwayman, who from the description given they believed to be "Red" McKenna, and finally found him in a [illegible] street back [illegible]. They [illegible] to produce ample evidence to hold him.

Sudden Death at Bowmanville.

BOWMANVILLE, Oct. 19.—William Fines, an [illegible] aged [illegible] died suddenly during the night while [illegible] the floor of his house to get some medicine. Illness disease is thought to be the cause. He was about 45 years of age and leaves a wife and child.

The Carnahans Stabber Convicted.

GUELPH, Oct. 19.—Patrick Haley was tried before Judge Drew here yesterday and found guilty of stabbing Miss Ellis of Garafraxa. Sentence was reserved until to-morrow.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for [illegible] is shown in almost every day's sales. [illegible] and [illegible] are [illegible] to [illegible] the [illegible] and [illegible] in [illegible]. The [illegible] would answer.

AYE

Instead of saying this collectively, they are saying individually every day in the year, by their [illegible]. Those who are interested in the fact [illegible] ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment; and [illegible] trade every time. Why [illegible] trade where they [illegible]. This is why they trade with Hackett, and [illegible] to do so.

You Should Trade with Hackett.

Hackett's store is positively Headquarters for [illegible] Goods either bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

THE ROBINSON-CANDY CASE.

The Defendant's Story Fixed With McDonald Guilty of Murder.

ST. JOHN, N. B., Oct. 19.—The inquest in the candy poisoning case finished last evening. Most of the time of the afternoon and evening sessions was spent in reading over the depositions. Some few questions were asked, but no important information was brought out. Coroner Barry then began his address to the jury at 9.30 o'clock and it was a few minutes after 12 when he finished. He reviewed all the points of the case and charged strongly against McDonald.

The jury were [illegible] and [illegible] the following [illegible]: [illegible] H. Macrae came to her death from eating a candy upon which or in which strychnine had been placed, and which candy had been sent through the post addressed to the Rev. Donald Macleod and received at his residence on Wednesday morning, Oct. 9, 1889; and, further, more, from the evidence before them they are of the opinion that the said candy was sent by one William J. McDonald, and as the jurors do upon their oaths say that the said William J. McDonald did feloniously, wilfully and with malice aforethought kill and murder the said [illegible] H. Macrae." McDonald will be charged before the Police Court by Inspector Weatherhead.

THE BAPTIST CONVENTION.

Report of the Foreign Mission Board—A Resolution Against Tax Exemption.

OTTAWA, Oct. 19.—At the Baptist convention yesterday the report of the Foreign Mission Board was presented by Rev. John McLaurin, a returned missionary. The board report contributions from the churches and ladies' societies during the past year to be $19,000, leaving a balance in hand $1697. Two missionaries were sent to foreign fields last year. The field of the church is situated between Madras and Calcutta, has a coast line of 300 miles and extends inland 30 to 50. There are about 3500 cities, towns and villages with a population of almost 1,500,000. In the past 15 years about 3700 natives have been converted. The report was adopted.

Wednesday [illegible] meeting upon invitation of the church of that place, London being also nominated. The [illegible] secretaries nominated by the various associations were elected. A resolution was moved by Mr. D. R. Thomson and seconded by Rev. John McLaurin that the acceptance of tax exemptions by the church was hurtful to their work.

The delegates visited the Parliament buildings in the afternoon and were introduced by Hon. Mr. Foster to Sir John Macdonald, who made a short speech welcoming them to the Capital. They afterwards inspected the Library, Commons and Senate Chambers.

Struck a Rock and Sank.

MIDLAND, Oct. 19.—The American schooner Imperial, Captain A. Worden, from Chicago Oct. 8 for Midland, loaded with 20,000 bushels of corn consigned to Gooderham & Worts of Toronto, while coming through the bay Thursday morning struck a rock abreast of Western Islands and went down stern foremost in 200 feet of water within four miles of Hope Island forty minutes after the struck. All hands took the yawl and had all they could do to get to Hope Island lighthouse. The captain and crew lost everything they had and are here destitute and are in communication with the United States consul at Collingwood and the vessel agent at Chicago. The vessel was not insured but the freight list was. The vessel is owned in Manitowoc, Wis.

The Ancient Capital.

QUEBEC, Oct. 19.—[illegible] Lotbinière [illegible] Railway, will [illegible] early [illegible] yesterday by falling between a train of cars.

The Levis town council has unanimously adopted resolutions approving of the extension of the Intercolonial Railway to Montreal along the south shore and providing for its representation at the convention of the delegates to be held at Nicolet on Oct. 23.

Typhoid fever seems to be on the increase here, and there have been some deaths from the disease. Hon. Mr. Duhamel, Commissioner of Crown Lands, had three children down with the disease.

Shelled Olive Pits Taken in Six Pipe.

HALIFAX, Oct. 19.—A bachelor named Bishop purchased a package of stramonium leaves or thornapple from a city druggist for the purpose of relieving asthma, but not knowing how to use them instead of smoking them he steeped them and drank the liquid. Fortunately he did not use the whole of the package. He soon became delirious but after some hours was restored to consciousness and though enormously weak is considered out of danger.

A Disorderly Office Reconstructed.

MONTREAL, Oct. 19.—At a meeting of the City Council yesterday Ald. Stephens created a sensation by declaring that Ald. Hurteau was no longer [illegible] as he was a partner in a firm supplying wood to contractors [illegible]. Ald. Hurteau made a general denial. Ald. Stephens declares that he can prove his assertion and that before the end of the civic year he will have four more aldermen disqualified for being interested in contracts.

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You threw the cushions earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 25c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Talking Trade, well judging by the constant blooming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn which goes at 60c. a lb. Either [illegible] or where we get it; it is a straight bargain to all who want it.

PRIDE GOETH BEFORE DESTRUCTION AND A HAUGHTY SPIRIT BEFORE A FALL.

Sermon By Layman.

To the Editor of the Examiner.

God made all men free and equal. He gave each life and health and reason and judgment to guide him on his way. He made no distinctions among them and the earth which He created was intended for all alike. And had men only obeyed God's laws and followed God's intentions mankind would have remained in their original purity and happiness and plenty would have been their lot instead of discontent and sin and misery. To look at the past and present history of the world, at the distinctions created and continued among this human family, the oppression, tyranny and authority by the few over the many, the tyrannical and the degradation resulting, followed after and the wretched [illegible] and ignorance and the [illegible] which have been forced upon [illegible] of their fellow kind from their beginning to the present day it almost overwhelms [illegible] and [illegible] equality and almost leads [illegible] to ask how it [illegible] that [illegible] men of mediocre mental endowments [illegible] to surrender those natural rights which God gave them and [illegible] few of their number to usurp them all and to allow their rightful [illegible] under their feet and to trample upon and rob and abuse them as they hitherto have done. This state of things has been going on for six thousand years. And how it has acquired such strength and such confidence that few persons venture to oppose it.

PRIDE AND SELFISHNESS AND WEALTH

stand continual and labor hand for its countenance.

And the people look on and go on as they ever did before. Then deplore its existence and its injustice, but they feel powerless to stay the evil, and their [illegible] adage that their end will never come. Rest in an old saying that the gods first make mad those whom they wish to destroy, and [illegible] saying in this instance may be verified sooner than men suppose; and did they but remember the saying of the wise men of old, that pride goeth before destruction and a haughty spirit before a fall. We, of the present day, can look around and see many [illegible] the sooner or later, and sadly of their victims than they expect, will prove the truth of the above saying. We see pride of birth and pride of [illegible] and [illegible] pride. And the world advances in [illegible] and, as mankind become [illegible] and loving and [illegible] these distinctions will all disappear, and men will find [illegible] they should be [illegible] and [illegible] and achievements by [illegible] would be superiors, [illegible] for real, honest supremacy will begin. At the present time pride and [illegible] rule, and we find the [illegible] possessors strewn with the [illegible] victims [illegible] and [illegible] considered, [illegible] and [illegible] all possible shapes, that while their [illegible] from [illegible] to [illegible] suddenly fall themselves in their turn naked and helpless, not [illegible] which way to turn. And they have

PRIDE AND SELFISHNESS AND WEALTH

that pride goeth [illegible] and a haughty spirit before a fall. They can [illegible] around now to look upon their fellow men as not so unworthy [illegible] if now, [illegible] the hand and treated with respect. They have been deprived by their [illegible] friends, and not one to [illegible] to them. We have seen [illegible] of other things. We have seen men rise suddenly from obscurity and [illegible] their chests and their [illegible] a time hold their heads [illegible] former acquaintances and equals. We have seen their wives and families dressed in costly satins and riding in their [illegible] looking down with [illegible] upon the [illegible] by, [illegible] in [illegible] style and manner [illegible] to their natures, living in [illegible] with the most costly furniture, giving costly parties, and trying to patronize those who came to enjoy their hospitality and, as they thought, to be honored [illegible] and [illegible] we have seen the rich [illegible] magnates, and [illegible] through their neglect and cruelty to those whom they considered their former friends. We need not go far to find [illegible] of a similar kind. If we look around we cannot fail to see plenty of people whose means are small, and which are derived from [illegible] People of this [illegible] scored a few hundred dollars, but will cash out and live [illegible]

PRIDE AND SELFISHNESS AND WEALTH.

They seem to [illegible] with by this [illegible] making of [illegible] the expense [illegible] are [illegible] world wide [illegible] and [illegible] the respect and [illegible] of the world. They imitate the butterfly, and there, after a short [illegible] The [illegible] leaves [illegible] mercies of [illegible] and [illegible] are gone and [illegible] from [illegible] position that [illegible] of them [illegible] ing all their [illegible] go on in the same way, [illegible] foolish ways and [illegible] and vision after vision [illegible] with disappointments and [illegible] and the world moves on, and thousands of [illegible] foolish, take their places, and [illegible] Misery, and sorrow, and disappointment follow in their train, [illegible] a page from oblivion, to make room for [illegible] following [illegible] There is nothing [illegible] pride and a haughty spirit which I must not forget to mention. It is of the men who happens to be preferred to some position of distinction, such as a judgeship, or a cabinet minister. Take the judge, for instance. Before his preferment, [illegible] all a gentleman, even which includes all men alike, and he is friendly and sociable and agreeable. But after his elevation to the bench his whole nature becomes changed. He is

HAUGHTY, AND AUSTERE, AND PROUD,

and looks to a condescension to notice his former associates, who must approach him with reverence and humility. He makes no effort to be friendly, no effort to obtain respect and confidence, and then he goes on to the end; when he lays down his office, which he has not honoured, and retires into private life hated, and shunned, and despised, and he walks the streets alone, and alone he goes down to his humble grave; and his [illegible] and [illegible] are [illegible] so lowly as to do him honour. He lived in [illegible] and [illegible] and [illegible] haughty spirit and died [illegible] he will be until the great day of judgment [illegible] the [illegible] resembling [illegible] the record [illegible] marks for [illegible] perhaps [illegible] not give [illegible] others. [illegible] fortunes which can be [illegible] than the possession of haughtiness and pride. Such a man is obliged to live [illegible] himself, for he is disliked and shunned by his fellow men, for when he has no [illegible] thy and who, in most cases, have no sympathy for him. And so he passes through [illegible] when he dies [illegible] will look back [illegible] and wonder at his own [illegible] the [illegible] and he friendless [illegible] will [illegible] the last down hence.

OTTAWA, [illegible] of Canada, [illegible] Church, about [illegible] present. After devotional [illegible] ed by the Rev. A. B. [illegible] commenced by the election of Mr. [illegible] Thompson, of Toronto, [illegible] and the Rev. A. P. McDiarmid [illegible] secretary. The adoption of the constitution [illegible] prepared by the committee [illegible] The Rev. Mr. Mitchell, of Ottawa, offered an amendment changing the [illegible] to Home Missions from [illegible] to Saturday. The amendment was rejected.

THE WORK OF THE CHURCH

The opening address was delivered by Mr. A. A. Ayer, of Montreal, who spoke for over an hour. At this convention [illegible] whole power and work of the church was in the hands of the delegates. He advised them to build wisely and well. In the past much energy and effort had been [illegible] for want of effective organization. The present, Mr. Ayer said, was [illegible] of encouragement, the future [illegible] be appropriate to [illegible] that they believed, 1st, in the Bible as the only standard of doctrine and [illegible] 2nd, in [illegible] church membership; 3rd, in the baptism of believers only; 4th, in some but New Testament church [illegible] 5th in the independence of [illegible] churches, 6th, in complete [illegible] of church and state [illegible] and 7th the equality of all religious bodies. Alluding to the Jesuit question, Mr. Ayer said

THE [illegible] IN CANADA

would be settled only by the gospel of love and open Bible. If they took his matter up he hoped the resolution would be limited to a statement of facts. After dealing with this [illegible] Mr. Ayer concluded by a reference to Romish aggression. The election of permanent officers for the year [illegible] E. Thompson was elected president; Messrs. Jno. Kay and A. A. Ayer, Montreal; Thos. and C. J. Holman, Toronto, were [illegible] the customary [illegible] Rounds, Brantford, first vice-president; the Rev. AN OHSAWA SENSATION.

Ex-Mayor McGee's Crooked Financial Operations—A Dishonest Lawyer.

OHSAWA, Oct. 18.—The affairs and collapse of the estate, loan and investment business of Mayor Robert McGee of this place is very likely to be a bad affair for the numerous creditors. Already there are $30,000 liabilities known and it is estimated that there are $20,000 more not given or enumerated. As far as can be ascertained the nominal assets are $7000. Where the trust funds are that Lawyer McGee had for investment, and what his clients are going to do about it are questions that are agitating the minds of the townsmen. Mayor McGee's conduct is just as much a puzzle as the disappearance of the funds. He says nothing and gives no information. The debts of this insolvent are principally due to farmers in amounts from $1 to $2000.

McGee was executor for the estate of the late Thomas Kirkland and heirs have given up hope of ever obtaining a cent. Miss Eck, a young lady teaching in Whitby school, loses $2000 through McGee's failure. J. Pascoe, an Ontario county farmer, gave Mayor McGee $1600 to pay off a mortgage on a farm. A search has revealed to Mr. Pascoe that the liability is still unpaid. A brother of Mr. Pascoe placed $1800 in McGee's hands for investment. Now there can be found no trace of the cash or the promised security.

The heaviest creditor is the Kirkland-Thornton estate, in which Principal Kirkland of the Normal School, Toronto, loses from $8000 to $10,000. The money was in McGee's hands for investment and further than this nothing is known as to its whereabouts.

A. Annis, Oshawa, entrusted McGee with $3000 for the discharge of a mortgage. The mortgage is not discharged and Mr. Annis is out $3000. A Miss Bean and her mother lose their life savings on account of the failure.

Mr. C. A. Jones, Mr. McGee's partner in law, had $1200 of his sister's money in the business under the name of Mr. Jones' dissolved partnership with McGee, but it is believed that he was quite innocent of how things were going. In fact, it is said that Jones always imagined McGee to be well fixed. Some fifteen years ago Jones paid McGee $3000 to enter into the firm, and that goes with the rest.

McGee was solicitor for the Dominion Bank, but it is not known how the bank is affected. James Henderson, the lawyer who contributed $1000 to the Hastings college, sent the check to McGee in his role of mayor. McGee had the check passed to his credit in the bank and now Mr. Henderson, the bank and the town are wanting to know who is to pay.

At first the insolvent estate was placed in the hands of Sheriff Paxton, of Whitby, but Wednesday it was transferred to Lawyer J. F. Gladstone of Oshawa.

Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he finally prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine a short time, and was cured.

Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

The Banner.

It was a small but select audience which witnessed the performance of Victoria Vokes and her comedy company in the opera house last night. The entertainment gave pretty fair satisfaction. Though there is nothing in the play to attract, the characters were so well taken that the interest was kept up to the last of interest to the play. Miss Vokes is as versatile and vivacious as ever, and kept her audience engrossed in herself. The other members of the troupe were also good. The scenery of the piece was very pretty, and the costumes [illegible] The illuminations will be superb; an indication of this is the fact that one of the numerous plates for the Christmas edition will cost *three thousand five hundred* dollars. [illegible]

The Toronto *Globe* leads the van—the most progressive and enterprising paper in Canada, and not surpassed for solid merit by any newspaper on the continent. Its Saturday editions, splendid examples of high art journalism, and its special train services, are examples in point. Therefore, when the *Globe* announces that its coming Christmas edition will eclipse all its other brilliant efforts of this kind, we can readily believe that such will be the case. The illustrations will be superb; an indication of this is the fact that one of the numerous plates for the Christmas edition will cost *three thousand five hundred* dollars. This is the price of a good farm, but the *Globe* people know what they are doing; they know the commitmency they serve; they know that the people know a good thing when they see it, and for the very of great things the Christmas *Globe* of 1889 will be a beautiful subject.

At the Baptist Convention in Ottawa there were fully two hundred delegates in attendance. Rev. Messrs. Parker and Bull, and Messrs. Curtis and Graham attended from Peterborough. The board was thankful to report the contributions from the churches and ladies' societies during the past year to be $20,115 leaving a balance on hand of $1,697. ROOKERIES IN A BLAZE.

A BIG SUNDAY AFTERNOON FIRE AT THE CAPITAL.

Nearly an Entire Block in Ashes—Fifty Families Homeless—The Pecuniary Loss Comparatively Small.

OTTAWA, Oct. 21.—A big fire occurred here yesterday. All the dwellings and stores, with one or two exceptions, in the block at Le Breton Flats enclosed by Broad, Sherwood, Ottawa and Queen streets were destroyed. Fifty families are homeless. The buildings fortunately are of a very inferior character and the total loss will not exceed $15,000, partly covered by insurance. The flames were first seen about 5 o'clock yesterday afternoon issuing from a stable owned by Mr. E. Rowland in the rear of Sherwood-street. The entire fire brigade was soon on the spot, but the fire by this time had extended in all directions, licking its way towards the dwelling encircling the block.

When the fire reached the wooden row in Broad-street it was thought nothing could save the Canadian Pacific Railway depot across the street. The firemen, however, succeeded in preventing the fire from spreading to the adjacent property. Most of the buildings were fruit stores, shantymen's hotels, and barber shops, and each sheltered one or more families. The flames were under control at 9.30 but eight streams were kept playing on the ruins.

The principal building destroyed is Blais' Hotel. St. Jean Baptiste Church, an old wooden structure, is badly gutted. Many of the families succeeded in saving their furniture. It is reported that a drunken man in Blais' Hotel perished in the fire but this cannot be confirmed. The fire is supposed to have originated from a spark dropped from a pipe of a drunken man seen lying near Rowland's stable.

Other Fires.

BRANTFORD, Oct. 21.—Saturday night about 9 o'clock a fire broke out in Vivian's livery stable, Dalhousie-street, completely destroying the building. Six horses were burnt and several buggies destroyed. The fire originated by the hostler upsetting a coal oil lamp in the hay loft. The building was owned by J. Stratford, whose loss is about $1800, Vivian's loss is about 1600, insurance not known.

ATLSA CRAIG, Oct. 21.—Robert Horton, a farmer living about a mile east of here, had his barn, outbuildings and contents which consisted of over 1000 bushels of grain and this season's crop of hay entirely consumed. His 6-year-son was also burned to death in the barn.

MANSFIELD, Wis., Oct. 21.—The village of Curtiss, containing between 300 and 300 inhabitants, on the line of the Central Railroad north of here, was burned Friday. The loss is at least $100,000.

ESCANABA, Mich., Oct. 21,—Ten business buildings and a hotel were burned here yesterday. The loss is $100,000.

NEWARK, N. J., Oct. 21.—E. L. Smith & Co's tan bark works were burned Saturday morning. Loss $100,000.

PARIS, Oct. 21.—The Bazaar du Centre at Lemance was burned yesterday. The proprietor and three assistants were burned to death.

Defaulter Dulmage at Minneapolis.

MINNEAPOLIS, Oct. 21.—August Dulmage, wanted by the Canadian Government for stealing $63,000, was located here Saturday by P. A. Phelps, a newspaper man of Rat Portage. Dulmage was Crown timber agent under the Canadian Government, his business being to collect fees for stumpage from big lumbering firms surrounding the Lake-of-the-Woods.

A BAD WRECK.

Two Men Killed and a Large Number Injured.

CONNELLSVILLE, Pa., Oct. 21.—A disastrous wreck in which two men were killed and a large number injured, three quite seriously, occurred Saturday near Confluence, Pa., on the Confluence and Oakland Railroad, a new line to connect with the Baltimore and Ohio at that place. A construction train started out with 200 laborers who were to work near Confluence. Engineer William Thornley was taking the train along at a slow rate of speed when a car in the front jumped the track. The second car contained two men, the foreman and a negro laborer, in the next car were about 100 men, and the third was loaded with rails. When the first car jumped the track the third car crushed into the two front ones and the others piled on top of them. The two men in the second car, Foreman James Fitzpatrick of Wilmington, Del., and James Williams, colored, Snakeville, Pa., were crushed to death and horribly mangled. Most of the laborers in the second car miraculously escaped, only three being injured seriously, although a large number sustained slight cuts and bruises. Of the seriously injured, George Hindbaugh will die. He is hurt internally, and one leg is broken in three places. J. W. Tierney and Brakeman Ira Stearn had their legs broken and were otherwise injured, but will recover. The cause of the accident is not known.

Changed His Mind—The Brute!

PARKERSBURG, W. Va., Oct. 19.—A long anticipated wedding in high Catholic social circles here had a sensational setback yesterday which may result in the death of the bride expectant. G. A. Barger, a young man of wealth and social standing in Wheeling, and Miss Mattie Ross, of equally high position in this city, were to have been married yesterday. The banns had been duly proclaimed from the altar of the Catholic Church and all preparations had been made for the wedding. The bride had provided herself with an elaborate trousseau and had decorated the cathedral for the ceremony.

The young man's business affairs it was known would keep him absent until the last moment, so nothing was thought of his non-arrival. The carriages with the wedding party started from the lady's home, the groom being expected at the altar. The church was thrown open and the bridal party was filing in when the father of the bride was handed a despatch and told to read it before passing into the church. It was from Barger, and said: "I have changed my mind and transferred my affections to another. To-day I have married a lady of this city."

Miss Ross fainted and was with difficulty taken back to her home. She now lies critically ill. The greatest indignation is felt at the occurrence and a warm reception awaits Barger when he shows himself.

A FIENDISH MURDER.

Two Negroes Pour Gasoline Over a Man and Roast Him to Death.

GREENSVILLE, Ala., Oct. 21.—Early yesterday morning a quarrel between a negro helper and a young white man named Roberts, connected with Bark's horse show, resulted in the negro pouring gasoline over Roberts. Another negro touched off the fluid with a lighted lamp, and in an instant Roberts was enveloped in flames. He ran wildly up and down the main street of the town but there was no one awake, and he was literally roasted alive.

NEWS OF THE OLD WORLD

BISMARCK ASSURED THAT RUSSIA WILL NOT PROVOKE WAR.

Pan-Slavists Think the Monarch was Outwitted by the Chancellor—Precautions for the Safety of the Czar at Berlin.

BERLIN, Oct. 21.—The agreeable impression left by the Czar's visit still prevails here. It is now definitely known that Prince Bismarck's persuasive representation succeeded in eliciting from the Czar expressions more friendly to himself and to Germany than the Chancellor expected. Before leaving for Friedrichsruhe Prince Bismarck received several of the leading diplomatic representatives and in conversation referred to the peaceful inclination of the Czar. The Czar, he said, assured him that Russia would not provoke a war, and especially would never begin a war against Germany. The Chancellor believes he succeeded in convincing the Czar that the Triple Alliance and Germany's new relations with England in no wise threaten Russia.

Advices from St. Petersburg refer to the excited alarm of the Panslavists because the Czar has been again outwitted. M. de Giers, whose position is threatened by the growing influence of Gen. Woronsoff Daschkoff, is reported as writing on the margin of a report sent him regarding the Berlin interview; "This wants something—the name of the Russian diplomat who blacked Bismarck's boots." This remark is directly pointed at Daschkoff, who remained here several days after the Czar left and had a long conference each day with either the Chancellor or Count Herbert Bismarck.

The St. Petersburg correspondent of the Cologne Gazette predicts that even if M. de Giers is forced to resign the foreign portfolio and is succeeded by Gen. Woronsoff Daschkoff, the Czar will not long resist anti-German influences. His suspicious nature and susceptibility to suggestions that he is being cozened render him an easy instrument for Panslavist manipulation.

The safe arrival of the Imperial party at Gatschina relieved the official mind here, which could not help being affected by the nervous anxieties pervading the Czar's whole entourage. Count Shouvaloff fortified the Russian embassy. Six Russian artisans especially attached to the Czar's retinue examined the walls, flooring, and furniture of the embassy, and inserted grate bars at the tops and bottoms of the chimneys. Sentries were stationed upon the roof, apparently to prevent explosives being thrown down the flues. The Berlin secret police assisted the Russian detectives as far as the frontier. In accordance with the Czar's desire, the railway bridges at Neustadt, Dirshau, and Marienburg, and all the streets of Dantzic were guarded by troops. Until the moment the Czar left Dantzic even the officials were not allowed to know whether he would board the imperial yacht Derjava or make the journey by railroad. When the train started via the Dirschau line for the frontier, orders were telegraphed to put 50,000 Russian troops in motion to protect the lines.

Emperor William and the Empress arrived at Monza at 10 o'clock Saturday morning. King Humbert and Queen Margaret received them at the station and drove with them to the Castle, an escort of cavalry and troops lining the route. The Emperor will arrive at Constantinople Nov. 2.

Minister von Boetticher will read the speech from the throne in the Reichstag tomorrow. The speech will allude to the improved prospect of continued peace unmenaced on any side, to the strengthened ties uniting Germany with friendly powers; to the settlement of the Wohlgemuth difficulty, leading to a better entente with Switzerland and to the progress of internal prosperity.

Long Live the King.

LISBON, Oct. 21.—The Premier waited upon Don Carlos Saturday and presented the resignations of the Cabinet, which the King declined to accept. The Queen was present when the King died, and kissed her husband's corpse. She then embraced Don Carlos, saying: "I bless you as monarch. I hope you will prove as good a King as you have always been a son." The new King has issued a proclamation in which he promises a faithful observance of the political institutions of the country, and says he will follow the example of his father and try to merit the affection of the people. He swears to maintain the Catholic religion, the constitutional laws, and the integrity of the kingdom. He declares it to be his pleasure that the present Ministers continue in office.

The Tenants' Defence League.

DUBLIN, Oct. 21.—A circular has been sent to the branches of the National League in Tipperary inviting them to send delegates to the convention of the Tenants' Defence League at Thurles. All the priests of the district have been invited to attend.

2000 Miners on Strike.

LONDON, Oct. 21.—Three thousand of Lord Londonderry's miners at the Silksworth Colliery, Durham, have struck.

MCDONALD ARRAIGNED.

He Takes the Matter Coolly but is Indignant at the Verdict.

ST. JOHN, Oct. 21.—Saturday afternoon Wm. J. McDonald was brought before Police Magistrate Ritchie and formally charged with the murder of Mrs. MacRae. During the reading of the information against him, McDonald did not appear the least excited and took the matter quite coolly. He was remanded to jail until Monday morning when his preliminary examination will begin. The verdict of the Coronor's jury was quite a surprise to him and when informed of it Saturday morning he became indignant at such a charge against him. The verdict is undoubtedly quite in accord with public sentiment here.

The Jealous Garafraxan Sentenced.

GUELPH, Oct. 21.—Patrick Haley, who was tried before Judge Drew Friday and was found guilty of stabbing Miss Ellis of Garafraxa, was sentenced Saturday to three years in the penitentiary.

THE WORLD'S SERIES.

Crane Pitches the Giants to Victory in the Second Game.

NEW YORK, Oct. 21.—The second game in the world's series between the Giants and the Grooms was played before a tremendous crowd at Washington Park, Brooklyn Saturday. The Giants redeemed themselves and won rather easily, outbatting and outfielding their rivals: Crane was wild at first, but did remarkable work after the second inning. Attendance, 16,173. Score:

A Feud Ends Like a Romance

CINCINNATI, Oct. 21.—Saturday morning at Pine Spring, Rowan County, Ky., Frank Tolliver was married to Grace Martin. The bride and bride groom respectively are sister and brother of the leaders of the opposing factions that for several years have been murdering each other in that county. The wedding seems to be a sort of treaty of

THE NEWS IN LONDON.

POLITICS AND MUSIC HALLS DIVIDE PUBLIC ATTENTION.

The By-Elections—The Sphinx of Hawarden—Home Rule Agitation in Wales—The Music Halls Get Their Licenses.

NEW YORK, Oct. 21.—Mr. Smalley cables to The Tribune from London: There can be no doubt that the series of Home Rule victories, Peterboro, Elgin and North Bucks, have produced some change in the situation. Precisely what that change is cannot be known till the result of the conference at Hawarden is known. What people hoped was that these electoral triumphs would induce Mr. Gladstone to show his hand, to take his party and the public into his confidence, and to say plainly what Home Rule now means and what the next Home Rule bill will and will not propose. But he will not. He still prefers the role of the Great Mystery Man, and all that Sir William Harcourt can do is once again to appeal to the party to trust their great leader. Well, Mr. Gladstone probably knows best. If he wins by-elections by persevering in this often-criticised policy of silence and secrecy, why should he not win the general election when it comes?

One other thing has been determined, if the hints let fall by the faithful may be trusted: a fresh attack will be made on the Government at the opening of the session by the combined forces of the Opposition. But the opening of the session is still a long way off, and much may happen before this and next February. Nor can any such attack overcome the Government's majority, which still exceeds eighty.

There has been much beating of the big drum throughout the past week on both sides. Sir William Harcourt is an unrivalled performer on this instrument, but Mr. Chamberlain's style also is muscular, and Mr. Chamberlain has been expounding the Unionist doctrine of defeat. That they have been defeated even he admits, and even he can find no better excuse for defeat than that the Gladstonians did not fight fair. His chargrin appears in astounding accusations against Mr. Gladstone.

Personalities are, in fact, the order of the day. Virtuous Mr. Labouchere calls Mr. Chamberlain a traitor, adding, in his elegant way, that he might, like Judas, go hang himself if he liked. Mr. Matthews, who holds one of the most dignified offices in the Cabinet, declares that Mr. Gladstone's authority over his party is almost gone, and compares his colleagues to vipers in a jar, each striving to get his head uppermost. Sir Robert Peel is so angry because Mr. Ritchie speaks against him at Brighton that he calls himself a pompous ass, which is no more descriptive than civil. This Brighton contest is lively. Sir Robert Peel is a capital candidate in the old style who can speak and can chaff. He has none too many scruples, but so much personal popularity that some of his friends believe that he can overcome the Tory majority of 3000. No other election occurring at the same moment, both sides are sending their forces into Brighton, and the spectacle, unusual in England, may be seen of two journalists addressing audiences—none other than our friends Mr. Sala and Mr. Yates; both good speakers.

Perhaps not less really important than this loud talk on the platforms, or even the quiet talk at Hawarden, are the proceedings of the Welsh National Council. In Wales, as in Scotland—perhaps more than in Scotland—there is a growing party which wants something which it calls Home Rule. Its program includes Disestablishment, fundamental changes in the Land laws and the organization of a Welsh party in Parliament. Mr. Gladstone has roused a spirit which will not down at his bidding. Whether it bodes any good to the Empire is a matter of opinion.

With all this animation in mere politics, the music-hall question is one which has really interested London most deeply. The Licensing Committee of the County Council has been inquiring into the performances of music halls, one Mr. McDougall being deputed to visit the halls and report whether the proceedings there were or were not to his mind moral and proper. On the strength of his opinion the committee refused licenses to sundry halls. Appeals were taken to the County Council itself. That body met in full session at the Guildhall, Lord Rosebery, though ill, presiding, so important did he deem the occasion and so general was the feeling roused. There was high debate. No less a person than Sir Charles Russell appeared as advocate for the Trocadero, one of the halls which shocked Mr. McDougall and which Mr. McDougall's committee resolved to close. Mr. Poland, Q. C., appeared for the Aquarium, another concern doomed to death by Mr. McDougall because women of bad character were to be found among the audience. The council, by majorities of three to one, overruled its committee and granted licenses. Eloquent advocacy had something to do with this return to good sense.

M. Blaine's Pan-American Congress attracts as yet not much attention; or, at any rate, it is not much discussed. "We have of late," observed The Times sagaciously, "seen too many conferences and congresses to expect very much from what so often prove to be frivolous assemblies with solemn titles."

Balfour's Explanation.

MANCHESTER, Oct. 21.—Mr. Balfour, Chief Secretary for Ireland, in a speech here Saturday night, denied that Home Rule was the real motive power in deciding the recent elections. The Gladstonian successes, he declared, were due to Socialist agitation. The Irish tenants wanted Home Rule in order to appropriate somebody's property. Mr. Gladstone might not look beyond Home Rule, but Mr. Labouchere and others cared less for Home Rule than for social spoliation. The Gladstonians were trying to debauch the Nation and destroy the Union. He could not believe that permanent power would be secured by a party that outraged the fundamental principles upon which every civilized society rested.

Fatal Boiler Explosion.

ANDERSON, Ind., Oct. 21.—The boiler in Walton's sawmill exploded Saturday. The mill was torn to atoms and pieces of the boiler were scattered over three squares of the city. Horace Kuhn and Walter Mingle were killed, and William Hunsler and Sam Cook badly injured. E. C. Barlow, William Stanley, John Biddle, and Perry Danny were severely hurt.

The Red River Opened For Trade.

WASHINGTON, Oct. 21.—The Secretary of State has been informed that the Lon Hoi or Red river of China has been opened for trade, and that foreign goods imported by this route will be liable to only 70 per cent. of the regular coast import duties.

The Weldon Extradition Bill.

OTTAWA, Oct. 21.—The report that the Imperial Government has refused to assent to the Weldon Extradition Bill passed last session is discredited in official circles. The story originated from an English-speaking reporter, who furnished it to the French press in Montreal before sending it to the American newspapers.

DEATH OF HON. JAMES TURNER.

A Busy and Successful Career Closed Yesterday at Highfield.

HAMILTON, Oct. 21.—Hon. James Turner, Senator died at his residence, Highfield, in Hamilton yesterday.

[James Turner was born in Glasgow in 1826 and settled in Hamilton about 1848, since which time he has remained in business there. He and his late brother John Turner went into the wholesale grocery business and laid the foundation of one of the most successful and most widely known houses in Canada. Mr. Turner was connected with many of the railway and other enterprises of the Ambitious City, including her leading financial institutions. Mr. Turner was a man of genial ways, and had a host of warm personal friends. Hamilton was once known far and wide for her merchant princes, men of the time and stamp of Isaac Buchanan, Archibald Kerr, the McInnesses, John Brown, Mr. McLaren, Mr. Jason; and Senator Turner was one of the few remaining links connecting those business men of Hamilton of forty years ago with the present. He was considerable of a sportsman and enjoyed duck shooting at Long Point. His thin, tall, well-known figure will be missed in Hamilton for many a day. He was a strong Conservative in politics and a great friend and admirer of Sir John Macdonald. He leaves a brother, Mr. Alex. Turner, and several sons, all more or less identified with the business].

SACRAMENTO, Oct. 21.—Mrs. Louisa Smith, wife of a hack driver, rushed from her house Saturday morning with a bullet wound under her ear, and said her husband had shot her. The husband, Joseph Smits, was found in the house dead. It was first supposed he had shot his wife and then committed suicide, but examination showed the wound was in the back of his head in such a place as to make it almost impossible for him to inflict it himself. It was learned that Philip Gebhard had been in Mrs. Smith's company recently and that the men had had trouble. It is believed Gebhard was a party to the shooting, and the police are looking for him.

A Conductor Murdered.

DENISON, Tex., Oct. 21.—An unknown man brutally murdered Conductor Brown of the Houston and Texas Railroad because the conductor had put him off the train for refusing to pay his fare. Bloodhounds are on the murderer's track.

TORONTO TOPICS.

A Verdict of Not Guilty in the Hicks Murder Trial—The Baltic Outrage

TORONTO, Oct. 21.—In the Hicks murder trial on Saturday the jury after two hours' deliberation returned a verdict of not guilty and the prisoners were discharged.

The case of Dr. Wilson Washington was taken up by the Ontario Medical Council, Saturday morning. It was charged that Dr. Washington, by the use of handbills and advertising, was guilty of unprofessional conduct, and evidence to this effect was given by Drs. Covernton, Thorburn and Cameron. On the other hand, W. H. Storey of Acton testified that Dr. Washington had cured him in six weeks of chronic catarrh. The evidence taken will be laid before the council.

Hon. G. W. Ross, Minister of Education for Ontario, on Saturday issued a circular of "Instructions to Teachers and Trustees of French-English schools." The minister opens by saying that there is room for improvement with respect to the study of English—particularly in the colloquial use thereof. Appended are directions that the teacher shall not only conduct in the English language every exercise and recitation from the prescribed English text books, but communications between teacher and pupil in matters of discipline, and the management of the school shall be in English, except so far as this is impracticable by reason of the pupil not understanding English.

Mr. Aylesworth, for Russell and Tripp in jail at Owen Sound on a charge of manslaughter in connection with the "tar-and-feather" outrage on the steamer Baltic, renewed application for bail for these prisoners before Mr. Justice Ferguson at Osgoode Hall on Saturday. His Lordship in view of the fact that Chief Justice Galt had already refused a similar application, the serious nature of the crime and the near approach of trial, the assizes at Owen Sound commencing Nov. 5, refused bail and dismissed the application.

The writ for the election in West Lambton to fill the vacancy in the Ontario Legislature caused by the death of the late Hon. Timothy Blair Pardee has been issued. The nomination takes place on Nov. 11, and the election on Nov. 18.

The Government has settled the question of the vacancy in the chair of metaphysics in the Provincial University by appointing both the leading candidates. Professor James Mark Baldwin, Ph.D., (Princeton) is to enter immediately on the duties of the Professorship held by the late Professor Young. Mr. J. G. Hume (Toronto) is to be allowed two years to complete his preparatory studies, and is then to enter on the duties of the conjoint Professorship, the departments of Logic, Metaphysics and Ethics being apportioned in whatever way shall then seem most desirable in view of their special aptitudes as teachers and otherwise.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is about as evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realising that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

AT LAST!

A Wonderful Vegetable Discovery That Removes the Terrible Results of Overwork.

A True Invigorator.

Weakness and prostration of the nervous system surely follow that overwork and worry which brings sorrow and suffering to so many Canadian homes. The terrible results of nervous weakness, are seen on every hand. Pains in the back, poor and unrefreshing sleep, lack of appetite dyspepsia, and lost energy and strength, are the first symptoms of more serious and dangerous trouble. This is the way that Paralysis, Paresis and Insanity begin. Do not delay a moment longer, for some time it will be too late to regain your lost health and vitality. Use Paine's Celery Compound now, and the dull eyes will regain their brilliancy, the cheeks will grow rosy, the brain become clear, the nerves strong and steady, your sleep restful and refreshing, your life good, and health and happiness will take the place of misery and suffering.

A. Sabiston, the well known lithographer of Montreal, writes: "In the summer of 1888 I had to work very hard, and was troubled considerably with insomnia (sleeplessness). I resolved to try your Paine's Celery Compound, and after taking the contents of two bottles, felt like a new man. A good night's rest gave me strength for the duties of the day, and instead of starting out to business in the morning feeling as if I had completed a day's work instead of being about to commence one I started out in good spirits, feeling fresh and strong. My wife and various friends, to whom I recommended the medicine, have been benefited greatly, and in fact 'Paine's Celery Compound is a household word in our family."

CENTRAL CANADA LOAN AND SAVINGS COMPANY.

We publish in another place in this issue an interim report of the directors of the Central Canada Loan and Savings Company, together with a statement of assets and liabilities, as at the 30th of Sept. for the purpose of showing the position of the company, now that the purchase of the mortgages of the Peterborough Real Estate Investment Company has been fully carried out. At the special general meeting of the shareholders held on September 25th, at which the above mentioned purchase was authorized, a further issue of one million dollars of new capital was also authorized all of which has been taken up, making the sub-scribed capital of $2,000,000, *eight hundred thousand dollars of which is* paid up. The reserve fund now stands at $140,000, and the invested funds of the company have reached the handsome sum of $3,530,342.89. It is safe to say that the acquisition of the mortgages of the Peterborough Company, after they have been for the past two years, under the careful supervision and inspection of the managers of the company that has now purchased them, will be a source of strength and profit to the Company. By this purchase the Central Canada Loan and Savings Company has, in the 6th year of its existence, attained a position which places it side by side with many of our financial institutions, which have had many years the start in the race. This rate of progress, we may expect to see maintained, having in view the careful and conservative manner in which its business is conducted by the directors. All these gentlemen are possessed of ample private means, in almost every case, acquired, not by inheritance, but by dint of personal effort and the application of the energy and prudential management, that they now bring to the management of the affirs of the Central Canada.

Canadian Pacific Fast Trains.

The Trip from Montreal to Vancouver to be Made in 90 Hours.

MONTREAL, Oct. 16.—President Van Horne, of the Canadian Pacific Railway, referring to a despatch from Bangor, which appeared in the New York papers the other day, to the effect that the Canadian Pacific were building fourteen locomotives in order to carry an East India mail train across the continent in four days, the same to be started as soon as weather conditions in, said yesterday:—"We have always contemplated running fast trains as soon as our Pacific steamship service is complete." When asked what would be the real time, the President prepared the following: "Special steamship mail trains between Vancouver and Montreal, 90 hours; Vancouver and Quebec, 95 hours; Vancouver and St. Johns, N.B., 105 hours; Vancouver and Halifax, N.S., 112 hours." The fastest trains at the present time make the run from Montreal to Vancouver in 130 hours and 154 from Halifax.

Work and the Workers.

In a speech at the opening of the American Institute fair last week, Mr. L. E. Chittenden, formerly Register of the Treasury, said that what are called the learned professions were never before so overcrowded as now, and that, therefore, the chances of success in them have become painfully small. There are ten lawyers and doctors and ministers, Mr. Chittenden remarked, where there is adequate support for one. Accordingly, he advised young men to turn away from these professions and hasten to get into "the path of educated mechanical, productive labor."

The same wail over the overcrowding of the professions is heard all over Europe, but more particularly in Germany and England. "In every profession," says the *Spectator*, "the young men are more and more disappointed, competition grows even keener, and the numbers who admit that they make absolutely nothing in becoming bewildering." And yet "the rush caused by the enormously increased numbers of the educated has hardly begun."

There is nothing new in this cry of alarm. It has been heard for generations even in this country, though perhaps, and probably, the number of professional men, of doctors, lawyers, and ministers, is now greater than ever before. Yet the churches, so far as ministers are concerned, complain of an insufficient supply, at least, of ability. Without exception they use every means to invite young men into the sacred profession by giving them free instruction in divinity and by supporting them during its progress. Hence, there is no justification for talking about the overcrowding of the ministry in this country. Doubtless the chaff exceeds the wheat in abundance, but so also is it in all walks of life. The rule is mediocrity, the exception superiority. In no profession and in no department of labor is the supply of really able, efficient, and competent men greater than the demand. There is always room at the top; but unfortunately the mass of the race can never get above the lower of the lowest planes. *N. Y. Sun.*

Partiean Plug Cut

is not a "cheap" tobacco; it is manufactured from the finest tobaccos procurable, and is placed on the market not for a day or a year but for "all time." Those who have tried it pronounce it a remarkably fine, cool and sweet smoking tobacco. As its merits become known, the demand increases. What Pianos Cost.

One of the most profound mysteries in the history of every day life in America is the cost of a piano. Apparently no two men ever pay the same sum for pianos which are similar in scheduled price and every detail of workmanship, and the manner in which prices are scaled down would astonish the manager of an English dry goods house. Grand pianos, which appear in the catalogue to cost $1,500, can be had at the ware rooms for about $1,300, and, if the purchaser says he is a professional musician, for $100 or $200 less. Then there are enormous discounts for cash, which bring the price down to about $900; and, after this, if the purchaser fights vigilantly, he will, in all likelihood, be able to throw off two or three commissions, so that the price would come to him at $500, or even below that sum. The inference is that there must be a very large profit on pianos when they are sold at the catalogued price—if they ever are. The expenses of piano ware houses in New York should, by all odds, be very great; for nearly all of the most eligible sites of Fifth avenue are occupied by firms of piano makers.

The writer, by the way, recently saw a remarkable product of the skill of piano makers, in the shape of an instrument which was built to harmonize with the music room of a magnificent house which a well known millionaire has just finished on Fifty-seventh street. The room is oval in shape, and so is the piano. The whole room is magnificently fitted out with bass wood, holly and white oak, and these woods were used in the manufacture of the piano case. All of the carvings and decorations of the room, which are exquisite, appeared in miniature on the piano case, and even the stool and legs were similar to the general spirit of the apartment. The cost of the case alone was $8,000. It indicates one way of spending a large income.—Once a Week.

Vinegar Injurious.

It is the general belief that vinegar is wholesome and a necessary adjunct to the diet of man. Occasionally, also, one hears of it being used daily in quite large quantities as a remedy for obesity. As a matter of fact, this acid might well be dispensed with altogether; and, certainly, if used at all, it should be with caution. As for its being efficacious as a flesh reducer, *it is about as much so as* typhoid fever or any severe disease, for it acts simply as a debilitator, and impoverishes the system. Several cases of death from its use in small glassfuls daily are on record. A little good vinegar is not likely to do any harm, and when rightly used it seems to favor the digestion of certain foods. But, without doubt, as it is generally used it does much more harm than good, and lemon juice would be far better. Even a moderately excessive use of vinegar causes intestinal irregularity, which may show itself by either constipation or diarrhœa, also flatulency, etc. One writer considers it capable of inducing cough, flushing of the head and watery eyes. When used very intemperately, it produces blood changes, which may become immediately dangerous; if not so, the decline in health is but certain. Besides using vinegar with caution, that used should be selected with exceeding care. Vinegar made from apples is very good, but not so good as that made from grapes. The latter is rather more expensive, but the chances are it will eventually be sold as cheap, and largely displace cider vinegar.—Boston Herald.

The Regular Way.

One evening, a few years ago, the late Elijah M. Haines, of Illinois, was called upon to preside at a meeting of lawyers assembled in Springfield for the purpose of considering the best means of passing a bill then pending in the legislature. Mr. Haines, on taking the chair, explained the purpose of the meeting and suggested what he thought would be the best way to insure the bill's passage. Interrupting him, a gentleman in one of the rear seats rose and said:

"By the way, Mr. Chairman, if I may make a suggestion right here"——

"The gentleman's suggestion is a very good one," said the keen chairman.

"How do you know?" asked the gentleman, a little miffed. "I haven't made it yet."

"Oh," replied Mr. Haines, "I thought you said 'buy the way,' and I am sure that is the quickest and easiest means of obtaining a way to pass a bill."—Washington Post.

Better Than Clubbing.

Public school children have a very kindly feeling for the policeman who helps them across crowded New York thoroughfares. And during the summer vacation they do not forget him. The other day two east side youngsters were sent on an errand to the west side, and they came up to the corner of Broadway where Jerry had been on duty when school was in. They were distressed to find another officer on duty there.

"Where's Jerry? Is he sick?" asked the elder of the children.

"No; he's workin' two blocks up. Ye kin see him."

They ran up Broadway and into Jerry's arms.

"Oh! we thought you were sick, Jerry, when you were not at the old place."

"O, ye durlints!" exclaimed the policeman with a grateful smile, as he swung up his hand under a horse's nose and thus made a way for the children.—Epoch.

The American Blarney Stone.

Many years ago, at the celebration of the landing of the Pilgrims in New York city, much to Archbishop Hughes' surprise he was invited to be one of the guests, and perhaps to their surprise also he accepted. Among those who spoke on that occasion there was not lacking a sly dab at the church, which forms a part of the proceedings—but all in good fellowship. Finally the archbishop was called upon to respond to a toast, which he did in his usual happy manner, and ended by proposing "Plymouth Rock, the Blarney stone of America." It was received with shouts and cheers, and was the best bit of the evening.—Boston Transcript.

To the Public.

Our aim has been and will continue to be to give the consumer the highest grade of goods consistent with prices charged. We do not manufacture so-called cheap cigars; fine goods are our specialty. Purchasing only the best of tobaccos, irrespective of price, we are in a position to manufacture as fine a class of goods as can be obtained anywhere; Havana not excepted. Insist upon having our well known brands, "Cabis," "El Padre" "Mange," and "Maire E Hijo," and thereby obtain full value for your money. The immense sums expended in introducing our goods, the exceptionally fine quality of tobacco used in their manufacture, and the labor of nearly half a century should convince the most skeptical that the quality of same will not be allowed to deteriorate. me

Day and Night

During an acute attack of Bronchitis, a ceaseless tickling in the throat, and an exhausting, dry, hacking cough, afflict the sufferer. Sleep is banished, and great prostration follows. This disease is also attended with Hoarseness, and sometimes Loss of Voice. It is liable to become chronic, involve the lungs, and terminate fatally. Ayer's Cherry Pectoral affords speedy relief and cure in cases of Bronchitis. It controls the disposition to cough, and induces refreshing sleep.

I have been a practicing physician for twenty-four years, and, for the past twelve, have suffered from annual attacks of Bronchitis. After exhausting all the usual remedies

Without Relief,

I tried Ayer's Cherry Pectoral. It helped me immediately, and effected a speedy cure.—G. Stovall, M. D., Carrollton, Miss.

Ayer's Cherry Pectoral is decidedly the best remedy, within my knowledge, for chronic Bronchitis, and all lung diseases. —M. A. Rust, M. D., South Paris, Me.

I was attacked, last winter, with a severe Cold, which, from exposure, grew worse and finally settled on my Lungs. By night sweats I was reduced almost to a skeleton. My Cough was incessant, and I frequently spit blood. My physician told me to give up business, or I would not live a month. After taking various remedies without relief, I was finally

Cured By Using

two bottles of Ayer's Cherry Pectoral. I am now in perfect health, and able to resume business, after having been pronounced incurable with Consumption.—S. P. Henderson, Sailsburgh, Penn.

For years I was in a decline. I had weak lungs, and suffered from Bronchitis and Catarrh. Ayer's Cherry Pectoral restored me to health, and I have been for a long time comparatively vigorous. In case of a sudden cold I always resort to the Pectoral, and find speedy relief.—Edward E. Curtis, Rutland, Vt.

Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he finally prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine a short time, and was cured. —Ernest Colton, Logansport, Ind.

"Fall" in Earnest.
Last night's sharp frost loosened the joints of the leaves, and to-day they are falling in yellow showers. In some parts the walks are covered to the depth of several inches, and the accumulated leaves are a positive hindrance to locomotion. Hadn't Terry better get out his snow plow and clear the walks of the leaf drifts?

The College a Success.
There is no better proof of the wide reputation that the Peterborough Business College has earned, than the fact that during the past three months students have entered from the following distant points:—Chicago, Montreal, Chesley, London, Mitchell, Sutton West besides the numbers who have entered from places not so remote.

About Situations.
Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. No other institution can show as good a record as this. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

The Singers Entertained.
The choir of the George Street Methodist Church assembled at the residence of Mrs. *Lousley, London street*, Friday evening and spent a pleasant social time. Refreshments and literary and musical contributions helped pass the time away. Mrs. Lousley was tendered a hearty vote of thanks by the young people of the choir.

Defective Walk.
A subscriber asks the EXAMINER to call Inspector Pope's attention to the sadly dilapidated condition of the walk on Simcoe street, between Reid and Downie streets. There are many broken planks, and several dangerous holes, all the more dangerous now that they are concealed by the leaves. Every day there is danger of injury to the limbs of pedestrians and a jury won't hesitate to award damages, when corporate neglect can be proven.

Wedding Presents.
The season for a boom in the matrimonial market is at hand, and, of course, wedding presents are in demand. One of the best places to procure them is at the Peterborough Bookstore. Here is to be found at moderate prices a splendid stock of articles suitable for wedding presents. Books (*editions de luxe*, in beautiful bindings), Family Bibles, Plush Goods in great variety, Manicure Sets, Ladies' Companions, Dressing Cases, Curling Tongs (with lamps) in cases, Writing Desks, Escritoires, Gold Pens, Pencils, etc., etc. A magnificent stock of these goods, all suitable for bridal gifts, at very reasonable prices, at the Peterborough Bookstore.

Obituary.
The EXAMINER receives with regret the intelligence of the death at Hillsboro, Colorado, of Clarus, daughter of Mr. Chas. Whatley, formerly of Douro. The deceased young lady was 21 years of age, and last December removed with her father to Colorado. About three weeks since she was prostrated with an attack of erysipelas, whose fatal termination closed her earthly career. The many friends of the family in Douro will sympathize with them in their affliction.

M. B. KIDD has the very best tea in Peterborough for the money. dw

Read This.
Those who wish to partake of something very fine in the shape of a cup of tea should try W. J. Morrow's direct importations. Why is it farmers are giving up buying from pedlars and tea men? Simply because they can buy tea from ten to fifteen cents per lb. cheaper from us, as it does not pass through so many hands, owing to us importing direct. We are offering an extra Japan at 25c., a beautiful blend of Black at 40c., and all other lines away down to 5 lbs and 6 lbs for $1.00. W. J. MORROW, 340 Opera House Block, George street. dw

Dust! Dust!
The dust is a terrible nuisance. It lies inches deep on several streets, and the wind seizes it in bucketsful and dashes it in the faces of pedestrians, into open windows and doors. In some places of the town the dwellers live in dust, breathe dust, and to such an extent that they feel as if they were gradually undergoing the primal sentence of returning to dust. The watering cart would be a blessed boon—not only restoring personal comfort, but putting a stop to damage to property. Will the authorities see that the usual terry-tory is covered by the street sprinklers?

The Hunters Home.
The first hunting party to return from the north was Mr. T. Fitzgerald's, which arrived in town this afternoon. The seven members of the party were well pleased with their two weeks' outing, and returned with bronzed and bearded faces, invigorated constitutions, and five deer, besides some smaller game and fish. They report game plentiful, there being an unusually large number of fawns. The deer are very shy, however, and hunters are not meeting with such success as they sometimes do. Mr. Fitzgerald's party shot seven deer, a quantity of partridge and ducks, and hooked besides over 250 fine salmon. Mr. R. M. Roy took some views which he will shortly exhibit. The other parties from town are expected home this week.

A Narrow Escape.
Two members of Mr. Geo. Fitzgerald's hunting party had narrow escapes from drowning in Gull lake. The day they arrived the lake was very rough, and as the canoes were all loaded with camping material crossing the water was a dangerous experiment. Jack Clancy and Murphy, the cook, were swamped; their canoe sank under them and their rifles and other heavy utensils were lost. The men themselves were in danger of drowning as their canoe was a considerable distance away from the others. Their companions came up just in time to save Clancy, who would have been drowned in a few moments more. The water was so rough the struggling men could not be taken into the canoes, but had to be towed ashore. Clancy nearly perished with exhaustion and cold, but Murphy escaped more fortunately. It was a close call for both parties.

A Mysterious Discovery.
While Waterworks workmen were excavating a trench on Bethune street, at a depth of about five feet, they came upon a lead plate containing an inscription, roughly engraved, in an unknown tongue, though in the English characters. Carefully copied, it appears thus:

· · ·ify · ouw · antat · ip t · or on · po · ofte · ayo · umu · stbu · ylta · thawl · eyb · ros · te · ank · re · 3 · 7 · 8 · go · org · est · re · et.

It is a great puzzle to the oldest inhabitant, as well as the most learned men in town, who can make neither head nor tail of it. At present it is idle to speculate upon its origin or meaning. A photographic copy has been made of it, by Sproule, which will be sent to day to Dr. Daniel Wilson, President of University College, Toronto, whose antiquarian researches may have furnished him with a key to the mystery.

Church Chimes.

The musical services at St. Paul's Church on Sunday, as they always are under Mr. J. S. Parker's conductorship, were particularly interesting. The anthems were well selected and rendered in the usual excellent style by the choir. In the evening Mrs. W. A. Sanderson took the solo part. The previous Sunday the solo was sung by Miss Lillie Dixon. Both singers rendered their parts in excellent voice.

In the absence of Rev. S. J. Shorey in Toronto, the pulpit of the Charlotte street church was occupied Sunday morning by Rev. Mr. Leitch, and in the evening by Rev. Mr. Johnston, of Lakefield.

Yesterday at St. John's Church the services were conducted with reference to the claims of Sunday school work, the bishop of the diocese having appointed Sunday as a day of intercession for Sunday schools. In the morning Rev. C. B. Kenrick preached the sermon specially to Sunday school workers. He gave a most practical and sensible address. He pointed out the discouragements, which were incidental to the work, over the apparent lack of success. But they were not to be cast down. Our blessed Lord, humanly speaking, had many discouragements; for all His trials and privation there were comparatively trifling visible results. So the Sunday school teacher met with discouragement and depression. But God did not demand success at their hands. He only demanded a loyal performance of duty, Himself looking after the results. No good, honest, faithful, loyal work could be lost. If we did our duty faithfully—if we did our best, we could confidently leave results with God. The importance of teachers thoroughly preparing their lessons, of visiting pupils in their homes, and of taking a personal interest in them, was insisted on. No teacher could listen to the address without being strengthened, encouraged, and made more fit for the work.

The Toronto *Globe* says:—The eighteenth anniversary services of the Sherbourne Street Methodist Church were held Sunday and were attended by crowded congregations both morning and evening. Rev. S. J. Shorey, of Peterborough, who was the first pastor of the church occupied the pulpit at both services, and his discourses were thoughtful and admirably arranged. The evening sermon was a strong assertion of the view that no system of church government, no church policy, was entitled to survive after it had outgrown its adaptability to the times. The great work of the church was to save souls, and the policy of the church ought to be fashioned in sympathy with the changing conditions of civilization so as best to achieve that end. There was a special musical service in the evening by the church's excellent choir.

The new Presbyterian church at Omemee was dedicated Sunday. This evening a tea meeting is to be held, at which Rev. A. Bell, of Peterborough, Dr. McTavish, of Toronto, and others are to speak.

Personal.

Mr. Wm. Armstrong, of Otonabee, who was injured in the runaway accident the other day, is recovering.

Mr. M. A. Jamieson, of Hespeler, is in town for a week or so.

Mrs. David Lemay, of Watertown, N.Y., is visiting her daughter, Mrs. John Hackett.

Mr. Thos. Chambers, of Winnipeg, is in town. Mr. Chambers' name has been brought prominently before the public not only as being the only living member of the Peterborough town council of the year 1857, when the old market building was erected. Mr. Chambers still looks hale and hearty.

Central Canada Loan and Savings Company.

Interim Report of the Directors.

The directors herewith submit a statement of the assets and liabilities as at the 30th September, 1889, showing the position of the Company after the completion of the agreement for the purchase and transfer of the assets of the Peterborough Real Estate Investment Company, as authorised at the special general meeting of shareholders, on the 25th of September.

The $1,000,000, (£205,479 9 0) of new stock authorised to be issued at the same meeting has all been taken up by the shareholders of the Peterborough company, and 20 per cent. paid thereon, together with 25 per cent. premium upon the amount so paid.

It will be observed by reference to the statement, that the subscribed capital of the company has now been increased to $2,000,000, £410 958 18 0) and the paid up capital to $800,000, (£164,383 11 3); the reserve fund has also been increased by the premium received on new stock to $140,000, (£28,767 2 6) and it is anticipated will be still further increased to $155,000, (£31.849 6 4) from the profits of the current year.

The directors feel they would have been justified, after the searching investigation to which the securities of the Peterborough company have been subjected, in making a farther addition of at least $25,000, (£5,137 0 0) to the reserve fund, from the reserve and contingent fund of that company, but to be quite on the safe side it has, in the meantime, been placed at the credit of profit and loss account, which now stands at $29 260.80, (£6,012 9 9).

It is very gratifying that such a large proportion of the shareholders of the Peterborough company have shown their confidence in the securities of their company, and have continued their interest with us by accepting the shares of this company in payment of their stock.

The additional security to debenture holders and increased earning power that must result from this consolidation of the interests of the two companies will, it is fully expected, be highly beneficial and satisfactory to the shareholders and debenture holders of both companies.

Respectfully submitted.
GEO. A. COX,
President.

The Soldiers' Sermon.

Annual Address to the Volunteers by Rev. J. C. Davidson—An Impressive Service at St. John's Church.

The annual church parade of the 57th Battalion, Peterborough Rangers, was held Sunday afternoon to St. John's Church. The gallant red coats presented a fine soldierly appearance as they marched down George and Hunter streets to the inspiring music of the Battalion band. The populace, as usual, turned out in large numbers to witness the parade, and only a small portion of the public who sought admittance to the church were able to gratify their desire. St. John's never, probably, held more people than were within its four walls Sunday afternoon, and beneath the Union Jack, which floated proudly from the tower. The general congregation was composed principally of ladies.

The service was conducted by Rev. Mr. Kenrick. Printed orders of service were distributed through the congregation, which enabled members of other denominations present to take an intelligent part in the services. The hymns were selected with special reference to the occasion, and the excellent musical service of St. John's was enhanced by the band leading the singing.

THE SERMON.

Rev. J. C. Davidson preached the sermon to the volunteers, taking for his text St. Matt., xxii, 21.

"Render therefore unto Cæsar the things which are Cæsar's, and unto God the things that are God's."

The sermon was concise, earnest and impressive. The reverend speaker first pointed out that he was an honorable man who fulfilled all the claims made on him—not only financially but the claims of home, and God, and country. Though apparently it was a hard task to be continually struggling to meet these claims, yet it was the daily discharge of these duties that made a useful, honorable and successful life. Thus in the text was given the divine recognition of all the civil, religious and military duties which pressed upon mankind. As subjects of a beloved Queen, well might we render a devoted and enthusiastic loyalty. The wearers of red before him bore the stamp of royalty and loyalty in their uniforms, as subjects recognizing the claims of their Queen and country. But there were others higher claims upon them—"render unto God the things that are God's." The discharge of this claim would in no wise interfere with the performance of their duty to their sovereign, for Christianity and loyalty were the chief components of good citizenship. Rev. Mr. Davidson pointed out what good soldiers should be—soldiers of not only the Queen but of the Lord of Hosts. But this claim was not pressed upon them simply because it was a duty, but because they belonged to God. "Render unto Cæsar the thing which are Cæsar's; and unto God the things that are God's. The Bible says that in

HIS OWN IMAGE

God created man; and as the image of Cæsar on the coins mentioned in this chapter showed the authority of Cæsar, and that they were intended to fulfil Cæsar's purpose; so the image of all and each one of us tells us we were sent into this world for a higher purpose than merely to exist for ourselves. In conclusion, said Rev. Mr. Davidson, let me express the very hearty pleasure we have in welcoming you, Her Majesty's Volunteers, to this house of prayer. And perhaps there is a certain appropriateness in it, for is not this England's church, and does not everyone within these walls Sunday after Sunday utter prayers for that Queen whom we all honor and serve. In this Service we have joined together the two kinds of loyalty of which the text speaks—loyalty to our Queen and to our God. Your uniform speaks of one loyalty, to the Queen; our surplices as well as your presence and prayers here, speak of the other loyalty, to God, who likewise has claims upon us. You have come to render unto God the service of praise and alms which He tells us in His claim upon us, and presently you will join in the National Anthem, as you have previously joined in prayer for the Queen's majesty.

And all I ask is that there may be in your lives

NO DIVORCE

between the two kinds of loyalty which have been united to-day in this house of prayer. These two things which God has joined together let not any of you put asunder. Be at your post at drill; on the the parade field when you serve the Queen. Be at your post also in church, in the Christian army—where you serve the King of kings. Loyal soldiers of the Queen; loyal soldiers of Jesus Christ; ever loyal soldiers always.

At the conclusion of the sermon a collection was taken up for the benefit of the Widow's and Orphan's Fund, amounting to $15.38. During the offertory a duet, "Abide with me," was admirably rendered by Miss Cottingham and Lieut. Shaw.

On leaving the church the volunteers were re-formed on the green and marched back to the drill shed, where they were disbanded.

The muster for the parade was the largest of this season, including 200 officers, non-commissioned officers and men. All were specially delighted with the service. At a meeting of the officers a resolution of thanks was unanimously adopted to the clergy and church wardens of St. John's for devoting the church to the service of the volunteers, and to the former for the preparation of special and appropriate services.

The council of this thriving town is willing to stake any amount of money, not exceeding one-million dollars, that its five members will out weigh and are better looking (the average looks only to be considered) than any five members of any other corporate body in the province of Ontario. This challenge to remain open for only two weeks *as after that date they will collectively* and individually be in training for the fight at the coming election. No challenge considered unless accompanied by a guarantee of five thousand dollars, a thousand for each man. All communications to be addressed to the village registar, John Wood Esquire.

The Vastness of the Dominion.

Even among the best informed people there is no adequate conception of the vastness of the resources of this Dominion. One region of wonderful beauty, fertility and great extent has been brought to notice recently by Government explorations and surveys. All travellers who have visited the Peace River country since its discovery by Sir Alexander Mackenzie in 1793, agree in describing it as a region of unsurpassed richness and natural grandeur. The Peace River, rising in the same region of lakes that give sources to the Fraser and other streams emptying into the Pacific, traverses a country that was once the wintering ground of vast herds of buffalo. The Rocky mountains do not there present the barriers that they do further south, while the warm Chinook winds render the climate more equable and less severe than in any other part of our North-West. This region has so many and so great attractions that it must before long, or as soon as it is thrown open for settlement, induce an influx of population, enterprise and capital. Distance and lack of means of communication are the great drawbacks at present, but they are in the way of being overcome. The Fraser, Peace and Mackenzie rivers constitute a continuous waterway from the Pacific near the international boundary to the Arctic, east of Alaska. The whole of this enormous stretch of country, for thousands of miles, in the richest mineral region in the known world, while the agricultural value of the prairie plateaus of the Peace is known to be as great as the most favoured wheat-growing territories either in the United States or Canada. Reflection on great facts like these should admonish Canadians to hasten slowly in considering any proposition for a change in their status. They can afford to wait, for, with regard to this Dominion, the present generation are:

"Ancients of the earth,
And in the morning of the times."

Frightful Loss of Life.

Terrible Effects of a Tidal Wave on the Coast of Japan.

SAN FRANCISCO, Oct. 19.—The steamer City of Pekin, from China and Japan, brings an account of a tidal wave in which nearly 1200 persons lost their lives and 2000 houses were washed away. On Sept. 11, the same day Yokohoma was severely damaged by a typhoon, a violent wind and rain storm occurred at Hazagun and Aichiken. By two o'clock the sea had risen several feet above ordinary high tide, and just after nightfall the waves mounted to a great height, washing away the embankments and leveling the buildings near the shore. Shortly afterward a wave fifteen feet higher than the highest of those that had preceded it, rolled in with a great roar, washing away the remaining portions of the embankment and carrying with it nearly all the houses of the villages along the beach. This was done so suddenly that the inhabitants had no time to escape. At Okudo all the houses, 23 in number, were washed away, and, out of 90 inhabitants, 54 lost their lives. At Jitzuroku 40 houses were washed away, and 50 out of the population of 250 were killed. At Ikuta Mura 120 houses were washed away; about 20 broken up, and 40 of the inhabitants were killed. At Yoshida Mura 350 out of 650 houses were washed away, and 628 of the population of 3,000 were killed. At Toba Mura, containing 220 houses, and a population of 1,130, ten houses were broken up and ten persons perished. In addition to these enumerated, 389 have been found, and there are yet 280 persons missing.

NEWS OF THE DOMINION.

AN ALLEGED FORGER ARRESTED AT MONTREAL.

French-Canadian Repatriation Scheme—Death of Ex-Sheriff Powell of Carleton County.

MONTREAL, Oct. 22.—A young man named A. Dawson has been arrested on a charge of forgery. He arrived in town last week and stayed at the Windsor and on Thursday called on Mr. Septimus Fraser who was acquainted with his family and, though knowing that the young man had been in the reformatory for forgery, thought he had reformed and through friendship for the family considered it his duty to make his stay as pleasant as possible. Dawson said that he and a friend had recently won $1500 each in the Louisiana lottery but that he had deposited the great part of that money in a bank in Hartford, Conn. Returning on Friday he asked Mr. Fraser to identify him at some broker's and he was taken to J. B. Pickens, St. James street, where Mr. Fraser vouched for him to negotiate a check on the Mercantile National Bank for $175 which he endorsed. Mr. Fraser afterward became uneasy and whilst Dawson was in his house telephoned for the broker but the young man escaped by the window before he arrived. He was afterwards arrested by Detective Grosse and on his person were found checks on the Mercantile National Bank of Hartford payable to John A. Dawson and drawn by Thomas Carstons for $175, one on the same bank for $20 payable to Arthur Griffin and drawn by D. P. Rood; another on the same of $225 payable to John A. Dawson, drawn by D. A. Rood and one on John A. Bissel for $225 payable to John A. Dawson drawn by D. A. Rood. Beside this he carried a memorandum book containing the names of all the banks in the city in addition to the names and addresses of all their directors and those of a number of private financial agents. Dawson is a quiet looking young man neatly dressed and his rather intellectual face is adorned with a pair of spectacles. He claims to have left all the money at gaming tables in this city and several well-known sports about town have been summoned to appear in the case. His family in Boston are highly connected and well-known to several prominent families here.

The Montreal board of flour examiners met yesterday and selected samples and completed all arrangements for the Dominion board which will meet here on Thursday to fix the standards for flour for the year.

Albert Brierly, who figured prominently in the Maybrick case and who after the trial left for the States, is said to have been registering his name in hotels as "A. Brown, Montreal." "Brown" stayed over a day or two in Montreal on his way to New Orleans. He gave himself out as an operator in cotton saying that he had come to trade with southern planters.

Dr. Lafaime and Dr. Paradis of Lawrence, Mass., are now at Quebec with a view to securing from the Government a concession of land in Bonaventure. They represent a company organized by French-Canadians in the United States with a capital stock of $100,000 to bring back their compatriots.

THE ANCIENT CAPITAL.

The Inquest in the Tanguay Case—The Mother Arrested—The Landslide Verdict.

QUEBEC, Oct. 22.—The coroner's inquest on the late Amedee Tanquay ended at Levis yesterday afternoon with a verdict to the effect that the immediate cause of death was congestion, brought on by liquor and ill-treatment from Margaret Tanguay, mother of deceased, who was taken to jail by order of the coroner.

The provincial government have contributed over $3000 worth of provisions and goods to the suffering fisherman of the gulf. Some 500 barrels of flour were sent down on Saturday by the steamer Otter and other vessels.

On the opening of the court yesterday morning Judge Bosse gave judgment on the motion made on behalf of the city corporation to quash a portion of the coroner's verdict in the Champlain-street landslide case. His Honor said he saw no reason for granting the motion as the verdict in question did not attack anyone in such way as an indictment could be framed on it. It referred to the "municipal authorities" but the city of Quebec corporation could not say they alone were meant. The verdict was radically null in all respects and too vague to permit the city to assume it. The rule to quash the verdict was therefore discharged on this technicality and the coroner's inquisition remains unquashed. The Judge said the same objections would apply to the first part of the verdict, reflecting upon the Dominion authorities.

Death of Ex-Sheriff Powell.

OTTAWA, Oct. 22.—Ex-Sheriff Powell died yesterday, aged 63, after four days' illness. Death was caused by a carbuncle at the base of the brain. Mr. Powell was one of the best known men in Eastern Canada. He entered public life in 1852, when he was elected member for Carleton, which he represented continuously in the Canadian Legislature until 1868. Mr. Powell subsequently became sheriff of the same county. In 1847 he edited The Bytown Gazette. He is a brother-in law of Senator Clemow.

Attempted Blackmail.

HALIFAX, Oct. 22.—A well-known cricketer was injured while playing a game the other day and has been confined to his bed. Saturday a girl took a meal to the room and then rushed down stairs and alleged her master had attempted to assault her. The man's horrified wife on going to the room received an emphatic denial of the story and on a police officer being called the girl confessed that she had lied for the purpose of extorting blackmail.

Smoky City Men Also in Arms.

PITTSBURG, Pa., Oct. 22.—The management of the Pittsburg baseball club yesterday officially notified the players reserved by them that they had retained their services for next season and were ready to execute the agreement. Rowe and Sunday refused to accept the document until they had satisfied themselves as to its contents. The others took the notice without comment. Rowe, in speaking of the matter said, "I do not propose to allow the League to get the drop on me if I can help it. They violated faith with the Brotherhood once before relative to salary business and we do not intend getting the worst of it again if we can help it." When Sunday was asked to sign he said: "I cannot. I am a member of the Brotherhood and until the League settles the matter of our grievances none of us can sign." Several other players were asked if they wanted to sign, but they all refused until after the League meeting; which will be held in New York, Nov. 12.

Turf and Field.

The third of the series of championship games between the Brooklyn and New York ball teams which was to be played yesterday was postponed on account of wet grounds.

At Philadelphia yesterday the Athletics defeated the Phillies, 9 to 0.

At Columbus yesterday the home team defeated the Cincinnatis, 5 to 2.

TRANSATLANTIC NEWS.

ANOTHER CRUSADE AGAINST CANADIAN CATTLE.

A Ministerial Conference—Kalnoky to Visit Bismarck—The Kaiser at Genoa—Labor Troubles in Belgium.

LONDON, Oct. 22.—Agricultural papers give currency to statement that pleuro-pneumonia has appeared among cattle imported into England from Canada, and accordingly urge Mr. Chaplin to request the Dominion to enforce more stringently the frontier quarantine regulations. The statement is unconfirmed, but without doubt it is most essential that Canada should now exercise greater care than ever. Mr. Chaplin's speech on Friday respecting the decision to forbid the importation of cattle from Holland distinctly showed his anxiety, now that he is in office, to give effect to the views he has long held as to restricting live stock imports where any plausible pretext exists, in accord with the desires of British farmers.

A Ministerial Conference.

LONDON, Oct. 22.—Mr. W. H. Smith, Mr Goschen and Mr. Balfour held a long conference with Lord Salisbury at the Foreign Office yesterday. The subjects under discussion were the defeats recently sustained at the polls by the Conservatives and the projected Irish Land Bill.

Proposed Eiffel Tower for London.

LONDON, Oct. 22.—A company has been formed for the purpose of erecting a tower in London on the Eiffel plan. The tower is to be 1250 feet high. £500 is offered as a prize for the best design for the proposed tower and £250 for the second best design. The competition is open to the world.

Some Way With Others Who Don't Pay.

DUBLIN, Oct. 22.—Eighty tenants are threatened with eviction at Falcarrah, county Donegal.

Miners Demand an Advance.

BRUSSELS, Oct. 22.—The miners of Borinage, Mons and Pelz demand a 20 per cent. increase of wages. If this is not granted the men will strike.

For a New Steamship Line.

BERLIN, Oct. 22.—The Berliner Nachrichten says the Bundesrath will consider a bill granting a subvention of 900,000 marks for a steamship line between Hainburg and Delagoa Bay.

A Reply to M. Ferry.

ROME, Oct. 22.—The Tribune replying to M. Ferry's letter in The Estaffete declares that Count Corti in 1878 refused an offer of Tunis in order not to embroil Italy and France. M. Waddington assured Count Corti that France would do nothing in regard to Tunis without having a prior agreement with Italy. The Marquis de Moelles, then French Ambassador at Rome, reported this assurance to Signor Calroli.

Alexander Receives the Skupstchina.

BELGRADE, Oct. 22.—King Alexander yesterday received the members of the Skupstchina. M. Pachitch read an address. The young King, in his reply, declared his adherence to the national traditions.

The Kaiser at Genoa.

GENOA, Oct. 22.—Emperor William and Empress Victoria Augusta arrived here from Monsea yesterday. The imperial party visited the German ironclad Kaiser and the Italian barbette Italia. On taking leave of King Humbert the Emperor promised to return to Monsea Nov. [illegible] on his way back from Constantinople.

Kalnoky to Visit Bismarck.

VIENNA, Oct. 22.—Count Kalnoky, Imperial Prime Minister, in accordance with an invitation extended to him, will visit Prince Bismarck at Friedericharuhe within a fortnight.

BABBITT, THE SOAPMAKER, DEAD.

He Built Up a Great Business and Was Swindled by a Woman.

NEW YORK, Oct. 22.—B. T. Babbitt, the famous soap manufacturer, died Sunday evening at his residence, No. 35 West Thirty-fourth-street, aged over 80 years. The cause of his death was really old age. His fortune is estimated at several millions.

One of the most notable events in his career was the clever manner in which he was swindled by Ellen E. Peck, the notorious "Confidence Queen." Keen as he was in ordinary business affairs, Mr. Babbitt was duped by this woman so cleverly that it took months for him to realize how he had been victimized. Mr. Babbitt discovered in 1876 that he had been robbed of about $350,000 by his cashier, Charles R. Beckwith, and two accomplices. The thefts had been going on since 1873. Beckwith received $208,000 of the proceeds, and, although he was sent to prison for ten years, he refused to reveal what he had done with the money. One of his companions made restitution, and the other in consideration of turning State's evidence, received a short sentence.

Just after Beckwith was sent to jail Mrs. Peck called on the soap manufacturer, ostensibly to gain employment for her daughter. She pretended she had recovered large sums of stolen money for different prominent people, among them A. T. Stewart, and Mr. Babbitt commissioned her to endeavor to secure restitution from the thieving cashier. Mrs. Peck played her game so well that she secured $19,000 in cash for alleged expenses. Mr. Babbitt then had her arrested as a swindler, when she attempted to blackmail Mr. Babbitt by charging him with attempting to lead her daughter astray. In this she was unsuccessful.

Forest Fires in Michigan.

COLEMAN, Mich., Oct. 22.—Forest fires are raging about here to an alarming extent and much anxiety is felt. Saturday John Macdonald was driving to town accompanied by his little son when a burning tree fell on them knocking Mr. Macdonald out of the wagon and killing the boy. Mr. Macdonald's injuries are very severe but he will probably recover.

Financially Discouraged.

BATTLE CREEK, Mich., Oct. 22.—Herbert Blashfield, aged 40, who had been deserted by his wife and children, committed suicide last night by taking laudanum at the home of his sister in this city. He left a note intimating that financial discouragement caused the act.

Accidentally Shot.

PAWPAW, Mich., Oct. 22.—Frank Everist and Chelora Camfield of Pine Grove were out hunting Sunday when Everist shot Camfield killing him instantly.

THE SPHERE OF SPORT.

All the Chicago Ball Players, Except Anson Refuse to Sign Contracts.

CHICAGO, Oct. 22.—Yesterday was the day when the men who are going to play ball with the league clubs next season should sign their contracts. Mr. Spaulding, President of the Chicago Club was at headquarters early to receive them, but Capt. Anson's name was the only one put down. At Springfield yesterday a baseball organization called the Chicagos was incorporated. It is believed this has something to do with the proposed brotherhood club.

WERE THE JURIES FIXED

WHEN ALEX SULLIVAN WAS TRIED FOR MURDER.

The Investigation in the Cronin Case Goes Back More than a Decade—A Hanging Juror's Story.

CHICAGO, Oct. 22.—The investigation into the Cronin bribery conspiracy has extended to the Francis Hanford murder trials of 1876 and 1887, in which Alexander Sullivan was the defendant. It has been discovered that eight of the twenty-four men who composed the two juries who can be found are being called on by representatives of the State to see if jury bribing was resorted to on those occasions. Five-sixths of the men on the first jury which disagreed, were of the same race and religion as the prisoner, Sullivan, and after the second ballot eleven stood for acquittal and one for manslaughter, with three years' imprisonment. The "hanging" juror, F. J. Berry, is the owner of a sale and livery stable at the stock yards. He recalled those eventful days and recited his terrible experience in the jury-room.

"The excitement and prejudice against me for holding out increased until the eleven became violent in their gestures," said he. "After returning from the court-room on the second day the situation became more desperate. The window facing Dearborn street was open at that time and a juror jumped into the middle of the floor with the most violent gestures. He stripped off his coat, rolled up his sleeves and exclaimed with passion: 'I will smite the — — — to the floor.' He was in a terrible rage. 'I will throw him out of the window,' he went on, and made for me as fast as he could. One of my protectors jumped in front of me to prevent the fellow from carrying out his threat. The other jurors called me all the insulting names they could think of, charged me with being a perjurer and violating my oath, and said I was a hypocrite who had come in there to deprive them of the privilege of doing justice.

"They called me a dog, and said I was not fit for anything, and threatened to hang me. After leaving the court to go home, a man whom I supposed to be my friend took my hand and hissed into my ear: 'I wish your neck had been broken before you went on the jury. I think you ought to be killed now.' I was also told that two ruffians stood ready to kill me and the hissing as I left the court-house lasted until I was out of hearing."

After the mock exhibition of justice, public sentiment was solid against Judge McAllister and the eleven jurors. A petition signed by a host of prominent citizens was sent to the Judge, calling on him to resign. At the second trial the same tactics were adopted, and with better success. State's Attorney Mills threatened to indict the whole jury for conspiracy and bribery, but the investigation was smothered.

The jury in the case of the Cronin suspects was not completed yesterday.

TRADE AND TRAFFIC.

Leading Features of the Grain and Produce Markets at Home and Abroad.

TORONTO, Oct. 22.—Receipts of wheat on the street yesterday were small, the demand slow, and prices unchanged. About a dozen loads of timothy sold at $12 to $14.50, and two loads of clover at $8 and $9. One load of loose straw sold at $8.

Sales of grain: 200 bushels wheat, 80 to 85c for red, fall and spring, and 65 to 70c for goose; 5000 bushels barley, 44 to 54½c; 200 bushels oats, 32 to 33c.

BREADSTUFFS.

Flour—City prices for ten-barrel lots: Family, $3.35 to $4.50; pastry, $4.65 to $6; patents, $4.75 to $5.25; strong bakers, $4.50 to $5.75.

Wheat—Ontario quoted 82c on the Midland. Two cars No. 1 Manitoba hard sold at equal to 97c, Toronto freights. For No. 2 hard 92c was bid, same conditions. Lack of cars is paralysing trade.

Barley—Dull. No. 3 extra 45c.

Oats—Demand good; prices firm. Mixed, 27c outside.

COUNTRY PRODUCE.

Receipts of good butter are improving, and prices are easier. Creamery, 22 to 24c; rolls, 17 to 18c; dairy packed, 18c; store, 10 to 15c. Because of the high prices asked on the street, there is a better demand for baled hay, and prices are advancing. On the track, $11.50. Oat straw, $7 to $8. No wheat straw is offering, and none wanted. Potatoes, easy; car lots, 45 to 50c; small lots, 60c. Eggs, fresh, 21c; limed, 18c.

LIVERPOOL MARKETS.

Liverpool reports: Wheat, easy; demand poor; holders offer sparingly. Corn, steady; demand fair. Spring wheat, 7s 1d to 7s 2d; red winter, 6s 9½d to 6s 10½d; No. 1 Cal., 7s 3½d to 7s 4½d. Corn, 4s 6½d. Peas, 5s 11d. Pork, 56s 6d. Lard, 35s 10d. Bacon, long clear, 35s to 37s; short clear, 35s. Tallow, 26s. Cheese, white and colored 52s.

BEERBOHM'S REPORT.

Beerbohm reports: Floating cargoes—Wheat quiet, corn nil. Cargoes on passage—Wheat quiet, corn steady. Mark Lane—English wheat firm, foreign wheat steady; corn turn dearer, flour firm; spot good. Danube corn, 20s 9d, was 20s 6d; prompt, 20s 9d, was 20s 6d; do. mixed American corn, 19s 9d, was 19 6d; straight Minnesota flour, 23s, was 23s 6d; good cargoes, No. 1 Cal. wheat off coast, 36s, was 36s 3d. French country markets firm. Weather in England wet. Liverpool—Spot wheat, very flat, corn quiet and steady.

CHEESE MARKETS.

Utica reports: The cheese market yesterday was dull in sympathy with the New York market and there was a decline from last week's figures. For some time salesmen held off for higher figures but just before the close of the market the usual rush to sell was made. The ruling price was 9½. The transactions were 173 lots, 13,300 boxes. Butter—Sales 308 packages at 22c and 13 packages at 25 to 26c.

Little Falls reports: A drop of ¼c in the price of cheese did not cause the market here yesterday to be particularly lively. The quality of the goods offered was first-class but the demand from shippers is not sufficient to sustain the prices of last week and there would have been still further decline but for the home trade demand. Following are the transactions: 6 lots at 9½, 70 lots at 9½, 39 lots at 10c, 1 lot at 10½c, 1 lot at private terms, and 3 lots on commission; total 8197 boxes. Farm dairy—The sales of farm dairy cheese amounted to 25 boxes and the prices were from 9½ to 10½c with the bulk at 10c. Butter—65 packages of butter sold at 20 to 22c, bulk at 21c.

Poverty Caused this Suicide.

JACKSON, Mich., Oct. 22.—Cynthia B. Jones, aged 60, a book agent from Chicago, was found dead yesterday at Dr. Tuttle's with a quantity of morphine on her tongue and lips. Poverty probably caused her suicide.

Cut Her Throat With a Razor

QUINCY, Mich., Oct. 22.—Mrs. Nathan Priest of Butler Township cut her throat with a razor Saturday and may die.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

TORONTO TOPICS.

Disagreement in a Manslaughter Trial—Forged Checks Afloat.

TORONTO, Oct. 22.—Hugh Mackay was charged, at the Criminal Assizes yesterday, with having caused the death of James Smith, at Ronan's Hotel, on July 8 last. The case arose out of a quarrel in a bar-room. The prisoner asked Smith for some wages that he alleged were due to him and Smith made use of a vulgar expression in reply, words came to blows and a man named Keenan separated Mackay and Smith. Mackay, however, continued to attack, striking Smith over the right shoulder. Smith afterwards sat down, and in a few minutes fell on the floor headforemost. He was found afterwards that he had sustained a serious injury and he was taken to an adjoining room, a doctor was sent for, but before he returned the man had expired. Smith was reputed to be a heavy drinker—one of the crown witnesses going as far as to say that he never saw him sober. The prisoner, on the other hand, had the character of being a sober, well-behaved man. The jury disagreed, seven being in favor of acquitting the prisoner, while five insisted upon a verdict of guilty. The jury were discharged. The prisoner was bound over in his own recognizance for $500, and ordered to find two sureties of $250 for his appearance at the next assizes.

A serious accident occurred on Yonge street yesterday morning about 9 o'clock. A car was approaching College avenue on the down grade when a brake broke and it started toward the bay at a terrific rate of speed. Opposite Carlton street the car ran into a brick wagon driven by Alfred Barker, who resides at 1328 Queen street east. The bricks were knocked ten feet high by the force of the shock and Barker was badly injured on the head and right leg. He was taken to the hospital in the ambulance.

On the Police Court list yesterday morning appeared the names of Henry Farry and Alice Elliott, charged with the crime of abortion. Adjournments have been made day after day for the past two months, as Mrs. Elliott has been too ill to leave the hospital until yesterday morning, when she was dismissed from that institution, and immediately placed under arrest by Detective Watson, who has had charge of the case. She appeared in the court yesterday apparently in the best of health, and asked for an adjournment for a couple of days. Her request was granted and the case will come up again to-morrow.

Donald C. Downey, a Whitby grain dealer, and well known in business and social circles in this city has been missing since Oct. 7 and his friends have no trace of him. The last seen of him by his friends was in Toronto. Mr. Downey has disappeared before, and his brother, who reached town on Saturday night expects that he will turn up all right. His accounts are said to be all right. Mr. Downey's wife is a daughter of Rev. W. T. Blackstock, 20 Homewood avenue.

The detectives just now have in hand a series of clever forgeries in which the name of City Treasurer R. G. Coady has been most successfully duplicated. No less than seven gentlemen engaged in business chiefly around and in St. Lawrence market have been presented with checks which they have been requested to cash for small amounts varying from $20 to $50. The presenter of these bogus checks is described as a well-dressed man of middle age. The checks bear what is apparently the signatures of Contractors Manning and Macdonald, and they each and all are endorsed by a good imitation of Treasurer Coady's signature.

The master builders met yesterday to discuss the situation of the striking stone-cutters of the Toronto Stone Company. A committee was appointed to wait upon the strikers, which however did not come to any satisfactory terms. The master builders will not yield and the men are as determined to hold out to the last. Some fear that a general look out of bricklayers, carpenters, plasterers, etc., will be the result of the action of the stone-cutters.

The Baptist Convention.

OTTAWA, Oct. 22.—At the Baptist convention yesterday, Rev. A. Grant spoke on the Manitoba mission. He contended that the Baptists even in Quebec, although having terrible odds against them, were the only body that could do anything against the Roman Catholic Church. In Manitoba he had tested the feeling and he was afraid that the great questions were being looked at too much from the political standpoint and he had never prayed as much for Baptist ministers as he did now. He then read a letter from Baptists in Manitoba asking for $3000 from the churches of Ontario and Quebec, to push their work there. This would mean $160 from each association. The amount was finally granted. The Manitoba education question was then taken up and it was stated that $3000 for three years was wanted.

The Mexican Bond Steal.

CITY OF MEXICO, Oct. 22.—It is positively stated the stolen government Bonds were of the face value of only $2,[illegible]4,000. They bear the signature of the Secretary of the Treasury but lack the Treasurer's. The bonds were probably stolen while being moved from one department to another. As they are not properly signed and sealed the government is not responsible for them.

AT

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock, It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

THE LADIES!

A New and Distinct Form of Disease which is afflicting Canadian Women.

How some of Them Regained Fresh Complexions, Perfect Health and Superb Physical Beauty.

A great London Physician says that he notes a new and distinct form of nervous disease produced in Canadian women by worry about servants and overwork in caring for the home. This is only too true. It is why we see so many ladies pale, weak, languid, and suffering from headaches and innumerable weaknesses. They cannot stand the strain upon their nervous system. Many of them have found the means to sustain their failing strength, to give color to the cheeks, and new life and vigor to the body, in Paine's Celery Compound. This pure and scientific remedy is especially adapted to the needs of woman, and is daily making the most remarkable cures. Mrs. W. E. Cooper, 60 St. Hypolite St., Montreal, was for a long time troubled with nervous headaches, loss of appetite, low spirits, etc. After using the Compound, her headaches disappeared, appetite was good, and her spirits revived.

Annie Gourley, of River Beaudette, P.Q., found the Compound a certain cure for weakness, and now feels as well as she ever did.

Many a Canadian lady has the same reason to be grateful.

Paine's Celery Compound can be purchased at any druggist's for one dollar a bottle. If he should not have it on hand, order direct from WELLS, RICHARDSON & Co., MONTREAL.

Baptist Statistics.

The Ottawa *Free Press* takes advantage of the presence of the Baptists in Ottawa at their convention to give the following interesting sketch. The convention of delegates from the various Baptist congregations in Ontario and Quebec, now being held in Ottawa, is an exceedingly important gathering, and its deliberations will be watched with interest. The Baptists stand second, as regards numerical strength, among the religious denominations of the United States, and 6th in Canada. The census of 1881 shows 296 525 Baptists in the Dominion, of whom 105 639 were in Ontario, 83 761 in Nova Scotia, 81 081 in New Brunswick, 8 853 in Quebec, 8,419 in Manitoba, 6 235 in Prince Edward Island and 444 in British Columbia. In the United States the Baptists probably number ten millions. The Canadian Baptists, as the discussions in their conferences show, adhere strictly to the congregational system of government, and the principle of complete separation of church and state. Each church is held to be a tribunal, independent of all others. This independence is balanced by the intercommunion of churches; and, on the principle of intercommunion, churches associate, organize councils of advice, and societies for mutual co-operation in any benevolent, educational or missionary enterprise. Baptists make no distinction but that of office between clergyman and laymen. The voice of the majority governs, and no higher church officers than pastors and deacons are recognized. Councils are sometimes called by the church to advise and assist in the ordination of ministers, the formation of churches and the settlement of difficulties. The Baptists differ from the Congregationalists only on the question of baptism, and in being more strictly congregational. In Great Britain the Baptists, next to the Congregationalists, are, or were a few years ago, the most numerous bodies of Protestant dissenters. Within the last half century they have advanced rapidly in numbers and influence, and have established successful missions in India, China, Africa, the West Indies, Mexico and various parts of continental Europe and the Australasian colonies. In Sweden, Switzerland, Russia and France the Baptist missionaries and their converts have been at various times subjected to persecution, but in the face of this they have made progress.

The resolutions moved in the convention here in favor of submitting all church property to taxation are strictly in accord with the principles enunciated by the founders of the Baptist faith. In England from the time of Henry VIII to that of William III, over 150 years, the Baptists struggled for their fundamental principles of liberty of conscience for all. From 1611 forward they issued appeal after appeal, addressed to the king, the parliament and the people, in behalf of this "true liberty," written with a breadth of view and force of argument hardly ever exceeded. But until the Quakers came to the front the Baptists stood alone in the fight for universal toleration. Under Cromwell they first gained a hearing, and under the leadership of Milton and Vane would have changed the whole system of church and state; but with the Restoration came persecution again, though their principles gradually gained ground and hastened the revolution of 1688. Dr. Williams tells us that the share which the Baptists took in shoring up the fallen liberties of England leaves the nation under a debt of gratitude to that denomination which is only never fully acknowledged. "Among the Baptists," he says, "Christian freedom found its earliest, its staunchest, its most consistent and most disinterested champions." Nor has this beneficial influence of the Baptists in the United States. Introduced in Rhode Island in 1638 by Roger Williams and John Clark, their history was for a long time that of persecuted and banished men. Yet they never sought to make converts. "In the code of laws established by them in Rhode Island," says Judge Story, "we read for the first time since Christianity ascended the throne of the Cæsars, the declaration that conscience should be free and that men should not be punished for worshipping God in the way they were persuaded He require." The article on religious liberty incorporated into the United States constitution in 1789 was introduced through the efforts of the Baptists.

The Baptists have given to Canada many of the most eminent and most liberal makers of her public men, including Hon. Alexander Mackenzie, Hon. David Mills, Sir Charles Tupper, Premier Fielding, of Nova Scotia, Premier Blair, of New Brunswick, the late Dr. Crump Sir A. J. Smith, late minister of marine, the late Senator McMaster, and others, whose names will live in the history of the country.

According to the last volume of government criminal statistics for last year, just issued, out of a total of twenty-five thousand summary convictions, 306 were made in Peterborough, a ratio of 40.71 per thousand of the population. The ratio per thousand in the highest in Fredericton, N. B., (52.57) and the lowest in Hull, P.Q., (0.64). Two explanations of such discrepancies may be made. One is that in Peterborough and Fredericton there is more natural "cussedness" or, on the other hand, the law is more rigidly administered; while Hull and other places with a low ratio, such as Guelph (14.79), Three Rivers, P.Q., (12.60), or Sherbrooke, P.Q., (12.75), must be exceptionally law abiding or the law is very loosely and inefficiently administered. It is worthy of remark that of the three cities having the lowest ratio of convictions for summary punishment, Hull, Sherbrooke and Three Rivers are all situated in the Province of Quebec. There are only four towns or cities in all Ontario with a higher ratio of crime of the class in question than Peterborough. These are Fredericton, Brantford (43.20), Victoria, B.C., (46.87), and Hamilton (46.84).

Figs as Nutritious Food.

One of the Persian kings caused the celebrated Attic figs to be set before him when he dined, for one reason, to remind him that the land where they grew was not yet his, and that, instead of receiving the fruit as tribute, he was obliged to buy it from them; and, for another, that it was not only the emblem of health, but the most wholesome fruit grown. Figs are to pretty well known to be especially attractive seasons, almost the common food of the Greek people; and for months they may be sold in our streets, upon them. We consider, as a medicine as well as for an any who eat them freely need no potash and no aperients. Full of nutrition and all those properties that make it valuable as an article of diet, we are confident that the fig will take a prominent position in the estimation of all who work for and believe in food reform. For myself, I would simply add that, again and again, without regard of any kind, the luscious green fig, eaten with whole meal bread, has formed a dish at once simply but rich, and, like the Spartan's meal, fit for a king. The fig is not entirely popular, but it is the most beneficial fruit we cultivate. In many countries the failure of this crop also means starvation and famine. Travellers in Asia Minor and Southern Europe provide themselves with figs and olives as provisions for long journeys, and not only live, but grow fat on the diet. The fig has more medicinal properties and nutriment than any other fruit, with the exception of the olive.—*Journal of Cuterie.*

MUNCASTER'S.

The Romance of the Headache.

"I went down to dinner resolved to be cheerful and well conducted, and kept my resolution very creditably, considering how my head ached and how internally wretched I felt" ("The Tenant of Wildfell Hall"). That is the keynote of too many pages in all the Bronte novels. The lady who writes has a headache, and feels internally wretched. She is "conducting herself very creditably, considering;" but her dark brow shows how limited is the life she looks out upon, and how a passionate heart eager for love and happiness beats itself against the wires of her little world.

When society is better or worse than it is today, when governesses no longer exist, these tales will tell people what life looked like to governesses. In them we are always at the governess' point of view. A young lady who is a guest and not a guest, a servant and not a servant, poor and clever among the dull and rich, is watching them, despising them, detesting them, and taking her proud, envious notes of them and their ways. "Heaven was cruel when it made women," said one of George Eliot's people; society was savage when it made governesses.

Inevitably miserable themselves, they are the source of misery to others. They see the existence that is not theirs; they hear the words that are not spoken for their ears; young, it is their duty to interfere with the diversions of youth and to snub the high spirits of the school room. If they mix with the grown up people, it is under a protest which they silently make themselves; if they do not mix with them, they live in an artificial solitude, alone, while music and laughter and talk are echoing faintly not far away. No tact can make their position endurable, as a rule, no tact of their own nor of their employers, and they must feel more intensely even than other women a feverish desire for a justice which is not of this world.

This was the position of Charlotte Bronte. "No one but myself can tell how hard a governess' work is to me, for no one but myself is aware how utterly averse my whole mind and nature are for this employment."—Andrew Lang in Good Words.

Armatures for Dynamos.

The most difficult and important part of the structure is the armature, and in building this the first thing is the laminated iron core. For this purpose an immense number of thin disks of sheet iron are cut out, each having a central hole to admit the shaft, and several other holes for the belts which are to hold the series of disks together, so as to make of them a solid drum. These disks are then piled one upon another around an iron shaft which is to form the axle of the armature, and thick iron end plates are applied at each end and bolted together by iron bolts going through from end to end. The drum or cylinder thus formed is then mounted in a lathe and turned to a smooth surface, except for such projections as may be left for guides in winding on the copper wires.

This is the next operation to be performed. The workman draws the insulated copper wire down from a drum overhead and passes it lengthwise around the armature core, which is supported by its axis in a lathe, while another workman assists him in pressing the wire accurately into place and keeping it close to the core. This wire is not wound on continuously, but in a number of short sections whose ends stick out somewhat irregularly. These ends are to be attached to the successive sections of the commutator. The numerous radiating lines at the nearer end of the drum are parts of the commutator sections, which are attached at their outer ends to the successive coils of wire on the armature. At their nearer ends these radical bars bend at right angles, so as to pass along the surface of the shaft, being insulated from it and from each other by mica or other appropriate substance.—Henry Morton in Scribner's.

Eccentric Gardeners.

In the amusing autobiography of Mr. Frith, R. A., a marvelous account is given of a gentleman having slipped unnoticed within the guarded grounds of Fonthill abbey, and there finding the eccentric owner, Mr. Beckford, whom he mistook for the gardener. They became very friendly, and the intruder was asked to stay and dine; but at 11 o'clock he was turned out, with the warning that bloodhounds ranged the park during the night. So the dismissed guest passed his night in a tree. The Rev. Dr. Gatty, writing to Notes and Queries, says:

"I have a parallel story. A deceased friend of mine—a well known squire in a midland county—told me many years ago that he was posting northward, and stopped at Rokeby to inspect the romantic scenery of Scott's poem. Mr. Morritt was alive, and as my friend wished to see his interesting house and grounds, he went forward and found, as he thought, the head gardener among the flower beds; and he asked him whether he thought Mr. Morritt would receive a call from a stranger. He was told to go to the front door, when he would be informed whether it would be permitted. My friend did as he was bidden, and he found that by a slight metamorphose of clothes, etc., the supposed gardener had become the master of the house, who gave him hospitable entertainment for a day or two."—London Standard.

A Welcome Change.

Caller—Mr. President, I have long held the opinion that the office should seek the man, and not the man the office, and I cannot adequately express my detestation of the hungry horde who are worrying you night and day. I simply call to pay my respects."

The President—My! my! Come in, sir; sit down. Won't you stay to dinner?

Caller—Thank you, but time is very pressing. As I said before, I simply called to pay my respects; but while here I might as well leave these recommendations and my address, so in case any office starts on a still hunt it will know where to find me.—New York Weekly.

Success in life is the result of push and energy. If the blood is impure and sluggish, both body and mind lack vigor. To cleanse and vitalize the blood and impart new life to the system, nothing else has such a marvelous effect as Ayer's Sarsaparilla.

Why?

Why suffer a single moment, when you can get immediate relief from internal or external pain by the use of Polson's Nerviline, the great pain cure? Nerviline has never been known to fail. Try a 10 cent sample bottle. You will find it just as recommended. Neuralgia, toothache, cramps, headache, and all similar complaints disappear as if by magic when Nerviline is used. Large bottles 25 cents. Test bottles 10 cents at druggists and country dealers. 6w43d

Tried! Tested! Proved!

A YEAR ago last summer I was troubled with dysentry. I procured Dr. Fowler's Extract of Wild Strawberry and took according to directions, which completely cured me. ROBERT E. GREEN, Lyndhurst, Ont. The medicine cures all looseness of the bowels. 2w41d

Cannot Fail.

MRS. JOHN E. THOMPSON, of Shelburne, M. P. O., writes: My to children received great benefit from Fowler's Extract of Wild Strawberry for Diarrhoea an i summer complaint. I gave it according to direction and they soon recovered. Be sure and get the genuine. 2w41d

In Many Forms.

DYSPEPSIA assumes many phases, all disagreeable to the sufferer, yet it takes no form which from two to four bottles of Burdock Blood Bitters will not cure. B.B.B. cures dyspepsia, tones the weak stomach, aids digestion, sharpens the appetite, and renovates the system. 2w41d

DYSPEPSIA, that great source of misery to so many people, can be effectually cured by the use of Dyres, Quinine and Iron Wine it is carefully prepared, easily assimilated, and can be taken by the weakest invalid. W. A. Dyer & Co., Montral. 6d93

MILBURN'S AROMATIC QUININE WINE fortifies the system against attacks of ague, chills, bilious fever, dumb ague and like troubles. dw

Can be cured by purifying the blood with

I do not believe that Ayer's Sarsaparilla has an equal as a remedy for Scrofulous Humors. It is pleasant to take, gives strength and vigor to the body, and produces a more permanent, lasting, result than any medicine I ever used.—E. Haines, No. Lindale, O.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, it will thoroughly eradicate this terrible disease.—W. F. Fowler, M. D., Greenville, Tenn.

For forty years I have suffered with Erysipelas. I have tried all sorts of remedies for my compaint, but found no relief until I commenced using Ayer's Sarsaparilla. After taking ten bottles of this medicine I am completely cured.—Mary C. Amesbury, Rockport, Me.

I have suffered, for years, from Catarrh, which was so severe that it destroyed my appetite and weakened my system. After trying other remedies, and getting no relief, I began to take Ayer's Sarsaparilla, and, in a few months, was cured.—Susan L. Cook, 909 Albany st., Boston Highlands, Mass.

Ayer's Sarsaparilla is superior to any blood purifier that I have ever tried. I have taken it for Scrofula, Canker, and Salt-Rheum, and received much benefit from it. It is good, also, for a weak stomach.—Millie Jane Felree, South Bradford, Mass.

The College a Success.
There is no better proof of the wide reputation that the Peterborough Business College has earned, than the fact that during the past three months students have entered from the following distant points:—Chicago, Montreal, Chesley, London, Mitchell, Sutton West besides the numbers who have entered from places not so remote.

In the Right Church, But the Wrong Pew
A couple of Montreal horse buyers walked into the side door of the police station, and, while one of them enquired if these were Terry Smith's stables, the other remarked that he had never seen such queer stalls before in his life. He was evidently not familiar with the appearance of police cells. The men were directed to the place they were seeking, one door west in the town buildings.

A Gift to the Archbishop.
Archbishop Cleary will be installed at Kingston about the end of next month. It is proposed to tender him a gift of $10,000 the day he receives the Pallium, the money to be used in the erection of a chapel in rear of the cathedral. The money will be raised by the clergy and the people. The parish will be divided into four classes and the assessments to make up the $10,000 will be $300, $200, $100 and $50, respectively.

A Local Writer.
The last number of the *Jeweler*, a monthly magazine published at Chicago in the interest of the jewelry trade of America, contains an article on practical watch repairing, from the pen of Mr. Geo. W. Wyatt, one of Peterborough's rising young business men. The article is commended by the publishers as a very interesting and instructive one to the trade.

Mr. Inglis, the Evangelist.
The Rev. Charles Inglis, who has been successful in evangelistic and mission work in England for many years, is at present in Canada, and has been holding meetings in Stratford, Cobourg, and many other points. (He is at present in Montreal.) He has just concluded a long series of men's meetings in Exeter Hall, London, England. From Montreal he proceeds to Ottawa, Toronto and Winnipeg.

Those who wish to partake of something very fine in the shape of a cup of tea should try W. J. Morrow's direct importations. Why is it farmers are giving up buying from pedlars and tea men? Simply because they can buy tea from ten to fifteen cents per lb. cheaper from us, as it does not pass through so many hands, owing to us importing direct. We are offering an extra Japan at 25c., a beautiful blend of Black at 40c., and all other lines away down to 5 lbs and 6 lbs for $1.00. W. J. MORROW, 340 Opera House Block, George street. dw

Trophies of the Chase.
Lovers of the chase were delighted with the display of game in front of Mr. T. Fitzgerald's livery stable this morning, the result of the hunting party's two weeks' outing in the north. There were five deer—three fawns, a doe and a buck, the latter weighing over 200 pounds. This fine specimen of the antlered monarch of the forest was laid low by Mr. Fitzgerald himself, who will have it mounted and preserved. There was, besides, a large quantity of duck and partridge, a loon, and two boxes of salmon and mountain trout. The party consider they had very good luck.

Ayer's Pill, being convenient, efficacious, and safe, are the best cathartic, whether on land or sea, in city or country. For constipation, sick headache, indigestion and torpid liver, they never fail. Try a box of them; they are sugar-coated.

FIRST ENTERTAINMENT

Canine Intelligence.
A gentleman in town owns a very intelligent dog. It is sent every day to the bookstore for the *Mail*, and so well does it know the appearance of the newspaper that it cannot be persuaded to take any other of the daily papers.

Important to Oddfellows.
A special meeting of Otonabee Lodge of Oddfellows is to be held Wednesday evening, when it is urged that every member be present. It is the intention to start a degree team in connection with the lodge. This very important branch of Oddfellowship should not be neglected by members of the lodge.

About Situations.
Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. No other institution can show as good a record as this. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

HAND BELL RINGERS

Children of Mary.
A meeting of the Society of the Children of Mary was held in the sacristy of St. Peter's Cathedral Sunday afternoon. His Lordship Bishop Dowling was present and addressed the young people at considerable length. Rev. Father Rudkin's also attended the meeting. The officers of the Society were elected as follows:—
PRESIDENT—Miss K. Rogers.
VICE-PRESIDENT—Miss M. Maguire.
SECRETARY—Miss D. Mercier.
TREASURER—Miss Leplante.
FIRST COUNCILOR—Miss J. Moran.
SECOND COUNCILOR—Miss B. Hagarty.
THIRD COUNCILOR—Miss Vinette.

Wedding Presents.
The season for a boom in the matrimonial market is at hand, and, of course, wedding presents are in demand. One of the best places to procure these is at the Peterborough Bookstore. Here is to be found at moderate prices a splendid stock of articles suitable for wedding presents. Books (*editions de luxe*, in beautiful bindings), Family Bibles, Plush Goods in great variety, Manicure Sets, Ladies' Companions, Dressing Cases, Curling Tongs (with lamps) in cases, Writing Desks, Escritoires, Gold Pens, Pencils, etc., etc. A magnificent stock of these goods, all suitable for bridal gifts, at very reasonable prices, at the Peterborough Bookstore.

The Mystery Explained.
The mystery of the following inscription on a lead tablet found in the waterworks trenches has been solved:

'Uy 'cuw 'antat ip t 'orcu 'po 'ofte 'ayo 'tnu 'atbu 'ptta 'thae 'r eyb 'rou 'te 'esto 're 3 '7 '8 'ge 'org 'est 're 'et.

Dr. Wilson, of the University writes:—'I have examined the inscription with great interest. From internal evidence I should say the plate was deposited about 1854. I regard it as one of the greatest phophecies ever made. It has amply been fulfilled as I can attest from actual trial. The translation reads thus:—

If you want a tip-top cup of tea, you must buy it at the tea store of Hawley Bros., 378 George street. dw

TUESDAY EVE. OCT. 29

Again A Failure.
The cheese-board met again to-day after a week's adjournment, and again no sales were made. The board was the same as that of last week, with the exception that Minden was withdrawn, and the October make of North Smith was increased to 300. There were in all 6,086 boxes boarded, as follows:—Peterborough section, September, 1929; October, 2783; Victoria section, September 540; October, 834. There was a good attendance of salesmen. The buyers present were Messrs. Warrington, Cook, Cluxton, Flavelle, Wrighton and Fitzgerald. Liverpool quotations were 52s. The bidding was were slow—in fact very few offers were made. Mr. Fitzgerald started with 10c for selections, Mr. Flavelle advancing to 10½ for Warminster, and Mr. Warrington offering the same for Keene, Shearer and Missing Link. Mr. Fitzgerald again raised to ¢ for selections, and, Mr Cluxton offering the half for Warminister, North Smith and Cherry Grove, Mr. Fitzgerald bid the same for Keene. None of the factories sold and the board again adjourned. The cheese market appears to be very quiet. The salesmen are holding out for higher prices, which the buyers do not see their way clear to offer.

Otonabee Oddfellows' Hall.
Other societies having provided themselves with new, or improved, halls, the members of Otonabee Lodge of Oddfellows, determined to remain in the front rank, have had their hall vastly improved. The improvement is chiefly in the papering of the ceiling and walls, which, under the hands of Mr. H. W. Watson, have been greatly beautified. He selected his papers from the handsome and extensive stock of the Peterborough Bookstore. The ceiling is divided into two large panels. The field of each panel is a pearl drab ground, with an elaborate ornamentation in olive and gold. The border of it is in blue and gold and the style of a harmonizing tint of olive and gold. The cove of the ceiling is laid on with an olive and buff ground, relieved with a pattern of links in white. The walls, which are of a warm tint of drab, afford a handsome background to the numerous beautiful pictures that adorn it. The walls are finished superiorly with a stencil frieze, consisting, primarily, of *alternations of the three mystic links* and the initial letters of the society Shibboleth, "F. L. T." A four foot dado, in floral and foliated design, picked out with gold, surrounds the room. The entire effect of the new decorations is exceedingly good, and gives the members of Otonabee Lodge, No. 13, increasing cause to regard their society home with pride. The decorations are a credit, not only to the artist who manipulated them, but to the resources of the establishment whose stock permitted the free exercise of a cultured taste in making suitable selections of material.

This Tale Explains Itself.
First he stumbled
(Cause he didn't advertise),
Then he tumbled
(Cause he didn't advertise),
Then he fumbled
And he grumbled
And he mumbled
Till quite humbled
He judiciously began to advertise.

Then his business got to thriving,
And by dint of pathos striving
He saw his business rise, and rise, and rise.
When the customers were living
To his store for bargain driving
He condemned "The all because
Advertise."

Y. M. C. A. District Conference.

Summarized Report of the Proceedings.

A district conference of Young Men's Christian Association workers was convened at Orillia from Friday to Sabbath evening. The Association there had made excellent arrangements for the accommodation of the delegates. Everything was carried out to the letter, and it was voted that Orillia conference was the best held yet. Friday afternoon was given up to organization and reports of Y. M. C. A. work in districts, by the delegates. At 8 p. m. a mass meeting was held in the Methodist church, to welcome the delegates to their beautiful "Maple City." Stirring addresses were given by Revs. T. Henning, R. N. Grant, and W. S. Frost, president of Orillia Y.M.C.A. Replies were made by Messrs. T. S. Cole and Thos. Ratcliffe, Toronto.

Saturday morning, devotional exercises, Bible reading by Mr. Cole, and papers on Associational work by Messrs. Wm. Messer, P. Murray and R. J. Colville, and discussion on same until noon.

At 2 p. m. the delegates were given a sail on the lake, which was much enjoyed, giving zest for the afternoon meeting, when papers were read by Messrs. T. Ratcliffe, Wm. McCulloch, Theron Gibson, Toronto, and W. S. Frost, Orillia. Mr. T. Cole took charge of question drawer. A gospel meeting was held in the evening, addressed by the delegates.

On Sunday morning an excellent consecration meeting was held, led by Mr. W. McCullough, after which the delegates separated to the various places of worship, many of them having been invited to officiate in the pulpits.

At four in the afternoon a meeting for ladies only was held and was well attended. Messrs. J. S. Cole and T. Gibson addressed it. In the evening the farewell meeting took place in the fine Presbyterian church, to which the delegates and Orillia members had been looking forward with eager expectation. The large building was filled. The delegates all spoke a few words, and at last, as they all stood up and with joined hands sang "Blest be the Tie," and repeated the Lord's prayer, it was a very affecting spectacle.

The delegates from Peterborough cannot speak too highly of the young men of Orillia and of the way in which they were entertained.

St. Luke's Temperance Society

The Initial Entertainment a Great Success.

A good full audience greeted the Temperance Society of St. Luke's at their opening concert last night. The programme given below was fully carried out, and although no encores were allowed on account of the number of pieces provided, not a few were nevertheless clamorously called for. Miss Hall's two songs were a new treat for St. Luke's, while Miss Cottingham sang in her usual fine and favorably known way. Both young ladies received their full share of applause. The reading of Mr. Brown was greeted with peals of laughter, and Mr. Hooper's recitation was listened to with bated breath. The club swinging by four young ladies was vociferously applauded and showed the result of careful training. The duet on violin and organ had only one fault, there wasn't enough of it. We hope Messrs. Sherwood and Carveth will give us more next time. The children all did their parts well and received due encouragement for another time. The programme was concluded by a mirthful reading by the Rev. Mr. McCleary and the singing of the National Anthem.

GOD SAVE THE QUEEN.

Y. M. C. A. Notes.

The young men's meeting was a season of refreshing. Mr. R. H. Beattie gave an address. There was a good attendance.

On Sabbath evening, at the Sabbath Song Service, Rev. Mr. Mack of Norwood, gave a stirring address, which was much enjoyed by all present. "The God of Israel is with us, we shall not fear."

Mr. C. G. Pease, of American Rattan Co., Toronto, has very kindly sent us two handsome rattan chairs for our new office. We thank him very sincerely.

There are still a few more tickets left for the Star course; friends should secure them at once from Mr. Schofield, druggist. The first entertainment will be held on Tuesday, the 29th October, when the renowned Todmorden Hand-Bell Ringers will give one of their delightful entertainments, assisted by Mr. Edward Stanley, England's celebrated bass singer. Plans of the opera house will be opened on Friday morning at Schofield's drug store at 10 a.m.

Police Court.

TUESDAY, Oct. 22.

James Welsh, who was arrested yesterday was this morning discharged.

Robt. White was charged by M. Mahoney, of Campbellford, with assault. The plaintiff did not appear to prosecute and the defendant was discharged.

Messrs. A. Cox, W. G. Bain, W. W. Johnston, Geo. Schofield, Geo. Hutchinson and Jas. McComb were charged with a violation of the health by-law in allowing a nuisance to exist in the yard at the rear of their premises. The case was enlarged a week to give them time to remedy the complaint.

Personal.

Rev. F. W. Armstrong, of Trenton, removes to Iroquois shortly.

Miss Dean, of Brighton, has returned home after a month's visit with friends in Peterborough.

Mr. Jas. Gillespie, late of Mr. J. D. Tully's drug store, has gone to Montreal to enter the wholesale drug establishment of Kenneth Campbell & Co. "Jimmy's" many friends will wish him success.

Mr. J. L. Stoney, of Hamilton, Inspector of the New York Life Insurance Co., is in town to-day. Mr. Arthur Turner, agent for the four counties in this district, will in a few days have commodious offices over Mr. F. Mason's flower and seed store on Hunter street.

Mr. R. J. Colville, general secretary of the Y.M.C.A., has received an invitation from the Christian Endeavor Convention, to be held in Toronto on Nov. 18th and 19th, to read a paper on the subject—"The Society Inter-denominational." There will be a large attendance of delegates, including the founder of the Christian Endeavor Society, Rev. A. F. Clarke, Boston, Mass.

News Nuggets.

—The Bridge street Methodist church trustee board, Belleville, has passed this resolution:—"That in view of a large number of announcements constantly being sent to the pastor of this church to be read by him from the pulpit, that, the pastor be requested to confine the announcements to that he will read to the congregation to those that refer to the actual work of this church."

The Last Duel Fought in Canada.

We have not on record says the Montreal *Witness*, the name and address of the writer of this interesting story who receives the prize for York School, Haldimand County. We hope the publication will lead to its being sent to us.

At the close of the war of 1812 there settled on the Grand River a shrewd, middle-aged Scotchman, by the name of John Norton, known in later years among the settlers as Colonel Norton. Norton, like most of his countrymen, had an eye to the main chance, and soon cast about him for some means of improving his worldly position. The great Mohawk chief, Brant, was alive at the time and exercised unbounded influence among the Six Nations settled on the river. The canny Scot, who was a real soldier of fortune, took a cool survey of the whole position of affairs on the river, and laid his plans accordingly. Securing the friendship of the great chief, he contrived to make him understand that he, John Norton, would not be at all averse to conferring the honor of *his name on any* dusky maiden who was the possessor of a good "tocher in siller or braid lands." Brant told his friend, that, if he could find a suitable squaw, his (Brant's) influence should not be wanting to further the match. Norton attended several pow-wows, and finally selected as his future wife a very handsome young squaw, the possessor of a Milesian name and five hundred acres of land. Capt. Brant and Squire Warner Nelles made John Norton and Kate Docherty man and wife, and immediately after the ceremony the Colonel set to work building a mansion on his newly acquired estate. Possessed of great executive ability and energy, the shrewd Scotchman soon made his wife's lands the source of a handsome income, which he spent in princely hospitality. He dressed his Indian wife in regal style, and for some years their married life was as happy as could be desired.

In company with his wife Norton visited his native land, and while there pretty Kate had the honor of being presented to royalty in the person of Queen Caroline, the spouse of George IV. The Queen was very gracious to the red daughter of the forest, and loaded her with jewellery and trinkets, which many persons yet living on the Grand River remember to have seen on her person after she returned to Canada.

The Queen also caused two portraits of the Indian matron to be painted, one of which she kept for herself, and gave the other to Norton.

Three or four years after the visit to Britain the cloud that was to darken their married life, and eventually deluge it with utter ruin, appeared no bigger than a man's hand. A certain Indian, known as Onondaga Joe, began to pay court in a sly way to Mrs. Norton. The foolish wife smiled on her new lover. The result was disgrace and exposure. The injured husband determined to be avenged on the scoundrel who had brought dishonor on his house. He gave him his choice of fighting a duel or being shot down in his tracks. The Indian, who, to do him justice, seems to have been no coward, cheerfully agreed to the duel, remarking, that, after he had put a bullet through Norton, he would have an undisputed possession of Kate and all her property. Two heavy pistols were loaded by one William Weir, who kept a hotel on the river up to quite a recent date. The Indian got the first choice of weapons. Then the two duellists stood up back to back, and, at the word of command, given by Weir, stepped off six paces each, then turned and fired. Both staggered, but neither fell, and, wild with rage, they flew at each other with the discharged weapons. After several ineffectual attempts to knock each other down with these, they grappled and fell, locked in a deadly embrace. Both were active, muscular men, but the redskin had the advantage in weight and years, and for some time it looked as if Norton was to be vanquished. But the Scot, like the majority of his countrymen, was a man of resources, and by a skilful trick of wrestling got the Indian under him, and began to batter his brains out with the butt end of the pistol. Then the cur begged for mercy, saying that he was shot in the thigh, and was bleeding to death. The Colonel like a modern Dugald Dalgetty, desired a bystander to examine his enemy's thigh, and report on its condition before giving up the advantage he had obtained by his skill in wrestling. When assured of the severe nature of the wound he released his grip, and rose to his feet. The Indian died of hemorrhage two days after. His bullet had grazed Norton's scalp.

Having a wholesome dread of the penalties attached to duelling, Norton gathered together his portable property, and converting what else he could into cash, disappeared, attended only by a young lad named Sam Chen. As neither of them were ever afterwards seen on the Grand River, it was generally supposed that they made their way to the far West, there to commence life anew.

Kate Norton met the fate of all false wives—a wretched life and miserable death. Many in this section of Canada yet remember the dirty old squaw, leprous with disease who begged her bread at the doors of white people for many years before her death. That was the once handsome Kate Docherty, who had kissed the hand of royalty.

The "Red House" built by Norton, in front of which the last duel fought in Canada took place, has been thoroughly renovated, and is now the elegant residence of Mr. Fred. Nelles, of the township of Seneca.

This story, which is perfectly true in all its details, I heard from the lips of Mr. Isaac Nelles, sr., who at 94 is hale and hearty enough to drive two miles and record his vote for Mr. Colter, and even to dance a lively step on hearing that a Reformer had been returned for the county in which he was born and in which he has had a vote for three-quarters of a century.

Ashburnham Brevities.

New fences are being put round the Mark street Methodist church yard, and the grounds generally improved.

A local sport this morning shot a brace of wild duck in Little Lake. They had strayed too far into civilization and from their haunts.

From present appearances the local grocers are anticipating a large winter trade, as they are laying in large stocks of fresh goods, new consignments arriving every day.

The Temperance Movement.
The Ontario Branch of the Dominion Alliance have issued notices for the annual meeting of the Branch at Toronto, commencing Wednesday, December 18th. The announcement says it is confidently expected that this will be one of the largest and most influential gatherings of the kind yet held, and an earnest appeal is made for the attendance and co-operation of all in sympathy with the movement and its objects. Among the many important questions to come up for discussion at this meeting are the securing of immediate prohibitory liquor legislation, so far as the same is within the competence of the Local Legislature; and electoral action for the securing of legislators in favor of prohibition. Special railway arrangements have been made. All who expect to come are requested to notify the secretary of the Alliance. They will receive special railway certificates, and will purchase single fare tickets to Toronto at the usual rate. The railway companies will then return them from Toronto for one-third of a single fare, or if, (which is more than probable) three hundred delegates come to the convention, they will receive return tickets free.

How to Lace Your Shoes.
Not one person in a thousand laces his shoes correctly. The correct way is to put your foot when you are about to lace your shoe as much as possible in the heel of the shoe. You can do this best by lacing your shoes with the heel of your shoe resting in a chair standing in front of the one you are seated on. Over the instep the lacing should be drawn as tightly as possible. This will hold your foot back in the shoe, giving the toes freedom and preventing their being cramped. Lace about the ankle to suit your comfort.—*New York Truth.*

RUPTURE

CHAS. CLUTHE, who, after many years trial by the medical profession, has secured their confidence and esteem, will be in your neighborhood, see below.
If you or your Children are RUPTURED or DEFORMED,

call and see him with your physician. Having spent his whole life in improving and perfecting appliances for rupture and other deformities, it is conceded by the best authorities that he is the only man in this line of business who can, after examining a patient, invent and construct a proper appliance to overcome a the most difficult cases, as many thousands have testified. No two are made alike. More patents have been secured by him, than all others combined. Testimonials of the most assuring character have been received from people in all callings, who have used his appliances for cases of SPINAL DISEASE, CLUB FEET, and other deformities, especially RUPTURE. NEWS OF THE DOMINION.

SMUGGLING SCHOONERS FOR THE ST. LAWRENCE TRADE.

Close of the Baptist Convention—Funeral of the Late Senator Turner—A Windsor Lawyer Disappears.

QUEBEC, Oct. 23.—These sentences were pronounced yesterday at the Criminal Court: John Marcotte, receiving stolen goods, two years penitentiary; Francis Joynt, wounding [illegible] West, five years penitentiary; Jos Gregoire, larceny, one year common jail at hard labor; Octave Mueller, late agent Citizens' Insurance Company of Canada and the Agricultural Insurance Company of Watertown, N.Y., forgery, three years penitentiary.

Lieut.-Gov. Angers has issued a proclamation fixing Nov. 7 as a day of Thanksgiving and another fixing Oct. 24 as Arbor Day.

A line of smuggling schooners has been built for the St. Lawrence trade in wines, brandies, jewelry, books and tobacco. The smuggled goods are placed on the beach during the night and are soon removed. The boats come up as far as Quebec and even to Montreal. The boats are provided with false bottoms.

The Baptist Convention.

OTTAWA, Oct. 23.—The alumni of the Toronto Baptist College met yesterday morning. The business was principally private. Rev. W. J. McKay, B.A., London, was appointed their representative in the senate of McMaster University. Rev. E. B. Dodson, B.A., Woodstock, was elected president, Rev. D. W. Ruddick, Port Hope, vice-president, Rev. G. L. Gilmour, Orangeville, secretary.

The Baptist convention was closed yesterday. The principal business was the election to fill vacancies on the board of governors of McMaster University which resulted as follows: Rev. R. G. Boville, Messrs. C. K. Holman, Toronto, G. Kennedy, Montreal, D. W. Karn, Woodstock.

Funeral of Senator Turner.

HAMILTON, Oct. 23.—The funeral of the late Senator Turner took place from Highfield shortly after 3 o'clock yesterday afternoon. The service of the dead of the Presbyterian Church was conducted at the house by Rev. D. H. Fletcher, D. D., the remains being conveyed directly thence to the cemetery. Numbered in the cortege were nearly all the prominent citizens of Hamilton. The pall-bearers were Mr. Alexander Turner, brother of the deceased; James L. Turner, Wm. R. Turner, A. D. Turner, sons of the deceased; R. K. Hope, of this city, and J. I. A. Hunt, of London, his sons-in-law; Campbell Turner and Mr. I. Turner, of Brockville. Among those who followed the remains to their last resting-place were Sir Alex. Campbell, Hon. Frank Smith, Hon. G. W. Allan, Hon. John Macdonald, Hon. G. C. McKindsey, Dr. Vant, of Brockville, Senator Sanford, Adam Brown, M. P., Alex. McKay, M.P., Hon. J. L. Gibson, M. L. A.

A Woodstock Slander Case.

WOODSTOCK, Oct. 23.—Another slander case has been entered for trial at the Assizes. The plaintiff is William McClevin, formerly a school teacher at Strathallan, and the defendant is a Mrs. Wilson, daughter of Daniel Larke, Tavistock. The plaintiff has been suffering for some time from rheumatism, and the defendant is accused of having given currency to a report to the effect that his illness was not due entirely to rheumatism but from something else. To make the matter more interesting an action has been entered against McClevin for seducing one Rhoda Baker, residing near Tavistock.

Disappearance of a Windsor Lawyer.

WINDSOR, Oct. 23.—C. G. Crickmore, a well known lawyer is missing. Friday last he sold his law library and in fact everything else in his office to Deputy Judge Ellis for $250. With this money he left the office and was seen afterward on the same day at the Crawford House but did not go to his boarding place at Sandwich nor has he been there since. He has as completely disappeared from view as if he was at the bottom of the river, as his friends fear. The missing man was about 60 years of age and unmarried.

Stranded Barges Block Navigation

CARDINAL, Oct. 23.—Yesterday while the tug Hiram A. Calvin with the barges Huron and Condor in tow was passing down, her barges struck above the Galops Rapids breaking the lines and causing the barges to drift ashore. The Huron passed on down the rapids and struck on a shoal below but was easily removed, the only damage being to her steering gear which was disabled. The Condor turned sideways and grounded in the main channel blocking navigation. The cause of the accident is attributed to the lowness of the water.

A Golden Wedding at Bloomfield.

BLOOMFIELD, Oct. 23.—Yesterday Adam H. Taylor and Matura Cooper Taylor his wife celebrated their golden wedding. The couple are hale and hearty, he being an active business man. Relatives to the number of over 100, five generations being represented, partook of the aged pair's hospitality.

Belleville Briefs.

BELLEVILLE, Oct. 23.—The bylaw granting a bonus to the rolling mills firm was read a second time in the council Monday night. It will be submitted to the vote of the electors on Nov. 20.

The trotter Lady Lightfoot has been sold for $300.

Peter Johnson, an Indian, was yesterday fined $5 and costs or 30 days for drunkenness. He was committed.

Found Dead in His Stateroom.

ST. JOHN, N. B., Oct. 23.—Wm. Levn Moses, traveler for the New York clothing house of A. M. Stein & Co., was found dead in the state room of the Cumberland here yesterday afternoon from Boston. He got on board the steamer at Portland and was bound for Eastport. He is supposed to have died a short time before the steamer reached the latter port. The officers of the Cumberland discovered him dead a short time before the vessel reached St. John. He was a Hebrew, about 54 years old.

The Delagoa Bay Dispute.

LONDON, Oct. 23.—The negotiations between the Portuguese Foreign Minister and Lord Salisbury on the subject of the recent Delagoa Bay dispute have reached a critical point, and it is evident that the Portuguese Government, while desirous themselves of making the most ample reparation for the high-handed manner in which the property of British subjects in that quarter of the world was confiscated by Portuguese officials, are prevented from doing so by the bitter tone of the Lisbon and the Provincial press. The newspapers are almost a unit in breathing hatred of the English and in protesting against any reparation whatever to the owners of the Delagoa Bay Railroad, seized upon a paltry pretext by the Portuguese authorities there. Well informed diplomats still fear trouble as a result of these complications.

Burnt to Death

LEXINGTON, Mo., Oct. 23.—The residence of ex-Mayor Ballard was burned last night, Mrs. Ballard, who was of unsound mind, perished in the flames.

LATEST LONDON GOSSIP.

EDMUND YATES' PEN PICTURE OF KING LUIS.

Nonsense Talked by Rabid Radicals About Expenses of the Monarchy—An Absurd Romance.

LONDON, Oct. 23.—The late lamented King Luis of Portugal, though in many ways almost as eccentric as the ill-fated ruler of Bavaria, was a man of considerable energy. He was with us for a fortnight some three years ago, and spent most of the time at South Kensington under the guidance of Sir Philip Cunliffe Owen. His clean-shaved face, ill-fitting frock coat, swarthy complexion and gold headed cane gave him the appearance of a Turkish pasha rather than of a European potentate. His avidity in sight seeing soon exhausted the energy of the Prince of Wales. The political relations of the court of Oporto must now be a little mixed, for while the new king is the son-in-law of the Comte de Paris, and brother-in-law of the Duc d'Orleans, he is also very closely connected by marriage with Prince Victor Napoleon and his dynasty. It is scarcely to be wondered at that the late king should have regarded the death of his brother, the Duke of Coimbra, from fever as a sinister omen, and that that event should have prejudicially affected his own prospects of recovery. In November, 1861, his brother, Prince Ferdinand, was seized with typhoid fever and died in less than a week. King Dom Pedro was next attacked and also succumbed. Another brother, Prince John Beja, was visiting Windsor at the time with the king just deceased, then the Duke of Oporto. They hurried home, but Duke Beja was immediately taken ill with fever and died on Dec. 22. In the meantime the Prince Consort, who had loved the King of Portugal with an affection almost paternal, had been stricken with the same fatal disorder, and died on Dec. 14.

French newspapers have started an absurd romance about serious differences which, it is alleged, have arisen between Empress Frederick and Prince Bismarck, in consequence of the chancellor having interfered to prevent the betrothal of Prince Margaret of Prussia to Prince Christian of Denmark, which the empress is very desirous of bringing about. The real fact is that Bismarck has no sort of objection to the projected marriage, and the story that he wishes Princess Margaret to marry Prince William of Nassau is absolute nonsense. The alliance between the heir of the throne of Denmark and the sister of the German emperor was so distasteful to the czar, who exercises a perfect despotism over his wife's family, and it has led to such furious protests from the Duke of Cumberland that the idea was abandoned.

A great deal of nonsense is talked every week by rabid Radicals, who are either very ignorant or grossly dishonest, about the expenses of the monarchy. The fact that the cost to the American people of the periodical contests for the presidency exceed £20,000,000 sterling is rather startling when one remembers the rubbish which was talked and written last July of the cheapness of the American institutions. I am not surprised that General Grant once asked, "What honest American citizen is there who would not give his ears for a government half as cheap as that of England?"

The Speaker has denied the foolish report that he is going to resign, of which he never had any intention. He is, I hear, quite well now, better than he has been for some years, and rest and retirement have done him good. Lord and Lady Knutsford and a few people have been staying with him, but Mrs. Peel is still obliged to keep quiet and not overtire herself.

Mrs. James Russell's House of Commons jubilee album, which gave rise to some controversy in Westminster, is now almost complete, and the author hopes to formally present it to the Queen soon after the beginning of the next session. It is in a way a quite unique curiosity. The portraits, which are, as a rule, admirable, have been reduced to the modest dimensions of 2 by 1½ inches, and are arranged alphabetically, forty-nine on a page, with the sheet opposite for autographs. There has been no obstruction from the home rulers. T. P. O'Connor smiles benignly on his sovereign, who in turn will have the pleasure of gazing on the bearded face of Xavier O'Brien, once sentenced to be hanged, drawn and quartered for treason. There are some most amusing instances of juxtaposition. Sir Algernon Rothwick, her majesty's most loyal subject and near neighbor, looks very uncomfortable, tightly wedged in between Messrs. Bradlaugh and Broadhurst.

If only Lord Mayor Isaacs is blessed with fine weather Saturday fortnight, Mr. Wingfield's historic show will mark an epoch in the annals of civic pageants. The original idea has been expanded into almost the complete representation of early England. The pageant will be divided into three sections, with about 200 characters each. In sports and pastimes we shall see the Quintan tilt, Maypole, Lord of Misrule, and the court tournament, for which Henry Irving lent both arms and armor, on horseback. Serious history will be portrayed by procession of celebrated people, whose blood had a corporation mixture in it. Then comes the mayoralty in honor of its 700th anniversary, and London will once more see the presentment of all her rulers from Henry Fitz Alwyn down to John Wilkies. If Jupiter Pluvius is propitious, Mr. Wingfield will out-Barnum Barnum.

EDMUND YATES.

The Ripper on His Travels.

LONDON, Oct. 23.—Munich in Bavaria has a "Jack the Ripper" mystery quite as profound as that of Whitechapel. Two girls were found murdered in the streets there early yesterday morning and their bodies mutilated in such a manner as to lead to a opinion that the London fiend had started on his travels. Great excitement prevails in Munich.

A JURY SECURED.

TO TRY THE CRONIN SUSPECTS AT CHICAGO.

After Seven Weeks a Selection Made From Over Eleven Hundred Persons—A Two Days Adjournment.

CHICAGO, Oct. 23.—A complete jury was secured in the Cronin case late yesterday afternoon. When the work had been finished the State's Attorney asked for an adjournment of two days in order to give the prosecution time to make out a plan for the presentation of its case. The defence objected and Judge McConnell compromised by adjourning the hearing until to-morrow morning.

The empanelling of the jury commenced Aug. 4. Allowing for the time occupied by the court in the Drainage Commission and an adjournment asked for by the State's Attorney, seven weeks have been occupied in getting the jury; 1091 jurors have been summoned, of 927 have been excused by counsel for cause. In addition to the 1091 special veniremen there were also 24 on the regular panel disposed of. One hundred and seventy-five peremptory challenges have been used, of which the defence has used 97. At the time the jury was sworn in the defendant Beggs had three peremptory challenges left and the State twenty-two.

Suicide or Accident.

NEW YORK, Oct. 22.—Sigmund Silbermann, the 22-year-old son and confidential clerk of Jacob Silbermann the wealthy silk importer of this city, was found on the floor of his room at his father's house here yesterday morning dead. There was a pistol on the floor and a bullet wound over the right temple. The family tried in vain to keep the cause of death a secret. The deceased was a man of correct habits. He was accustomed to carrying large sums of money with him and carried a pistol for protection. The coroner has not yet determined whether the case is one of suicide or accidental shooting.

Official Information.

CONSTANTINOPLE, Oct. 23.—The Porte has been officially informed that at the recent interview between Bismarck and the Czar no reference was made to the subject of a settlement of the Balkan question. The Czar expressed satisfaction at Emperor William's intention to visit the Sultan and desired the Emperor to convey the Sultan assurance of his friendship.

The Central American Union.

NEW YORK, Oct. 23.—Jacob Baer, consul-general of Guatemala, has received a dispatch stating that the Central American Congress has approved the basis for the union of the Central American States.

Y.W.C.A. Conference at Baltimore.

BALTIMORE, Oct. 23.—The biennial conference of the Young Women's Christian Association of the United States and Canada began yesterday at the hall of the Young Men's Christian Association. Mrs. C. E. Beebe presided. Delegates were reported from fifty associations, an increase of twelve during the past two years. About 100 delegates are in attendance.

The Marine Conference.

WASHINGTON, Oct. 23.—At the International Marine Conference yesterday the reading of the "rules of the road" was completed. The conference adjourned until Monday that the committee might have time to consider matters referred to them. Admiral Franklin, president of the conference, has resigned the chairmanship of the American delegation and Mr. Goodrich has been chosen chairman of the delegation.

Passing Wonderful.

PITTSFIELD, Mass., Oct. 23.—A strange atmospheric phenomenon was observed here yesterday afternoon. The sun was sinking and the sky was hazy when a brilliant rainbow, a quarter circle, appeared in the zenith, being visible an hour.

Found Guilty of Murder.

EASTON, Pa., Oct. 23.—Wm. H. Bartholomew, the slayer of Aaron W. Dilliard, was yesterday found guilty of murder in the first degree. Bartholomew was Mrs. Dilliard's paramour and the woman yesterday confessed that she and Bartholomew conspired to kill her husband.

Smashes on the N. and L.

LOUISVILLE, Ky., Oct. 23.—The Bowling Green accommodation of the Louisville and Nashville road had its rear coach demolished at Nolin, Ky., yesterday by the fast mail from the south. The following were injured: Rev. J. M. Bruce, Vandyke Heiser, Millerstown, Ky.; J. M. Wheeler, Worthington, Ky. Several others were slightly hurt.

BIRMINGHAM, Ala., Oct. 23.—Some freight cars in the middle of a freight train jumped the track on the Louisville and Nashville road. Two cars were loaded with horses en route to the State fair. The animals were bruised but none were seriously injured. Eugene Christian, a colored jockey, was killed. Joe Grey, John Kimbough and Jim Toomas, colored trainmen, were badly hurt.

The Pan-Pilgrims are Polite.

CHICAGO, Oct. 23.—Last evening Minister Romero of Mexico received a telegram from Secretary Blaine stating that rumors had reached him that the Pan-American Pilgrims were so weary they would prefer to abandon the trip, and asking if this were so. A meeting of the visitors was held last evening and a telegram was sent to Mr. Blaine stating that the rumors were without foundation, that the enthusiasm of the receptions was increasing and was equalled only by the appreciation of the guests.

Level Crossing Victims.

WICHITA, Kan., Oct. 23.—A collision occurred yesterday on the crossing of the Santa Fe and the electric street railway seriously cutting and bruising the Misses Ollie and Sadie Munn, and internally injuring Nellie Henderson of Oswego, Kan., who will die. The accident occurred in the curve of the Santa Fe tracks. A grove of trees prevented the engineer from averting the danger. The street car was hurled 60 feet by the engine. About 15 persons were more or less injured and their escape from death almost miraculous.

Four Seamen Drowned.

NEW YORK, Oct. 22.—The barkentine Josephine, from Port of Spain for New York with a cargo of asphalt, has been lost at sea. In the gale last week she sprang a leak and filled with water. The first and second mates and two seamen were washed overboard and drowned. Capt. Brown and the four remaining men as soon as the storm had abated took to the life boat. They were picked up three days later by the steamship River Avon. Captain Brown lives in Brooklyn.

Glanders Reported in Michigan.

LANSING, Mich., Oct. 23.—State Veterinarian Grange was called to Lowell yesterday to investigate the outbreak of a contagious disease among horses there. It is believed to be glanders. There are nearly 50 cases.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

JOHN HACKETT

MATTERS IN MONTREAL.

A Test Case—Preferred Prison to Exiles in the United States.

MONTREAL, Oct. 23.—The Bossiere line of steamships have taken an action against Robert Bickerdike for $4839. Defendant had taken all the space for cattle on the wrecked steamship Geographique for the above mentioned sum and as the bill of lading read that the freight was to be paid, "lost or not lost," the present action is taken as a test case to ascertain whether a claim can be instituted under such conditions.

The Laval-Victoria trouble is now at an end as all the students of the Victoria school have come to terms and the regular school courses of the new school were proceeded with peacefully yesterday.

George Lamoureux, a young man of 20 years, gave himself up to Detectives Trempe and Carpenter and confessed having committed a robbery at Petite Angel near Farnham two years ago. He had been engaged working in the station there and on Sept. 28, 1887, a letter containing $225 was received from the Dominion Express Company. Lacaillade took the money and left for the United States where he remained till Saturday when he returned and gave himself up. The authorities from Petite Angel were notified and came to Montreal for the prisoner who will be tried at St. Hyacintha.

TORONTO TOPICS.

Provincial Sunday School Convention—A Youthful Burglar.

TORONTO, Oct. 23.—The Provincial Sunday School Convention opened in Carlton-street Methodist Church yesterday with 300 delegates in attendance. J. K. Macdonald, of Toronto, was elected president, and Rev. E. Barrass, D.D., Pickering, and W. M. Graham, Lakefield, minute secretaries. Addresses were made by Dr. Potts, Wm. Reynolds, of Peoria, Ill., and others, and Rev. Dr. E. A. Stafford spoke on "A General Knowledge of the Bible Essential to Effective Sunday School Teaching."

William Mayne, a prisoner at the Central, whose term of five months would have ended next month, committed suicide on Monday. Coroner Duncan held an inquest yesterday, at which the jury returned a verdict of death by wilful strangulation and recommended that the open bars be closed and that the guard visit the cells every two hours.

At the Police Court yesterday Ernest Dunn, who has only seen ten summers, was sent to the Penetanguishene Reformatory for four years for burglary and housebreaking.

After an exciting chase, at noon yesterday, William McMillan was arrested as the party who has been floating forged checks as a business lately. Some time ago a forged check was passed off on Ticket Agent Webster, and he has been on the lookout for the culprit ever since. Mr. Webster's clerk saw McMillan in Yonge-street, near Temperance-street, yesterday and recognized him as the person who had presented the check. He immediately informed Constable Walsh, who proceeded to arrest McMillan. The latter, however, was determined not to be taken, and started off on a run. The constable made after him, but finding himself being left behind he jumped into a buggy and urged the horse after the sprinter. McMillan's right to the latter title will be admitted when it is stated that the constable did not overtake him until he had arrived at the corner of Beverley and St. Patrick streets. McMillan is about 23 years of age, and has no particular business, being recently employed by The Empire as a collector. He had in his possession recommendations from Messrs. Hughes Bros., Wm. Hall, Wm. Gray, P. M., Parkdale, and others. He has been married about five months and resided at 96 St. Patrick street. Since the arrest has been made he has been identified by Matt Evans, Webster's clerk, and Adams as the person who presented the forged checks to them.

A CHURCH ROW.

This Time in a Polish Catholic Church in Pennsylvania.

PLYMOUTH, Pa. Oct. 23—About three months ago Bishop O'Hara of Scranton deposed Rev. Father Warnegari, pastor of the Polish Catholic Church here, and afterwards expelled him from the priesthood for unbecoming conduct. The congregation was divided into two factions and one of these insisted upon holding possession of the church and parsonage. Yesterday Bishop O'Hara appeared in Plymouth for the purpose of obtaining possession of the church and its property. He deputized Father Mack to act in his name. The police were asked to assist and a call was made at the parsonage. Admission being refused the officers battered down the doors and arrested the inmates, among whom was the leader Martin Wilch, a saloon keeper. A fierce fight ensued while the prisoners were being removed and in the struggle Chief of Police Michael Malvin had his leg broken and back injured. A number of other persons were hurt but none fatally.

WORCESTER, Mass., Oct. 22.—The wire goods companies of Worcester have entered into a combination with the leading eastern manufacturers of wire goods to raise the price of their manufactures, especially those belating to household utensils.

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

THE LADIES!

A New and Hitherto Form of Disease which is Affecting Canadian Women.

How some of Them Regained Fresh Complexion, Perfect Health and Superb Physical Beauty.

A great London Physician says that he notes a new and distinct form of nervous disease produced in Canadian women by worry about servants and overwork in caring for the home. This is only too true. It is why we see so many ladies pale, weak, languid, and suffering from headaches and innumerable weaknesses. They cannot stand the strain upon their nervous system. Many of them have found the means to sustain their failing strength, to give color to the cheeks, and new life and vigor to the body, in Paine's Celery Compound. This pure and scientific remedy is especially adapted to the needs of woman, and is daily making the most remarkable cures. Mrs. W. E. Cooper, 40 St. Hypolite St., Montreal, was for a long time troubled with nervous headaches, loss of appetite, low spirits, etc. After using the Compound, her headaches disappeared, appetite was good, and her spirits revived.

Annie Gourley, of River Beaudette, P.Q., found the Compound a certain cure for weakness, and now leads as well as she ever did.

Many a Canadian lady has the same reason to be grateful.

Paine's Celery Compound can be purchased at any druggist's for one dollar a bottle. If he should not have it on hand, order direct from WELLS, RICHARDSON & Co., MONTREAL.

THE TRENT VALLEY CANAL.

The Belleville *Ontario* directs attention to the fact that "Citizen," in writing to the Peterborough *Review*, conservative, calls attention to the lack of vim and energy of our public men in promoting the Trent Valley canal and says: "There was a great flourish at the time the government appointed a commission to investigate into this scheme and a large sum of money voted by the town and county. A committee and a paid secretary were appointed, but the public has never since heard from them. * * Parliament will soon be again sitting and the same excuse will again be given, namely that the commission has not reported." The *Ontario* reminds "Citizen" to remember that interest in the proposed canal began to wane immediately after the last general election. About the time that another election is to be held Mr. Bowell and his henchmen will turn up as full of promises and as ever and endeavor to press the proposed work into service again. The Trent Valley canal has been used for years as a vote-catching machine and so long as the people allow wire-pullers to use it successfully just so long will the government keep the people of the district on the ragged edge. But should they take a notion to show the political wire-pullers that the canal has lost the power that it once had to make votes, they will soon learn that there is no hope for the work being carried to completion." We're used to this sort of thing in this county and the man is yet to be found who regardless of his politics seriously regards the Trent Valley scheme with the least degree of seriousness as a *bona fide* public work. It has for years been in existence as a canal for the purpose of floating government hulks to Parliament, and that is about the only kind of navigation it will ever be fit for. As the *Ontario* suggests, the canal scheme will be rehabilitated just before another election. Meanwhile the public are anxious about the report of the Commissioners whom the Government, after having solemnly pledged themselves to the construction of the canal, appointed to inquire whether the canal should be built? The Commissioners have reported months ago, but, up to the present time, the Government has suppressed their report. The public need not get excited on this subject; the Government undertook the Commission for their own benefit, and they will use the report for the same purpose. It will doubtless be invaluable for influencing votes just previous to the next general election. If the curious wish to know when the next general elections are coming on, they will be able to form a very accurate general idea by watching for the report of the Trent Valley Canal Commissioners. When that appears, it will be time to buckle on armor for the fight.

THE duty paid on sugar, the *Globe* points out, in the fiscal year ending June 30, 1888, was $3,433,334. The duty paid on sugar in the fiscal year ending June 30, 1889, was, no doubt, much greater, because the aggregate duties of last year exceeded the aggregate duties of the preceding year by $1,800,000. The Government journals have for a long time been contending that this duty does not increase the price. But last week the St. John *Sun* blurted out the truth in this fashion:—

"A number of taxes remain which are solely for revenue. The most productive of these, and the one that in our view should be first reformed, is the tax on sugar. The only protection the sugar duty affords is in the excess of the tariff on the refined article over that on raw sugar. By making raw sugar free and reducing the duty on refined to a rate affording the same protection as now, the price to the consumer would be reduced a third or more."

Thanking the Minister of Education.

The teachers' institute held recently in Plantagenet passed a strong resolution of thanks to Hon. G. W. Ross, Minister of Education, for the interest he has taken in the educational affairs of Prescott and Russell. In the resolution the Minister was thanked for:

(1.) In appointing a commission of inquiry that the people of Ontario might have an authoritative exposition of the true state of affairs in our schools.

(2.) In affording such valuable aid at this Institute for Prescott teachers.

(3.) In taking measures for the establishment of a training school wherein our teachers may obtain a professional education similar to that given to the other teachers of the province.

We also desire to assure the honorable Minister that he shall have our hearty co-operation in his efforts to improve the standing of our schools, and especially that we shall endeavor to carry out the regulations relating to the more efficient teaching of the English language in our schools.

English in French Schools.

Hon. G. W. Ross, Minister of Education, has issued a circular of directions for teachers and trustees of French-English schools. It is ordered that the teacher shall not only conduct in the English language every exercise and recitation from the prescribed English text books, but communication between teacher and pupil, in matters of discipline and in the management of the school shall be English, except so far as this is impracticable by reason of the pupil not understanding English. Teachers' institutes are to be held annually for some years with the special view of aiding young teachers in matters difficulties peculiar to schools in which both *English* and French are taught. Hereafter two sessions a year will be held of the model schools in counties where there is a scarcity of teachers qualified to teach English. The final examinations of these schools is to be conducted in English. The bi-lingual readers used in the Maritime Provinces are authorized for the use of schools where French prevails. It shall be the duty of the inspector to see that the study of French or German does not encroach upon the time necessary to acquire a thorough knowledge of English. All unauthorized text books are to be excluded, and the law prohibiting them and the penalties for its contravention are quoted. The general regulations regarding religious instruction must be obeyed; and religious emblems must not be exhibited during school hours. The minister winds up by saying:—"I confidently expect that trustees and teachers will faithfully carry out these instructions. It will give me much pleasure to render you all the assistance in my power to promote the efficiency of your schools, in order that every pupil under your care may acquire such a liberal and practical education as would fit him for the duties of citizenship in the highest sense of the term."

Referring to these new regulations, the *Globe* says:—The Minister of Education, in refusing to banish French and German from the schools, will have all tolerant citizens and all thoughtful educationists with him. The child who knows two languages, and can change the form of his thoughts readily from the one to the other has, other things being equal, a better educational outfit; a more useful foundation for a superstructure of culture than the child who knows but one. Keep French and German in their proper position in the schools, that is just about how these instructions theoretically place them, and they will do no harm but good, educationally speaking.

What it Means.

To the man or woman who has never been ill, the word "health" is meaningless. But to the one who has suffered and despaired, health appears as a priceless boon. To the thousands of unfortunate women who are suffering from some of the many forms of weakness or irregularities peculiar to their sex, Dr. Pierce's Favorite Prescription holds forth the promise of a speedy restoration of this "priceless boon."

SKINS ON FIRE.

Agonizing, itching, burning and bleeding Eczema in its worst stages. A raw sore from head to foot. Hair gone. Doctors and Hospitals fail. Tried everything. Cured by the Cuticura Remedies for $3.

CURED BY CUTICURA.

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and been through the hospital, but all to no purpose. The disease cured my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA SOAP, I find myself cured at the cost of about $3. I would not be without CUTICURA REMEDIES in my house, and I think they are the only safe and blood purifiers.

ISAAC H. GERMAN, Waterboro, N.Y.

Burning and Itching.

I was sick in the fall of 1886 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some doctors thought it might be salt rheum (eczema), and said they never saw anything like it before. I received no help from any of them, or from any medicine that I could get, boiled, until I tried your CUTICURA REMEDIES. After three weeks use I was able to work, and kept getting better, until I am now entirely cured. I recommend them to all suffering with skin diseases.

C. E. COBLER, Taftsville, Vt.

Most Intense Itching.

I have used the CUTICURA REMEDIES successfully for my baby, who was afflicted with eczema, and had such intense itching that he got no rest day or night. The itching is gone, and my baby is cured, and is now a healthy, rosy-cheeked boy.

AMBITIOUS CITY NOTES.

The Grand Trunk Makes a Proposition to the Projected Railways.

HAMILTON, Oct. 22.—Mayor Doran yesterday received a letter from General Manager Joseph Hickson of the Grand Trunk Railway with reference to the routes of the two projected railways through the city. Mr. Hickson writes:

"Having a very substantial interest as taxpayers, this company desires to prevent if possible unnecessary waste of money, and I therefore make through you the following proposition: The Grand Trunk will afford to the two companies access to and egress from the city by its various lines for a reasonable distance from the city limits and facilities over its lines and in its stations and yards within the city. If the yards, etc., should be considered insufficient for the entire traffic, we are willing to extend them. The company is prepared to agree with the two companies as to the compensation to be paid for the accommodation furnished, and failing an agreement as to the amount, they are willing it should be settled by arbitration in the usual way."

The funeral of the late Senator Turner will take place at Highfield at 3 o'clock this afternoon. The burial service of the Presbyterian Church will be conducted at Highfield, and the remains conveyed directly to the cemetery.

Yesterday morning an elderly man named Alfred Hall was arraigned before Mayor Bertram of Dundas charged with placing stones on the rails of the Hamilton and Dundas Railway with intent to cause an accident. George Lyall, an engineer, testified to seeing Hall place the stones on the track near the Dundas station about noon on Sunday. The prisoner was committed for trial. Hall is thought to be insane. He formerly carried on business as a butcher, and also a livery stable keeper, but recently has not been doing anything.

Death of Capt. Sawle of Welland.

WELLAND, Oct. 22.—Capt. W. T. Sawle of The Welland Telegraph died here Sunday night at 11 o'clock. Although Mr. Sawle has been sick for some time his death will be a surprise and shock to his many friends all over Western Canada. He was born in Ilfracombe, England, some 42 years ago and for the last 19 or 20 years has been connected with the Conservative press of Western Canada, in Caledonia, Brantford and for the last two years or so in Welland as proprietor and editor of The Welland Telegraph. The deceased leaves a wife and seven children: Mr. H. R. Sawle of Caledonia and Mr. John R. Sawle of Toronto are younger brothers.

KINGSTON, Oct. 22.—Yesterday morning Catharine McLaughlin, an inmate of the Regeopolis lunatic asylum, jumped from a second story and was killed by the fall.

Found Dead on the Track.

NAPANEE, Oct. 21.—Yesterday morning about 6 o'clock the switchman of the Grand Trunk Railway found a young man about 25 years old dead on the Crossing, 200 yards west of the station. He was identified as Russel Toplet, school teacher, Collins Bay. It is supposed he tried to jump on an east bound train and was drawn under the cars.

The Poison Fiend in Illinois.

ALTAMONT, Ill., Oct. 21.—William Carey, a farmer, died last night, it is supposed from the effects of poison placed in his well. His wife and child and Mrs. Durbin and her children are sick, and there is danger that some, if not all, will die.

It Was Another "Fake."

CHICAGO, Oct. 21.—Judge Longenecker and Sheriff Matson both pronounce the story in a morning paper that there is a plot to rescue Burke and Coughlin, a fake. No jurors were obtained Saturday in the suspects' trial.

Both Doing Well.

CINCINNATI, Oct. 21.—The female giraffe at the Zoological Gardens here brought forth a young male giraffe yesterday. This is said to be the first born in captivity in America. None have been born in captivity elsewhere except in London, and none there since 1877.

Constable Hawkins Resigns.

HAMILTON, Oct. 21.—Constable Hawkins, who shot the insane man Douglas, sent in his resignation to the Police Commissioners Saturday.

Third Game of the World's Series—Two Pitchers Knocked Out.

NEW YORK, Oct. 23.—Six thousand persons saw the third game of the world's championship series at the Polo grounds yesterday. Hard batting on both sides was the feature of the game. Welch was knocked out in the fifth and Hughes in the seventh. The ninth inning had been started, and New York had three men on bases with one out when the umpire decided to call the game. The score:

	R.	H.	E.
Brooklyn	0	2	3 1 2 0 0 0 — 8	11	2
New York	2	0	0 0 3 2 0 0 — 7	13	3

SCROFULA

Humors,

Erysipelas,

Canker, and

Catarrh,

Can be cured by purifying the blood with

I do not believe that Ayer's Sarsaparilla has an equal as a remedy for Scrofulous Humors. It is pleasant to take, gives strength and vigor to the body, and produces a more permanent, lasting, result than any medicine I ever used.—E. Haines, No. Lindale, O.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, it will thoroughly eradicate this terrible disease.—W. F. Fowler, M. D., Greenville, Tenn.

For forty years I have suffered with Erysipelas. I have tried all sorts of remedies for my complaint, but found no relief until I commenced using Ayer's Sarsaparilla. After taking ten bottles of this medicine I am completely cured.—Mary C. Amesbury, Rockport, Mc.

I have suffered, for years, from Catarrh, which was so severe that it destroyed my appetite and weakened my system. After trying other remedies, and getting no relief, I began to take Ayer's Sarsaparilla, and, in a few months, was cured.—Susan L. Cook, 909 Albany st., Boston Highlands, Mass.

Ayer's Sarsaparilla is superior to any blood purifier that I have ever tried. I have taken it for Scrofula, Canker, and Salt-Rheum, and received much benefit from it. It is good, also, for a weak stomach.—Miffie Jane Petree, South Bradford, Mass.

Dr. Wilson, of the University writes:—'I have examined the inscription with great interest. From internal evidence I should say the plate was deposited about 1854. I regard it as one of the greatest phophecies ever made. It has amply been fulfilled as I can attest from actual trial. The translation reads thus:—

About Situations.

Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. No other institution can show as good a record as this. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

Wedding Presents.

The season for a boom in the matrimonial market is at hand, and, of course, wedding presents are in demand. One of the best places to procure these is at the Peterborough Bookstore. Here *is to be found at moderate* prices a splendid stock of articles suitable for wedding presents. Books (*editions de luxe*, in beautiful bindings), Family Bibles, Plush Goods in great variety, Manicure Sets, Ladies' Companions, Dressing Cases, Curling Tongs (with lamps) in cases, Writing Desks, Escritoires, Gold Pens, Pencils, etc., etc. A magnificent stock of these goods, all suitable for bridal gifts, at very reasonable prices, at the Peterborough Bookstore.

dw J. R. STRATTON.

Golden Wedding.

Yesterday Mr. and Mrs. JAS. WASON, of Peterborough, very quietly celebrated their golden wedding. In the afternoon several of their more *intimate friends* gathered at their home on Rubidge street, and presented Mr. and Mrs. Wason with an address expressive of their gratification on the occasion, and of their many good wishes for their future happiness. Among other presents were two very handsome easy chairs with satin covering, into which were neatly worked the figures of the present year and the year of their marriage, together with the initials of the maiden name of Mrs. Wason and also the initials of the name of Mr. Wason. After a serious illness Mr. Wason was able to get up and rest for the first time in his chair, and we trust he may for many years enjoy its comfortable acquaintance.

Matrimonial.

Mr. G. H. Allen, Inspector of the Standard Life Assurance Co., for Central Ontario, is congratulated upon his marriage at Trenton to-day to Miss Helen Knox, daughter of the late U. Knox, and one of Trenton's most charming and popular young ladies. The ceremony took place at an early hour this afternoon at the residence of the bride's mother, Sidney street, Trenton, Rev. A. Browning officiating. The wedding was conducted very quietly, only a few guests being present. Mr. and Mrs. Allen leave Trenton on the six o'clock train and will arrive at Peterborough at nine o'clock this evening. They will take up residence in Peterborough, Mr. Allen's headquarters being located here. Though but a short time in town Mr. Allen has made a large number of friends who will wish him and his bride every happiness in life. He is one of the most *enterprising* and energetic insurance men in the district, and has by steady industry and ability worked up a large and lucrative business in the several counties under his control. Miss Knox was a well-known young lady in Trenton, where she was universally esteemed and admired. She has been organist and leader of the choir of the Trenton Methodist church for some time.

New York Novelties.

An inspection of the novelties and fancy bric a brac brought over from New York by Mrs. E. E. Ross on her recent trip, will interest and amuse the ladies in particular. Mrs. Ross' store, always filled with new and handsome goods, is now resplendent with the latest additions of beautiful and novel articles secured in the American metropolis. The new goods catch the eyes of customers every time, and the stock is being rapidly bought up. The New York market abounds with novelties introduced year after year, but owing to the high duty Mrs. Ross was only able to procure some of the most striking and beautiful goods. Her display comprises handkerchief and glove holders, new designs of towel rings, hand painted easel drapes and silk drapes of all kinds, photograph cases, horn ornaments and many other small articles for beautifying the home. Celluloid is now being extensively used in the manufacture of these bric-a-brac. The thin translucent sheets of celluloid are handpainted, and when made up with rich colors look very pretty indeed. There are also some new things in handkerchief and glove cases, handsome and unique. Besides all these novelties Mrs. Ross has in stock a well assorted variety of fancy goods and ladies' apparel.

Women's Mission Work.

The annual meeting of the Board of Managers of the Women's Missionary Society of the Methodist Church in Canada, is being held in Montreal. There are about 100 ladies present. Peterborough is represented by Mrs. Jas. Kendry, and Lakefield by Mrs. Sherin. The reports of branches were presented, all showing satisfactory progress. The report for the central branch showed 23 new auxiliary branches and 19 new mission bands. Total No. of auxiliaries, 72; total No. of bands, 45; total members, 2,084; mission band members, 1,277; income, $6,761.22. The report of the corresponding secretary (Mrs. Strachan, Hamilton.) stated that during the past year the work of the society had extended in a healthy way. After alluding to the work done in Tokio, Shidzwcka, Kofu, and to educational French, Indian and Chinese work, all of which showed continued prosperity, it was stated that in looking over the whole field there was abundant cause for thanksgiving and redoubled diligence. As showing the society's growth it was stated that the auxiliaries numbered 300, or an increase of 94; auxiliary members, 7,173, an increase of 2 038; life members, 390, an increase of 87; total rateable membership, 7,519; mission bands 123, an increase of 38; mission band members 3,511, an increase of 527; amount raised, $22,941; received by general treasurer, $21,753, an increase of $3,354. The report was adopted.

The Sunday School.

The twenty-fourth annual convention of the Sunday School Association of Ontario is in session at Toronto. There are about 250 delegates in attendance. Mr. Jas. Lowe, of St. Paul's Sunday school, is the only representative from Peterborough. Lakefield is represented by Rev. F. and Mrs. Johnston and Mr. W. M. Graham. Mr. Graham was appointed one of the Secretaries, and Rev. John McEwan, Lakefield, one of the Business Committee. A number of interesting addresses were delivered. Rev. Wm. Reynolds, Peoria, chairman of the International Sunday School Convention, delivered an address on "The Bible and Lesson Helps." He said the Sabbath school was the forerunner of the church—the John the Baptist of the church—and was now doing a great work for Christianity. While in the South recently he was amazed to see the great work that was being done among the negroes by the Sunday schools. All the States were being organized and the work was spreading as the great power that must save the nation. There were 150 000 Sabbath schools on the continent, taught by 1,300,000 teachers. That was a grand army. He had visited Quebec, and believed that if the Protestants of Ontario helped that province as they should much would be accomplished. Speaking of Bible helps, he said there were no less than 250 expositions of the lessons published every week. These helps were a great assistance to teachers. They had stimulated and encouraged the study of the Bible. Before making use of a lesson help he made a search of the subject. Having thoroughly investigated the lesson, he would take up the helps and see what they would add to his research. The lesson papers should not be brought into the school—(applause)—no more than a minister should bring a commentary into the pulpit. The teacher should bring his Bible and a few notes to refresh his memory. A lesson paper between a teacher and scholar was like a lump of ice between two lovers. The lesson papers were an incubus in the schools.

Newspaper Life.

He was very seedy in appearance. His dirty and colorless shirt was not concealed by any vest, his suspenderless trousers were held up by a greasy looking sash, while his coat and cap of blue cloth were evidently the worse of wear. His whole appearance was unkempt and savored strongly of tramp, but he walked up the genial C. P. R. station agent Moseley and presented his credentials with the air of a man who owned several such small concerns as the Canadian Pacific. He claimed to be a correspondent of the St. Louis' *Globe-Democrat*, and so far as his papers went they were correct. But J. P. was wary, and inclined to be suspicious of the stranger's pretensions, whose make-up was a libel on the appearance of the newspaper men of his acquaintance. Our hero from the south said he was "writing up" Canada and had been doing the country from Sharbot Lake to Peterborough when he became "broke." He wanted to know if the C.P.R. extended courtiesse to the press in the shape of railway passes. He wanted to go to Toronto, where a letter of credit was awaiting him. Mr. Dunn informed him that an agent had not the power to grant passes, but said he might buy his ticket and when he got to Toronto the proper officials might refund the amount. "Can't pay for a ticket when I haven't any money," was the terse reply. "How far is it to Toronto?" "About eighty miles." "Eighty miles," he soliloquized, "that's about two days. Good-bye." And the last seen of the travelling newspaper correspondent, he was rapidly striding over the ties in the direction of the setting sun

Cardiff and Monmouth Agriculture Society.

A Successful Exhibition.

The third annual exhibition of this flourishing township was held at Wilberforce on the 3rd Oct., and notwithstanding the heavy rain which *fell during* the greater part of day the different classes were pretty well filled.

The samples of grain were not so good as that of former years, owing to the excessive wet weather of the past summer, but the display of roots and vegetables far exceeded that of any previous year. A special prize of $5, kindly given by J. Lang, our genial M.P., for the best butter brought out a large quantity of that product of a special fine quality, so much so that it was with difficulty by the judges could make a selection to receive the prize.

Cost of Tory Blunders.

The Ottawa *Free Press* says it will take a large portion of the revenue that Mr. Foster will collect during the present year to pay the claims against the Government now before the Exchequer court, and the cost of defending the various cases. And each of these actions can be traced to the Government's blundering. Sir John Macdonald's attempt to get possession of Ontario timbers limits, which he proposed to distribute among his faithful followers, has already cost the country an immense sum of money, and the St Catherines Milling Company claim $150,000 because of the Tory leader's failure to "deliver the goods." Messrs. J. C. Ayer & Co., patent medicine manufacturers, claim $20,000 on account of an illegal seizure of their goods by Montreal custom officials—the conduct of the seizing officials being upheld by the Government. Hon. John O'Connor's executors are claiming $27,000 for services rendered by the deceased gentlemen in defending the Federal Government's blundering policy with respect to the Ontario boundary question, and the Great Eastern Railway company demand $600,000 damages for the expropriation of their railway road bed. Each of these suits is a monument of ministerial incapacity.

Police Court.

WEDNESDAY, Oct. 23.

Florence McAuliffe, remanded a week ago on a charge of drunkenness, was this morning discharged.

George Murdock, the young man from Harvey charged with being a dangerous lunatic, was this morning committed to gaol as such, awaiting removal to an asylum. The prisoner's brother and sister testified that for the last five years he had exhibited symptoms of mental weakness, but it was only in the last two years that he became violent. He has attacked his brother two or three times without provocation, and has threatened to cut the throats of both his father and brother. The prisoner is 25 years of age and of apparently strong constitution.

Personal.

Mr. James Yule, Albert street, is seriously ill.

Mr. M. Hickey has returned to town after an absence of a year and a half in British Columbia and the North West.

Bro. J. Hoffman, Port Hope, D. D. G. M., of the Ontario district, A. O. U. W., paid an official visit to Peterborough Lodge, No. 135, A.O.U.W., last night, and, in company with Bro. Peplow, Master of Safety Lodge, Port Hope, exemplified the secret work of the Order in a very satisfactory and edifying manner.

Weather Lore.

CLEVELAND'S
SUPERIOR
BAKING POWDER
THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

CLEVELAND BROTHERS, ALBANY, N. Y.

Land, sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

FATAL STEAMER DISASTER NEAR DESERONTO.

The Quinte Burnt and Four Persons Lose Their Lives in Ottawa Solicitor's Flight—The Guelph Tragedy.

DESERONTO, Oct. 24.—The steamer Quinte was burned about 3 miles from Deseronto on her way to Picton, about 6 o'clock last evening. Four lives were lost: Captain Christie's mother, young Lawyer Charles, the ladies' maid and a young man named Davern of Trenton.

As far as can be ascertained the passengers were all saved. Three or four have severe burns but the doctors report none seriously injured. Many were chilled by being in the water. All the survivors have been brought to Deseronto and are being properly cared for.

The fire it is supposed started in the furnace room and spread quickly to the whole boat. The Captain ran her ashore only a short distance away, where she lies almost entirely destroyed. All the freight, baggage, etc., were destroyed.

SKIPPED TO THE STATES.

An Ottawa Solicitor Leaves the Capital to Escape "Financial Difficulties."

OTTAWA, Oct. 24. Ex-Alderman A. A. Adam, a member of the Quebec bar who has been practicing as a solicitor here for some time, left the city Monday morning. Before leaving he told Mrs. Adam that financial difficulties necessitated his departure. A letter received by Mrs. Adam from a relation in Montreal would lead to the supposition that he is at present in the States. Other matters seem to corroborate this conclusion. Mr. Adam's friends have been investigating his affairs since Monday and it is thought that he has become rather involved. A respectable widow lady in one of the departments is out to the extent of $800. Yesterday Rev. Father Adam of Montreal, a brother of the missing man, arrived in the city and immediately visited the lady in question and opened negotiations for a settlement of the claim.

MATTERS IN MONTREAL.

Thirty Persons Precipitated into a Cellar—None Seriously Injured.

MONTREAL, Oct. 24.—Yesterday afternoon at 2 o'clock as an auction of unclaimed Grand Trunk baggage was in progress in the building in St. James-square opposite the Bonaventure station lately occupied as the California Hotel, a portion of the floor gave way. There were about 100 people in the room at the time, some 30 of whom were precipitated into the cellar beneath trunks, heavy baggage and a large quantity of debris. Both ambulances were soon on the spot but there was no one seriously injured.

Mary Ardy, an insane woman from Chateauguay, was discovered in Notre Dame-street sitting near an open drain with a baby in her arms. She had in her pocket a certificate of marriage and a letter from her husband and two Grand Trunk baggage checks in her pocket. She has been remanded for eight days for medical examination.

W. Jennings Demorest, the millionaire prohibitionist of New York, has written extending to Montreal his offer of silver, gold and diamond medals for the best temperance elocutionists in any locality. A contest is being arranged for and will probably be held in the Queen's Hall early in December.

THE GUELPH TRAGEDY.

Harvey's Trial to Occur Next Week—The Defence Will Plead Insanity.

GUELPH, Oct. 24.—The trial of Wm. Harvey for the murder of his wife and daughter will take place next week and public interest, which has been dormant since March last, is once more awakened. Since Harvey's incarceration he has partaken heartily of the food provided for him, slept well and is much brighter than when first arrested. His time is spent in walking about his cell and in the corridor, reading the Bible and other books. He has done considerable writing, principally to his son, over whom he exerts a great influence.

Archdeacon Dixon, Dr. Lett and his solicitors have visited him but what he knows about the tragedy he keeps to himself. It is reported that friends in Toronto, Guelph and the Accountants' Society of Ontario have subscribed funds for his defence. The line of defence will be insanity. Kenneth McLean of Guelph and G. G. S. Lindsey of Toronto have been engaged working up evidence and William Lount, Q.C., has also been retained as counsel for the defence. E. F. B. Johnston, late Deputy-Attorney-General, will have the prosecution in hand. Some of the best insanity experts in the province have been subpœnaed in Harvey's behalf. The prosecution consider the case a strong one.

To Tap the Mineral Districts.

OTTAWA, Oct. 24.—Mr. H. J. Beemer, President of the Gatineau Valley Railway is here. He says arrangements are completed for letting the contract of the first thirty miles of the Montreal and Western Railway in which he is also interested. This road is located to run from St. Jerome, on a spur of the North Shore, across the intervening country parallel almost with the North Shore. The route is south of Lake Namanang, crosses the Dulievre about 75 miles north of Buckingham and the Gatineau at Maniwaki connecting near that point with the Gatineau Valley Railway. The Canadian Pacific Railway, Mr. Beemer says, has agreed to lease each section as it is built and further to lease the whole line as soon as it is completed for five years with the option of purchase at the end of that time. The road is intended to tap the mineral districts back of the Ottawa and its promoters expect it to be of particular value to this part of the country by affording an easier mode of shipment for the phosphate industry.

Woodstock Cheese Market.

WOODSTOCK, Oct. 24.—At the cheese market there were very few buyers or sellers in attendance and no sales were effected, makers holding for 12 cents.

Fatal Shooting Accident.

HALIFAX, Oct. 23.—At Napier, a few miles from Amherst, on Monday Jeddore Gould had been out gunning and returning laid the gun which was heavily loaded on a wood pile. Towards evening he went to remove it and it is supposed took hold of the muzzle to draw it towards him when the gun was discharged, the whole contents lodging in the bowels. He managed to walk into the house when he fell over backwards exclaiming, "I am shot," and died in a few minutes.

President Spalding of the Chicago's says that unless the players reserved by the club sign contracts for next year voluntarily, legal steps will be taken to compel them to do so.

Burglars busy at the Capital.

OTTAWA, Oct. 24.—The residence of A. J. Christie was burglarised early yesterday morning and Mr. Christie's bedroom entered when he was in bed asleep. Mr. Christie's vest was thrown over a chair and in it was a watch and chain. These were taken. His purse was taken from his trousers pocket, the money and a small key abstracted and the purse returned to his [illegible]

TOPICS FROM TORONTO.

LOUIS DEAS CHARGED WITH WILFUL MURDER.

A Verdict of Man-slaughter Against Two Street Car Employes—The Pearce Family's Bad Record.

TORONTO, Oct. 24.—Dr. Johnson, county coroner, held an inquest last night into the circumstances connected with the death of Michael Birtle, who was shot by Louis Deas in Elizabeth street on Sept. 26. After hearing the evidence and the coroner's summing up the jury retired and after an absence of ten minutes returned a verdict to the effect that Louis Deas shot Birtle with intent to do him grievous bodily harm. The coroner declined to receive this verdict and after further deliberation a verdict in effect charging Deas with wilful murder was returned.

The trial of Frank Kane and John Gilroy, driver and conductor respectively of the street car which ran over and killed little Harry Flood July 12 at the Queen-street subway, terminated last night in a verdict of manslaughter with a strong recommendation to mercy.

The Commissioner of Crowns Lands yesterday accepted the tender of J. B. Smith & Son, Toronto, for the timber limits on Sandy Island, Lake Nipissing. The price paid was a bonus of $6200 in addition to the Government dues of $1 a thousand.

Solicitor J. P. Lawless, for the Temperance Colonization Company, yesterday issued a writ against Hon. E. Blake, Q.C., Hon. S. H. Blake, Q.C.; Walter Cassels, Q.C.; C. J. J. Holman, H. Cassels, R. S. Cassels, A. Mackenzie, W. H. Mickle and W. H. Blake, the members of the late firm of Blake, Lash, Cassels & Holman, for $20,000 damages for injury, for alleged careless, negligent and improper conduct of defendants' business while solicitors for the Colonization Company.

A motion will be made on Friday at Osgoode Hall to quash a bylaw of the township of Brantford which provides that "owners of cattle shall not run at large."

At the Police Court yesterday Walter Pearce, aged 14 years, was remanded till to-day for sentence for theft of horse blankets from Johnson & Price, Parliament and Queen-streets. James Pearce, the father, is now under suspended sentence; Maria Pearce, the mother, is serving a two years' sentence in the Mercer; Tom, the eldest boy, is serving a month in jail; George is a fugitive from justice; Ed. is putting in a ten years sentence in Kingston; Jack has served a 40-day sentence in jail for a felony.

Mrs. Isabella Fraser is suing the Grand Trunk Railway Company for $16,000 for damages for the death of her late husband, Mr. Charles J. G. G. Fraser, who was killed in the Hamilton disaster last spring.

Seventy-two gentleman have applied for admission to the Law Society at the coming Michaelmas term.

William McMillan, the alleged forger, was remanded at the Police Court yesterday till Friday.

The Locomotive Engineers.

DENVER, Col., Oct. 24.—The Locomotive Engineers yesterday concluded their investigation of charges against one of the grand officers. It is understood he was reprimanded. The only candidate for Grand Chief now in the field are P. M. Arthur, G. W. Vrooman, of North Platte, Neb., and B. W. Vedder, of Sedalia, Mo.

A Switchman Killed.

GUELPH, Oct. 24.—George Flynn, switchman, while coupling cars at the diamond crossing Tuesday night was knocked down and run over. His legs were badly crushed besides being otherwise injured. He was conveyed to St. Joseph's Hospital but never rallied from the shock, and died at 2.15 yesterday morning. An inquest is being held.

The Ancient Capital.

QUEBEC, Oct. 24.—A special despatch from Carleton says that Mr. Chas. Langelier, commissioner for the settlement of the workmen's claims on the Baie Des Chaleurs Railway, arrived at Maria in the County of Bonaventure yesterday accompanied by Mr. McFarlane, the contractor for the construction of the railway. The striking navvies are furious against the company, who sucked the Government subsidy and left the contractor without funds to pay the men. When assured, however, that the Government had taken steps to secure their wages out of unpaid subsidy, they expressed themselves satisfied and raised the blockade of the railway.

A grocer of this city for selling liquor to a minor was fined $75 and costs or three months yesterday.

A sailor named Phileas Bernier, 35 years of age, was drowned by falling from a schooner. Deceased was unmarried. The body has not yet been found.

The Joliette Election.

MONTREAL, Oct. 24.—The election yesterday to fill the vacancy for Joliette in the Local Assembly resulted in the return of Basinet, the Nationalist candidate. His majority over Perreault, Conservative, with one poll to be heard from, is 182.

A Flour Mill Burnt.

WINONA, Oct. 24.—The flour mill of the L. C. Porter Milling Company was burned yesterday morning, loss $150,000.

BROOKLYN AGAIN.

The Grooms Win the Fourth Game of Their Series With the Giants.

BROOKLYN, Oct. 24.—The fourth game in the world's championship series was played yesterday at Washington Park. Cold weather only permitted the attendance of 2569 persons who shivered through the game. There were several prolonged kicks over Gaffney's decisions and Mr. Day says he will not play any more games under Gaffney unless he is more fair in his decisions. Score:

	R.	H.	E.
New York.....0 0 1 1 0 5 x x x—7	9	3	
Brooklyn.....2 0 2 0 3 3 x x x—10	10	1	

Batteries—Crane and Ewing; Terry and Clark. Umpires—Gaffney and Lynch.

Miners on Strike.

COLUMBUS, Oct. 24.—About 700 miners employed by the Columbus and Hocking Coal and Iron Company in the Hocking Valley have struck. They are progressive union men. About 100 Knights of Labor remain at work. The union men refuse to work unless their organization is recognized in the Committee and the check for mine expenses granted as before May 1.

The Episcopal Convention.

NEW YORK, Oct. 24.—At last night's session of the Episcopal Convention the question of marriage and divorce again came up for consideration and after a debate of an hour was referred to the Convention of 1892 for action. The question of admission of the foreign churches was also brought up and action postponed until to-day.

To Search for Dead at Johnstown.

JOHNSTOWN, Oct. 24.—An organization for the purpose of searching for the dead was formed here yesterday. An old gentleman named Fontsinger committed suicide in Conemaugh borough yesterday by hanging. He was despondent over his losses in the flood.

MR GLADSTONE TALKS.

THE LIBERAL LEADER'S SPEECH AT SOUTHPORT.

The Bulk of the Address Devoted to Irish Grievances—No Announcement of the Liberal Policy.

LONDON, Oct. 24.—Mr. Gladstone delivered an address at Southport last evening. He was enthusiastically welcomed—the hall being crowded two hours before the opening of the meeting. Mr. Gladstone reviewed the work of the Liberal party during the past twenty-one years. He paid a tribute to the laudable anxiety of the powers to postpone a European crisis. He referred to the Cretan question as a formidable menace to the peace of Europe. He criticised at length the Government's work and claimed that all its useful measures were Liberal.

Mr. Gladstone made a point by declaring that the principles of the dock strikes, applied to tenants and tradesmen in Ireland, would have been penal. He was touched by the election gains and believed that if they could end the Septennial Act and appeal to the people to-morrow the verdict would be in favor of the Liberals and justice to Ireland. The bulk of the speech was devoted to Irish grievances. He said the necessity of the continued proclaiming of new districts was evidence of the failure of the coercion policy and declared that the crime rate was now the same as in 1884 when in order to secure the support of the Parnellites the Tories declared that coercion was not longer necessary.

Mr. Gladstone said he was unable to lay before his hearers a scheme of Liberal policy for the future beyond the outlines already well known.

The speech was short and disappointing.

The Parnell Commission.

LONDON, Oct. 24.—The Parnell Commission will resume work to-day.

Bismarck and the Czar.

BERLIN, Oct. 24.—The St. Petersburg correspondent of The Cologne Gazette says he learns from official circles that the interview between the Czar and Prince Bismarck was devoted by the latter chiefly to correcting the Czar's erroneous views in regard to the Triple Alliance and persuading him that its aims are peaceful.

The Vienna Fremdenblatt, believing that Prince Bismarck succeeded in correcting the Czar's views, expresses the hope that the Czar's clearer insight will leaven Russian political parties.

"THE BLOOD IS THE LIFE."

A German Supplies Twelve Ounces of His Blood To Save a Life.

NEW YORK, Oct. 24.—Morris A. Redding, the painter who was nearly killed by inhaling illuminating gas, is slowly recovering. He was confined in the "cage" in Bellevue hospital, where he is held on a charge of attempted suicide, while the body of his room-mate lay helpless in the morgue. If Redding recovers and escapes the punishment of the law he will owe his good fortune to the skilful treatment of the Bellevue physicians and to Henry Von der Leith, a brawny German, who to save Redding from dying, offered to undergo the operation by which the blood of one person is introduced into the veins of another in order to increase pulsation and revive the patient.

Redding is an artist, 30 years of age, and resided at 236 East Thirty-fourth-street. A pocketbook-maker named Pfeiffer, about 35, was his room-mate. Both men entered their room Saturday evening and it is supposed retired about 11 o'clock. At 8 o'clock Sunday morning the landlady's attention was called by another lodger to the smell of gas in the front room. She tried the door, but it was locked. A lodger broke the lock, but upon opening the door there was a stifling puff of gas. The blinds were closed and the room was in darkness. The dead body of Pfeiffer was discovered lying on the floor. Redding lay across the bed breathing faintly. The police were notified and had Redding removed to the hospital. Pfeiffer had been dead several hours, and was taken to the morgue. Drs. Cummings and Rodrigues went to work on Redding, and after having exhausted all other means, concluded that his life could only be saved by transfusion of blood.

Dr. Cummings entered ward 25, and when he explained the urgency of the case Henry Von der Leith volunteered to undergo the operation "if nothing else will save him and he'll die without it." Von der Leith was laid upon a bed near the dying man. His right arm was bared and stout ligatures were bound around it above the elbow, causing the veins to swell. Dr. Cummings then opened the median cephalic vein in the German's arm, and the other end of the instrument was forced into the opening. Blood was then forced from Von der Leith's body to that of Redding. The latter began to revive, slowly at first, and then quite rapidly, until in a few minutes, he opened his eyes and regained consciousness. By that time twelve ounces of blood had been tranfused. The operation had lasted but fifteen minutes and the man's life had been saved. Von der Leith was up and around yesterday morning apparently none the worse for the loss of blood. He is very modest and refused to talk of what he had done. He is a carpenter by trade and is now in Bellevue undergoing treatment for an injured foot. It was learned that this was not the first time he has made such a sacrifice for a fellow-man. The same operation was performed three weeks ago, and Von der Leith supplied the life-giving fluid then as he did in this case.

KNIGHTS TEMPLAR.

Sixth Annual Meeting of the Great Priory—Election of Officers.

MONTREAL, Oct. 23.—The sixth annual assembly of the Sovereign Great Priory Knights Templar of Canada opened at noon yesterday in Masonic Hall, Place d'Armes. Col. R. MacLeod Moore presided. Twenty of the twenty-seven active preceptories were represented, and the attendance was gratifyingly large. The Grand Master's allocution was largely historical, and was listened to with much attention.

These officers were elected: J. A. Henderson, Q. C., Kingston, Deputy Grand Master; Daniel Spey, Barrie, Grand Chancellor; David McLellan, Hamilton, Grand Treasurer; Rev. Fred. Bates, Chatham, Grand Chaplain; R. Patterson, Toronto, Grand Constable; Col. Butterfield, Stanstead, Grand Marshal; Geo. Bennett, Parkdale, Grand Registrar. Provincial priors: Sam Wesley, Barrie; John Funston, Hamilton; W. G. Bell, Winnipeg; C. J. Spike, Halifax; Joseph Park, Windsor; David Taylor, Ottawa; E. R. Johnston, Sherbrooke, Members of the Grand Council—J. Ross Robertson, E. T. Malone, Toronto, J. W. Murton, Hamilton; I. H. Stearns, Montreal; L. B. Archibald, Truro. The members of the Council appointed by the Master are: S. P. Lazier, Belleville; Dr. G. G. Rowe, Parkdale; A. G. Adams, Montreal; D. F. McWatt, Barrie; H. E. Channel, Stanstead. The next place of meeting will be at Kingston, in July of next year.

Burglary at the Capital.

OTTAWA, Oct. 23.—The residence of Dr. Martin was burglarised Monday night and $100 stolen.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is a standing evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

JOHN HACKETT

THE CRONIN JURY.

Particulars of the Twelve Men Who Will Judge the Suspects.

CHICAGO, Oct. 24.—The Cronin jury is a representative American one, and in appearance and manners the members are an intelligent, fair-minded body of men, who have sworn they can and will try the defendants solely on the law and the evidence. This is the personnel of the jury:

John Culver, real estate dealer, 40, American born.

James Pearson, farmer, 55, American parentage, descended from Pennsylvania Dutch.

John L. Hall, draughtsman, 28, an ardent temperance advocate; American parentage.

Charles C. Dix, cashier in insurance office, 23, born in Chicago.

Henry D. Walker, upholsterer, 58, born of American parents.

Frank Allison, machinist, 39, native of Bloomington, N. Y.

George L. Corke, druggist, 30, born in England; lived in this country seven years; was prejudiced against the Clan-na-Gael, but swore he could try the defendants fairly.

William L. North, sewing machine manufacturer, 43, native of Cleveland, O.

Edward S. Bryan, salesman, 35, born in the United States.

Elijah Boutecon, salesman, 35, born in Troy, N.Y.

Charles F. Marlor, clerk, 29, born in New York of English parents.

Benjamin F. Clarke, real estate dealer, 52, American parentage.

With the exception of Corke every juror was born in the United States and all save two had American parents. The jury is also composed of men who are attached to Protestant churches. A few of them are members of secret societies, such as the Royal League and Royal Arcanum, but neither the State nor the defense cares about that. The State's Attorney expects to take up four weeks with his case, and it is not likely that the prisoners will know their fate before Christmas.

Arrested on an Old Warrant.

NIAGARA FALLS, Ont., Oct. 24.—John Crysler, attached to the landing waiter of service H. M. C. at this port three years ago, was arrested at Merritton depot yesterday by Ontario Police Officer Griffin of Fort Erie on the strength of a warrant issued in July, 1888, charging him with committing rape during the March previous on the person of Jessie Chappell, a girl from Miss Rye's home at Niagara, whom he had employed as domestic in his household. Crysler removed to the States just previous to the warrant being issued and although a close surveillance by the police had covered him since he has not been seen on Canadian soil until yesterday when Detective Griffin spied his man leisurely walking on the Merritton platform and arrested him. Crysler has, it is said, led a reckless life of late in and round Detroit, whisky being the chief cause. The prisoner was brought before Mayor MacCartney and remanded till to-day when he will have a hearing before Police Magistrate Hill.

The St. Kitts Libel Case.

ST. CATHARINES, Oct. 24.—The criminal libel case of the Queen v. Montgomery, occupied the attention of the assizes the greater part of yesterday. The alleged libel was published in the St. Catharines Evening Journal in two articles having reference to the passing by Ald. Wm. Chaplain and other members of the Financial Committee of the City Council of an account for $125, charged by the proprietor of The Evening Star for setting and keeping in type for 6 weeks an unpublished advertisement of lands to be sold for taxes. The jury returned a verdict of not guilty.

Efforts for Preeper's Pardon.

HALIFAX, Oct. 24.—For some days past the counsel of William Preeper, who was sentenced to Dorchester penitentiary for the murder of Hector Doyle, have been engaged preparing documents and necessary evidence to effect the young man's release if possible. It is understood the lawyers have mailed a memorial to the Executive at Ottawa asking that Preeper be discharged from the penitentiary. The memorial refers among other things to various affidavits and statements made by Preeper, Mrs. Doyle, Emily Billman and Mr. White of the Dorchester penitentiary.

Despatches from Winchester, Staunton and Harrisburg, Va., report a severe storm of rain, snow, hail and sleet yesterday accompanied by a violent gale approaching a hurricane.

The corner stone of the Hamilton public library building was laid yesterday afternoon.

The proceedings in connection wit Victoria and the University Federation scheme have been advanced another stage and it is probable that the proposed special General Conference will not be held. At a meeting of the Board of Regents' representatives with the plaintiffs at Cobourg yesterday the latter have made a proposition which will probably be accepted.

President Van Horne visited Owen Sound yesterday and made arrangements for the providing of more elevator and dock facilities at that port.

Checks are being prepared in the Quebec Government offices distributing the $400,000 granted by the Jesuit Estates Act.

AT

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

AT LAST!

A Wonderful Vegetable Discovery That Removes the Terrible Results of Overwork.

A True Invigorator.

Weakness and prostration of the nervous system surely follow that overwork and worry which brings sorrow and suffering to so many Canadian homes. The terrible results of nervous weakness, are seen on every hand. Pains in the back, poor and unrefreshing sleep, lack of appetite dyspepsia, and lost energy and strength, are the first symptoms of more serious and dangerous trouble. This is the way that Paralysis, Paresis and Insanity begin. Do not delay a moment longer, for some time it will be too late to regain your lost health and vitality. Use Paine's Celery Compound now, and the dull eyes will regain their brilliancy, the cheeks will grow rosy, the brain become clear, the nerves strong and steady, your sleep restful and refreshing, appetite good, and health and happiness will take the place of misery and suffering.

A. Sablairon, the well known lithographer of Montreal, writes: "In the summer of 1888 I had to work very hard, and was troubled considerably with insomnia (sleeplessness). I resolved to try your Paine's Celery Compound, and after taking the contents of two bottles, felt like a new man. A good night's rest gave me strength for the duties of the day, and instead of starting out in torment in the morning feeling as if I had completed a day's work instead of being about to commence one I started out in good spirits, feeling fresh and strong. My wife and various friends, to whom I recommended the medicine, have been benefited greatly, and in fact 'Paine's Celery Compound is a household word in our family."

The French Schools Again.

What will the Ontario Tories do for a cry now that the bottom has dropped out of their "French schools" agitation? When the French Canadians residing in Ontario ceased voting for Mr. Meredith and his men the latter concluded that it would be a good thing to attack the so-called French schools, and to picture Mr. Mowat and his colleagues as to advocates of special privileges for French Canadians. The experiment was not a success. The electors refused to let the Tories into office upon any such foolish cry as that. But having no respectable ground for opposing the Mowat administration the Tories kept up the anti-French howl. They declared that English should be the language of every school under government control, and the Minister of Education said he agreed with them, and pointed to the regulations issued by his department in 1885, requiring that English be taught in every public school. Then the Tories demanded that the teaching of French should be prohibited, thus making themselves ridiculous in the eyes of sensible and educated men, who know that a knowledge of two or more languages is a great advantage, and that a child who knows no English can only be taught our language by means of the language he does know. And to prove that the regulations which he issued in 1885 were being carried out by teachers and trustees, the minister of education appointed a commission to inquire into and report upon the condition of the public schools attended by French Canadian children in Prescott, Russell, Essex and other counties. The commissioners reported that English was taught in every school, and that the French Canadian parents were anxious that their children should be instructed in English. They also called attention to some instances in which the spirit, if not the letter, of the public school law was being evaded, and made some important recommendations with the view of securing better teachers for schools in which two languages must of necessity be used, and better facilities for instructing French children in English. These recommendations being quite in harmony with the policy of the government, the legislature will doubtless be asked to grant authority and money to carry them into effect. Already the minister has undertaken to carry out the recommendations of the commission *so far as he is* able to do so without fresh legislation.

On Friday Mr. Ross issued new regulations referring to the management of French-English schools in Ontario. The minister points out that, while laudable efforts have been made by teachers and trustees to carry out the regulations requiring that English be a language of instruction in the schools, there is still room for improvement especially in the colloquial use of English. He urges that teachers not perfectly familiar with the English language should apply themselves to the study of it, and that not only should the teacher conduct in the English language every exercise and recitation from the prescribed English text books, but communications between teacher and pupil in matters of discipline and in the management of the school shall be in English, except so far as this is impracticable by reason of the pupil not understanding English. Bi-lingual readers which have been used with success in Nova Scotia and New Brunswick, have been introduced for use in the schools in French districts in Ontario, at small cost, and county model schools are to hold two sessions a year in counties where there is a scarcity of teachers qualified to teach the two languages. The final examinations for certificates at county model schools will be conducted in English. The time hereafter to be devoted to instruction in English, is only to be limited by the necessities of the pupils, and county inspectors are instructed to see that the subjects prescribed for each form are taught efficiently, and that the study of French or German does not encroach upon the time necessary to acquire a thorough knowledge in English. The use of unauthorized books in public schools is, by the new regulations, strictly prohibited, and unauthorized books used up to the present must be removed at once, as otherwise the schools in which such books are used forfeit their right to a share of the legislative grant for education. With respect to religious instruction, the Minister requires that the non-denominational character of the public schools shall be maintained. The time to be devoted to religious instructions in any school may be extended by resolution of the trustees. The education department have adopted every device which the genius of man has yet invented to preserve the non-denominational character of the public schools in Ontario, and to make English the principal language taught, without doing injustice to any class or creed. It will now be in order for the opponents of the Mowat Government to claim that the French Canadians are being persecuted. Their anti-Catholics and anti-French policy of 1857 having been found worthless, the Ontario Tories will have to fall back upon their pro-Catholic and pro-French programme of 1883.—*Ottawa Free Press*

The Mystery Explained.

The mystery of the following inscription on a lead tablet found in the waterworks trenches has been solved:

' ' try ' ow ' aarat ' ip t ' epon ' po ' orb ' ayo ' man ' atbo ' yim ' thav l ' egh ' ron ' to ' mam ' be ' 3 ' 7 ' 8 ' ge ' org ' im ' re ' et.

Dr. Wilson, of the University writes:—'I have examined the inscription with great interest. From internal evidence I should say the plate was deposited about 1854. I regard it as one of the greatest phosphocles ever made. It has amply been fulfilled as I can attest from actual trial. The translation reads thus:—

If you want a tip-top cup of tea, you must buy it at the tea store of Hawley Bros., 275 George street. dw

Toronto Street Market.

TORONTO, Oct. 23.—Cable quotations showed spring and white wheat a halfpenny, and red wheat a penny, lower to day, with markets apparently flat. States markets continue to decline. The local market was dull. Wheat, 80 to 85c.; barley, 10,000 bushels sold at 44 to 53c., the latter for old; oats, 32 and 33½; peas, 62c.; hay, $7 and $8 for clover, and $11 to $14 for timothy; dressed hogs, $6.50 to $6.60; butter, 20 to 22c. for rolls; eggs, scarce at 20 and 22c.; potatoes, 70c.

The Horse Market.

TORONTO, Oct. 23—Very little life is to be seen in trade this week, the ordinary routine business only being done. Not only are horses rather difficult to sell, but it is much harder to get good prices for them, and owners of horses who wish to dispose of them at present must not expect large figures for them. No sales to buyers have yet made their appearance on the market, the trade doing being purely local. The offerings of horses are large, more so, in fact, than the trade would warrant, and they all come from the country. Horse dealers, it is stated, are having difficulty in purchasing in the country, as farmers are asking high prices for them there, while they are not bringing by any means exorbitant figures here. The demand at present is most for general purpose, although a few drivers are selling.

What it Means.

To the man or woman who has never been ill, the word "health" is meaningless. But to the one who has suffered and despaired, health appears as a priceless boon. To the thousands of unfortunate women who are suffering from some of the many forms of weakness or irregularities peculiar to their sex, Dr. Pierce's Favorite Prescription holds forth the promise of a speedy restoration of this "priceless boon."

Peculiarities of the Hair.

There are times when all persons require to pay some particular attention to the hair. To rekindle the life an energy of the roots is a simple matter if taken in time. Dr. Dorenwend's Great German Hair Magic will do the work, it works in accordance with nature, supplys fresh nourishment to the glands keeper, the hair luxuriant and natural in shade. Be sure to get, you cannot afford to miss it. Every druggist sells it. It is money well spent. See Dorenwends advertisement in another column.

How to Lace Your Shoes.

Not one person in a thousand laces his shoes correctly. The correct way is to put your foot when you are about to lace your shoe as much as possible in the heel of the shoe. You can do this best by lacing your shoes with the heel of your shoe resting in a chair standing in front of the one you are seated on. Over the instep the lacing should be drawn as tightly as possible. This will hold your foot back in the shoe, giving the toes freedom and preventing their being cramped. Lace about the ankle to suit your comfort.—*New York Truth.*

Don't Fool with the Drummer.

A very neat little reminder to one of the worst bores we ever knew, a New York dude with a big cane, was administered by a clerk who attached to the cane the legend "This is my busy day." It was not received with the best grace, but proved very effectual on subsequent visits. The man who fools with a drummer had better trouble the business end of a wasp, as full many a business man knows.

A salesman recently told us his experience in a neighboring state. He knew the proprietor slightly, having called on him once or twice in previous years, and finding him alone, after a few moments' conversation, called his attention to a neat little article in his line that he was introducing. The proprietor turned on his heel at almost the first word, without looking at the article, and curtly said, "No, sir, I don't want any part of it. I never get anything until I have a call for it." The salesman waited a few moments, making no reply until the proprietor was at leisure again, then heading for the door, put out his hand and bidding him good-by, invited him to come up to Boston and he would extend such courtesy as he appeared not to be accustomed to. The proprietor felt the justice of the remark and apologized in his own fashion.

In a certain town is a business man who is rather biggish for the size of the place. If a salesman calls he must send in his card to the office and humbly seek an audience. On one occasion a salesman sent in his card by the boy and word came back that the proprietor wanted nothing. The salesman told the boy to return and ask for the card, as they cost his firm money. The boy soon returned, saying the proprietor had torn up the card and sent out five cents to pay for the same. The salesman quickly took out two more cards and writing on the back of one, "My firm does a square business and never takes advantage of any one. They only cost three for five cents," then sent them into the proprietor.

Give the salesman a fair show, with generous treatment, and our word for it you will have no just cause to regret it. They are an indispensable adjunct to our civilization.—New England Druggist.

An Anecdote of Advertising.

It is well known that at the Pere-la-Chaise cemetery, near Paris, there stands in a conspicuous position a splendid monument to Pierre Cabochard, grocer, with a pathetic inscription, which closes thus:

"His inconsolable widow dedicates this monument to his memory, and continues the same business at the old shop, 167 Rue Mouffetard."

Now a Parisian paper relates that a short time ago a gentleman, who had noticed the above inscription, was led by curiosity to call at the address indicated. Having expressed his desire to see the Widow Cabochard, he was immediately ushered into the presence of a fashionably dressed and full bearded man, who asked him what was the object of his visit.

"I came to see the Widow Cabochard, sir."

"Well, sir, here she is."

"I beg pardon, but I wish to see the lady in person."

"Sir, I am the Widow Cabochard."

"I don't exactly understand you. I allude to the relict of the late Pierre Cabochard, whose monument I saw yesterday at the Pere-la-Chaise."

"I see, I see," was the smiling rejoinder; "allow me to inform you that Pierre Cabochard is a myth, and therefore never had a wife. The tomb you admired cost me a good deal of money, and, although no one is buried there, it proves a first class advertisement, and I have no cause to regret the expense. Now, sir, what can I sell you in the way of groceries?"—Sampson's "History of Advertising."

The Misery of Happiness.

What is a pessimist, my son? Well, if the spring opened unusually early, and there was an increase of about 35 per cent. in the acreage of cereals sown, and the weather was so near perfection all summer that nobody cared to go to California, and the harvest showed a yield that fairly lifted the roof off the barn and made the sides of the elevator bulge, and prices have gone down 10 and wages increased 15 per cent., the national debt paid, taxes reduced, Saturday made a legal holiday and ten hours' pay for eight hours' work established by constitutional amendment, all the slums houses closed for lack of patronage and the prisons sold to the hotel trust—if in the midst of all this dawning millennium you come across a man, sitting on a fire plug on a windy corner, pouring dust on his head and weeping because all his prosperity is apt to develop luxurious and wasteful habits among the masses—he's a pessimist. "And what is your duty as a Christian man to such a sorrowful brother?" Kill him, my son; kill him. Don't use violence; just tie him to a man who is having a good time, and he won't last two hours.—Burdette in Brooklyn Eagle.

Could Read the Stories.

President Eliot, of Harvard, was one of the pioneer tourists to the Maine coast, and spent many seasons cruising around Frenchman's bay in his yacht, before Bar Harbor obtained its world wide celebrity. One year, says The Mt. Desert Herald, he had a skipper from Waukeag Point, now known as Sorrento, to sail his yacht. In the fall the professor gave him, as a token of gratitude for favors received, a Webster's Unabridged Dictionary, which, as the man could neither read nor write, was as useful to him as a side pocket would be to a toad. The skipper received it with all due gratitude, and left it for safe keeping with the village doctor. Several years passed by, when one day the skipper's wife came to the doctor and said: "I guess I'll carry that ere book home now, for Sammy's ben goin' to school all winter, and he knows enough to read the stories in it now!" As a result of reading those stories Sammy may be a college president himself one of these days.—Lewiston Journal.

Success in life is the result of push and energy. If the blood is impure and sluggish, both body and mind lack vigor. To cleanse and vitalize the blood and impart new life to the system, nothing else has such a marvelous effect as Ayer's Sarsaparilla.

Why?

Why suffer a single moment, when you can get immediate relief from internal or external pain by the use of Polson's Nerviline, the great pain cure? Nervilime has never been known to fail. Try a 10 cent sample bottle. You will find it just as recommended. Neuralgia, toothache, cramps, headache, and all similar complaints disappear as if by magic when Nervilime is used. Large bottles 25 cents. Test bottles 10 cents, at druggists and country dealers. 6w43d

Cannot Fail.

MRS. JOHN E. THOMPSON, of Shelburne, P. O., writes: My to children received great benefit from Fowler's Extract of Wild Strawberry for Diarrhœa and summer complaint. I gave it according to direction and they soon recovered. Be sure and get the genuine. 2w41d

Tried! Tested! Proved!

A YEAR ago last summer I was troubled with dysentry. I procured Dr. Fowler's Extract of Wild Strawberry and took according to directions, which completely cured me. ROBERT E. GREEN, Lyndhurst, Ont. The medicine cures all looseness of the bowels. 2w41d

In Many Forms.

DYSPEPSIA assumes many phases, all disagreeable to the sufferer, yet it takes no form which from two to four bottles of Burdock Blood Bitters will not cure. B.B.B. cures dyspepsia, tones the weak stomach, aids digestion, sharpens the appetite, and renovates the system. 2w41d

DYSPEPSIA, that great source of misery to so many people, can be effectually cured by the use of Dyres, Quinine and Iron Wine it is carefully prepared, easily assimilated, and can be taken by the weakest invalid. W. A. Dyer & Co., Montral. 6d93

MILBURN'S AROMATIC QUININE WINE fortifies the system against attacks of ague, chills, bilious fever, dumb ague and like troubles. dw

SCROFULA

Tumors, Erysipelas, Canker, and Catarrh, Can be cured by purifying the blood with

I do not believe that Ayer's Sarsaparilla has an equal as a remedy for Scrofulous Humors. It is pleasant to take, gives strength and vigor to the body, and produces a more permanent, lasting, result than any medicine I ever used.—F. Haines, No. Lindale, O.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, it will thoroughly eradicate this terrible disease.—W. F. Fowler, M. D., Greenville, Tenn.

For forty years I have suffered with Erysipelas. I have tried all sorts of remedies for my complaint, but found no relief until I commenced using Ayer's Sarsaparilla. After taking ten bottles of this medicine I am completely cured.—Mary C. Amesbury, Rockport, Me.

I have suffered, for years, from Catarrh, which was so severe that it destroyed my appetite and weakened my system. After trying other remedies, and getting no relief, I began to take Ayer's Sarsaparilla, and, in a few months, was cured.—Susan L. Cook, 909 Albany st., Boston Highlands, Mass.

Ayer's Sarsaparilla is superior to any blood purifier that I have ever tried. I have taken it for Scrofula, Canker, and Salt-Rheum, and received much benefit from it. It is good, also, for a weak stomach.—Millie Jane Peirce, South Bradford, Mass.

I have placed on the market

That Desirable and Well Situated Property

in the western part of the Town, and offer it in lots as per plan annexed. This affords a splendid opportunity to secure a location for your home in a rapidly improving and in every respect the best part of the town. The properties are situated on Cedar and Hall streets and within a stone's throw of the West Ward School and a short distance of the principal Churches and the Hamilton Co'y. Works.

"ERIN COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had at a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and merchants should improve this property as it offers the best sites available and can be had on easy terms to the business part of the town.

The College a Success.
There is no better proof of the wide reputation that the Peterborough Business College has earned, than the fact that during the past three months the students have entered from the following distant points:—Chicago, Montreal, Chesley, London, Mitchell, Sutton West besides the numbers who have entered from places not so remote.

About Situations.
Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. No other institution can show so good a record as this. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

A Sign of Progress.
To-day Mr. Alex. Elliott mounted a splendid new sign over the front of the Palace Grocery. The sign is four feet wide by thirty feet in length and bears in large letters the name "Alex. Elliott," flanked at one end by a shield bearing the street number, "353," and a similar shield at the other end describes the chief deeds of the establishment. The work was done by Mr. Watson, and makes a striking and beautiful sign—at once a sign of the business and a sign of its prosperity.

The Balmoral Choir.
This famous musical organization from Glasgow, Scotland, are making a tour of America this winter and will visit Canada, stopping at only three places in Ontario—Toronto, Hamilton and Peterborough. The choir appears here December 6th, under the auspices of the Peterborough Amateur Athletic Association. Those of our citizens contemplated going to Toronto for the purpose of attending the performance of the Balmoral Choir, will be able to gratify their desire through the enterprise of the P.A.A.A., without going from home.

A Handsome Trophy.
The challenge cup to be competed for this winter between the Lindsay and Peterborough curling clubs is now on exhibition at Mr. John McClelland's jewelry store. The cup is of silver, valued at $30, and very handsome and appropriate in design. It is suitably inscribed, and the lid is surmounted by a curling stone, while the base is ornamented with stones and besoms. The trophy is well worth struggling for. There are to be five championship matches between the two clubs, each club to play four rinks a side. The old time rivalry between Lindsay and Peterborough will receive a keener incentive in this challenge cup. Some great sport may be looked for.

A Fine Programme.
The following are the different items of the course of entertainments which the George street Methodist Sunday School has prepared for the coming season:—

No. 1—Lecture by Chancellor Sims, D.D., L.L.D., of Syracuse, N.Y., on "Neglected Life's Lessons."

No. 2—Concert by Miss Alexander Elocutionist, of Toronto; Miss Anna Howden, Soloist.

No. 3—Lecture by Rev. Alexander Burns, D.D., L.L.D., of Hamilton, on "Popular Mistakes about the Bible."

No. 4—Concert by Vocal Quartette from the Toronto College of Music.

No. 5—Lecture on "School Room Humor" by J. L. Hughes, Esq., Inspector Public Schools, Toronto.

The first of the series is to be held in George street church on Tuesday evening, Nov. 12th, 1889. All who have heard Chancellor Sims are loud in their praises of him as a lecturer. Those who know him best speak most highly of him. Come expecting to hear something good and you will not go away disappointed. Tickets for entire course only $1.00. 2sod

Work of the W.C.T.U.
The W.C.T.U. report for the year 1888 89 shows a membership of 23. Nearly thirty meetings have been held, at which there was an average attendance of nine. Notwithstanding their small number and the apparent lack of sympathy with the work, the white ribbon women have accomplished a good work for "God and Home and native Land." Through the winter the ladies employed themselves in caring for the destitute families of the victims of drink. Over $50 worth of clothing and supplies were donated by themselves and friends for this purpose. Other poor women have been kept in employment by the Union. Later on, opportunities to help fallen women presented themselves. Four were cared for, two with good results. In April came the Scott Act contest and defeat. Large quantities of literature have been collected and sent away to lumbermen and distributed through the town and in the gaol. Some of the ladies have visited the gaol and held several meetings there. Several public speakers have been brought town to hold meetings in the interest of the temperance cause. The ladies of the town of every denomination are most earnestly invited to join in the work of the W.C.T.U.—COM.

Water and He Were Strangers.
A rare specimen of the genus tramp sat on the prisoners' bench at the police court this morning. He was a middle aged and vigorous looking man, but dirty, oh, so dirty. He claimed to have been in this country only two weeks, his home being in Belfast, Ireland, and his first act on striking Peterborough was to get drunk. He fooled around the new market building until he fell into the mortar bed, and then annoyed Mr. John Galvin and Mr. Peter Hamilton by loitering about their places and refusing to leave. The fellow was arrested early in the evening and hooked up. He was a most undesirable sort of prisoner, and without exception the dirtiest and worst-smelling sample of vagrant that has ever graced the cells. The magistrate didn't even ask his name, but told him he would let him go if he got out of town immediately. The prisoner replied that he wanted to get to Toronto. "Go at once," said the magistrate, "walking is good. And if you pare some of the dirt off you will travel lighter."

Gold and Silver Mines.
Mr. P. C. Cameron, of Cobourg, has a map showing the veins of his gold and silver mine in Chandos township, Peterborough county accompanied by a certificate from Mr. Thos. Heys, assay and consulting chemist, of Toronto. Mr. Cameron's mine is opening up a wealthy store of the precious metal. The veins were discovered by Mr. M. H. Powell, of Marmora, by means of electricity, and it is his opinion that it is the largest mine yet discovered in that back country. He is a gentleman well known in connection with mining and is therefore good authority. Mr. Cameron states that samples of ore from the surface assayed of silver from 25 cents up to $1.15 per ton. Going down three feet below the surface which was done without the use of a blast, the samples were found to contain $4.13 gold, and 25 cents silver. At this point below the surface ore shots were put in, and the samples assembled assayed $9 27 gold, and 45 cents silver per ton, and it is expected something still better will be found after another shot is used. Mr. Cameron is now opening out one-quarter of a mile farther north, and will have samples placed in the hands of the assayist.

St. John's Y. M. Bible Class.
The club which has just been organized in connection with St. John's Bible class, meets for the first time to-night in the school house adjoining the church. The members of the class have subscribed sufficient funds to equip this new venture in a modest way and the young men who assemble to-night will find different kinds of games, besides boxing gloves, parallel bars and a horizontal bar ready for them. These two latter articles have been most excellently made by Mr. Edward Courtney, junior, a member of the class, and are so contrived as to take to pieces and stow away in a small space when not in use. He has also made a table with an inlaid top for chess and checkers. Too great praise cannot be given him for his zeal in this matter. The officers of the club are the same as those of the Bible class, the club and the class being in fact the same thing, with the addition of a vice President, Mr. W. Salisbury, who has kindly consented to act in that capacity. It only remains to add that the club, which will be open every Thursday evening from 8 to 10 o'clock, is free to all young men who are willing to attend the Bible class on Sunday afternoons.

The Second Coming at Hand.
To-morrow the 25th inst., will see the end of the world and the coming of the Lord to begin his reign upon earth, if a number of Second-Adventists in Canada and the United States are not to be disappointed. These people call themselves Advantists, but by no means all of those who belong to that denomination believe in the speedy "Coming of the Lord." There are, however, thousands of people in Canada and the United States who firmly believe that the world will come to an end on the 25th. They calculate the exact time of the advent in this way: Matthew 24, 15, speaks of the setting up of "the abomination of desolation." In Daniel 12, 11 and 12, a blessing is pronounced on him that waits from the setting up of the "abomination of desolation" until the end of 1335 days. Adding 1335 years to 554 gives 1889, the present year. This particular time of the year is selected because it believed that, as the crucifixion occurred at the Passover and the gift of the Holy Ghost at Pentecost, the second advent must take place at either one or the other of the two autumn festivals, the feast of the atonement or the feast of Tabernacles. The former falls on the tenth day of the seventh month, or in our chronology October 5, and the latter from October 12 to 25. In 1843 and 1844 William Miller fixed the day in each year as October 10, and when his prediction did not come to pass he explained that the difference between Jewish and Roman time misled him both as to the month and the year. Before his death, which took place in 1849, he left directions showing how accurate calculations might be made, and on these were based the prophecies of the world's end in 1857, 1867, 1873 and the present year.

A House Cleaning Catastrophe.
A certain solid citizen went to sleep last night with a vivid idea of the horrors of house cleaning. This semi-annual outrage on the lords of creation was turned on full head at his house. Coming home to go through the formalty of a meal, he was, of course, impressed into the service. He was required to take down stove pipes—at any time a pleasure, but in this case a delight. They were too high to reach with a step ladder, so the attic ladder was brought. He no sooner reached the top than the ladder broke The householder landed, as he generally does in every sense, on his feet but in the midst of the omnipresent pan of soapy water. The force of his fall sent the water upwards in fierce jets, some of them shooting up the legs of his pantaloons, others striking him in the eyes, nose and mouth. To complete the catastrophe, the soot from the pipes, falling in showers, mingled with the water. The householder was a monument of righteous wrath and sooty soapsuds. He didn't swear—audibly—his feelings were too deep and damp for utterance, but the vigorous kicks he bestowed on the stove pipes, made them subjects for radical repairs, and spread a circle of dirt and devastation around the apartment. The noise of the fall and the subsequent spiffication of the stove pipes was heard by the family physician driving two streets distant, and he rushed to the scene armed with bandages and splints. The family cat jumped through a 14x28 light of glass (80 cents) the daughter went into blood-heat hysterics, the wife was frozen with horror, the charwoman took refuge in the coal bin and the usual debt was to pay generally. The householder took a bath, changed his clothes and making down town in his desperation actually took the train on a visit to his mother in-law, vowing he would never return till his wife swore off housecleaning.

An Orillia Burglary.
A burglary was committed in Orillia last week, and the affair has created some comment from the fact that the stores were entered in the same manner as the burglars forced the doors of Messrs. Collins' and Moore's places of business in Ashburnham a few days previously. As will also be seen by the following from the Orillia *Packet*, the supposed burglar came from the direction of Peterborough. Chief Rossel has received a letter from Orillia stating that a man had been arrested on suspicion, and from the description there can be no doubt the prisoner is "Scotty" Gordon, who not long ago was arrested here for stealing a coat from Gough Bros. The *Packet* says:—"On Monday night the shops of Messrs. Clarke & Cooke and Frank Wilson & Co. were entered by a burglar. In the former, eight or ten pairs of trousers were taken. Nothing else has been missed. In the latter, eight pairs of men's boots and a large valise were stolen. The boxes were opened and the boots taken out apparently with great deliberation. The front doors were pried open with a jimmy, and the same implement had been unsuccessfully tried on the door of Messrs. P. W. Bell & Co.'s store. The watchman did not discover the burglaries, but in the morning when the clerks came they found the doors standing open. Constables A. and G. Clarke were sent for, and soon discovered that a man was offering trousers for sale at Atherley. The constables with some little difficulty overtook a tramp running on the Midland line and arrested him. He gave his name as Gordon, but yesterday said it is Crawford. Nothing criminating was found on him, but it was proven yesterday before Reeve Quinn that he had sold four pairs of trousers, which Messrs. Clarke & Cooke identified. Two pairs had been sold at Atherley and two to Mr. George Read, a mile and a half beyond Uptergrove. The constables further discovered that Crawford came through from the direction of Peterborough on Monday, selling scissors. He stated, too, that the trousers were made at Peterborough. When arrested he resisted desperately, but when cowed confessed that he had stolen the trousers, but on Wednesday he said that he got the garments from a young Englishman, who had gone towards Washago. There is nothing to show that there was anyone implicated with him. He was committed for trial. Everything points to his being an old hand at burglary. The store of Messrs. Clarke & Cooke was entered before—some few weeks since—from the back, and two or three suits of clothes stolen, but the constables were not informed of the fact."

Something New in Pianos.

Jackson & Co. Manufacture a New and Cheaper Style of Instrument—A Proposal to Establish a Large Industry in Peterborough.

Upon invitation of Jackson & Co., piano repairers and manufacturers, an EXAMINER reporter visited their establishment at the corner of Simcoe and Aylmer streets and inspected a new piano which the firm are just completing. It is quite new in design, and is intended to meet the demand for a cheap, yet good instrument, within the means of the working classes. In about a month the piano will be finished and then submitted to a public test. Jackson & Co. intend taking the public into their plans in this matter, and if the piano is shown to be what its makers claim it will be, steps will be taken to organize a company and begin the manufacture of the instrument on a large scale.

THE NEW PIANO

is constructed on an entirely different principle from all other Canadian makes. It is vertically strung, while the usual style of piano is over-strung. The makers claim this harp principle will give a sweeter sound, as it does away with the harmonics pertaining to pianos of the over-strung pattern. Another important feature is the employment of the Strauch Bro.'s action, indisputably claimed to be the best known. The new piano is an upright of the English model. It will be finished in rosewood and walnut, and will stand four feet four inches high. There will be 3 classes made, each seven and one third octaves in range. Jackson & Co. manufactured the instrument entirely themselves, preparing their own patterns and fixing the scale. The frames were cast at the Wm. Hamilton Manufacturing Co.'s works. The firm of Jackson & Co. came to Peterborough about a year ago, and have ever since occupied their modest premises on the corner of Simcoe and Aylmer streets. The firm is composed of Messrs. R. H. Jackson and R. Burfield, both gentlemen perfectly familiar with their business and men of skill and energy who hope to attain great results from their latest enterprise, on which they have been laboring for twelve months past. Their new piano while being first-class in make and tone, has the additional advantage of being cheaper than other American makes. This being the case, and should the formal test prove satisfactory, as it no doubt will, when the instrument is finally completed, there should be no difficulty in establishing the manufacture of these pianos on a large scale at Peterborough. Messrs. Jackson and Burfield deserve every credit for their industry and practical skill, and their enterprise is deserving of encouragement. They feel quite confident over success of their new production should it be once fairly launched upon the market.

AN INDUSTRY PROJECTED.

A project is on foot for the formation of a company to engage in the manufacture of these new pianos on a large scale. If, as the makers claim, the piano produced by them is equal in quality and tone to other makes of instrument, but at the same time much cheaper, the new piano should over-ride all competition and the venture would prove profitable. Messrs. Jackson & Co., are now about to remove to larger quarters, having secured the old Baptist church building on Aylmer street, which is being fitted up for their occupation. A plate glass front will be put in and the interior altered to meet requirements. But if expectations are realized the premises will be altogether too small for the purpose. If the piano when tested proves to be what is claimed for it, the probability is a large stock company, say with a subscribed capital of $50,000, will be organized and the manufacture of Jackson & Co's new instrument carried on a large scale. With that amount of capital a factory capable of employing fifty or sixty men and turning out seven or eight pianos a week, could be operated. The benefit such an industry would be to the town is apparent. It is to be hoped the test will result satisfactorily so that the high expectations of the promoters of the scheme may be realized.

What is being Done for Temperance in Peterborough.

To the Editor of the Examiner:

The efforts that are being made in the interest of temperance in Peterborough are deserving of notice. The Women's Christian Temperance Union, the Young Women's Temperance Union and the Band of Hope are all actively engaged in this good work. These Societies all meet weekly in their new hall, over Miss Sanderson's shop. They all labor in connection with the Women's Temperance Union of Canada and the United States. The Women's Temperance Union here also devote their attention to objects of charity and to the assistance and reformation of those who have gone astray. So far these Societies have worked on quietly, but they have done much good. Their members have given up a good deal of their time to the furtherance of this good work. They have each a large membership. Hitherto these women have had to labor against many financial difficulties and have had to supply all the funds required. It is to be hoped that this will not be allowed to continue any longer by the good people of the town, who are as much interested in their success as are the members themselves. The Band of Hope is especially deserving of help. It is composed altogether of little children, who, of course, can do nothing in this direction. The number of children nine months ago was eight. It is now one hundred and thirty and the number is continually increasing. It is impossible to estimate the good which this body of children are receiving, and the good which they, in their turn, are doing both at home and abroad. Several cases of reformation and change have already occurred through the influence of these little children. The Society needs financial help badly and it is to be hoped that help will be given it. The Band of Hope intend giving an entertainment in their hall on Friday evening, and we will then see what interest the townspeople will take in its support and success.

Toronto Live Stock Markets.

TORONTO, Oct. 22.—There was a big run of live stock at the Toronto cattle market to-day. The receipts were 48 loads, including 100 sheep and lambs and 150 hogs. The demand for nearly all kinds was slow. Export cattle were not in much demand, Stockers for shipment and to tie "on this side" were in fair demand at somewhat easier prices. The inquiry for good butchers' cattle was only fair. Export sheep were dull and shippers were apparently not disposed to buy to any extent. Butchers' sheep and lambs were dull. Light fat hogs were scarce, and the market for them fairly good.

Grain Market.

NEW YORK, Oct. 22.—For the past week a scalpers' market has prevailed in wheat, and a very narrow one at that. It has been for the most part devoid of interest, characterized, however, by a sagging tendency. The export clearances from the seaboard for all grades of wheat have only amounted to 160,000 bushels, which is a falling of of about 40,000 bushels from last week. The stock of No. 2 red wheat in New York now amounts to 3,067,128 bushels. This amount is increasing all the time, and none is being exported, although small amounts are being taken for milling purposes, and the demand for flour from abroad continues good. The general lack of strength in the market is due to some extent to the advance in ocean freight rates, which is the result of a lack of freight room. A feeling seems to be growing that Europe will shortly begin to need our wheat, caused by the confirmation of reports of short foreign crops. The latest estimate of the Russian crop shows a shortage of from thirty to thirty five millions bushels when compared with the average yield for ten years, and an amount almost double that under last year's crop. Notwithstanding this, foreign cables have ruled barley steady, and no advices have been received from the other side which would tend to cause any great activity in our market. Receipts of wheat in the North-West continue large, with quite an increase over last week; but the heaviest movement of the crop is now being felt. Corn is dull, with a fair export demand. Fine harvesting weather has prevailed during the week, and the receipts are large, but this *stuff is of last year's crop.*

Land,

sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. CRIMINAL STATISTICS BLUE BOOK FOR 1888.

Canada is Growing and Lawbreakers are Increasing in Number—That Picture-Pneumonia Cable.

OTTAWA, Oct. 25.—The criminal statistics blue book for 1888 has been issued. The convictions aggregate 30,770 as compared with 35,970 in 1887, the population being estimated at 4,94[illegible] in the first named year and 4,85[illegible] in 1887. Of these the murders number 69 against 45 in 1887, rape and other offences against females numbered 861 last year against 143 the previous year, offences against the person 5089 last year, only 24 cases more than in 1887. There were 12,807 cases of drunkenness against 11,649 cases in 1887. The net result is 30,770 offences in 1888, or one in every 125 of population, compared with 30,970 in 1887, or one in 133 of the population.

Classified by provinces the total convictions resulting in imprisonment were: Prince Edward Island 13, Nova Scotia 80, New Brunswick 71, Quebec 1201, Ontario 2144, Manitoba 67, British Columbia 112, the territories 49. Canada furnished 2553 prisoners, England 364, Ireland 294, Scotland 86, the United States 211, other foreign countries 114, other British possessions 8. Prisoners professing the Roman Catholic religion numbered 1907, the Church of England contributed 657, the Methodists 377, Presbyterian 291, Baptists 110, "Protestants" 209, other 136. The ratio for cities is given as follows: Toronto 36.11, Montreal 33.70, Hamilton 46.84, Quebec 20.20, Brantford 43,207, St. John, N. B., 28,460.

Ambitious City Notes.

HAMILTON, Oct. 25.—Francis Shutler, a farmer, was charged by an insurance inspector at the Police Court yesterday with neglecting to provide an efficient spark arrester for a steam thresher which he was using and was fined $5 and costs. This is the first conviction here under the act passed at the last session of the Ontario Legislature.

Arthur S. Hill, 350 John-street North, charged with selling liquor without a licence was yesterday fined $50 and costs.

On the recommendation of the Railway Committee of the City Council the latter body will likely appoint an expert railroad engineer to examine and report upon the various routes proposed for right of way for the South Ontario Pacific and the Toronto, Hamilton and Buffalo Railways through the city and also report as to the best route for the interest of the city.

Getting a Bad Name From Our Neighbors.

OTTAWA, Oct. 25.—Regarding the cable despatch that Canadian cattle suffering from pleuro-pneumonia have been allowed to land in England Mr. John Lowe, Deputy Minister of Agriculture, says: "The allegation is old and enquiry shows that it is unfounded. One cow imported from Canada developed the disease in England but it was contracted from a stable there. Several cases of the disease amongst imported cattle have arisen but they were all amongst American beasts. American cattle are massed at Chicago and sent to New York for embarkation. On account of expense they do not stay in New York and therefore it is clear that Chicago is the seat of the disease. No pleuro-pneumonia is known in Canada."

Matters in Montreal.

MONTREAL, Oct. 25.—The annual convention of the Protestant teachers of the Province of Quebec was opened yesterday. There were 200 teachers present. Various reports were read and it was stated that the pension fund now amounted to $180,000.

The traffic returns of the Grand Trunk Railway for the week ending Oct. 19 amount to $436,875, showing an increase of $2911 over the same period last year.

Mr. Justice Mathieu has rendered judgment in the petition to appoint a commission to take the evidence of the nuns in the Hotel Dieu Hospital, who objected to come into court to give their evidence, allowing the evidence to be taken by a commission.

Fell off a Train.

ST. THOMAS, Oct. 25.—Oliver H. Hayman, en route from Pettston, Pa., to visit his brother, Samuel H. Hayman, county clerk of Oscoda county, Mich., either fell or jumped off express No. 3 at Charing Cross Wednesday. No trace of the man could be found until the section men about 5.20 that evening discovered him in the weeds at the side of the track. He was taken on the hand car to Charing Cross station. The poor fellow was in a deplorable condition, his head and face were covered with wounds and he was almost scalped. Every wound seemed to penetrate to the bone. He cannot live.

The Quinte Disaster.

DESERONTO, Oct. 25.—Grappling for the bodies of the four victims of the steamer Quinte disaster went on all yesterday but only one body was found, that of Douglas Stacey, son of the assistant ladies' maid. The remains showed that death was caused from suffocation or drowning. All of the injured have been sent to their homes except Mrs. Anderson and her son and Miss Keeler.

Inland Revenue Seizure.

SARNIA, Oct. 25.—Last evening Special Officer Marshall of the Inland Revenue Department seized a lot of apparatus in the pop works of William Allingham on a charge of illicit whisky manufacturing. He also seized quite a lot of whisky in the works which it is supposed had been manufactured there. The officer failed to find the worm used in making the whisky.

Listowel Cheese Market.

LISTOWEL, Oct. 24.—At the cheese fair held here yesterday 34 factories boarded 4428 boxes colored and 11,987 boxes pale cheese. No sales, market very dull, eight buyers present. A great many of the smaller factories are closing down for the season.

Archduke and Princess Wed.

VIENNA, Oct. 25.—Archduke Leopold was married yesterday to Princess Blanche of Castile.

Fire at Brooklyn.

BROOKLYN, Oct. 25.—Fire here yesterday damaged the establishment of Dayton A. Palmer, candy manufacturers, to the amount of $30,000. Other concerns lost about $5000.

Crane too Much for the Greens.

BROOKLYN, Oct. 25.—The fifth contest for the world's championship was witnessed by less than 2000 persons. Carruthers and Clark were in the points for Brooklyn, and Crane, backed up by Bill Brown, again essayed to do the twirling for the Giants. Crane as usual proved too much for the Greens. Score:

THEIR LIVES AT STAKE.

LONGENECKER'S ARRAIGNMENT OF THE CRONIN SUSPECTS.

The Facts Tending to Show a Murder Conspiracy Forcibly Presented—The Defence Waive Their Opening.

CHICAGO, Oct. 25.—The trial of the men charged with conspiracy to murder Dr. Patrick H. Cronin is now fairly under way. The court room yesterday was crowded when States's Attorney Longenecker began his opening address to the jury. He said:

"The evidence that we shall introduce will show a conspiracy to murder Dr. Cronin. The evidence we shall introduce will show that the conspiracy which was formed and carried into execution terminated in the killing of Cronin. All the conspirators are liable for murder and the punishment for conspiracy ends in the punishment for murder. That is the position we take in this case. The same hidden hand that worked and moved this conspiracy, that concocted this scheme, is again working in this community to lead the people to believe that Cronin was still alive.

"In order to show what the motive for the crime was it became necessary to examine into the history in this country of the organization known as the United Brotherhood, commonly called the Clan-na-Gael. Before doing this he would remind the jury that they were not trying the Clan-na-Gael, but the prisoners at the bar. The Clan-na-Gael in this country was made up of patriotic Irishmen, Irishmen who went into it for political effect, and Irishmen who went into it for the money there was in it, and its object was to free Ireland by force of arms as soon as a favorable opportunity offered. The triangle was supreme, the oaths of the members made their commands superior to the laws of the nation."

Mr. Forrest objected to this line of statement.

Judge McConnell warned the State's Attorney that he was making these statements at his peril.

The State's Attorney said he would prove what he had said and he accepted the responsibility. He proceeded: "When Sullivan, Feehy and Boland got control of the executive board they changed the plan of work of the organization and inaugurated the dynamite policy and implanted in the constitution the clause commanding perfect and unquestioning obedience to the commands of the board."

The defence again took an exception to this line of statement.

The State's Attorney then spoke of the adoption of the triangle as the symbol of the executive board. Said he: "The membership did not know who constituted the triangle, so secret was it, but nevertheless they obeyed its orders and were sent on various special missions in England in the way of active work and under assumed names. Notwithstanding this secrecy those men were betrayed by the board to the English authorities and twenty of them are now in prison. This was to enable the board to steal the funds, and when at last a showing was made the board claimed that the order owned them $13,000 when there was $250,000 in the treasury when they took charge."

At this point the State's Attorney introduced Dr. Cronin in connection with the order and proceeded to sketch the history of his fight against the triangle, told of Cronin's expulsion, the subsequent union convention, the trial of Sullivan, Feehy and Boland by a secret committee, of which Dr. Cronin was a member, in Buffalo last August. Judge Longenecker continued:

"The committee was there in session for days and days hearing evidence. That evidence, as we have it, will be introduced here. Dr. Cronin took the evidence fully and witnesses and facts were produced to show what they had done in the Old Country, what had been done across the water under the direction of this triangle—all their active work was shown. The committee had not made its report but Dr. Cronin had taken full notes of that trial committee. He had taken down what each witness had said about certain things. Cronin wished that all the evidence be sent out to all the camps, but up to the time of his death the report had not been sent out. It would have shown that they had not only violated the laws of the order and of this country, but also those of England and had robbed the order of its funds and the men of their liberties.

"Only a day or two after Dr. Cronin's death, however, the report of the trial was sent out. Dr. Cronin's part of it, however, was rejected and that part of it which accused Cronin of being a traitor was sent. They would show that all this denunciation of Cronin was sent out over Alexander Sullivan's signature and that it was sent out after Cronin had disappeared and in the belief that his body would never be found. If Cronin had furnished his evidence against the triangle, as he was about to do, it meant the ruin of the triangle with the Irish people and to have it published to all their camps was to convict these men of embezzling funds that had been accumulating for years."

The State's Attorney then went on to show how Coughlin had begun denouncing Cronin as a spy way back in February, how Beggs at certain meetings of Camp 20 had said that Cronin's denunciation of Sullivan and the triangle "had to be stopped if it took blood." Finally, after several weeks' delay, Beggs as guardian of Camp 20 announced that the charges against the triangle would have to be investigated. The next day the flat at 117 Clark-street was rented, the trunk and furniture which was afterwards moved to the Carlson cottage bought, and the preparations begun for the murder. The State's Attorney then went over the whole story of the conception and execution of the plot as already published.

After detailing what he expected to prove against the defendants Mr. Longenecker said: "Any one who looks at the facts or the evidence can see very readily that the acts committed of themselves are the result of a conspiracy. Now a conspiracy is made up of certain acts by individuals, either together or separately and every act that was done by either of these parties that was necessary to be done to carry out the object of the conspiracy binds each of the others who was in the conspiracy." The State's Attorney called attention to the fact that an accessory is regarded the same in law as is a principal. He then said: "Take the hiring of the horse and buggy, take the hiring of the flat at 117 Clark-street, take the buying of the furniture and of the trunk, the strap, take the renting of the cottage by Burke under the name of Williams, take the fact of the knowledge of the renting by O'Sullivan and the further fact that the Carlsons were told that a sister would go there and keep house, take the driving of the doctor away from his home on the night of May 4 under the supposition that he was going to minister to the wants of an injured man, take also the appointment of the secret committee and the motion made by Daniel Coughlin to have that committee appointed, take the further fact that Senior Guardian Beggs said: 'That committee reports to me and not to the camp,' on the night of the 3rd of May,—the coming together of all these things shows the conspiracy, and the act of one man in this case is the act of all of them."

At the afternoon session Judge Longenecker concluded his address. Then all the lawyers of the defense waived the right to address the jury and ex-Capt Villiers of Lakeview was put on the stand to tell what he knew of the tragedy.

Villiers' testimony was unimportant except as to the fact that he knew Dr. Cronin in his lifetime and that as the body was being conveyed in the patrol wagon from the catch basin to the morgue he had identified it as that of the dead doctor.

James F. Boland, cashier and an associate of Dr. Cronin in various secret societies, also gave testimony as to the identity of the body and the location of Cronin's office. Lawyer Forrest, for the defence, elicited from Boland on cross-examination the fact that contrary to general belief, Cronin's office was so situated that a view into its windows could not have been obtained from the Clark-street flat supposed to have been hired by the accused, Cronin's office not fronting on Clark-street but being in the rear of the building and facing on an alley. The other witnesses before adjournment were J. C. O'Keefe, Cronin's tailor; J. P. Hellard, a reporter; Henry Resch, sewer foreman, who found the body in the catch basin; Stephen Connolly, a morgue keeper; M. O. Wich, in whose barber shop Cronin had his tonsorial work done; Maurice Mercy, associated in a weekly newspaper venture with Cronin; Joseph O'Byrne, a secret society friend of Cronin's. Their testimony related wholly to the finding and identification of the corpse.

The cross examination brought out nothing apparently except that all the witnesses but the sewer foreman and barber had been actively identified with the organized efforts to aid the prosecution.

P. W. Dunne, who is indirectly connected with the prosecution, said yesterday that efforts had been made and were to be further pushed to obtain if possible from Parnell or his counsel, Sir Charles Russell, a categorical statement that Cronin's name was not one of the four handed by the spy LeCaron as that of the men who were systematically betraying to the English Government the secrets of the Irish movement in America. Letters to this end have been written, one at least by Dunne, to the Irish leader, Matt Harris. It is now proposed to forward to the other side as formidably signed a petition as can be secured demanding the desired information and taking the ground that if Cronin's name was not on the list of spies no breach of trust will be made by breaking silence and saying so.

DOLLAR WHEAT.

That is the Aim of the Mississippi Valley Association.

ST. LOUIS, Oct. 25.—The Wheat Growers' Association of the Mississippi Valley met again yesterday with Col. N. J. Coleman, the permanent president, in the chair. Resolutions were reported urging Congress and the president "to make such reciprocity treaties with those foreign nations to whom we ship our surplus farm products as will cause such foreign nations to remove the customs from our farm products shipped abroad, thereby causing us to receive a higher price for our foreign farm supplies and thereby fixing a higher price upon all that we sell at home," asking Congress to take steps to destroy existing monopolies and trusts and prevent the formation of others, requesting the repeal of the duty upon farming implements or the raw materials used in their manufacture, and declaring that "we are more deeply interested in the carrying out of the above resolutions than we are in the success of any political party."

It is said an attempt will be made in the convention to set a price of $1 on January wheat and 95 cents on December wheat and that some of the members will endeavor to get the farmers in the association to pledge themselves not to dispose of their crops for less.

Masked Burglars Make a Haul.

ST. JOSEPH, Mo., Oct. 25.—At 2.30 yesterday morning three masked robbers entered the residence of Judge Henry Kelly and going to the room where the judge and his wife were sleeping, one of the robbers covered them with his revolver while the others searched the room for valuables obtaining $600 in jewels, gold watches and money. The robbers then searched the bed for valuables and lastly took the rings from Mrs. Kelly's fingers. On the judge stating that he had no money concealed about the house he was struck over the head with a revolver and threatened with death if he did not tell where the money was. The

TORONTO TOPICS.

The Vexed Question in Methodist Educational Circles.

TORONTO, Oct. 25.—Another exciting meeting in respect to the proposed federation of Victoria College with Toronto University was held yesterday. Many ministers from different parts of the province attended. The entire question of federation or independency was warmly discussed and the outcome was the appointment of a committee to see how much could be raised for independency towards the $400,000 required before conference meets in January.

Harry Trouman was arrested by Detective Burrows and Policeman Steele near the Yonge-street Arcade yesterday afternoon on the strength of a telegram from Port Huron, Mich., charging him with stealing $300 in cash and two checks for large amounts, the property of the Port Huron Times Printing Company. He was sent to bank the amounts but instead of doing so, followed the American boodlers' examples and skipped to Canada. When arrested he admitted the charges against him. He could not be extradited, but could be prosecuted for bringing stolen money into Canada. He preferred to return to the States and will probably leave in company with an American officer to-day. A large amount of stolen money has been recovered.

The examination into the charge against Henry Parry of supplying drugs and instruments to Mrs. Elliott to assist in a criminal operation upon herself was concluded in the Police Court yesterday and the accused was committed for trial. The principal witness against Parry was Mrs. Elliott herself, now under a six months' sentence for the main offence. Parry has been in jail for six weeks and he was somewhat rejoiced when released upon the bonds of his wife and Mr. Harry Brown, who went down for $780 each.

Wm. Reid and Thomas Chapman were found guilty at the Criminal Assizes yesterday before Acting Judge Irving on a charge of assaulting Policeman William Miles. They were remanded till to-day for sentence.

An application will be made at the next session of the Dominion Parliament for an act to incorporate the Loyal Orange Association of British America. The advertisement giving the announcement is printed in The Orange Sentinel of yesterday and is signed N. Clark Wallace, G.M. & S. L.O.A.B.A., and Thomas Keyes, Grand Sec. L.O.A.B.A.

The police have notified Count Dillon to quit Dieppe, otherwise they will arrest him and expel him from Germany.

An autopsy was made at New York yesterday on the body of William Burns, a passenger on the steamer Homdo who died on the steamer's arrival at Quarantine. It showed conclusively that Burns died of yellow fever. The body will be cremated.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

TRANSATLANTIC NEWS.

EXPLOSION ON THE CUNARD STEAMER CEPHALONIA.

Russia Flooded with Nihilist Literature from France—Too Much Water at St. Petersburg—A Terrible Holocaust.

LONDON, Oct. 25.—In his speech before the Parnell commission yesterday Mr. Davitt said he had not endorsed Ford's dynamite views and he believed he had converted Ford to constitutional methods. Le Caron's assertion that 200,000 men would invade Canada was an understatement as the Fenians numbered nearly 1,000,000. He denied The Times' allegation that he had started the league with money subscribed in America for purposes of crime and outrage. He quoted from the Irish World to show that he had obtained large sums by constitutionally advocating the policy of the league. The funds that had been received from all parts of the world had not come from members of the revolutionary societies. He read letters from Germans, Frenchmen, Americans and Englishmen enclosing funds and urging him to fight on the land question. The commission here adjourned. Only the judges, counsel for The Times, Messrs. Biggar and Devitt, LeCaron and a few spectators were present. LeCaron attracted no notice.

Explosion on a Cunarder.

LONDON, Oct. 25.—The Cunard steamer Cephalonia, which sailed from Liverpool yesterday for Boston, had to put into Holyhead on account of an explosion of a boiler by which the second engineer and four firemen were seriously injured. She will return to Liverpool for repairs.

St. Petersburg Flooded.

LONDON, Oct. 25.—News comes from St. Petersburg that a sudden rise in the waters of the River Neva there has flooded the whole lower part of the city, and a large number of streets are under water from one end to the other. No lives are reported lost, but in many instances women and children living in houses near the river bank were only saved from drowning by rescuers who went out to them in boats. At last reports the river was again falling. The damage to property along the water front extends for many miles on both sides of the river and will reach enormous figures.

Activity Among Russian Nihilists.

LONDON, Oct. 25.—The Nihilists are again active in St. Petersburg, and the city during the past month has been flooded with their revolutionary proclamations. The police are entirely at a loss to explain how these documents are printed or distributed. It is asserted that the printing is done in Paris under the protection of certain high Government officials tainted with revolutionary doctrines, and that this is the headquarters also of the Nihilist newspaper The Struggle, which is printed expressly for circulation in Russia, and large editions of which are periodically spirited across the Russian border in spite of every police precaution.

Six Boys Burnt to Death.

LONDON, Oct. 25.—Through the burning of a barn at Eisenach, in Saxe Weimar, six boys, who were sleeping inside, were burned to death.

CLEVELAND, O., Oct. 24.—There was one death from smallpox on Pelee Island, Lake Erie, yesterday and four new cases developed. It is feared there will be many cases within a few days.

Death of a Michigan Centenarian.

DECATUR, Mich., Oct. 25.—Charlotte Saunders, one of the oldest persons in the United States, died at the county poorhouse two days ago. She was in her 108th year and remembered distinctly Washington's triumphal march through Virginia at his first inauguration. She was one of the slaves manumitted in 1845 on the death of a planter named Saunders in Virginia.

Fatal Boiler Explosion

VALPARAISO, Ind., Oct. 25.—A freight engine running at full speed between Valparaiso and Haskell's yesterday exploded a crown sheet. Fireman John Haddea was hurled from the cab over the tender against the first car. The wheels of the entire train cut his body to pieces. Engineer Thos. Callahan was scalded horribly. He is not expected to live.

Chicago Tailors on Strike.

CHICAGO, Oct. 25.—Seven hundred and fifty union journeymen tailors struck here yesterday because W. Matthews, one of the employers, refused to discharge an obnoxious foreman.

Progressive Celestials.

WASHINGTON, Oct. 25.—The State Department is advised that Li Hung Chang, Grand Secretary of State for China, has decided to establish a medical service for the Chinese army and navy on the basis of the best western models.

A Chicago Blaze.

CHICAGO, Oct. 25.—The building here occupied by P. N. Kohlmat, manufacturer of banks, Scott & Kanne, iron work manufacturers, and G. B. Fixler, pattern maker, was gutted by fire yesterday. Loss $66,000.

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the fron again. When you want one, remember we handle them cheap.

The public are realising that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

Remarkable Restoration to Health of Well Known Canadians whose Cases were Given up as Incurable.

From the few of the hundreds of letters we have received from those who have been restored to health and strength by the use of that wonderful discovery, Paine's Celery Compound, we make a few extracts. We hope that the thousands of Canadian men and women who are suffering from nervous and wasting diseases, will profit by these true and plain statements of facts.

D. S. Davidson, of Montreal, suffered for years with nervous dyspepsia, pain in his back, and sleeplessness. He tried doctors without relief, was losing flesh rapidly, and had about given up hope when he commenced the use of Paine's Celery Compound. "Now," he says, "I am a new man. I sleep well and my food does not hurt me."

Mr. Jas. Johnson, 302 St. Charles Borromee Street, Montreal, was weak and nervous, had no appetite, and could not rest at night. His nerves were soothed and strengthened by Paine's Celery Compound, and he soon became well and strong.

Annie Gourley, of River Beaudette, P. Q., found the Compound a certain cure for weakness, and now feels as well as she ever did.

A customer of Harrison Bros., druggist, Hamilton, Ont., told them that he was entirely cured of nervous weakness by the use of two bottles of the Compound, after everything else has failed.

The little child of Mrs. G. E. Meredith, 76 D'Arcy St., Toronto, was cured of St. Vitus' Dance by Paine's Celery Compound.

The Daily Examiner.

FRIDAY, OCTOBER 25, 1889.

ACCORDING to the *Electrical Review* there are now $300,000,000 in the electrical business, 237,017 are and 2,704,768 incandescent lights in use, and 100 electrical railways, with 800 miles of track and 1,000 cars in operation. With such a wonderful development in a brief space of time, hardly more than a decade, it would be difficult to predict what the next ten or fifteen years has in store. The discovery of some means of overcoming the resistance, so that electrical power can be economically transmitted from the point where it is generated to the point where it is to be applied, is one of the great problems for solution. Every advance made in this direction will be followed by a rapid advance in the purposes and extent to which electrical power is now applied.

THERE were over sixteen million of dollars worth of minerals of all kinds mined in Canada last year. The increase in the output of coal was about 250,000 tons, making the total output about 2,758,000 tons. The value of the gold produces was over $1,100,000, and 80,000 odd tons of iron ore were contributed to the wants of the nation. There were 22,500 tons of phosphate mined and 60,000 tons of salt was found under the crust of Canada. The value of other leading products for the year are as follows: Asbestos, $255,007; bricks, $1,400,746; building stone, $641,712; cement, $95,593; charcoal, $87,000; copper, $467,543; fertilizers, $21,800; glass and glassware, $875,000; granite, $147,305; graphite, $51,129; gypsum, $179,393; lead, $27 472; lime, $339 951; limestone, $16,643; manganese ore, $47,044; mica, $30,207; mineral water, $10,456; moulding sand $755,571; pyrites, $285,655; sewer pipes and tiles $66,320; slate, $90,689; steel, $472,611; sulphate acid, $122, 515; terra cotta, $49,800.

Chili.

Although Chili is both in area and in population one of the smallest of the South American Republics, it is, in a military sense, the most powerful of them all, and politically, socially and commercially, it is far in advance of any other of the Spanish American countries. In 1885 the population only numbered 2,527,320 souls, and about fifty thousand unsubdued and uncivilized Indians, and in 1887 the foreign trade of this little community amounted to $108,175,817. The revenue of the Republic for the same year was $45,888,853, and the expenditure was $37 113,408, leaving a surplus of $8,775,545. The debt of this singularly prosperous little country, including twenty-four million of a paper circulation, which is being redeemed at par at the rate of eighteen hundred thousand dollars a year, was $83,834,577, of which only $40,437,000 was foreign, and to offset this debt there was in the treasury $21,277,610 in money, and the Republic owns thirteen hundred miles of railway, which, although costly to build, returns a fair interest on the money invested in it. Although nitrate and copper furnish a large part of the wealth of Chili, agriculture is far from being neglected. Her wheat crop amounts to eighteen million bushels yearly, a good part of which goes to Europe, and she also exports cattle and sheep and their products. As a result of an agitation that has been going on for some years, the first steps toward free trade have been taken, as all customs duties upon mining, agricultural and manufacturing machines have been removed, and it is to be expected that both copper mining and farming will be greatly encouraged by this measure of relief from restriction. Her merchant marine is fairly large. Her people are industrious, thrifty and passionately devoted to their country. Perhaps the best proof of the high place that Chili has reached socially and politically, is the manner in which she has dealt with the military problem created by the Chili-Peruvian war. In 1879 Chili was forced to take up arms against Peru and Bolivia, and in two years, by great exertions, involving the arming of nearly her whole able-bodied male population, she utterly defeated the coalition, and dictated terms to Peru. It is one thing to create a victorious army, quite another thing to disband it, yet in 1885 the Congress of Chili was able to pass an act fixing the peace strength of the army at less than six thousand men, and that of her navy, which, on a war footing, is more powerful than that of any American state, to but thirteen hundred men. In order that Mr. Blaine's Pan-American Congress can produce anything approaching a satisfactory result, Chili must be induced to come within the league of republics. In 1887 out of a total export of $90,549,858 of produce sent abroad by the republic only $2,094,020 in value went to the United States. Although Chili bought mainly from Great Britain foreign goods to the value of $46,690,982, she only bought goods to the value of $2,423,808 from the United States. In order, therefore, to come within an American customs union Chili would have to discriminate against the customers with whom she trades to the extent of one hundred and three millions yearly and in favor of a customer that only buys from and sells to her to the extent of five millions annually, something she is not very likely to do. In sending a delegate to Mr. Blaine's Congress the Chilians, who are shrewd and farsighted, have in view the commercial importance of the United States and the fact that its foreign commerce is destined to advance by "leaps and bounds" as soon as restrictions are removed. Chili's exports to the United States, though on small, are seven times greater than five years ago. On the other hand, her imports from that country have actually decreased. But Mr. Secretary Blaine's Pan-American Congress is ostensibly intended to bring about a peace league of American republics under the wing of the United States. To this arrangement also Chili has, under the circumstances, ground for objection. Was it not Mr. Secretary Blaine, through his instrument, Hurlbert, the American Minister to Peru, that attempted to coerce Chili into handing over Peru to be the spoil of an American syndicate and into the abandonment of her claim by right of conquest to that unhappy country? Chilians will not soon forget that Hurlbert threatened them with war if they did not make peace with Peru as his terms, and that it was not until Mr. Blaine had ceased to be Secretary of State that the settlement of the affairs of Peru became possible.

The Presidency Already.

Already a strong movement is on foot to secure for Governor Hill, of New York, the Democratic nomination for the Presidency of the United States in 1892. He has just returned from a visit to the Southern States, where his admirers put forth the most strenuous efforts to boom him, and that, too, with considerable success. In the course of his travels he made a number of speeches which were received with considerable enthusiasm in Democratic quarters, and his ardent supporters are hoping that the seed sown will take root and bring forth Hill fruit before the meeting of the National Republican Convention in June, 1892. At the same time the friends of ex-President Cleveland are not idle; they are working hard in his interests, and are hopeful that active work during the period to elapse before the party will again be called upon to make a selection will result in heightening his chances of nomination. The Democratic party in the State of New York is divided between the two men, and the faction fight at present going on is not likely to aid the Democratic cause in the State contest now in progress. As far as the Presidency is concerned, it is just possible that neither Hill nor Cleveland will be the Democratic candidate, as the experience of recent party nominations for the Presidency has proved that the apparently strongest candidates before the meeting of the conventions do not "get there." Meantime our good neighbors are deserving of sympathy on account of their having the question of the Presidency forced upon their attention before the present incumbent has served eight months of his four years' term of office. In all conscience we have politics enough in this "Canada of ours"; but we enjoy comparative immunity from political excitement and its attendant evils when compared with the people of the neighboring Republic.

Bobby Burns Understood It

"Many and sharp the numerous ills
Inwoven in our frames,
More pointed still we make ourselves
Regret, remorse and shame."

Among the most dangerous as well as vexing of ills "inwoven with our frame," are Consumption, Asthma, Bronchitis, colds and lung troubles generally. However, the timely use of Dr. Pierce's Medical Discovery takes away their fearful consequences, but which neglected, leaves "regret, remorse and shame." But you need not be ashamed to ask for the "Discovery," as it has become a standard remedy, found at all the drug stores, where thousands call for it every day, and where it is recognized as the leading medicine for all lung and throat affections.

Peculiarities of the Hair.

There are times when all persons require to pay some particular attention to the hair. To rekindle the life on energy of the roots is a simple matter if taken in time. Dr. Dorenwend's Great German Hair Magic will do the word, it works in accordance with nature, supplys fresh nourishment to the glands keeper, the hair luxuriant and natural in shade. Be sure to get, you cannot afford to miss it. Every druggist sells it. It is money well spent. See Dorenwends advertisement in another column.

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be taken in a cup of tea or coffee, without the knowledge of the person taking it; it is absolutely harmless and will effect a permanent and speedy cure, whether the patient is a moderate drinker, or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. AN ARMY OF PENSIONERS.

Summary of the Report of the United States Commissioner.

WASHINGTON, Oct. 24.—The annual report of the fiscal year, 1888-9, of the Commissioner of Pensions, has been submitted to the Secretary of the Interior and is now in the hands of the public printer. There were at the close of the year 489,725 pensioners. There were added to the rolls during the year the names of 51,921 new pensioners, and the names of 1754 whose pensions have been previously dropped, were restored to the rolls, making an aggregate of 53,675 pensioners added during the year. Sixteen thousand five hundred and seven pensioners were dropped from the rolls for various causes, leaving a net increase to the rolls of 37,196 names. The average annual value of each pension at the close of the year is shown to have been $131.18. The amount paid for pensions during the year was $88,275,113.28. The total amount disbursed by the agents for all purposes was $89,131,986.44. Amount paid as fees to attorneys, $1,363,583.47.

In the aggregate 1,248,156 pension claims have been filed since 1861 and in the same period 780,221 have been allowed. The amount disbursed on account of pensions since 1861 had been $1,052,218,413.17. The issue of certificates during the year shows a grand total of 145,298. Of this number 51,921 were original certificates.

A WAR OF EXTERMINATION.

The Howard and Turner Factions Fight a Pitched Battle in Kentucky.

LOUISVILLE, Oct. 24.—An engagement has occurred between the Howard and Turner factions near Harlan Court House. James Deane of Howard's party was killed and five others were wounded. Three of the Turner crowd were wounded.

A correspondent at Pineville telegraphs as follows: Wilson Howard and one of his principal henchmen named Jennings, are among the wounded and it is said Howard's wounds are probably fatal. The Turners have been in possession of the town for more than a week. Their leader is John Turner, aged 17. Howard's forces have been in camp one mile from town. There are about forty men in each crowd, all equipped with Winchesters and revolvers. Yesterday morning Turner led his followers in an attack on the Howard camp. The attacking party got in the first work, but were finally driven back to town.

A report reached Pineville to-day that the Howard forces in Harlan, enraged by the battle of yesterday and the probable fatal wounding of their leader, left camp last night and started for Harlan Court House, intending to kill everybody that belongs to the opposition and burn the town.

THE CRUISE OF THE THETIS.

Caught in the Ice—News from the Yukon Mining District.

SAN FRANCISCO, Oct. 24.—The United States cruiser Thetis has returned to Sitka, Alaska, after an extraordinary cruise. During the summer she sailed along the Alaska coast past Barrow and to the mouth of the Mackenzie River in the Arctic Ocean. A fleet of whaling vessels went with the Thetis. Ice caught the warship near Point Barrow, and she narrowly escaped being wrecked. Only two exploring vessels have ever got to the Mackenzie River and no Government vessel was ever that far before.

The steamer St. Paul, which arrived from Onalaska last night, brought down 46 Yukon miners. They report some destitution among miners at Yukon but say the recent reports of starvation there were exaggerated.

Flour and Wheat.

MINNEAPOLIS, Oct. 24.—The Northwestern Miller says:—The aggregate flour output of the 21 mills last week was 166,680 barrels against 168,030 the preceding week and 180,200 for the corresponding time in 1888. The same mills are now producing 27,000 barrels per 24 hours. A declining wheat market has pretty much put a stop to trading in flour and millers are giving their chief attention to filling old orders. About every firm is oversold. Nevertheless flour prices are quotably lower, some parties making more of a reduction than others. With bakers well sold ahead the sales for export are light. The inquiry has improved during the past day or two. The shipments of flour were very heavy last week exceeding the production slightly. The direct exports of flour for the week were 53,230 barrels against 55,070 the week before. The most noticeable feature of the week was the large arrivals of wheat in the Northwest. The total was 3,281,838 bushels or 859,438 bushels greater than for the same week in any previous year. On Oct. 18 there were in country houses in Minnesota and the Dakotas less than 5,000,000 bushels wheat, the smallest amount in such storage at the same time in any late year except 1888. The country movement for the past two days has fallen off from 10 to 15 per cent.

The Judge and the Reporter.

KANSAS CITY, Mo., Oct. 24.—The journal yesterday afternoon referred in uncomplimentary terms to a decision by Judge McDonald of the County Court. When James Kelly, a Journal reporter, addressed him McDonald flew into a passion and struck the reporter twice in the face with his fist, knocking him down. A policeman arrested the judge but the latter was released on his own recognizance.

When the House Will Meet.

OTTAWA, Oct. 24.—It is understood that Parliament will meet for the dispatch of business about Jan. 15, 1890. The Government, it is said, is desirous of having the session begin as early as possible after New Year's.

Suicide of a Waterbride.

WATERTOWN, Oct. 25.—Louis Kellerman, who fatally shot his wife Wednesday, committed himself in the loft of his mother's barn. Hearing his young brother below yesterday morning Kellerman shot himself dead. It is supposed he thought the officers had discovered his hiding place. Mrs. Kellerman is still alive.

Success in life is the result of push and energy. If the blood is impure and sluggish, both body and mind lack vigor. To cleanse and vitalize the blood and impart new life to the system, nothing else has such a marvelous effect as Ayer's Sarsaparilla.

Why?

Why suffer a single moment, when you can get immediate relief from internal or external pain by the use of Polson's Nerviline, the great pain cure? Nerviline has never been known to fail. Try a 10 cent sample bottle. You will find it just as recommended. Neuralgia, toothache, cramps, headache, and all similar complaints disappear as if by magic when Nerviline is used. Large bottles 25 cents. Test bottles 10 cents, at druggists and country dealers. 6w43d

Cannot Fail.

MRS. JOHN E. THOMPSON, of Shelburne, P. O., writes: My two children received great benefit from Fowler's Extract of Wild Strawberry for Diarrhœa and summer complaint. I gave it according to direction and they soon recovered. Be sure and get the genuine. 2w41d

Tried! Tested! Proved!

A YEAR ago last summer I was troubled with dysentery. I procured Dr. Fowler's Extract of Wild Strawberry and took according to directions, which completely cured me. ROBERT E. GREEN, Lyndhurst, Ont. The medicine cures all looseness of the bowels. 2w41d

In Many Forms.

DYSPEPSIA assumes many phases, all disagreeable to the sufferer, yet it takes no form which from two to four bottles of Burdock Blood Bitters will not cure. B.B.B. cures dyspepsia, tones the weak stomach, aids digestion, sharpens the appetite, and renovates the system. 2w41d

DYSPEPSIA, that great source of misery to so many people, can be effectually cured by the use of Dyrce, Quinine and Iron Wine it is carefully prepared, easily assimilated, and can be taken by the weakest invalid. W. A. Dyer & Co., Montral. 6d93

Can be cured by purifying the blood with

I do not believe that Ayer's Sarsaparilla has an equal as a remedy for Scrofulous Humors. It is pleasant to take, gives strength and vigor to the body, and produces a more permanent, lasting, result than any medicine I ever used.—E. Haines, No. Lindale, O.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, it will thoroughly eradicate this terrible disease.—W. F. Fowler, M. D., Greenville, Tenn.

For forty years I have suffered with Erysipelas. I have tried all sorts of remedies for my complaint, but found no relief until I commenced using Ayer's Sarsaparilla. After taking ten bottles of this medicine I am completely cured.—Mary C. Amesbury, Rockport, Me.

I have suffered, for years, from Catarrh, which was so severe that it destroyed my appetite and weakened my system. After trying other remedies, and getting no relief, I began to take Ayer's Sarsaparilla, and, in a few months, was cured.—Susan L. Cook, 909 Albany st., Boston Highlands, Mass.

Ayer's Sarsaparilla is superior to any blood purifier that I have ever tried. I have taken it for Scrofula, Canker, and Salt-Rheum, and received much benefit from it. It is good, also, for a weak stomach.—Millie Jane Peirce, South Bradford, Mass.

Mr. Hunter had very little urging to do. Young and old crowded to the front filling up more than half the seats in the centre aisle. The workers did good service At 9:30 o'clock Rev. Mr. Hunter looked over the audience and remarked: "I want three or four hundred christians to shoot out of the nearest doors; don't let an unsaved person or the workers go. We want room." This occurred and the meeting ended half an hour afterwards.

A Big Cheese Trust.

A despatch from Fulton, Oswego county, N.Y., says:—C. B. Ryan, of Ingersoll, Ont., is here taking options for cheese factories. He is meeting with good success. He has options for 300 in the counties of St. Lawrence, Jefferson, Lewis and Oswego. Mr. Ryan stated that it was the purpose of this company to embrace not only Oswego county, but Jefferson, St. Lawrence and Oneida counties. In each of these counties there are from 50 to 60 factories. This company intends to buy up the factories in these counties and to manufacture and sell cheese as is done at present. Experienced cheese makers will be employed to manufacture the cheese, preference being given to the present cheese makers or employees of factories.

The Mystery Explained.

The mystery of the following inscription on a lead tablet found in the waterworks trenches has been solved:

' ' ify ' ouw ' antat ' ip t ' orcn ' po ' ofte ' ayo ' umu ' stbu ' yita ' thaw l ' eyb ' ros ' te ' asto ' re ' 3 ' 7 ' 8 ' ge ' org ' est ' re ' et.

Dr. Wilson, of the University writes:—'I have examined the inscription with great interest. From internal evidence I should say the plate was deposited about 1854. I regard it as one of the greatest phophecies ever made. It has amply been fulfilled as I can attest from actual trial. The translation reads thus:—

If you want a tip-top cup of tea, you must buy it at the tea store of Hawley Bros. 378 George street. dw

Another Woman Lost.

This forenoon an elderly man named Sullivan, a carpenter formerly of Peterborough but now living in Lindsay, appeared at the police station and notified the officers that he had lost his wife. They came to town to visit some friends, and the old lady went into a store on Hunter street yesterday afternoon to purchase some groceries, arranging to meet her husband at the corner. She must have turned in the wrong direction on leaving the store, as Mr. Sullivan did not meet her. Where she went to was a mystery, as though he had hunted all evening and early this morning, no trace of her could be found. She was not at any of her friends' houses as far as could be ascertained, and the old man was deeply pained to account for her disappearance, though not at all alarmed. She will, no doubt, turn up shortly.

Highway Robbery.

LINDSAY, Oct. 24.—A daring highway robbery was committed near the village of Janetville, seven miles from Lindsay, on Tuesday night last. About eight o'clock Mr. Robert Campbell, of Tara, county of Bruce, a cattle buyer, had been in the neighborhood for several days pursuing his business, and on the evening in question was going to visit his brother a few miles distant. On the way he had to pass through a swamp, and it was here the robbery took place. His horse was stopped suddenly and a man standing at the side of the buggy presented a pistol at his head and attempted to fire. The cap snapped and Mr. Campbell struck the pistol from the hand of his assailant. He was then attacked by another man, who struck him twice on the side and then on the head. This rendered him insensible. On his recovery after a few hours he found that he had been robbed of $1,740. The pistol was left behind and on it are stamped some letters which may lead to the detection of the robbers.

The "Y" Topic Party.

A Fairly Successful Entertainment in the New W.C.T.U. Hall—What the "Y" is Doing and Hope to Do.

There was not as large an attendance at the "Y" Topic Party, or conversational german, last night as the elaborate preparations of the young ladies for the occasion deserved. As the chairman explained, the "Y" is a branch institution of the W.C.T.U., and is entitled to every encouragement. Their object is to advance the principles of the Union mainly among young people, and particularly to interest themselves in the young women of Peterborough who happen to be thrown upon their own resources and obliged to fight the battle of life without the assistance and comfort of a home and loving parents to buoy them up. It is intended to hold an open meeting of the "Y" once a week during the winter, probably on Saturday evening. At last night's entertainment the chairman appealed for support, and asked the people who felt that the "Y" was deserving of their sympathy and encouragement to come forward and help with money and other means.

The new quarters of the W. C. T. U. and "Y" are the rooms on George street lately vacated by Mr. P. H. Green, photographer. A spacious hall has been made of the gallery, which was last night handsomely and tastily decorated with parlor ornaments. The ladies have not yet been able to furnish it as they wish, but hope in course of time to have the rooms carpeted and otherwise made more cheerful and comfortable.

There should certainly have been a larger attendance at the topic party. The young ladies of the "Y," took every pains to make it a success, and only one attribute was lacking to attain it, viz., the big crowd whom the promoters of the entertainment were prepared to receive. As it was, however, a pleasant evening was spent. Neatly written programmes on tinted card board, each bearing a hand-painted floral emblem, and supplied with pencils, were destributed to the guests. The discussion of the topics brought about social intercourse between all those present, and the added attraction of refreshments assisted in passing away the time most pleasantly. The financial proceeds were, of course, not large, but otherwise the young ladies of the "Y" have reason to feel satisfied with the result of their conversational german. Following is the

Obituary.

Mr. J. Carton, father of Messrs. George, Matthew and Ralph Carton, of Peterborough, died at Streetsville, yesterday, at a ripe old age.

The many friends of Mr. John B. Fowler, of the second concession of Smith, will regret to learn of the death of his estimable wife, Sarah Ivison, which occurred to-day. Deceased was 55 years of age, and highly respected and beloved among her neighbors. She was married to Mr. Fowler by Rev. Mr. Gilmour thirty-six years ago, and bore him eight children, three of whom are dead. Mrs. Fowler was Presbyterian in religion, and a thorough Christian lady. The bereaved husband and family will have the sympathy of the entire community. The funeral takes place Saturday morning at eleven o'clock to Little Lake Cemetery.

Death extinguished a bright young life Thursday afternoon. Miss Margaret Alice, daughter of Mr. Wm. Galley, more familiarly known amongst her friends and acquaintances as "Totie," passed away after a long and, at times, painful illness, from consumption. Deceased was only twenty years of age, and well known in connection with the George Street Church, where, as long as her health permitted, she was a member of the choir, a teacher in the Sunday school, and an otherwise active participant in church work. Though death has been expected for some time, her parents and friends realizing the incurable nature of the disease which was insiduously sapping her life, the separation is none the less painful to bear. The deceased young lady had a great number of warm friends who will deeply sympathize with the bereaved family. The funeral takes place from the residence, 197 Brock street, Sunday afternoon at three o'clock, to Little Lake Cemetery.

The Young Men's Club.

Yesterday afternoon St. John's school house presented its usual appearance, suggestive of good little boys and girls glibly repeating nice little verses and hymns. A few hours later and what a transformation! To anyone visiting the building during the evening a merry scene would have presented itself. In the centre stood the great framework supporting a horizontal bar, while ropes stretched away in different directions to keep it steady. To one side was another skilfully contrived erection for upholding the parallel bars. Beneath the horizontal bar reposed an enormous mattress covered with sail cloth. In one part of the room boys were boxing; in another, others were swinging clubs and exercising with dumb bells; some were watching the monkey-like contortions of the young athletes on the bars; numerous games, such as fort, crocinole, parlour quoits, &c., &c., &c., were in progress, while one member of the Club discovered sweet music on the the piano. It was indeed a merry scene, and a noisy one, and the unanimous verdict was that the new club was an unqualified success. Time does not permit us to describe more fully the jovial proceedings which are to take place every Thursday evening. At 10 o'clock the President suggested that a move for home was in order, and the members dispersed. Then all the different appliances were taken down and stowed away out of sight. When the Sunday School assembles on Sunday they will wonder where the wonderful Club is, of which they have heard so much.

A Sad Accident

The following from the Cobourg *World*, with reference to the painful death of a little grandson of Mr. R. J. Winch, a former resident of Peterborough, will be read with interest:—A sad accident happened in Mr. R. J. Winch's barn east of town on Wednesday afternoon of last week. For several weeks past Mrs. Geo. E. Bower,—daughter of Mr. Winch, has been visiting her old home. Her two little children,—a boy and a girl, were with her. On Wednesday afternoon the little boy, 4 years and 4 months old, named Richard Daintry Bower, climbed into a mow in the barn, with the intention of throwing down some hay, "to make a bed for grandma's home." While the little fellow was tugging away at the hay with a short-handled pitchfork, his foot slipped into a hole and he fell out of the loft upon the floor beneath,—a distance of 12 feet. When he was picked up his forehead was bruised and his head seemed injured. He remained conscious until the following afternoon, when he was seized with convulsions, which continued until death terminated his sufferings about 7 o'clock in the evening. It is supposed that a broken blood vessel formed a clot or pool on the brain. Much sympathy is felt for the bereaved parents. Their dead child was a remarkably clever boy for his age. He was a dear little one,—the pet of the house and the idol of his mother.

News Nuggets.

—Bishop O'Connor will open the new Roman Catholic church at Wooler on Sunday next. Rev. Father Murray will preach the dedicatory sermon.

—The Finance Committee of the town council meets to-night.

—Court of Revision on the municipal voters' list is to be held Tuesday, Nov. 5th.

—John Adtum was yesterday discharged from gaol by the judge, on promising to sign the temperance pledge and be a better man in future.

The Mortgage.

We worked through spring and winter, through summer and through fall,
But the mortgage worked the hardest and the shoulders of us all.
It worked on nights and Sundays, it worked each holiday;
It settled down among us and it never went away.

Whatever we kept from it seemed almost as bad as theft;
It watched us every minute, and it ruled us right and left.
The rust and blight was with us sometimes, and sometimes not;
The dark-browed, scowling mortgage was forever on the spot.

The weevil and the cut worm, they went as well as came;
The mortgage stayed forever, eating hearty all the time.
It nailed up every window, stood guard at every door,
And happiness and sunshine made their place with us no more.

Till, with failing crops and sickness, we got stalled upon the grade,
And there came a dark day among us when the interest wasn't paid;
And there came a sharp foreclosure, and I kind o' lost my hold,
And grew weary and discouraged, and the farm was cheaply sold.

And the children left and scattered, when they hardly yet were grown;
My wife she pined and perished, and I found myself alone.
What she died of was a "mystery," and the doctors never knew;
But I knew she died o' mortgage—just as well's I wanted to.

If to trace a hidden sorrow 'twere within the doctor's art,
They'd a found a mortgage lying on that poor woman's heart.
Worm or beetle, drought or tempest, on a farmer's land may fall,
But for first class rumination, trust a mortgage 'gainst them all.

A Royal Reception.

The Prince and Princess of Wales Receive a Hearty Welcome in Athens.

A BRILLIANT NAVAL DISPLAY

NEW YORK, Oct. 24.—A despatch from Athens says the entry of the Royal yacht "Osborne," bearing the Prince and Princess of Wales, Prince Albert Edward and Prince George, and the Princesses Maude and Victoria, into the harbor yesterday was decidedly a picturesque display. The British ships under Admiral Hoskins met the "Osborne" in the port, off the Island of Hydra, and a

PROCESSION WAS FORMED

with the flagship leading and the "Osborne" in the centre of the column. Just outside the harbor the British vessels were met by the Greek fleet under Admiral Miantis. At this point the British ship hoisted the Greek colors. As the royal procession passed into the harbor salutes were fired from all the warships, the yards were manned and the sailors cheered the "Osborne" as she left the line and drew up to the dock. Upon the arrival of the royal yacht in port the King and Queen of Greece and the Duke of Sparta accompanied by Lady Mounson and the attaches went on board and gave the visitors

THE WARMEST KIND OF A WELCOME.

The British guests were met at the station here by Premier Tricoupis and the Metropolitan. The Prince of Wales wore a full dress uniform of a general in the Greek army. Prince Albert, Edward and George also wore Greek uniforms. The Princess of Wales wore a velvet Chinese silk with check pattern, trimmed with white gauze. The Princesses looked delightfully cool in dark blue Chinese silk with a white pattern, and also trimmed with white. The Mayor presented each of the princesses with a large bouquet. The Prince of Wales had a long talk with M. Tricoupis. The Czarevitch was not present. From the station to the palace the reception of the visitors was grand. Flags were waved from all windows along the route, the streets were crowded and the people gathered in large numbers.

Ashburnham Brevities.

Mr. A. Rutherford leaves to-morrow for Toronto, where he has secured a good position. Mr. Rutherford is popularly known in town and his many friends will be sorry to hear of his departure.

A good many interested people are enquiring when the school board is going to secure the services of an additional teacher.

As the upper part of the town hall approaches completion, the architectural beauty of the building seems to have been ignored, or else enough money was not provided to give it a finish in keeping with the rest of the building.

A good idea of the amount of wheat ground in the Otonabee roller mill may be gathered from the fact that over five tons of flour left the mill Thursday morning before ten o'clock.

There was no meeting of St. Luke's Young Men's Guild Thursday evening owing to the attendance not being large enough.

Pastoral Appointments.

Pastoral appointments were a source of difficulty among the Methodists last year. Now the Church of England has its turn. The congregation of St. George's church, St. Catharines, desire a certain clergyman as pastor; while the Bishop of Niagara, who holds the appointing power, wishes to confer the living upon another clergyman, probably one already in the diocese who deserves promotion. The vestry has practically replied to the bishop, "All right, appoint your man; we will only pay him one dollar a year." Both in the Methodist and in the Episcopal Churches laity demands a voice in the selection of the pastor. The laymen pay the stipend. Why then, they argue, shall they not have over them clergymen who are acceptable? A Sunday or two ago a Methodist clergyman at London combatted this democratic demand by declaring that the laymen should not interfere with the Levites. This idea, however, does not commend itself to the other tribes.

Land, sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

NEWS OF THE DOMINION.

A SENSATIONAL CHURCH TRIAL AT TORONTO.

Notices From The Ontario Gazette—The Attorney-General Declines to Interfere in the Hawkins Case.

TORONTO, Oct. 26. The church trial of W. F. Johnston, superintendent of the Massey Manufacturing Company, commenced yesterday afternoon in the basement of the Euclid avenue Methodist church. Johnston was a member and an usher in this church for a couple of years past. The trial involves his future connection with the Methodist church because of his alleged seduction of Miss Emma Taylor, of Bathurst-street, which caused a sensation recently. A few weeks ago overtures were made for settlement of the case, with the result that it was settled and $900 paid Mr. Taylor. Since the affair became public Johnston has been attending the church, though not regularly. The whole of the afternoon was occupied with the evidence of Miss Emma Taylor, who deposed that the first indecent assault occurred in August, 1887. Both Mr. and Mrs. Johnston begged her not to tell anyone. In November, 1888, she had the toothache and was taking chloroform to ease the pain, and that night while under the influence of chloroform Johnston took advantage of her. The week following he came into her bed-room in his night-dress, took her out of bed and dragged her to his bed-room where she struggled with him for a long time, after which he accomplished his purpose. Miss Taylor testified to other assaults. When she left Johnston gave her $10. Subsequently a child was born. Other corroborative evidence was given and then the defence was heard. The trial will be resumed to-day.

The business of the Criminal Assizes was wound up last evening before Acting Judge Æmilius Irving by the finding guilty of burglary of Charles Jarvis of jail-breaking notoriety. On the morning of Sept. 7 last Jarvis committed the offence at the residence of Carter B. Oakley, 996 Bathurst-street. Jarvis was sentenced to eight years in the Kingston Penitentiary. Frank Kane and John Gilroy, the street car employes whose criminal carelessness resulted in a conviction of manslaughter, were sentenced to one year each in the Central Prison.

The Ontario Gazette of to-day contains the proclamation of the Lieutenant-Governor setting aside Thursday, Nov. 7, as a day of thanksgiving "to Almighty God for the bountiful harvest with which Canada has been blessed this year." His Honor is also pleased to direct that all public offices be closed on that day.

The Ontario Gazette to-day contains the incorporation of "The Gananoque Electric and Water Company, limited," with a capital of $40,000 in $50 shares. The promoters are all of Gananoque.

The strike is spreading. The bricklayers have supported the stonecutters and there is no knowing where the matter will end.

THE SHOUPE INQUEST.

A Verdict Against John Moore—The Prisoner in Hamilton Jail.

HAGERSVILLE, Oct. 26.—The inquest on the body of Reuben Shoupe, the victim of the row on the Grand Trunk train at Glanford station on the night of Sept. 13, was held yesterday. The post mortem examination, made by Dr. Forbes of Caledonia, showed a fracture about six inches long in the skull running across the frontal and right parietal bones. The brain matter was much inflamed and considerable pus found. Not much new evidence was found but it was conclusively proved that John Moore is the guilty man. The verdict was that John Moore did feloniously and unlawfully cause the death of Reuben Shoupe by striking him on the head with a stick. The prisoner was committed to jail at Hamilton. Shoupe is to be buried Saturday by the Oddfellows and the Telegraphers' Union. He leaves a wife and one child about 2 years old.

THE HAWKINS CASE.

The Attorney-General Declines to Express any Opinion.

HAMILTON, Oct. 26.—County Crown Attorney Crerar has received this letter from the Deputy Attorney-General:

"TORONTO, Oct. 24.—John Crerar, County Crown Attorney, Hamilton.—Dear Sir Queen v Hawkins.—In reply to your letters respecting the case I was directed to say that in view of the proceedings now pending before the Police Magistrate, the Attorney-General does not deem it fitting that he should express any opinion with respect to the course which the Crown might have adopted under other circumstances. I have forwarded a copy of the letter to his honor Judge Sinclair. Yours truly, JOHN CARTWRIGHT, Deputy Attorney-General."

The case will come up before Police Magistrate Cahill to-day.

The Ancient Capital.

QUEBEC, Oct. 26.—Harvey, the Chicoutimi jail-breaker who recently escaped from the prison there, was arrested yesterday at Chambord, Lake St. John, by Sergeant Burke, of the Provincial police.

A school of seals were seen in the river opposite the city yesterday going toward Montreal. They are rather unusual visitors only single stragglers coming so far inland.

A seaman named Herman Henson, of the Norwegian bark Helena lying at anchor at Rivière Du Loup, fell from the foremast and was instantly killed.

Mr. William Sheppard, Sheriff of the county of Bonaventure, is in town and he reports that the catch of fish in the Baie Des Chaleurs this season has been one of the best for many years. He also reports that a very rich mine has been discovered in the township of Maria.

An Embezzler Arrested.

KINGSTON, Oct. 26.—Yesterday morning C. A. Mitchell, charged with embezzlement by Messrs. Gilderslieve, was arrested. It is learned that the defalcation was Mitchell's friends paying back part of the money taken.

The Fight in Savaii.

WASHINGTON, Oct. 26.—The despatch reporting an engagement between the forces of Malietoa and Tamasese was shown to a State Department official. He said that on the face of it the report was startling but its importance would be modified by the relative importance of foreign interests in Savaii. It might be there was nothing in the conflict that would call for foreign consideration. It might be merely a local riot. An examination of the correspondence and reports upon the Samoan matter showed there were no American interests on the island of Savaii and those of England and Germany were inconsiderable compared to those on Tutuila upon which Apia is situated.

A Deckhand Drowned at Brockville.

BROCKVILLE, Oct. 26.—As the steamer Alexander was coming into the dock at 6 p.m. one of the deckhands named Joseph Hatch of Montreal was standing in the hatchway when the fender was let down striking him and knocking him into the water. A rope was thrown him but he could not see it. His cries were pitiful to hear. He sank before a boat could reach him. His body was recovered at 7 o'clock.

THE BRIGHTON ELECTION.

THE UNIONIST CANDIDATE DEFEATS SIR ROBERT PEEL.

A Large Increase in the Total Vote and a Considerable Reduction in the Government Majority.

LONDON, Oct. 26.—A parliamentary election was held in Brighton yesterday to fill the seat made vacant by the death of Sir William Tindale Robertson, Conservative. Mr. Loder, Unionist candidate, received 7312 votes and Mr. Peel, Gladstonian, 4625. Sir William Tindale Robertson was elected in November, 1886, without opposition, but in the previous election the Conservative candidate received 5963 votes and the Home Rule candidate 2633.

The Outrages in Crete.

LONDON, Oct. 26.—Lord Salisbury replying to a memorial from the Baptist Union says the British consul at Crete has been making inquiries regarding alleged outrages perpetrated by the Turks and has found that the press reports have been greatly exaggerated, especially the charge of the violation of women which is stated to be without foundation. The consul says the Governor-General of Crete is exerting *himself to punish* all who are found guilty of outrages.

The Daily News referring to the foregoing statement says:—"A document more utterly unworthy of an English statesman has seldom been printed. It will delight the Sultan and might have been written by the Grand Vizier himself. The plea that the reports are exaggerated is an admission of most hideous and abominable guilt."

Australian Federation Advocated.

SYDNEY, Oct. 26.—Sir Henry Parkes in a speech here yesterday said the time had come for the formation of a distinct parliamentary executive to deal with national questions. He proposed that a convention of delegates from the various colonies be held for the purpose of constructing a federal government on the basis of a federal parliament.

Grand Duke Peter's Illness.

ST. PETERSBURG, Oct. 26.—Grand Duke Peter, nephew of the Czar, who was recently married to Princess Militza of Montenegro, is suffering from an affection of the lungs and will winter in Egypt. His illness puts an end to the scheme to make him a candidate for the throne of Bulgaria.

PRICES AND PROSPECTS.

Bradstreet's Weekly Review of the State of Trade.

NEW YORK, Oct. 26.—There is more or less increase in the volume of goods distributed at Boston, Memphis, Chicago, Dubuque, New Orleans, Atlanta, and Louisville, while at Philadelphia, Detroit, Omaha, Kansas City, St. Louis, St. Paul, Portland, Ore, and San Francisco, there has been rather less activity noted in some lines, due to unfavorable weather and farmers holding off owing to low price of grain, corn being quoted at 12 c. per bushel in Iowa. Cattle prices tend up while those for hogs are off some.

The New York stock market has been irregular, high rates for money part of the time operating against an advance while plans for rehabilitating the Missouri, Kansas and Texas and Chesapeake and Ohio and the traffic agreement between the Union Pacific and North Western had an opposite influence. Directors of the Union Pacific state to Bradstreet's that there is no alliance or amalgamation intended but admit that the contract will give the Vanderbilt interests a transcontinental system. The trusts were all weak and lower. Special telegraph investigation of domestic money markets by Bradstreet's reveals that funds were easy yesterday at 49 out of 69 cities reported, important ones reporting funds working close being Chicago, Baltimore Cleveland, Toledo, Peoria, Dayton, Birmingham, Ala, Cincinnati, St. Louis and Omaha. Mercantile collections were reported slow or unsatisfactory at 19 points. It is also shown that collections are improving and while the current of funds at the interior has not finally turned eastward western sales of New York exchange indicate that it is turning.

Wheat flour is less active for export, owing to lower offers and higher ocean rates, wheat has been fiercely sold at times, the total at New York aggregating nearly 70,000,000 bushels for the week. The recent government report, free movement of Spring, increasing supplies bearish foreign markets and high and scarce steam freight aided in depressing prices 1½ to 1¼ cts. A rumored revision of the late government crop report had some influence. Demand from Indian corn shippers and short sellers sent early deliveries up 1 to 1½ cents. Later ones have varied little. Spot oats are ⅜ cent higher on good demand. Exports of wheat (and flour as wheat) both coasts, equal 2,197,460 bushels this week, against 2,758,538 bushels last week and 1,827,346 bushels in the like week in 1888. Total shipments abroad, July 1 to date, equal 32,641,103 bushels this year against 39,184,458 bushels in 1888 and 55,800,000 bushels in 1887. Hog products are unsettled and price changes frequent, notably at Chicago. Lard advanced and closes firm, about ten points higher and pork barely steady.

Aggregate domestic stocks of raw sugars are only 85,300 tons against 141,400 tons Aug. 14, when the highest figures of the year were reached, yet lack of enquiry causes continued depression and prices are off 1⅛ to ⅜ cents. Refined is not in active demand, and is off 1-8 to ¼ cent. The anti-trust prediction of a decline of 1 cent on sugar within thirty days, threatened competition, and increased supply of refined attract wide attention. Louisiana's estimate of sugar crop is 25,000 hogsheads behind that of 1888. Speculation in coffee is moderate, and prices leave off 10 to 20 points lower and weak. Experts and others are still revising coffee crop reports. The distribution of coffee is sluggish. Tea is fairly active and prices steady.

Leading lines of dry goods are more active at Boston at first and second hands. At New York trade is moderate, mail orders constituting a prominent feature. Agents report spring goods in active sale for future delivery. Prices continue steady in all leading lines.

Business failures reported to Bradstreet's number 190 in the United States this week against 205 last week and 208 this week last year. Canada had 26 this week against 41 last week. The total of failures in the United States, Jan. 1 to date, is 9183 against 8074 in 1888.

The Duke of Edinburgh has arrived at Belem to attend the funeral of the late King Luis.

The total loss by the Port Leyden, N.Y., fire is $115,500, insurance $41,350.

It is reported that the Czarewitch has been betrothed to Princess Marie of Greece.

The Vienna Allgemeine Zeitung says Prince Ferdinand of Bulgaria is engaged to Princess Louise of Alencon.

Count Dillon has been expelled from Alsace-Lorraine and has arrived at Brussels.

Prince Ferdinand of Bulgaria recently paid a secret visit to the Count of Paris at Sheen House.

THE SUSPECTS' TRIAL.

UNCERTAINTY AS TO THE CAUSE OF CRONIN'S DEATH.

Dr. Egbert Testifies That it is Impossible to Tell Whether the Wounds Were Inflicted Before or After Death.

CHICAGO, Oct. 26.—In the Cronin murder trial yesterday Dr. Egbert stated the facts revealed by the autopsy which he made upon Dr. Cronin's body on the day following the discovery. He described the wounds and gave it as his opinion that death resulted from them. All the wounds were upon the head. The skull was not broken except a small piece of bone was chipped off at the corner of the left eye. The witness described the condition of the internal organs and exhibited the stomach and its contents to the lawyers and the jury. Dr. Egbert said the stomach seemed to contain only vegetables. Among them he distinguished corn and there were others which resembled cabbage and carrots. In his judgment the doctor was killed three hours after having eaten.

Cross-examination of Dr. Egbert developed that none of the wounds on the corpse were such as would necessarily cause death. It was impossible also, the doctor admitted, to say whether the wounds were inflicted before or after death. He had tried to ascertain but was unable to do so. He had not ascertained that the wounds affected any important nerves or arteries and he could not swear that they in any manner affected the brain. If the death had resulted from the skull wounds it would in all probability have been caused by concussion of the brain. The usual post mortem evidence of such a result—the heart and the lungs being filled with blood—was not found in this case.

Q. Is it not scientifically true you physicians found no evidences in that body that were certain and conclusive of the form of death?

A.—That is true.

Dr. Egbert was of the opinion that death had occurred through excessive loss of blood, but there was no certainty of it, he said.

Dr. Charles W. Perkins, who at the request of Dr. Egbert assisted at the post mortem, testified that in his opinion death did not ensue from blood letting but from concussion of the brain. The latter organ was too decomposed to afford any information.

The last witness of the day was the undertaker who removed the body after the post mortem and who testified that it remained in his charge until buried.

A Chinese Villain Arrested.

BUFFALO, Oct. 26.—Chung Lee, a Chinese laundryman, was arrested yesterday at the instance of the Society for the Prevention of Cruelty to Children, charged with abduction. It appears that the first little girl that got into the grip of the Celestial was bright-faced 13-year-old Annie King of 107 Tupper-street. He bribed the girl to bring her companions with her. It has been ascertained that some eight or nine children whose ages range from 8 to 14 years have visited the Chinaman's den at various times. Chung Lee is looked up for examination.

The Fifth Victim of the Quinte Disaster.

DESERONTO, Oct. 26.—There is now no doubt that George Ward of Picton is to be added to the list of victims who perished in the recent burning of the steamer Quinte. It was thought on the fatal night that one passenger was missing, the man who gave the alarm. He assisted at the pumps for a few minutes but was not seen by any one afterwards. Ward leaves a wife and three children. The injured are progressing favorably. No more bodies have been recovered though parties have been diligently seeking for them.

Evaded the Alien Labor Law.

WINDSOR, Oct. 26.—A short time ago a local lumbering firm took a gang of 21 Frenchmen across the river to Detroit to ship them to the lumber woods. They were stopped by the customs authorities and compelled to return to Windsor. It is said that they have since individually emigrated to the United States purposing to follow their vocation.

Fire at St. Kitts.

ST. CATHARINES, Oct. 26.—Early yesterday morning the house owned and occupied by David Gillies, Ontario-street, was burned to the ground, the family barely escaping in their night clothes. The fire is supposed to have been caused by a lamp explosion. Loss probably $1500.

Fatal Explosion at Saltcoats.

SALTCOATS, N.W.T., Oct. 26.—The boiler of a threshing machine burst at the farm of Mr. Anderson yesterday, killing F. Dugan and J. Fullerton and seriously injuring J. McClelan and a younger brother of Dugan.

Badly Shaken Up.

GRAND FORKS, Dak., Oct. 26.—A special train with J. J. Hill, president of the Manitoba road, on board met with an accident near here yesterday morning. The party was badly shaken up but no one injured.

THREE EACH.

New York Defeats Brooklyn in an Eleven-Inning Game.

NEW YORK, Oct. 26.—Two thousand persons saw the sixth game of the world's championship series at the Polo grounds yesterday. It was by far the best game of the series. The score:

	R.	H.	E.
Brooklyn..0 1 0 0 0 0 0 0 0 0—1	6	3	
New York.0 0 0 0 0 0 0 1 0 1— 2	7	1	

Batteries—Terry and Visner; O'Day and Ewing. Umpires—Lynch and Gaffney.

To Beat The Brotherhood.

ST. LOUIS, Oct. 26.—The Sporting News contains to-day another startling article on how the league intends to fight the brotherhood of ball players. The scheme is nothing more nor less than the consolidation of the National League and American Association into one organization of ten or twelve clubs, the unprofitable cities of both bodies being dropped. Large sums will be offered for the services of the best players in the brotherhood, thus crippling that organization.

Heinle Had no Use for It.

CHICAGO, Oct. 26.—The police are trying to find who sent to T. B. Heinle, general master mechanic of the Nickel Plate road, an infernal machine. The machine is globe-like, is made apparently of plaster of paris, weighs about two pounds and is eight inches in diameter. Monday last a package wrapped in brown paper and addressed to the master mechanic was taken to Mr. Heinle's office. It had been shipped from a way station on the Lake Shore road near Buffalo. There was nothing about the package to excite suspicion. When the wrapper was taken off the machine was found in the centre of a lot of cotton surrounded by folds of tissue paper. The odor was disagreeable and Mr. Heinle handled it very gingerly, then he took it to the police station.

It is reported in Paris that Queen Victoria will spend the coming winter in Florence with her daughter, ex-Empress Frederick of Germany.

World's Fair Subscriptions.

NEW YORK, Oct. 26.—The subscriptions thus far to the world's fair aggregate $1,000,000.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the *Finest and Best Goods* ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

JOHN HACKETT

AT THE CAPITAL.

The Bristol Iron Mines—Ottawa's Assessment Increase—The Caloper Canal.

OTTAWA, Oct. 26.—The Bristol Iron Company have resumed on an extensive scale and expect to ship at least 100 tons of ore per day during the winter. The Bristol mines branch of the Pontiac and Renfrew Railway is now in operation. The ore is being shipped to Cleveland, O.

Sir Hector Langevin received a deputation yesterday consisting of Messrs. W. G. Perley, M. P., H. Robillard, M. P., and Mayor Erratt regarding the gift of a site for the proposed iron smelting works. Mr Perley said the lumbermen had agreed to furnish the fuel. Sir Hector promised that the matter should receive attention.

All the discharged printers were taken on again at the printing bureau yesterday.

A movement is on foot to build a combined railway and passenger bridge across the Ottawa river one mile below the city. The estimated cost is $100,000. A civic deputation will go to Montreal to interview Mr. Van Horne of the Canadian Pacific Railway.

At noon yesterday the police arrested a man who gave his name as Joseph Beaudry in Tecman's jewelry store, Sussex-street, on suspicion of being the burglar who committed the recent burglaries here. In his possession were found two watches identified as those stolen from Mr. A. J. Christie's and Dr. Martin's, while Mr. Christie's boots were found on his feet and an overcoat believed to be Mr. Robertson's. When arrested he was too drunk to give much account of himself. As far as he could be understood he said he was a stone-cutter by trade and a nephew of ex-Mayor Beaudry of Montreal. When arrested he had on a black slouch hat and a grey fall overcoat. He is about 5 feet 5 inches in height, rather dark complexion, wears a black moustache and has dark sharp eyes. Thursday Beaudry called at Tecman's jewellry store and tried to pawn a watch which Mr. Teeman recognized as a part of the stolen goods. He sent for Detective Montgomery but before he arrived Beaudry left suddenly saying he would call again in an hour. He did not return until yesterday morning when Mr. Teeman handed him over to the police. Mr. Christie and others called at the station and identified different articles found in his pockets.

Assessment Commissioner Pratt and his staff have prepared the assessment statistics for 1890. These show an increase of $933,355 on the value of property this year over last. This is explained by an increase in the value of land in centre town and by the large number of new buildings which have been put up. The assessment figures for 1890 are $17,161,200.

Dominion customs officers have received special instructions to look after the 12½ per cent. royalty which British authors are entitled to receive upon copies of their book imported into Canada for sale.

With reference to the grounding of the barge Condor in the Galops canal Mr. Page, Chief Engineer of Canals, stated yesterday that the department have not been asked for help and do not propose giving any as the grounding of any boat in the shallow water of the canal is not the fault of the government. The department know all about the channel and will not send an engineer down. Mr. Page expects that the Condor and the Huron will be got afloat in a few days and that traffic will then be resumed as usual.

INTERESTING ITEMS BY WIRE.

The wreck of H.M.S. *Lily* has been sold to Quebec parties for $80.

It is proposed to send a shipment of provisions from Halifax to the starving fishermen at the strait of Belle Isle.

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

AT LAST!

A Wonderful Vegetable Discovery That Removes the Terrible Results of Overwork.

A True Invigorator.

Weakness and prostration of the nervous system surely follow that overwork and worry which brings sorrow and suffering to so many Canadian homes. The terrible results of nervous weakness, are seen on every hand. Pains in the back, poor and unrefreshing sleep, lack of appetite dyspepsia, and lost energy and strength, are the first symptoms of more serious and danger-ous trouble. This is the way that Paralysis, Paresis and Insanity begin. Do not delay a moment longer, for some time it will be too late to regain your lost health and vitality. Use Paine's Celery Compound now, and the dull eyes will regain their brilliancy, the cheeks will grow rosy, the brain become clear, the nerves strong and steady, your sleep restful and refreshing, appetite good, and health and happiness will take the place of misery and suffering.

A. Sabiston, the well known lithographer of Montreal, writes: "In the summer of 1888 I had to work very hard, and was troubled considerably with insomnia (sleeplessness). I resolved to try your Paine's Celery Compound, and after taking the contents of two bottles, felt like a new man. A good night's rest gave me strength for the duties of the day, and instead of starting out to business in the morning feeling as if I had completed a day's work instead of being about to commence one I started out in good spirits, feeling fresh and strong. My wife and various friends, to whom I recommended the medicine, have been benefited greatly, and in fact 'Paine's Celery Compound is a household word in our family."

Good Words for Peterborough.

An Association of Trinity University Convocation Organized in Peterborough.

The last number of the *Trinity University Review* contains the following:—"As an example of what may be done to increase the numbers of members and associate members of Convocation, by those who are willing to sacrifice a little time and trouble to the cause, we give the following account of the work done by Rev. J. C. Davidson and Mr. A. P. Poussette, of Peterborough:—In two or three days these gentlemen—both graduates of Trinity—canvassed the most influential members of the congregation of St. John's, with the result that there is to-day a local Association with fourteen members and associates, all in good standing. When it is borne in mind that no meeting has been held, nor the Provost, nor any of the officers of Convocation nor members of the staff, been brought into contact with the people, all will admit that this is a splendid piece of work."

The Convocation of Trinity exercises an important influence over the government of the University, and consists of graduates, members and other associate members—who pay a considerable fee yearly to the University check. We heartily re-echo the words of the *Trinity University Review* concerning the zeal of our people, not merely of the two gentlemen mentioned but of the others who have responded to their invitation to become members of Trinity's Convocation, and we are convinced that when the College sends its deputation, as it no doubt will shortly, to further enlarge its work here, its good opinion of Peterborough will be still more increased.

We append the full list of members and associate members in our town, belonging chiefly to the congregation of St. John's, though not confined to it:—Dr. Boucher, Rev. V. Clementi, Rev. J. C. Davidson, Dr. Halliday, Hon. R. Hamilton, Rev. C. B. Kenrick, R. A. Morrow, W. D. Parker, A. P. Poussette, E. M. Poussette, Lieut.-Col. H. C. Rogers, His Honor Judge Weller, Dr. Yelland and A. V. R. Young.

Messrs. Davidson, Kenrick and Poussette, as graduates of Trinity University, are members of Convocation, the other gentlemen are associate members. Our readers will see that Trinity's friends in Peterborough number some of our most prominent citizens.

Hymn Book Revision.

In the Episcopal Church of the United States, hymn book revision has of late been attempted; but the wholesale onslaught the revisers have made upon old and favourite hymns has led to the suspension of the authorization of their new volume. The first proposition made by the committee was for a book which omitted such hymns as the following:—"It Came upon the Midnight Clear," "Come Holy Spirit, Heavenly Dove," "Jesus, and Shall it Be," "I Think when I Read the Sweet Story of Old," "There is a Fountain filled with Blood," "On, a for Closer walk with God," and "God moves in a Mysterious Way." The objection to these hymns was not their origin, for in hymnology the churches are as one and recognize no denominational differences; but to their sentiment. A hymn of praise should be addressed to the powers above. These hymns were not so addressed. They partook, in the opinion of the revisers, rather of the nature of addresses to the public. Pressure upon the committee, however, led to their restoration. Among the famous hymns reported against and still eliminated are the following:—"Christian Dost Thou See Me," "Go to Dark Gethsemane," "Hark, Hark, my Soul, Angelic Songs are Swelling," "When I can Read my Title Clear," and that universally known evening hymn that has been sung for so many years, "Glory to Thee my God this Night." Many of the hymns retained have been altered. For instance:

"Jesus lives! No longer now
Can thy terrors, Death, appal us."

Is made to read:

"Jesus lives! Thy threatening woe,
Death, no longer need appal us."

The textual changes have suggested to a critic the story of the hymn revisers who, wishing to introduce a reference to a modern instead of an ancient and almost obsolete musical instrument, changed the verse,

"Oh, may my heart in tune be found
Like David's harp of solemn sound."

Into

"Oh, let my heart be tuned within
Like David's sacred violin."

Omemee.

The opening services of the new Presbyterian church, Omemee, were of the most interesting nature. The weather was all that could be desired. The attendance was large at the morning service to listen to the people's old favorite, the Rev. Dr. McTavish of Toronto, whose efforts held the large and appreciative congregation spell-bound. The sermon by the Rev. R. Johnston, B.A., of St. Andrew's church, Lindsay, was also of an exceeding eloquent and interesting character, at 3 o'clock. The collections of the day amounted to about $124.00. The choir of the church added very much to the event by the excellent music rendered. The tea meeting on Monday evening was acknowledged to be one of the best ever given in the village. The proceeds amounting to about $112.00. The refreshments consisted of fowl and other meats, etc., etc. The addresses were listened to attentively and the best of order prevailed whilst the Rev. A. Bell, Peterborough, Rev. W. H. French and Rev. Wm. Johnston of Omemee were speaking. The Rev. J. Ewing filled the duties of chairman in his happiest style. At about 10 o'clock the services were closed after a vote of thanks. The debt remaining is only about $1,500 on a church that is equipped with furnishings of the most modern style; 35x55 with basement whole size; and a church capable of accommodating from 400 to 500 persons.

Lindsay Locals.

There will be a conference of Y. M. C. A. workers held in Lindsay on Nov. 3rd, 4th and 5th. Delegates are expected from Toronto, Peterborough, Port Hope, Orillia and Cobourg. The Association is putting forth much effort to make the conference a success, and perhaps nothing given greater impetus to the work in local Associations than to have a conference similar to the coming one to be held there on the above dates. The public are invited to all the sessions.

A Sunday School Teachers' Association has been formed in Lindsay. Rev. R. Johnston is president and Mrs. E. A. Hardy secretary.

Bobby Burns Understood It.

"Many and sharp the numerous ills
Inwoven in our frame,
More pointed still we make ourselves
Regret, remorse and shame."

Among the most dangerous as well as vexing of ills "inwoven with our frame," are Consumption, Asthma, Bronchitis, colds and lung troubles generally. However, the timely use of Dr. Pierce's Medical Discovery takes away their fearful consequences, but which neglected, leaves "regret, remorse and shame." But you need not be ashamed to ask for the "Discovery," as it has become a standard remedy, found at all the drug stores, where thousands call for it every day, and where it is recognized as the leading medicine for all lung and throat affections. o

The Mystery Explained.

The mystery of the following inscription on a lead tablet found in the waterworks trenches has been solved:

"Ify ouw antat ip t opon po ofte ago unn mbu ylta thavl eyb ros te asto re 3 7 8 ge org est re et.

Dr. Wilson, of the University writes:—'I have examined the inscription with great interest. From internal evidence I should say the plate was deposited about 1854. I regard it as one of the greatest phophecies ever made. It has amply been fulfilled as I can attest from actual trial. The translation reads thus:—

If you want a tip-top cup of tea, you must buy it at the tea store of Hawley Bros.', 378 George street. dw

SKINS ON FIRE.

Agonizing, itching, burning and bleeding Eczema in its worst stages. A raw sore from head to feet. Hair gone. Doctors and Hospitals fail. Tried everything. Cured by the Cuticura Remedies for $5.

CURED BY CUTICURA.

I am cured of a loathsome disease, eczema, in its worst stage. I tried cliff-rent doctors and been through the hospital, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA SOAP, I find myself cured at the cost of about $5. I would not be without CUTICURA REMEDIES in my house, and I think they are the only skin and blood remedies.

ISAAC H. GERMAN, Wattsburg, N Y.

Burning and Itching.

I was sick in the fall of 1886 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some people thought it might be salt rheum (scrofula), and said they never seen anything like it before. I received no help from any of them, or from any medicine that I could get hold of until I tried your CUTICURA REMEDIES. After three weeks use I was able to work, and kept getting better, until I am now entirely cured. I recommend them to all suffering with skin diseases.

C. E. ORMER, Taftsville, Vt.

Most Intense Itching.

I have used the CUTICURA REMEDIES successfully for my baby, who was afflicted with eczema, and had such intense itching that he got no rest day or night. The itching is gone, and my baby is cured, and is now a healthy, rosy cheeked boy.

EVERY POOR MAN'S DOLLAR MADE AS ELASTIC AS A PIECE OF INDIA RUBBER.

BIGGER AND BETTER VALUES

THAN EVER IN THE ANNALS OF THE CLOTHING TRADE OF THE COUNTY.

WAKE UP! WALK UP!

Here we are, opening the Fall Trade in Clothing, Boots and Shoes, Hats and Caps. We are five years on deck, and have seen many a sail go down on the business horizon. We are on our 6th annual trip better than ever prepared to bring bargains to your doors, to clothe the poor man with the rich man's dress, and at the same low bed-rock prices as of yore. For five years we have made five years of progress. Our knowledge of the trade has grown and our ability to supply your wants. Not only are our stores the known and recognized headquarters for the Clothing Trade of the County but one of the Distinguished Attractions of the Town. Far and near our fame has spread, until our name as Traders is as familiar in the homes of the county as a red waggon on the township concession lines. We drum up the Rally and call the Reserves forward.

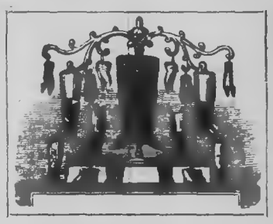
WE ARE THROWING ON THE MARKET A

$40,000 STOCK of CLOTHING, BOOTS and SHOES

This we are bound to sell at panic prices. No matter what the competition may be, GOUGH'S will meet and smother it. Not a Bankrupt Stock offer! Oh, no, but goods bought at the right time from men who had to unload, and who unloaded to our benefit. We offer Better Value than Bankrupt Stock. Look at the comparison. New Fresh Overcoats, bought for $4.27, are Cheaper than last years' stock invoiced at $7 and bought at 70c. on the dollar. Look at the difference. We buy our Stock from the wholesaler who is hard up, and the reduction on this year's Overcoats is a saving to our customers of 42 per cent. on every Coat of the Line we are referring to.

CLOTHING!

2500 OVERCOATS, ranging from 97c. to $18.
2200 MEN'S SUITS " " 90c. to $19.
500 doz. Shirts and Drawers starting at 25c. Per Pair.



BOOTS AND SHOES!

We offer 75c. Boots for 50c.; Boys and Misses $1.00 for 70c.; Ladies $2 Boots for $1.75; Mens $2.25 Boots for $1.60.

Overshoes Cheap. Felt Boots Cheap. Rubbers Cheap

Come One! Come All! Come Everybody! Our doors are swinging wide open all day long and we welcome the buyer of 25 cents worth as heartily as the man who spends his fifty dollars at one slap.

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be taken in a cup of tea or coffee, without the knowledge of the person taking it; it is absolutely harmless and will effect a permanent and speedy cure, whether the patient is a moderate drinker, or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. MADE CANNIBALS BY HUNGER.

Shipwrecked Sailors save Their Lives by Eating Their Comrades.

BALTIMORE, Oct. 26.—Carl Graves, fireman, and Ludwig Loder, seaman, survivors of the crew of the steamship Earnmoor, tell a horrible story of the way they sustained life by cannibalism for days. Loder says:

"The only food we had the first fifteen days in the boat was a flying fish and a few raw birds divided among eleven men. The sixteenth day Wm. Davis, a seaman, caught me by the throat and made a dash at my head with a knife. He cut me on the right cheek, the scar from which still remains. He was told to kill me by August Plagge, a fireman. When Davis began to cut me some of my companions caught him while others shouted 'Kill him! Kill him! We want something to eat. We are starving.' Plagge, Davis and others in one end of the boat decided that I should die. As I was pretty fat I suppose they thought I looked inviting. Plagge was placed on watch that night but he was missing the next morning. No one saw him go overboard. On the seventeenth day William Robinson lay down to sleep. When they tried to call him they found he was dead. It was determined to eat his flesh and William Wright, the cook, was ordered to carve the body. The first thing they did was to smash Robinson's skull and from the fracture each one sucked the blood as long as it lasted which was but a little while. Then the cook stripped the flesh from the ribs. The next day the flesh in strips was placed on top of the watertight compartments and dried in the sun. After taking out Robinson's liver, heart and other parts which would furnish blood to be sucked they threw his mutilated body into the sea. Two days after Robinson's death Third Engineer Thomas Hunt died. His body was also cut up for food. In about three days," said Loder, "the limbs and feet of all began to smell and several have since broken out in ugly sores. We think it is poison from the human flesh and blood."

Graves and Loder say they have no recollection of the taste of the human flesh, so great was their mental anguish at the time.

A Dangerous Toy.

FRANKLIN, Pa., Oct. 26.—A number of school children found a bomb loaded with dynamite near the school on the Galloway farm near here last evening. While attempting to open it with a knife it exploded with terrific results. Two children named Fitzgerald and Roger are fatally hurt while eight others are in a serious condition. Fitzgerald's arm was blown off and his face was terribly disfigured. Roger's right eye was blown out and his face terribly lacerated. The others are cut about the head and body by the fragments of the bomb which had been made by some one for the purpose of killing fish.

A Famine of Freight Cars

PITTSBURG, Oct. 26. The glut of freight on the Pennsylvania road has produced a complete paralysis of business in the coke region. There are less than 500 cars in the entire region whereas the daily minimum when traffic is handled with average expedition is 1200. The trouble is due to the lack of motive power sufficient to haul cars to or from the region. Never before in the history of railroading has there been such a tremendous amount of freight offered for shipment. The Pennsylvania Railway until recently experienced little difficulty in handling its quota.

A Deckhand Drowned at Kingston.

KINGSTON, Oct. 25.—George Robbs, a deckhand on the steamer Hero, was drowned yesterday morning. The steamer had just arrived from Bay of Quinte ports and was making the turn to come into the slip while Robbs was taking away the gangway. Near the opening was a buggy not fastened to the boat. When the boat canted the wagon struck Robbs and knocked him into the lake, the wagon at the same time went over with him. Robbs sank with the buggy and never rose to the surface. As soon as possible a boat went to locate the place and try and find the remains but without success. Robbs was 40 years of age and unmarried. He has been on the steamer Hero for nearly seven years.

Baptist Women's Mission.

WOODSTOCK, Oct. 15.—The Baptist Women's Missionary Society was in session here yesterday. There are 185 delegates present from all parts of the province. Reports were read showing an increasing interest in mission work although slight falling off in funds. A discussion on the advisability of beginning work among the Indians took place when it was decided to leave the consideration of this work for another year.

A New Steamship Company.

MIDLAND, Oct. 23.—A company called the North Shore Navigation Company has been formed here to build a steamer specially for the north shore of Georgian Bay. She will run between Collingwood, Midland, Parry Sound, Byng Inlet and French River.

The Sequelae to Kiopeme st.

NEW YORK, Oct. 23.—George W. Lederer, the theatrical manager who eloped with and married the daughter of Lawyer Richard D. Newcomb a few days ago, was indicted yesterday afternoon by the Grand Jury for bigamy. He was held in $2500 bail. Clara Chester, an actress, who claims to be Lederer's wife although no marriage ceremony who performed, was the complainant.

To the Public.

Our aim has been and will continue to be to give the consumer the highest grade of goods consistent with prices charged. We do not manufacture so called cheap cigars; fine goods are our specialty. Purchasing only the best of tobaccos, irrespective of price, we are in a position to manufacture as fine a class of goods as can be obtained anywhere: Havana not excepted. Insist upon having our well known brands, "Cable," "El Padre" "Mongo," and "Madre E Hijo," and thereby obtain full value for your money. The immense sums expended in introducing our goods, the exceptionally fine quality of tobacco used in their manufacture, and the labor of nearly half a century should convince the most skeptical that the quality of same will not be allowed to deteriorate. m-

Why?

Why suffer a *single moment*, when you can get immediate relief from internal or external pain by the use of Polson's Nerviline, the great pain cure? Nerviline has never been known to fail. Try a 10 cent sample bottle. You will find it just as recommended. Neuralgia, toothache, cramps, headache, and all similar complaints disappear as if by magic when Nerviline is used. Large bottles 25 cents. Test bottles 10 cents, at druggists and country dealers. 6w43d

Cannot Fail.

MRS. JOHN E. THOMPSON, of Shelburne, P. O., writes: My two children received great benefit from Fowler's Extract of Wild Strawberry for Diarrhoea and summer complaint. I gave it according to direction and they soon recovered. Be sure and get the genuine. 2w41d

Tried! Tested! Proved!

Can be cured by purifying the blood with

I do not believe that Ayer's Sarsaparilla has an equal as a remedy for Scrofulous Humors. It is pleasant to take, gives strength and vigor to the body, and produces a more permanent, lasting, result than any medicine I ever used.—E. Haines, Nr. Lindale, O.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, it will thoroughly eradicate this terrible disease.—W. F. Fowler, M. D., Greenville, Tenn.

For forty years I have suffered with Erysipelas. I have tried all sorts of remedies for my complaint, but found no relief until I commenced using Ayer's Sarsaparilla. After taking ten bottles of this medicine I am completely cured.—Mary C. Amesbury, Rockport, Me.

I have suffered, for years, from Catarrh, which was so severe that it destroyed my appetite and weakened my system. After trying other remedies, and getting no relief, I began to take Ayer's Sarsaparilla, and, in a few months, was cured.—Susan L. Cook, 909 Albany st., Boston Highlands, Mass.

Ayer's Sarsaparilla is superior to any blood purifier that I have ever tried. I have taken it for Scrofula, Canker, and Salt-Rheum, and received much benefit from it. It is good, also, for a weak stomach.—Millie Jane Peirce, South Bradford, Mass.

The properties are situated on Cedar and Hatton streets and within a stone's throw of the West Ward School and a short distance of the principal Churches and the Hamilton Co's. Works.

"ERIN COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had at a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on them this season.

Tradesmen and mechanics should inspect this property as it offers the best sites available and convenient to the business part of the town.

Absent Students.

Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. No other institution can show as good a record as this. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

Ready for Business.

Mr. M. J. Tierney has his fine new stand on Hunter street now ready for business, and customers will find it a satisfaction to trade at the Oriental Grocery store. The large shop is filled with a complete and assorted stock of almost entirely new groceries, wines and liquors, which will be sold at most reasonable prices, while the small remaining portion of the old stock will be cleared out at cost. Mr. Tierney has one of the best equipped grocery stores in town, and with prices as low as possible the public may rely upon being pleased if they patronize him.

The Hunter's Return.

Last night saw the return of the last of the hunting parties, which left town a couple of weeks ago. All the sportsmen enjoyed their outing immensely. The weather was all that could be desired, and game fairly abundant.

Mr. A. Blade's party of eight returned with ten deer, three of which were large bucks weighing about 200 pounds each. They also shot some partridge, and caught enough fish to supply their own larder. Sam Ray had a "bit o' diversion" by capturing a live loon.

Mr. Harry Winch's party, six in number, with only three canoes, bagged six deer, five of which they brought back with them, one a fine buck. They also secured a number of partridge. They had a splendid time and considering the circumstances cannot complain of bad luck.

A Fine Programme.

The following are the different items of the course of entertainments which the George street [Methodist Sunday School has prepared for the coming season:—

No. 1—Lecture by Chancellor Sims, D.D., L.L.D., of Syracuse, N.Y., on "Neglected Life's Lessons."

No. 2—Concert by Miss Alexander Elocutionist, of Toronto; Miss Anna Howden, Soloist.

No. 3—Lecture by Rev. Alexander Burns, D.D., L.L.D., of Hamilton, on "Popular Mistakes about the Bible."

No. 4—Concert by Vocal Quartette from the Toronto College of Music.

No. 5—Lecture on "School Room Humor" by J. L. Hughes, Esq., Inspector Public Schools, Toronto.

The first of the series is to be held in George street church on Tuesday evening, Nov. 12th, 1889. All who have heard Chancellor Sims are lend in their praises of him as a lecturer. Those who know him best speak most highly of him. Come expecting to hear something good and you will not go away disappointed. Tickets for entire course only $1.00. 2sod

The Band of Hope.

A pleasant and successful entertainment was held in the W.C.T.U. hall last night under the auspices of the Band of Hope. There was a large attendance of children and a fair representation of their parents and friends. Miss Kelly and Mrs. Payton presided over the entertainment. These two ladies are indefatigable workers in this department of temperance work, and have by their exertions increased the membership roll of the Band of Hope from eight last May to 140 at the present time. The programme last night consisted of singing, recitations and readings, etc., by the children and a couple of addresses by Rev. Mr. Leitch and Mr. B. Earle. The children rendered several choruses, and a number sang solos and duets. Misses Roberts, Martin, Strain, and Gladman gave a quartette; Eva Strain and Katie Hooper a duet; Vida Gladman and Winnie Dobbin a duet; Edna Hill, a couple of solos; Misses Fife and Green, a duet; Alice Fife, a recitation and song; the Misses Dawson, a duet; and solos by Katie Hooper and Maggie Roberts. Miss Ellen McMasters gave a recitation; Mary Pilling and Miss Hudson, readings; Arthur Smith, Allen Bell and Stanley Clark, a dialogue; and Rev. Mr. Leitch and Miss Kelly, readings. Other performers in recitation and song were Emma Manly and Bessie Weatherhead, Lillie Green, Maggie Smith, Master Stanton, Lillie Billier and Willie Bell. The entertainment was highly successful, and reflected credit upon both teachers and pupils. Mention must not be omitted of the valuable services as pianist of Miss Owens, whose kindness throughout the evening was recognised by a vote of thanks. The Band of Hope is doing a good work amongst the young people and should be encouraged.

St. John's Church Notes.

During this week several important meetings have been held.

On Tuesday evening the curates visited the South Ward mission room with the intention of talking over matters with the people who worship there. To their surprise, they found the room decorated prettily and refreshments lavishly provided by the indefatigable lady workers of the neighbourhood. A very pleasant evening was spent and much enjoyable conversation took place between the clergy and people. Rev. J. C Davidson made an earnest address, and Rev. C. B. Kenrick gave a reading, by special request, from the Ingoldsby Legends. The meeting was brought to a close with prayer by Mr. Kenrick.

On Thursday afternoon a meeting of ladies was held at the rooms at 136 Hunter street, to consider the advisability of giving a congregational reception, free to the parish, on the lines of one held last Easter. It was decided to hold such a reception in the school house, on Tuesday week, Nov. 5th. This must not be confused with another entertainment to be given in another place, and which has been already advertised.

This afternoon at 4 o'clock the first meeting of the local branch of Trinity Convocation was held.

To-morrow the Sunday school and Bible classes will assemble at 3 p. m. as usual. At 3.30, however, the monthly children's service will take place. Considerable interest attaches to this service, in view of the fact that the musical portion will be led by an entirely new choir, consisting of boys from the Sunday school and young men from the Bible class glee club. As they have been practising a few weeks only, too much must not be expected of them, but they will, no doubt, greatly improve the service.

The Sawdust Question.

The mill-owners on the Otonabee have received notification from the government that after having carefully considered the reports of their Inspector with regard to the alleged violation of the Streams Act on the part of the lumbermen on this river, the Department has come to the conclusion that the provisions of the Act governing these cases must be enforced. The decision implies that the government consider the local lumbermen guilty of infractions of the law, and involves the payment of the twenty odd fines of $50 each which were imposed by the magistrate. This appears to be an unwarranted hardship upon the millowners, who claim they have done all they can, short of building new mills, to remedy the complaint. The action of the government is inconsistent, to say the least of it. At one time the lumbermen are given permission to run the offal from the gang saws into the river, and in a short time again they are informed that they must adhere to the strict letter of the law. The Otonabee mill-owners ask that they should be allowed the same privileges as the lumbermen on the Ottawa, and claim that the government are subject in their discrimination against the local men. These being the facts of the case, it certainly appears the government is throwing an unwarrantable amount of hardship and inconvenience upon the mill-owner on the Otonabee, who may resent the imposition in a manner that will do serious injury to Peterborough. The Dickson Company, for instance, who are at the present time paying out $3,000 per week in wages, are now making arrangements for the erection of their new mills at some other point where their operations will be less hampered, and the people of Peterborough are sitting quietly by and allowing this important industry to slip from their grasp when a little determined effort might have the effect of inducing the Company to remain here. In the interests of the town and the workingmen some steps should be taken to counterbalance the results of the government's action.

THE BUILDING RECORD.

New Homes and Business Blocks Erected in 1889.

The Record Satisfactory—The Building Business not Overdone—The Law of Supply and Demand—Our Manufacturing Industries—Lists of New Buildings.

The building operations of the year are now about completed, or undertaken, and, doubtless, some interest will be taken in a list of the work that has been carried on in the year 1889. There has been much more building done than those whose affairs take them only in the business streets would think had been in progress. The figures do not quite equal the total of other years, yet this is only to be expected. Last year was noted for the extent of the building operations, and this year the building that has been done is not of a speculative character, but more in the way of a supply of demand. For the past few years we have heard the complaint that building has been overdone in Peterborough, but such has not proven to be the case. There are, of course, some vacant buildings, but many of them are made so by mechanics and others erecting homes of their own. One pleasing feature of this year's building operations is the extensive additions made to the premises of our chief manufacturing concerns, showing that they are not only flourishing, but progressing.

Below is given an instalment of the list of new buildings, as our space warrants, in alphabetical order, as respects their situation:

AYLMER STREET.

B. Shortly—two tenement dwellings, each 25x38, two stories in height, of solid red brick, Queen Anne style of architecture, after plans by W. Blackwell. Finished internally in the best style, with all modern improvements, open fire places, grates and mantels, bath rooms, closets, full size cellar, city water and gas. Contractor, W. C. Mowat; brickwork, T. Begley; plastering, Robert Pollock; painting, Wm. Lilly; tin and galvanized iron work, Adam Hall; plumbing, J. E. Noble & Co; lathing, W. Evans machine work, J. R. Donel. Cost of each building, $2,000—$4,000.

W. C. Mowat—tenement terrace for self, two stories and mansard, solid brick, six tenements, each 17x32, with kitchen wings 12x13 (two stories), iron roof, bath rooms, city water, bow window front, and verandah to each. W. C. Mowat builder; brickwork, T. Begley; plastering, R. Pollock; lathing, W. Evans; iron roofing and tin work, A. Hall; machine work, Otonabee Canoe Company. Cost, $9,000.

ARGYLE STREET

Nicholls Hospital Out buildings, sheds, stables, etc., built this year. A. Rutherford, contractor. Cost $1500.

BROCK STREET.

Harry Rush, extensive alterations additions and improvements to the Haultain residence. Contractor, T.C. Irwin; plastering, T. Sabin; painting, H. W. Watson; plumbing, Jas. Noble; gasfitting, Gas Company—Cost $1500.

BARNARDO AVENUE.

School Board—North Ward school 40x80, two stories with basement—for furnaces and playgrounds; foundation and basement walls, quarred stone hammered, laid in Portland cement, window sills and caps, Longford limestone. Brick red, the outer course laid in black mortar, selected bricks dark red and uniform with black cement, making rich warm tone. Contractor, A. Rutherford; stone work, H. Sherwood; brick work, P. J. McNamara; carpenter, A. Rutherford; painting, Geo. Distin; plastering, P. McHugh; heating, Smead Dowd system; tin and galvanized iron work, A. Ball. Cost (contract price $5,800); add seating, heating etc., $3400, total cost $9000.

Thos. Dawson added story to residence. A. Rutherford, contractor. Cost, $600.

BONACCORD STREET.

John Richardson—two story brick residence 24x34, bay windows to roof. Contractor, A. Rutherford; stonework, Jas. McGregor; brickwork, J. J. Hartley; plastering, Geo. Deline; painting, Geo. Distin. Cost, $1,000

CHARLOTTE STREET.

Walter Scott—two story white brick residence, 20x28, with kitchen annex, 1½ story, 14x16, cellar under main house. Contractor, W. H. McElwain; brickwork, J. J. Hartley; painting, R. Carton; plastering, R. Pollock. Cost, $1,000.

DURLIN STREET.

Mrs. Hoohey—two story brick, 22x32, with kitchen wing. A. Rutherford, contractor; brickwork, P. J. McNamara; painting, Geo. Distin. Cost, $1,100

DALHOUSIE STREET.

W. H. Law—Central Iron and Bridge Works, extensive additions. A huge L shaped building 150x80 and 80x80, of wood battened; truss roof covered with metallic shingles; also a warehouse for iron 60x80 feet. The new buildings are equipped with several expensive machines, and the entire cost of the additions is about $10 000, that of the buildings alone being $5.000.

GEORGE STREET.

Town Council—Market block. A building 2 stories with mansard, 60x127 feet over all, and stairway a-junct, 30x44. There is cellarage under the entire building. The first floor is divided medially by an arcade 26 feet wide, in the middle of which is placed a line of 4 iron pillars supporting the arcade roof. Off this arcade on either side, are stalls for butchers, etc. The archway to each is fitted with a door and plate glass window. The remaining space is devoted to four shops all with plate glass fronts. The height of first floor ceilings is 16 ft. 6 in. On the second floor is the market room 57x117 feet in the clear, well lighted by windows on two sides. The height of this room is 22 feet to the truss beams, but extends to the rafters, making the total height to apex 43 feet. This hall is ten feet shorter than the building, the tower spaces at the two southern corners being taken off them, leaving a space of 10x16 feet between them, which may be used as a stage for concerts, addresses, etc. The stair annex contains two flights of stairs, converging centrally on a common landing. The eastern walls are of no id brick, (red) and broken by brick pillasters with cut stone caps at the termination of the stories. Two handsome cornices run round the whole building. A low tower is situated at the south east corner 64 feet. At the south west corner is situated the clock tower 110 feet in height, in which it is proposed to place the town clock. The building is covered by a truss roof overlaid with shingles. The brick piers for the shop fronts rest on solid stone abutments. Contractor, T. Rutherford; stonework, (built for town) John Hayes, jr.; carpenter work, T. Rutherford; brick work, Webb & Son; cut stone, — — Burgess; iron columns, Whyte & Co.; other contracts not let. Cost, $25. 000.

J. J. Landy—improvement, additions and refitting three shops for J. J. Turner, S. Lowry and James Noble. T. C. Irwin, contractor. Cost, $1,000.

John Burnham new front to building occupied by Craig & Mooney, and addition in rear for workshop. Wm. Langford, contractor. Cost, $1,300.

A Pleasant Event.

Two Singers Remembered on the Occasion of Their Approaching Marriage.

For some time past it has been an open secret that two of the most valuable and estimable members of St. Peter's Cathedral choir were about to enter into a closer and dearer relationship than was afforded by their choral connection, and the others of the choir determined to present them with some slight token of their regard and congratulation at the approaching matrimonial event. Accordingly Friday evening after the regular choir practice the members adjourned to the vestry, where the following address was read by Mr. Jas. Coughlin:—

Miss Maggie McFadden and Mr. Geo. Ball.

DEAR FRIENDS,—Your fellow-members of the choir of St. Peter's Cathedral desire to take the opportunity of your last appearance amongst us in your present social capacities at least, to address you in terms of cordial recognition of the important services you have rendered this choir and church, and how greatly your abilities as vocalists and your faithful attendance Sunday after Sunday, have contributed to the seemly and effective presentation of the choral portion of the worship of Almighty God. It gives us pleasure to bear testimony in the most emphatic manner to the value of the services you have rendered and to the Christian graces and social pleasantness which have characterized your loving intercourse with us. You have both been associated together in this choir for years, and our hope is that the same harmonious relations you have maintained, both musically and socially, may be preserved and, if possible, intensified in the new relations in which you will soon be united, and we pray that the blessing of Almighty God may rest upon you both in you future lives; that temporal prosperity, spiritual thrift and great and abiding happiness may be your portion in this life, and that when your earthly career is ended you may be called to join the heavenly choir and the countless company of God's saints.

In conclusion permit us to ask your acceptance of this little token as an earnest of all our good wishes.

The gifts accompanying the address were a beautiful silver cake basket and cruet. Miss Ealand, organist, made the presentation.

Mr. Ball replied felicitously on behalf of himself and Miss McFadden, voicing their hearty thanks for the practical expression of the good will and wishes of their fellow-singers in the choir of St. Peter's Cathedral, Mr. Ball referred to their long and pleasant connection with the choir, in which they intended to remain as usual.

The presentation was a most pleasing affair, evincing as it does the perfect harmony and friendship that exists among the members of St. Peter's Cathedral choir.

IS YOUR BAKING POWDER PURE?

Do its Manufacturers Publish all the Ingredients Used?

IS IT FREE FROM AMMONIA?

As is well known, ammonia is unhealthful in food, and dries up the bread material.

Protection to consumers of food compounds lies in their ability to choose those made from healthful substances. Unless manufacturers publish just what their baking powder is made of, do not use their goods, but buy instead

CLEVELAND'S SUPERIOR BAKING POWDER.

This powder is made only of strictly pure grape cream of tartar, and strictly pure bicarbonate of soda, with a little wheat flour to preserve it. This is attested by the official analyses of Government and State chemists, and physicians, and chemists of Boards of Health throughout the country.

Personal.

Messrs. P. Hickey and Ed. Flaherty, two young men from Ennismore, left for Wisconsin last evening.

Prof. E. N. Fillion, of Montreal, is stopping at the Cavanagh house. He purposes organizing classes and giving private instruction in the art of dancing.

Mr. H.S. Crewe, of the Registrar General's Department, Toronto, is in town to-day. Mr. Crewe visits Peterborough about once a year, his duties as Inspector of Vital Statistics necessitating an annual trip, and he says he never comes to town without observing fresh signs of prosperity and progress. Peterborough, he says, shows the most substantial progress of any town in Canada; and as Mr. Crewe travels considerably, his opinion is worth something.

The Dandies of the Force.

The members of the police force appeared to-day in their elegant new suits, their stalwart figures setting off the cut and finish of the clothing to perfection. The suits were manufactured by T. Dolan & Co., who, as usual, did an excellent job. Our police force are a dandy looking group of men now.

Land, sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

THE CRONIN TRIAL

AN ATTEMPT BY THE DEFENCE TO EXCLUDE TESTIMONY.

The Judge Listens to Reason—The Evidence in Dispute Permitted to Stand—A New Ruling.

CHICAGO, Oct. 28.—The Cronin trial was resumed Saturday morning. The first witness was County Physician Todd. He testified that only Dr. Egbert, his assistant, and himself had the combination to the vault in which the plaster cast of the false teeth taken from Cronin's mouth was kept. He (Todd) had not entered the vault since Cronin's death.

Dr. D. G. Moore, who was present at the autopsy, described the wounds and marks of identification of the body.

The defense moved to exclude Dr. Moore's testimony on the ground that he had read the verbatim report of the trial in the morning's papers, which gave the entire testimony of Dr. Egbert. They argued that the physician read this knowing that he was to testify, and that the order of the court excluded witnesses while testimony was being taken, yet the reading of the testimony had precisely the same effect as the hearing of it.

Judge McConnell said he thought the evidence should be excluded, when there was a storm of objections from the prosecution. Messrs. Hynes and Mills protested against such a ruling, and said they could not produce a witness who had not read all about the case and the Judge might just as well adjourn the case now if he was going to hold to any such doctrine.

After considerable argument the Judge said the rule was probably conceived before the newspapers took such pains to publish all proceedings; and he could easily see that if he should enforce the rule in its old spirit criminal trials and a great many civil cases could not be proceeded with. In this day of wide newspaper circulation and verbatim reports he did not see that the court could do more than simply exclude the witnesses from the room. The motion was consequently overruled and the Doctor's testimony stands.

The next witness was Patrick Dinan, the livery stable keeper. He testified to the facts in regard to the hiring of a horse and buggy from him by Dan Coughlin on the day that Cronin was murdered. Witness said Coughlin told him he wanted the horse for a friend. A stranger came at about 7 o'clock that evening and asked for the horse which Coughlin had hired for him. He was given the white horse. The stranger objected, and asked for another, but witness refused to give him another. Then the stranger wanted the side curtains of the buggy put on, but Dinan told him it was dark and nobody could recognize him. The stranger grumbled, but got into the buggy and drove north, or in the direction of Conklin's house, where Dr. Cronin lived. The stranger wore a light colored or faded overcoat and a small, soft round hat, the latter turned down over his eyes. The man had a week or ten days' beard on his face, of a sandy color, shading to dark at the lower part. Witness had not seen the man since. On the following morning, early, a policeman came to his stable to know whether he had let any one have a white horse the night before. Witness, suspecting wrong, went to the police station. There he met Coughlin, who cautioned him to say nothing about his having hired a horse the day before because it was known that he and Cronin were not good friends, and it might get him into trouble.

After a long and severe cross-examination of Dinan by Mr. Forrest, of counsel for the defence, in which the witness was not at all confused, the court adjourned until to-day.

WELDON'S BILL NOT IN VAIN.

If It Ensures a Better Extradition Treaty—A New York Paper's Opinion.

NEW YORK, Oct. 28.—The Tribune has an editorial article on the extradition treaty negotiations between the United States and Great Britain. Transpiring events lead it to think that the passage of the Weldon Act by the Dominion Government is having an effect on the diplomatic interchange between the two great powers. An inference is drawn from Sir Julian Pauncefote's recent visit to England to the effect that a new extradition treaty is under negotiation, and that notice of its early ratification might be a reason why the Govenor-General's proclamation of the Weldon Act is withheld.

The Tribune says that the most reasonable explanation that can be offered of the abrupt resumption of diplomatic correspondence on the question is the embarrassment caused by the passage of the Weldon Act by the Canadian Parliament. The British Government was placed in an exceedingly awkward position. It could not sanction that Act without abrogating the Imperial prerogatives of the Crown, and submitting to the exercise of treaty-making functions by a dependent confederation of provinces; and, on the other hand, it could not disallow legislation designed as a substitute for treaty engagements without exciting prejudice and resentment in Canada. The only practical method of avoiding either horn of the dilemma was the prompt negotiation of a new treaty.

It assumes that the British Government, in its anxiety to hang up the Weldon Act without directly disallowing it, will drop the dynamite clause in the Rosebery-Phelps agreement, the chief cause of dispute in the discussion of the treaty

Their Last Game of Cards.

IRWIN, Pa., Oct. 28.—Yesterday afternoon Thomas and James Thompson, Robert Robinson, Samuel Hemming and Benjamin Stubbs were sitting under a car here playing cards, when the shifter pushed a train of cars back on the siding moving the car they were under and instantly killing Robinson and Hemming and Thomas Thompson. James Thompson had his back broken and died while being removed to his home. Stubbs escaped with slight injuries.

MR. GLADSTONE TALKS.

AN ADDRESS ON THE CONDITION OF THE WORKING CLASSES.

The Progress of Fifty Years—English Workman Urged to Study the History of the American Revolution.

LONDON, Oct. 28.—Mr. Gladstone made an address at Chester Saturday on the condition of the working classes. He contrasted the English workman's position to-day with that of 50 years ago, showing that during the half century there has been an increase of 50 per cent. in wages, while the cheap food and clothing now obtainable are better than heretofore. He urged English workmen to study the history of the American Revolution. He claimed that it was by and from this country that a love of freedom was sown in America. England now in return reaped advantages from the American vindication of those principles of freedom which animated the Revolution. The system of government in America combined that love of freedom, respect for law, and desire for order which formed the surest elements of national excellence and greatness. It was no extravagance to say that, although there were only 2,000,000 of people in the 13 States at the time of the Revolution, the group of statesmen that proceeded from them were a match for any in the whole history of the world and were superior to those of any one epoch. Their fortunate appearance was undoubtedly due to well-regulated muscular freedom.

Proposed Impeachment of a Minister.

BUDA-PESTH, Oct. 28.—In the Lower House of the Hungarian Diet Saturday Herr Iranji, leader of the Extreme Left, moved that impeachment proceedings be instituted against Baron Fejervary, Hungarian Minister of National Defense, on account of satisfaction at his reply to the interpellation submitted in the Chamber regarding the recent hoisting of the black and yellow flag during the military manœuvers at Monor, Hungary. Herr Iranji announced that he would speak in support of his motion Nov. 6.

The day before the Emperor went to Monor in September to superintend the manœuvers of the Honved Cavalry the Quartermaster-General ordered that the house which was to serve as headquarters for the general staff should be marked with a yellow and black flag. There was some murmuring in the town at this display of the Austrian Imperial colors, and a communique was accordingly published to explain that the flag of the Honveds was the national Hungarian tri color—red, white, and green—and that the yellow and black colors had not been used as an emblem, but as a signal. On the night following this publication the yellow and black flag was torn down by unknown hands and flung into a ditch. The inhabitants at Monor were rather dismayed at this and tried to atone for the act by receiving the Emperor with great demonstrations of loyalty. The Emperor, however, felt deeply offended, and in receiving the authorities of the town he told them that he hoped the author of the "shameful outrage" would be detected and punished.

The Latest Tascott.

PHILADELPHIA, Oct. 28.—Chief of Police Wood is confident that the man arrested at Reading and brought here to answer the charge of passing forged checks is Tascott, the murderer of Millionaire Snell at Chicago, for whom a reward of $50,000 has been offered. The Chicago police have asked that a photograph of the man under arrest be sent at once. He was accordingly photographed, and the picture will be mailed. Chief Wood was closeted with the suspected murderer a long while.

New York Wins Again—A Brooklyn Pitcher Pounded Hard.

NEW YORK, Oct. 18.—Saturday's game was played in spite of inclement weather, and there were over 3000 persons present. The New Yorks put Crane in to pitch, but he was so wild that at the end of the sixth inning he gave way to Keefe. Lovett started in to pitch for the Brooklyns, but he was so unmercifully pounded in the second inning that he was taken out at the end of the third and Caruthers put in, but the change did not prevent the New Yorks from adding two more runs to their credit. The New Yorks played a better all around game than did the Brooklyns. O'Rourke's drive over the center field fence for a home run was the longest hit ever made on the grounds. Score:

A Customs Fraud.

WINNIPEG, Man., Oct. 28.—An extensive scheme, by which the customs have been defrauded for years, has just come to light here, and it is said that a number of prominent people are implicated. It appears that they have been importing basswood from the United States invoiced as whitewood. There is no duty on the latter and only an export one tell the difference. It is also reported that large quantities of dressed lumber have been smuggled across by the same men, the dressed lumber being packed in the cars with a tier of sawed lumber, on which there is no duty, piled about it so as to deceive the appraisers.

Switchmen Demand Better Pay.

MEMPHIS, Tenn., Oct. 28.—The local switchmen on the ten railroads entering Memphis went on strike at 5 o'clock Saturday afternoon. The men have been receiving wages ranging from $1.50 to $2.25 according to grade, and now demand that this pay be made uniform, the day men to receive $2.50 and the night men $2.75. Everything is quiet about the yards.

GERMANY AND GREECE.

BRILLIANT ROYAL NUPTIALS AT ATHENS.

The Sister of the Kaiser and the Heir to the Throne of the Hellenes Wedded With Great Pomp and Splendor.

ATHENS, Oct. 28.—The marriage of Princess Sophia of Prussia and the Duke of Sparta, Crown Prince of Greece, was solemnized Saturday. The weather was delightful. At 11 a. m. the wedding procession, headed by a squadron of cavalry, left the palace. The royal guests followed in eight carriages. Then came a gorgeous state carriage containing Queen Olga and the bride drawn by six black horses covered with silver trappings. On either side of the carriage on horseback were King George, the Duke of Sparta and his brothers.

The whole route was lined with troops behind whom were packed solid masses of spectators. The greatest enthusiasm was manifested by the populace. The handsome uniform and jeweled orders of the Kaiser and the magnificent diamonds worn by Empress Augusta Victoria attracted universal admiration. The scene in the Cathedral was a brilliant one, the uniforms of the assembled dignitaries and the superb dresses and jewels of the ladies forming a splendid spectacle. The centre aisle of the church was strewn with roses. Princes Victor and George of Wales held golden crowns over the heads of the bride and bridegroom.

The wedding party returned by a different route and arrived at the palace at 1 o'clock where the marriage was again solemnized. The ceremony this time was in accordance with the Lutheran rite and took place in the King's private chapel.

During the ceremony Prince Henry of Prussia and Princes Victor and George of Wales alternately held the bride's coronal, while the Czarewitch, Prince Waldemar and Prince George of Greece held the coronal of the bridegroom. Count Herbert Bismarck was among the first to congratulate the couple. Crowds surged in the Place de la Constitution for hours afterwards. At 4 p. m. the Duke of Sparta conducted his bride from the Royal palace to his own palace amid storms of "Zetos" from the populace. The bride, who was very pale, smilingly bowed in response.

The Duke and his bride were afterward obliged to appear on the balcony when they were greeted with rousing cheers. The diplomatic body was invited to the gala banquet at the palace last evening. The vicinity of the palace was a blaze of illuminations and bengal fires.

The Coming Triple Conference.

BERLIN, Oct. 28.—The proposed conference between Prince Bismarck, Count Kalnoky, and Premier Crispi has been delayed until after Emperor William's visit to the Sultan of Turkey. The political importance of the event is not now denied. It is admitted in official circles that hopes are entertained that the Emperor's interview with the Sultan will result in the adhesion of Turkey to the general aims of the Triple Alliance, without her formally entering the league. Bismarck's project is to construct a second defensive line behind the Dreibund, consisting of England and Turkey, not committed by treaty to the special purposes of the Central European alliance, but linked by kindred interests. Hence he is man ŒUVRING to commit Lord Salisbury to a new treaty with Turkey relating to the permanent occupation of Egypt. Count Herbert Bismarck will precede Emperor William to Constantinople in order to meet the German and English Ambassadors and the Turkish Foreign Ministers before the interview between the German and Turkish monarchs.

Bismarck's projects in regard to a Balkar settlement, as communicated to the Czar, have led to a temporary cessation of hostile Russian intrigues. The Czar has certainly consented to permit the Chancellor to try to utilize some modus vivendi, holding himself free to resume independent action in the event of the scheme failing. It is the impression in the Foreign Office that the negotiations will lead to another conference in the spring to revise the treaty on a basis that will better secure European peace.

Freytag's Book.

BERLIN, Oct. 28.—Freytag's book about the late Emperor Frederick has created a sensation. Prince Bismarck, prior to its publication, advised the suppression of certain passages referring to the private negotiations over the formation of the Empire. Freytag declined to suppress the passages. The Chancellor did not insist. The complaisance of Bismarck is attributed to Freytag's disclosures of the unwise interference of the then Empress, who, the book declares, guided when it was natural she ought to be guided, thus causing difficulties and conflicts. Another passage grateful to Bismarck describes the late Emperor Frederick as afflicted with morbid moods and old in mind and body long before his fatal disease attacked him. His vital energy, the book declares, was no longer befitting the heir to the imperial crown. The persuasions of the Crown Princess were unable to banish his sadness. He often thought to abdicate in favor of his son.

A Diabolical Deed.

FRANKLIN, Pa., Oct. 28.—The bomb explosion at the Galloway schoolhouse Friday by which so many children were injured, is having more serious results than expected. The explosion was the result of criminal carelessness on the part of two young men who filled a gas pipe with giant powder and allowed the children to play with it. Over 30 children were in close proximity, and 18 were injured. Seven are in a critical condition and it is thought four will die. The men are under arrest.

Trouble in No Man's Land.

WICHITA, Kas., Oct. 28.—S. M. Ferenor has arrived from Beaver City, No Man's Land. He reports that trouble has been brewing between the settlers and the Scotch cattle syndicate. Last week the settlers fired the syndicate's range which destroyed all feed for cattle. The cattle have begun to die of starvation and Ferenom reports an enormous loss of stock.

Slashed With a Razor.

BOSTON, Oct. 28.—Saturday afternoon John L. Sullivan and a party of followers, among whom were Tommy Kelly, the ex-champion feather-weight, and Tommy Shay of Boston, made the rounds of the South End saloons, finally bringing up in a barber shop on Dover-street. Sullivan sat in a chair to be shaved and Shay renewed an attempt to get Sullivan to converse on matters he did not care to discuss. Kelly interfered and Shay made an insulting remark. Kelly thereupon seized a razor and inflicted a terrible wound under Shay's left ear. The blood flowed freely. John Ryan thrust Kelly into the street and did what he could for Shay. Sullivan walked out and drove away in a cab. Shay was taken to the hospital. Kelly went to a sporting house and was advised to give himself up, and he did so. Shay's wound is three inches long and is considered extremely dangerous. All sorts of rumors regarding the affray were current. One was that Sullivan had been shot and another that Sullivan did the cutting. Shay is said to have just completed a sentence for highway robbery.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

TORONTO TOPICS.

The Church Trial Continued—Suits for Damages Entered Saturday.

TORONTO, Oct. 28.—The sensational trial in the Euclid-avenue Methodist Church was continued Saturday and the court will report its finding at a meeting to be held to-night.

Saturday at Osgoode Hall Mrs. Mary E. Miller through her solicitors commenced an action against the Grand Trunk Railway Company for $5000 damages for the death of her son, William Miller, killed on the track at Stouffville in June last. At the time of the accident deceased was standing on a side track to allow the Toronto express to pass down when a car which was being shunted struck him, causing his death.

E. D. Hamilton issued a writ on Saturday against F. X. Cousineau claiming from his late employer $5000 damages for false imprisonment and malicious prosecution. This is another step in the Bon Marche fire mystery and the subsequent proceedings in various courts.

Edward Jean Marie of this city issued a writ Saturday against Frank Prunty of South Falls, Muskoka, claiming damages from Prunty for the seduction of his daughter.

Detective Burrows returned from Prescott Saturday, bringing George Pearce, the last of the three Toronto jail breakers. He was sent over to the jail for safe keeping. It is doubtful if Judge McDougall will sentence Pearce, who stands convicted of burglary, before the court in which His Honor sits. Pearce is looking for something like ten years, counting on having his jail-breaking escapade added to the count.

At 12.20 yesterday the body of a well-dressed, middle aged man was found in the ladies' waiting room on the York-street wharf. The dead man was dressed in a dark frock coat and grey black-striped trousers and vest; a dark moustache and a beard covered the lower part of his face and he appeared to be about 45 years of age. There were three letters and two bottles in the pockets of his clothing. But 10 cents were found. A flask in which there was a little whisky stood near by where he lay. One of the phials had evidently contained laudanum, but it had been drained to the last drop. The other bottle was half filled with carbolic acid. Both bore the labels of the Arcade drug store. The letters were all addressed to David McLearie inside, but there were no envelopes on them.

AMBITIOUS CITY NEWS.

A Letter Carrier Suspended—The Douglas shooting Case.

HAMILTON, Oct. 28.—A letter carrier named Meredith Dawson, employed in the post office here, has been suspended by Inspector Burnham. It appears a registered letter which contained $8 was stolen from the office on Oct. 18 and suspicion rested on Dawson. Inspector Burnham and Detective Doyle of this city have been working on the case and on the evidence produced the inspector has suspended Dawson. The facts have been reported to the authorities at Ottawa who will decide on the course to be pursued.

Ex-Constable Hawkins appeared in the Police Court Saturday morning in answer to the summons charging him with manslaughter in connection with the Douglas shooting case. The case was adjourned until Friday next at the request of Crown Attorney Cresser. Police Magistrate Cahill will likely have two associate justices with him to try this case.

Brown, Balfour & Co., wholesale grocers of good standing, announced their intention Saturday of calling their creditors together. It was known for some time past that the firm was pressed for money but such as extremity as suspension was not expected. The liabilities are placed at about $80,000 and the assets are sufficient, Mr. Brown says, to pay a fair dividend. The creditors will be called together shortly when a complete statement of the affairs of the firm will be presented. The present firm is composed of Mr. Adam Brown, M. P., who was prominently spoken of as the prospective Minister of Trade and Commerce, and Mr. Sinclair Balfour.

FIRE AT PAISLEY.

Big Blaze and Several Buildings Destroyed.

PAISLEY, Ont. Oct. 28.—Fire broke out in the store of W. H. McFarlane about 4 o'clock Saturday morning, which, in spite of the splendid work of the fire brigade, resulted in laying low the space of buildings extending from the Hannah House to F. E. Sheppard's jewelry store. The cause of the fire is unknown, but it is supposed to have been incendiary, as a party was seen coming out of McFarlane's store a short time before the fire started.

A Village Burned.

ELMIRA, Pa., Oct. 28.—The whole business part of Findlay's Lake was burned yesterday. The loss is heavy.

A $200,000 Fire.

SELMA, Ala., Oct. 28.—A fire broke out in Liepold Bros.' drygoods establishment in the centre of the business portion of the city yesterday morning about 2 o'clock. A brisk wind was blowing and the flames spread with great rapidity. In a short while the entire block was in flames. The loss will reach $200,000.

AT

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

AT LAST!

A Wonderful Vegetable Discovery That Removes the Terrible Results of Overwork.

A True Invigorator.

Weakness and prostration of the nervous system surely follow that overwork and worry which brings sorrow and suffering to so many Canadian homes. The terrible results of nervous weakness, are seen on every hand. Pains in the back, poor and unrefreshing sleep, lack of appetite dyspepsia, and lost energy and strength, are the first symptoms of more serious and danger. ous trouble. This is the way that Paralysis, Paresis and Insanity begin. Do not delay a moment longer, for some time it will be too late to regain your lost health and vitality. Use Paine's Celery Compound now, and the dull eyes will regain their brilliancy, the cheeks will grow rosy, the brain become clear, the nerves strong and steady, your sleep restful and refreshing, appetite good, and health and happiness will take the place of misery and suffering.

A. Sabiston, the well known lithographer of Montreal, writes: "In the summer of 1888 I had to work very hard, and was troubled considerably with insomnia (sleeplessness). I resolved to try your Paine's Celery Compound, and after taking the contents of two bottles, felt like a new man. A good night's rest gave me strength for the duties of the day, and instead of starting out to business in the morning feeling as if I had completed a day's work instead of being about to commence one I started out in good spirits, feeling fresh and strong. My wife and various friends, to whom I recommended the medicine, have been benefited greatly, and in fact 'Paine's Celery Compound is a household word in our family."

Wm. Fitzgerald—tenement residence for self, on Erin Grove property, 21x27, two stories, with verandah. W. Fitzgerald, builder. Cost, $900.

Ashburnham.

Ashburnham's building boom has been pretty good this season, the total amount of money invested in new buildings being over $50,000. First on the list comes

St. Joseph's Hospital, four stories in height, including basement—one of the most important floors—(11 foot ceilings); foundation walls of quarried stone; architectural style, Gothic; roof, deck, iron—mansard, shingles; heating, Smead-Dowd system, put in by makers. Architect, J. E. Belcher; contractor, A. Rutherford—also did carpentry; stonework, M. Hayes; brickwork, Shanley & McDonald; plastering, P. McHugh; iron and tin work, Jas. Murty; plumbing and gas fitting, ——. Cost, $28,000.

John Carlisle, the multiplier builder, has this year put up 23 cottages, the average size of which is 21x27. They make a little village of themselves, and are situated on Carlisle, Munroe, Woodbine and Euclid avenues. The average cost of each is $800—the aggregate cost, $18,800.

ELIZABETH STREET.

Village council—Market building and town hall, 45x80, two stories with belfry, five shops in lower story, upper story hall; Architect, Wm. Blackwell; contractor, Wm. Fitzgerald; stonework, R. H. Smith; brickwork, Jas. Phillips; plastering, P. McHugh; painting, R. Carton. Cost $5000.

STEWART STREET.

R. S. Davidson—Tenement residence, story and a half, 20x28, kitchen 13x15. Contractor, T. E. Rogers; carpentry, Wm. Fitzgerald—Cost $800.

DUFFERIN AVENUE.

Wm. Fitzgerald—two houses brick veneered 21x27, two stories, summer kitchen and sheds, Wm. Fitzgerald, builder; P. McNamara, brickwork. Cost, each $800—$1800.

LAKE STREET.

Wm. Wand—residence for self, two stories 30x42, elegantly finished without and within. Wm. Wand, builder; stonework, H. Sherwood; brickwork, Geo. Curtis; plastering, R. Pollock. Cost $2500.

Women Who Make the Best Wives.

Members of a Boston debating society have almost come to blows over the question, "What women make best wives"? Culture was claimed by many to be the first essential, love and fidelity the second, and knowledge of household duties and ability to properly perform them, the third. None of the debaters, however, thought to add that very necessary qualification—health—without which a wife is far from perfection. Dr. Pierce's Favorite Prescription will renew the hue of youth in pale and sallow cheeks, correct irritating uterine diseases, arrest and cure ulceration and inflammation, and infuse new vatility into the wasting body. "Favorite Prescription" is the only medicine for women, sold by druggists, *under a positive guarantee* from the manufactures, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years. a

The Mystery Explained.

The mystery of the following inscription on a lead tablet found in the waterworks trenches has been solved:

'·ify·ouw·antat·ip t·orcu·po·ofte·
ayo·umu·stbu·yita·thawl·eyb·roe·te
·asto·re·3·7·8·ge·org·est·re·et.

Dr. Wilson, of the University writes:—"I have examined the inscription with great interest. *From internal evidence I should* say the plate was deposited about 1854. I regard it as one of the greatest phophecies ever made. It has amply been fulfilled as I can attest from actual trial. The translation reads thus:—

If you want a tip-top cup of tea, you must buy it at the tea store of Hawley Bros., 379 George street. dw

Puritan Plug Cut

is not a "cheap" tobacco; it is manufactured from the finest tobaccos procurable, and is placed on the market not for a day or a year but for "all time." Those who have tried it pronounce it a remarkably fine, cool and sweet smoking tobacco. As its merits become known, the demand increases. Many years' experience in handling tobaccos with every facility for manufacturing and purchasing, insures the smoker a good article at a price consistent with the quality of same. D. Ritchie & Co., Montreal, the oldest cut tobacco manufacturers in Canada. m

Peculiarities of the Hair.

There are times when all persons require to pay some particular attention to the hair. To rekindle the life on energy of the roots is a simple matter if taken in time. Dr. Dorenwend's Great German Hair Magic will do the word, it works in accordance with nature, supply, fresh nourishment to the glands keeper, the hair luxuriant and natural in shade. Be sure to get, you cannot afford to miss it. Every druggist sells it. It is money well spent. See Dorenwends advertisment in another column.

If the Sufferers from Consumption,

Scorfula and General Debility will try Scott's Emulsion of Cod Liver Oil, with Hypophosphites, they will find immediate relief and a permanent benifit. Dr. H. V. Mott, Brentwood, Cal., writes: "I have used Scott's Emulsion with great advantage in cases of Ptisis, Scrofula and Wasting Diseases. It is very palatable." Sold by Druggists, at 50c. and $1.00. w39eod

How to Lace Your Shoes.

Not one person in a thousand laces his shoes correctly. The correct way is to put your foot when you are about to lace your shoe as much as possible in the heel of the shoe. You can do this best by lacing your shoes with the heel of your shoe resting in a chair standing in front of the one you are seated on. Over the instep the lacing should be drawn as tightly as possible. This will hold your foot back in the shoe, giving the toes freedom and preventing their being cramped. Lace about the ankle to suit your comfort.—*New York Truth.*

With the Coming In of Railways.

As a rule, on the great through lines, in 1843, everything except passenger traffic was a very secondary affair. The Great Western was earning £13,000 a week from passengers and only £3,000 from goods. On the London and Birmingham the goods receipts were much the same, but the passengers returned some £15,000. On the latter line, for the first five months of its existence, the passenger receipts were about £130,000, while the total goods earnings were £2,225 9s. 8d. On the Southwestern the proportion was six to one, on the Brighton more than seven to one, on the Southeastern more than ten to one.

Even on the Midland Counties and North Midland, where nowadays passengers are far less important than goods and minerals, five-eighths of the whole receipts came from the coaching traffic.

Taking England as a whole, the goods traffic was only about a quarter of the total instead of three-fifths, as it is today. * * * The highways were unoccupied. The turnpike tolls from Swindon to Christian Malford, in Wilts, which had been let at £1,992 in 1841, only produced £654 in 1842. For the tolls on the road from Wakefield to Sheffield not a single tender was sent in, and the trustees were obliged to collect them themselves. The forty coaches which had run daily through Northampton were all dead within six months of the opening of the London and Birmingham. Almost every week came a notice that some famous line of coaches had ceased to run.

Here is one under date of Oct. 15, 1842: "A few years since ninety-four coaches used to pass through St. Albans daily. On Saturday last the Leeds express, formerly called the 'Sleepy Leeds,' which has been on the road upward of a hundred years, ceased running, it being no longer a profitable speculation; and it is said another out of the four remaining is likely soon to follow the example."

Six weeks later we read: "The mail from Worcester to Ludlow, after running for half a century, made its last journey on Tuesday, Nov. 29, thus leaving the public without official conveyance of letters from Worcester to Tenbury."

In March, 1842, a few weeks after the opening of the Edinburgh and Glasgow railway, The Glasgow Courier reports: "The whole of the stage coaches from Glasgow and Edinburgh are now off the road, with the exception of the 6 o'clock morning coach, which is kept running in consequence of its carrying the mail bags."—The Railways of England—Acworth.

Newspapers the Popular Reflector.

Newspapers, after all, only reflect the mind of the average man, who likes to read about things easily understood, and which demand no intellectual exertion on his part. Culture is equally absent from all other forms of popular literature. Look at the books which are the most read. "Called Back" and "Mr. Potter of Texas" are examples taken at random. To such stuff it is absurd to apply the name of literature. Then, again, if we are a cultured people, it is a remarkable fact to how small a class books that are really works of art and masterpieces of style appeal. When Shelley wrote his "Epipsychidion" there were in England at the time only about twelve men to whom he deemed it worth while sending that famous poem.

If another Shelley were to burst on the public as a poet to-morrow, he would be under a similar difficulty. It is fully time that we recognised the truth. Culture is not by any means universal. What is widespread and assumes its name is the modern spirit of superficiality. We read reviews of books in The Spectator, and not the books themselves. We get our opinions second hand from where will to save ourselves the trouble of thinking. We prefer the commonplace and trivial in literature and art to what is great and noble. We have no love for philosophy, although it is fashionable to pretend we have. In fact, the whole system of our national education must be reversed and the attitude of the public mind altered before we can truly describe ourselves as a cultured people. —London Spectator.

The Farm.

Corn well put in the ground and well tilled will mature a crop on less moisture than any other crop.

The effect of fertilizers on the soil does not depend entirely upon the amount of available plant food provided, but to the chemical action upon substances already existing in the soil.

Barnyard manure has its disadvantages, it always contains the seeds of weeds, which often give much trouble. We do all we can to extirpate them and then sow a fresh crop of weeds whenever we apply barnyard manure.

It is, says an exchange, by no means a settled question whether red clover is not a better subsoiler than any plow that was ever invented. Its long roots penetrate the soil much deeper, and dying, as they do, the second year, they not only open up the soil more effectually to the influence of the sun and air, but by their decay serve to enrich it as well.

When a tree is to be transplanted, never leave more branches than are wanted for trains, four or five at most; never grow a mass of unnecessary limbs to be crowding, which must be cut out afterward, much to the injury of the tree; remove them from the head at first.—Lewiston Journal.

Decorating Wells.

The ancient custom of well dressing takes place at Buxton in the third week of June every year. All the fountains and springs are then decorated with boards of various fantastic and tasteful designs. These are covered with moist clay and flowers are inserted, the whole forming a most beautiful mosaic—rich, natural and artistic. The entire town is gay with flags and bunting, triumphal arches span the streets, banners stream from the principal buildings and bands of music incite the morris dancers and other remainders of old English sport into activity.—Once a Week.

VICTORIA CARBOLIC SALVE is a wonderful healing compound for cuts, wounds, bruises, burns, scalds, boils, piles, pimples, &c. dw

To the Public.

Our aim has been and will continue to be to give the consumer the highest grade of goods consistent with prices charged. We do not manufacture so-called cheap cigars; fine goods are our specialty. Purchasing only the best of tobacco, irrespective of price, we are in a position to manufacture as fine a class of goods as can be obtained anywhere; Havana not excepted. Insist upon having our well known brands, "Cable," "El Padre" "Mango," and "Madre E Hijo," and thereby obtain full value for your money. The immense sums expended in introducing our goods, the exceptionally fine quality of tobacco used in their manufacture, and the labor of nearly half a century should convince the most skeptical that the quality of same will not be allowed to deteriorate. m

I do not believe that Ayer's Sarsaparilla has an equal as a remedy for Scrofulous Humors. It is pleasant to take, gives strength and vigor to the body, and produces a more permanent, lasting, result than any medicine I ever used.—E. Haines, No. Lindale, O.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, it will thoroughly eradicate this terrible disease.—W. F. Fowler, M. D., Greenville, Tenn.

For forty years I have suffered with Erysipelas. I have tried all sorts of remedies for my complaint, but found no relief until I commenced using Ayer's Sarsaparilla. After taking ten bottles of this medicine I am completely cured.—Mary C. Amesbury, Rockport, Me.

I have suffered, for years, from Catarrh, which was so severe that it destroyed my appetite and weakened my system. After trying other remedies, and getting no relief, I began to take Ayer's Sarsaparilla, and, in a few months, was cured.—Susan L. Cook, 909 Albany st., Boston Highlands, Mass.

Ayer's Sarsaparilla is superior to any blood purifier that I have ever tried. I have taken it for Scrofula, Canker, and Salt-Rheum, and received much benefit from it. It is good, also, for a weak stomach.—Mille Jane Peirce, South Bradford, Mass.

SPLENDID BUILDING SITES

I have placed on the market

That Desirable and Well Situated Property

in the western part of the Town, and offer it in lots as per plan annexed. This affords a splendid opportunity to secure a location for your home in a rapidly improving and in every respect the best part of the town. The properties are situated on Cedar and Hatton streets and within a stone's throw of the West Ward School and a short distance of the principal Churches and the Hamilton Co'y. Works.

"KRIN COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had as a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and merchants should inspect this property as it offers the best sites available and convenient to the business part of the town.

His ankle was twisted and bent under his weight, the cords and sinews being badly torn, but no bones were broken. The joint appeared to be wrenched loose. Dr. Goldsmith is in attendance.

The Apple Crop.

A Peterborough correspondent of the Bobcaygeon *Independent* writes:—The apple crop of America is reported short, and several Yankee buyers are around here now purchasing all they can get and shipping them to New York. They pay $1.50 a barrel on the ground.

About Situations.

Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. No other institution can show as good a record as this. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

Unruly Boys.

Two boys, Fred Shearer and Willie Dwyer, were charged before the police magistrate this morning with doing malicious injury to property. They, or at least some of their chums, had been cutting up pranks in advance of Hallowe'en, at the residence of Mr. Jas. McComb, pulling pickets off the fence and besmearing the house with tomatoes. Both lads denied the latter charge, though Dwyer admitted pulling off the pickets. In view of his good character the magistrate allowed both him and Shearer to go, on the former promising to repair the fence. The boys had better be more careful to draw the line between fun and mischief in future.

They Will Feast.

The first meeting of the local centre of Trinity University Convocation was held on Saturday afternoon in the rooms at 136 Hunter street. Judge Weller took the chair. The business of the meeting was to elect delegates to attend the annual convocation and dinner this week. Rev. J. C. Davidson and Hon. R. Hamilton were elected. They will attend service in the college chapel to-night and the business meeting to-morrow afternoon, after which a very important part of the proceedings takes place, to wit, the dinner. Trinity has a reputation for hospitality and the delegates will doubtless have a good time.

The "Reporter" Removed.

The building recently occupied by the Millbrook *Reporter*, which has been in course of removal during the past two weeks, was with very little damaged placed on posts on Tupper street last Saturday, says our exchange. Mr. Allan McCarty, of Peterborough, who successfully carried out this difficult job, deserves great praise for his perseverance, and ultimate success in spite of many obstacles. The building was very heavy, and could not have been in worse position at the commencement, but Mr. McCarty is a man of brains, as well as muscle, and manfully undertook a contract that others were afraid to touch. He earned his money and he got it as soon as his work was finished.

Deepening the Channel.

The rock cutting above the Locks at Fenelon Falls into Cameron Lake was finished on Wednesday and a most satisfactory job was completed. The work was by no means easy and required considerable skill and management. In the first place a coffer dam 925 feet long had to be constructed, and kept in position. The cutting was 400 feet in length 63 feet wide at the top, and an average of two feet of stone had to be taken out to bring the level down to the mitre sill of the Locks. About forty men were engaged and the work has been energetically pushed by the foreman of the works, Mr. Wm. Kennedy, the Superintendent Engineer, Mr. R. B. Rogers, also giving it his frequent attention.

Dominion Illustrated.

The *Dominion Illustrated* for Oct. 26th is largely devoted to the provinces of Old Canada. Lake Memphremagog is well illustrated by four fine engravings—Mrs. Clark Murray furnishing the descriptive matter. The visit of the Connecticut Regiment gives occasion for portraits of Governor Bulkeley and Col. Cone. Portraits of Father Labarat, founder of Ottawa University, whose statue was recently unveiled, and of the late Judge Olivier, whose last act was to participate in the ceremonies on that occasion, are also features in the number. The *Dominion Illustrated* is published by the Dominion Illustrated Publishing Company, Mr. G. E. Desbarats, managing director. Subscription, $4. Address, 73 St. James street, Montreal. For sale at the Peterborough Bookstore.

A Small Runaway.

A runaway accident occurred Saturday evening which was accompanied by a chapter of mishaps, but none fortunately serious. Mr. Crowley and wife, from Hales' Bridge, were leaving town about six o'clock when their team was startled by the cracking of a whip in a passing vehicle. Mr. Crowley was thrown out and one of the wheels passed over his arm, Mrs. Crowley jumped and escaped injury, and a Mr. Flynn, who was in the waggon, was thrown backward into the bottom of the box. The team ran into McDonald's slab wagon and broke the axle of the latter by the collision, but before they could do any more damage the runaways were stopped by Mr. Wm. Jackson. The wagon was not damaged, but the horses jumped through the harness and broke it badly.

Dedication of St. Andrew's Hall.

On Saturday evening the committee of the St. Andrew's Society, who were appointed to arrange for the formal dedication of their new hall, reported. They recommended that the dedication should take place on the evening of Thanksgiving Day, Thursday, November 7th, instead of on Hallowe'en, as at first contemplated. The Committee very courteously advised this change in order to avoid conflicting with the Hallowe'en festival to be given by the ladies of St. Andrew's church. It was also decided that the dedication should be made the occasion for allowing the members an opportunity of inviting as their guests as many of their intimate friends as their new hall would accommodate. A choice musical and literary entertainment will be provided, and refreshments served during the evening. The tickets will be limited—something Scotchmen don't like to do—but as their hall is not large enough to entertain their host of friends they have no alternative but to limit the invitations. Committees were struck to look after the details of the different duties in connection with the occasion, and the energetic action displayed by the members at this meeting on Saturday indicates a successful event in the history of this real live national and

The Fire By-Law.

To the Editor of the Examiner:

SIR,—In the Saturday edition of the EXAMINER, attention is drawn to the alleged neglect of duty by our inspector of buildings erected within that part of the town known as the "fire limits." If it is a fact, as stated, that the council delegated to Mr. Pope the duty of seeing that the regulations fixed by the by-law were enforced, the council has been much deceived, for never in the history of the town, since we had a fire by-law, have there been more flagrant breaches of it than during the past season; and, as a good means of exposing derelictions of the kind, I would respectfully suggest that our newspapers would correctly state the character of new buildings put up during the season, and not call the most flimsy structures "solid brick." Take a couple of instances of what the inspector goes blind on. A new terrace, now well advanced to completion, near the corner of Aylmer and Murray streets, of size about 100 feet by 40, two stories high, with mansard, has two end walls and the front of brick, but the west wall of 100 feet and six kitchens, all of wood, and between any two of the tenements, no fire wall. The whole structure forms a pretty big lumber yard, and in the position it occupies, with a westerly wind, and no fire would endanger the business part of the town. If Mr. Pope does not move in this, does the the council intend to stand idly by, disregard their own by law, the danger to the surrounding owners and the main part of the town? If the charge is laid upon the Chief of Police, I imagine he will not shirk the duty of prosecuting the owner of the above, or of that other wooden building going up in rear of Howden's butcher shop on George street, not to mention many others of the same class within the limits.

When some two years ago the fire brigade had been brought to a higher state of efficiency than every before, and the town, especially the more valuable part, had been supplied with hydrants from the water mains for fire protection and the fire limits extended, an application was made to the fire insurance companies to reduce their rates. They complied with the request and many thousands of dollars in premiums have thereby been yearly saved to property owners, thus justifying the very large expenditure in this respect by the town, and the large increase in taxation caused by it. But the fat is going into the fire (I hope valuable property will not follow it) through neglect to arraign the law breakers.

The fire companies have correct charts of the town, on which the buildings and their character are delineated, and we shall soon find them again increasing their rates to the old figures, because of the non-enforcement of the salutary provisions of the by-law.

Yours,
P. B. P.

Church Opening.

The New Methodist Church Bridgenorth Dedicated — The Sunday Services — Sketch of the New Church—The Ladies Share.

On Sunday the new Methodist church was dedicated to Divine worship, and the entire services in connection therewith were impressive and edifying. There were large congregations at all the services. In the morning at 10 a.m., Rev. N. Burwash, S.T.D., Chancellor of Victoria University and President of the Bay of Quinte Conference, preached a powerful and impressive dedicatory sermon. This was followed by the usual dedicatory ceremony, conducted by Rev. Dr. Burwash. At 2.30 p.m. a mass meeting of the children was held, the latter supplying music and addresses being delivered by Rev. Dr. Burwash and Rev. Messrs. Huff, Johnston and Coon. In the evening the concluding sermon of the dedicatory series was delivered by Rev. Chas. H. Coon. The services throughout were gratifyingly successful.

It will not be out of place to advert to the flourishing condition of this charge under its present pastorate, and a large share of the success that has attended his ministrations and labors is due the members, and especially the ladies. The Ladies Aid Society since the first of last July, have provided by their efforts over $200, which has been devoted to the furnishing of the parsonage.

Mention must also be made of the handsome gift of a pulpit Bible presented by M. S. Dean Esq., Bridgenorth. It is a beautiful volume, the new testament portion containing both the text of the old and revised versions printed in parallel columns. This gift is all the more appreciated as Mr. Dean is not a member of the Methodists but of the English church. The Bible was procured and lettered in gilt at the Peterborough Bookstore.

The old Methodist church in Bridgenorth is situated in a sombre pine grove close to the shores of the lake in the western part of the village. It was dedicated on July 18th, 1858. Since that time it has well served its purpose till within two years, when the increase of the congregation enforced attention to the problem of providing a more commodious place of worship. Last winter Rev. F. Johnston and Rev. C. H. Coon interested themselves in the project, subscription lists were opened, and sufficient sums were promised to warrant the erection of a new church.

Last conference a new circuit was established, with Rev. D. S. Houck as first pastor, and the result of his energy and the active co-operation of the members of the circuit has resulted in the new building, which was formally dedicated on Sunday, Oct. 27th. The new church is situated on the same street as the school house, and beyond it, occupying a commanding situation. The building, which is of red brick, is 33x46 feet in area, with choir alcove 10x14, in rear of the pulpit. There is a lecture room in the basement. The side walls of the auditorium are 16 feet in height, but the ceiling extends, in the middle, to the roof a distance of 21 feet. The ceiling is covered with wood, painted in cherry, with darker tinted trimmings. The planks of the woodwork of the ceiling are laid at different angles, and the general effect is very fine. The seating of the church is also in cherry, with iron seat ends. These were furnished by Mr. J. D. Baptie. Each pew is also provided with a sliding seat. The pulpit is a new departure. It consists of a seven inch pedestal, surmounted by a walnut top, and can be raised or lowered to suit the convenience of the preacher. A pulpit sofa is also provided, presented by Mr. A. Clegg.

The windows are of frosted glass, with a border of stained glass. The edifice is heated by hot air furnaces put in by Mr. Geo. Hutchinson. The organ in use in the old church is utilized for the present, and Miss Udy is the organist. The church grounds are about an acre in extent, and are provided with sufficient sheds for the accommodation of the horses and vehicles of worshippers.

To-night the opening tea will take place. Supper will be served in the lecture room from 5 to 7.30, after which a platform meeting will be held in the church, during which addresses will be delived by Rev. Messrs. M. L. Pearson, S. J. Shorey, J. B. Huff, F. Johnston, C. H. Coon and others. Music will be provided by the choir and the Y. M. C. A. band.

Ashburnham Brevities.

Mr. John Crowe, of the assistant manager's office of the G.T.R., Belleville, spent Sunday in town.

St. Luke's Young Men's Guild meets this week on Thursday evening at the rectory.

A very painful accident happened Bertha, youngest daughter of Mr. H. Bennett. She, with some other small girls, was playing in the woodshed of a neighbour, when one of them picked up the axe and began hacking at a piece of wood. Bertha came in the way and was struck with the edge of the axe on the skull. Fortunately the axe was very blunt, or she might have been killed. As it is, she received a very painful wound, a piece of the bone having been chipped off. She is doing well and is out of any danger.

The Rev. J. W. McCleary preached two sermons Sunday on Sunday school work from the text, "Suffer the Little Children to come unto me." The sermon in the morning was addressed more particularly to the children and teachers, and that of the evening to the parents. They were both very eloquent sermons, and no doubt will have their good effect in arousing parents to the importance of training their children in the right way and in encouraging the teachers and scholars to renewed efforts in their good work.

Church Chimes.

His Lordship Bishop O'Connor dedicated the new Roman Catholic church at Wooler Sunday.

The young people heard some stern but wholesome remarks last night in St. John's on the sin of dishonoring their parents.

On Sunday, Nov. 9th, Rev. Thos. Manning, of Orillia, will preach in the Charlotte street church.

Rev. Chancellor Burwash, of Victoria University, took part in the closing devotional exercises at the Charlotte street church Sunday night.

At St. Paul's church Sunday evening a specially prepared anthem was rendered by the choir. Miss Sophie Cameron took the solo in admirable voice.

"Over six hundred persons have sought the Lord within the past few weeks," was the announcement of Rev. Mr. Hunter to his congregation at Kingston Friday evening. After the services over sixty more went forward, among them young men of position an influence.

The Barrie *Gazette* has been "informed from a pretty reliable source that the Roman Catholic Diocese of Toronto, likewise of Peterborough, have grown to such unwieldly proportions that a new diocese will be formed from portions of the above dioceses, to be known as the Barrie diocese. The members of the church there feel certain that the change will take place very soon." With reference to the above, it might be stated that nothing is known of it at the Cathedral here. The news was as much a surprise at the episcopal headquarters as to the general public.

A BOY CHOIR.

Considerable interest was felt at St. John's yesterday, among the few who were in the secret as to the result of the introduction of a boy choir into the children's service in the afternoon. Two months ago Rev. J. C. Davidson began holding these services every last Sunday in the month, and it was felt that the service might be made much more bright and attractive if it had a choir to lead the singing. From the start it was resolved to confine the membership to male voices. For several weeks past a dozen boys and a contingent of young men from the Bible class have been practising, and they have certainly made great progress in that short time. Judging from the success of the rehearsals no alarm need have been felt, but the promoters were naturally anxious lest, when the boys appeared in public and with no experienced voices to support them in case of a break down, they should come to grief. However, all went well, and indeed exceeded what was hoped for. The service was said by the Rev. J. C. Davidson, and Rev. C. B. Kenrick (by whom the boys were taught) presided at the organ. The music chosen was of the simplest character, but taken from the compositions of first rate musicians only. It was heartily joined in by the large congregation of children and their friends. Mr. Davidson preached or rather addressed the children catechetically, questioning them and making them answer, and frequently leaving the pulpit and walking about among them while speaking. It was a thoroughly hearty and enjoyable service and must have been an object lesson to those present enforcing Mr. Davidson's earnest remarks on "How to worship God."

Y. M. C. A. Notes.

It is very gratifying to see the way our short course of entertainments is being taken up by our citizens. The plan for seats is filling very rapidly; there are a few seats still open. Those who really desire to enjoy first-class entertainments at a nominal cost, should call at Schofield's drug store and secure them at once.

Our Anniversary will be held (D.V.) on Thursday evening, Nov. 21st, in the Baptist church, when N. W. Hoyles, Esq. Q.C., Toronto, and others will deliver addresses. Special music will be rendered by our band and other local talent.

CLOTHIERS AND FURNISHERS,
399 George Street, Peterborough

Land, sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

Hellenic Festivities.

ATHENS, Oct. 29.—After the ceremony of kissing the bride's hand at the Palace yesterday morning the Duke of Sparta and his wife drove through the still decorated streets which were thronged with people. Upon returning to the bridal residence they were received by the King who conducted them to a balcony to acknowledge the cheers of the crowd. Last night the city was again brilliantly illuminated.

Empress Frederick accompanied the Prince of Wales and his sons on the yacht Osborne as far as Salamis. The yacht was escorted by the British squadron and was saluted by all the foreign vessels in the harbor. The Prince of Wales and the Princess Victor and George proceeded for Egypt.

The Kaiser Writes from Athens

BERLIN, Oct. 29.—The North German Gazette says Emperor William on his arrival at Athens sent the following despatch to Prince Bismarck: "I have arrived at glorious old Athens after a voyage of intoxicating beauty. After a splendid reception from princes and people your telegram was my first greeting from home. Hearty thanks for it. My first word back to the Fatherland is a salutation to you sent from the City of Pericles, from the pillars of the Parthenon, the sublime aspect of which deeply impresses me."

Failed to Agree.

DUBLIN, Oct. 29.—The jury in the case of Gallagher, charged with being implicated in the murder of Police Inspector Martin at Gweedore, failed to agree upon a verdict.

Fatal Steamship Explosion.

LONDON, Oct. 29.—The General Transatlantic Line steamer Ville de Brest burst her boiler in Tunis Bay. Five persons were killed by the explosion.

CALCUTTA, Oct. 29.—In the railway accident at Habras near Agra yesterday fifteen persons were killed and forty injured.

The Duke of Edinburgh's Illness.

LONDON, Oct. 29.—The illness of the Duke of Edinburgh, which prevented his attending the funeral of King Lois Saturday, is ascribed to a fainting fit experienced while visiting King Carlos. When he was attacked he fell to the floor bruising his face badly The Duke has sufficiently recovered to take his departure and he paid a farewell visit to King Carlos yesterday. The bruises on his face are fast disappearing.

Burglary at London (Ont.) Loss.

LONDON, Oct. 29.—While the family were at church Sunday evening a burglar broke into Walter Nichols' residence on the corner of Princess and Prospect-avenues and thoroughly ransacked the house. A gold watch belonging to Miss Nichols is missing besides some other trinkets and a cash box belonging to Mr. Kerr of the Bank of Montreal, who rooms at the house, was broken open and the contents abstracted. Although there is no certain clue to the perpetrator there are strong suspicions of his identity. Entrance was gained through a window which had not been fastened down. H. Matthewson's house, which was robbed in a similar way the Sunday before, is only a couple of blocks away and it is probable the same thief executed both robberies.

After the Opium Smugglers.

SAULT STE. MARIE, Mich. Oct. 29.—Opium smuggling has been carried on at this point for the past six months on an extensive scale, the smugglers bringing the drug from Vancouver and working it across the river in small boats. W. L. Baley, United States customs special detective, has arrived here to assist the local officers in arresting the parties implicated, of whom there are quite a number. Some of the gang are now at Port Huron waiting for a chance to smuggle across from Sarnia $2000 worth which they have lately imported and are going to sell to Chicago dealers.

Twenty Lynchers Jailed.

LEXINGTON, N.C., Oct. 29.—About two weeks ago one Berrier killed his mother-in-law here and was lynched. Governor Fowler urged Solicitor Long to discover the lynchers. Long made an affidavit on which twenty lynchers have been arrested and confined under strong guard. Some of the ringleaders have fled. Much excitement prevails here.

Leayman's Brief Glimpse of Freedom.

PORT HURON, Mich., Oct. 29.—Charles Leayman, who was sent to Ionia prison last spring for 18 months for forgery, escaped last week and walked back to his home in Wales township, this county. He arrived there Saturday, was rearrested within an hour and locked in jail.

Hon. James Turner's Will—Alleged Mismanagement.

HAMILTON, Oct. 29.—The will of the late Hon. James Turner has been entered for probate. The estate is valued at $177,000, exclusive of $16,000 life insurance which goes to Mrs. Turner. The household furniture, etc., is bequeathed to Mrs. Turner and the residue of the estate is left in trust to be divided as follows: One-quarter to Mrs. Turner and the other three quarters equally among the children.

Mrs. Evans, matron of the Children's Home, who was seriously injured in the St. George railway accident on Feb. 28, died yesterday morning. She was a sister-in-law of Senator Sanford. Mrs. Evans' injuries consisted of several severe wounds about the head and some painful scalds. She never rallied from the shock to the nervous system, and her death was caused by the injuries received. The deceased leaves four children.

The air is full of rumors about bad management of the City Hospital. Charges are made by members of the medical profession who have no connection with the institution setting out that certain members of the Hospital Board have been abusing their position as members of the Board; charging patients for treatment received within the hospital; that due care is not exercised in the management of contagious diseases; that patients do not get their meals served decently or properly; that the nurses are squabbling and doing their work inefficiently; that certain members of the Board "ran" the institution to suit themselves, paying no heed to the wishes of others. One point upon which all parties are agreed is this, that a thorough investigation is urgently demanded.

A report was current in authoritative circles yesterday that Mr. C. Stiff, local superintendent of the Grand Trunk Railway had been promoted to the position of general freight agent of the road with headquarters in Montreal. This position was formerly held by the late T. Tandy.

The latest product of the city water pipes is a lizard about a foot long and an inch or so wide. It was discovered by a man from Leitch & Turnbull's, who was sent to Fisher's at the corner of Napier and Hess-street, yesterday to remove some obstacle lodged in the pipe which feeds their water meter. The obstruction was the lizard.

On Saturday evening W. C. Barnes received from the postoffice authorities the $8 which he had lost through the disappearance of the registered letter, reference to which was made in yesterday's dispatches.

TRADE AND TRAFFIC.

Leading Features of the Grain and Produce Markets at Home and Abroad.

TORONTO, Oct. 29.—The sales of grain on the streets yesterday were 200 bushels wheat at 80 to 85c for red, fall and spring, and 65 to 70c for goose; 3000 bushels barley at 43 to 55c; 100 bushels peas at 58 to 64c, and 200 bushels oats at 32½ to 33½c.

Small receipts and a fair demand sent the price of hay up again. About fifteen loads sold at $12.50 to $14 for timothy and $7 to $9 for clover. Three loads of straw sold at $12 to $13 and two loads of loose at $7 and $8.

BREADSTUFFS.

Wheat—Almost no wheat is moving, and dealers complain that all cars are being used to move immense quantities of No. 3 barley. Quotations: No. 2 red and fall 82c on the Northern; No. 2 spring 83c on the Midland; No. 1 Manitoba 96 and 97c here.

Barley is being stored in large quantities. Outside, No. 3 extra, 35c; No. 2 40c; No. 2 extra, 45c.

Oats—Mixed offering outside at 26c.

PRODUCE.

Butter is quoted at 18 to 20c for rolls, 17 to 19c for tubs, eggs 20 to 22c, potatoes 75c per bag, apples $1.50 to $3, chickens 60 to 65c per pair, geese 60 to 80c per pair, ducks 8 to 10c per lb, turkeys 10 to 12c per lb.

LIVERPOOL MARKETS.

Liverpool reports: Wheat, firm; demand poor; holders offer moderately. Corn quiet, demand poor. Spring wheat, 7s 04d to 7s 1½d; red winter, 6s 9d to 6s 10d; No. 1 Cal., 7s 2½d to 7s 3½d. BEERBOHM'S REPORT.

Beerbohm reports: Floating cargoes—Wheat and corn nil. Cargoes on passage—Wheat and corn, firm, but not active. Mark Lane—Wheat and corn, steady; flour, firm. French country markets mostly turn cheaper. Liverpool—Spot wheat quiet and steady; corn, inactive; corn, 4s 1½d, ½ cheaper.

CHEESE MARKETS.

Buffalo reports: 4100 boxes of cheese were offered yesterday, 1400 Cloversfield and 1000 Springville sold at 10 1-4, 1100 boxes of Marshfield and 600 boxes Johnsonburg were offered at 10 1-4 but were not sold up to close of business.

Little Falls reports: The cheese market ruled pretty dull and slow with prices about ½c lower than a week ago. Transactions: 2 lots at 9c, 41 lots at 9 1-4c, 44 lots at 9 1-2c, 2 lots at 10c, 8 lots consigned; total 5455 boxes. Farm dairy cheese—There were sales of 975 boxes at 9 1-2c to 10 1-4c, most going at 9 3-4c. There were sales of 44 packages farm dairy butter at 20 to 22c.

Utica reports: The cheese market yesterday was not particularly active. There was an advance of 1-8 c. in price, but although it was entirely welcome it failed to create anything like a boom. About all of the September stock was cleared out and most of the offerings were of this month's make. Following are the transactions: 2 lots, 124 boxes, 9½; 51 lots, 4461 boxes, 9½; 33 lots, 2797 boxes, 9½; 8 lots, 736 boxes, 9½; 32 lots, [illegible] boxes, 10; 1 lot, 120 boxes, 10½; 9 lots, 832 boxes, on commission; total 136 lots, 11,643 boxes, ruling price 9½. Transactions same time last year 10,918 boxes, ruling 9½.

Sold to the English Syndicate.

MINNEAPOLIS, Oct. 29.—The recent report of the C. C. Washburn mills having been sold is followed by the announcement that the sale of the Pillsbury mills and also of the Washburn mills is about to be consummated. It is said the option on the Pillsbury mills and elevators calls for $5,200,000 and that the complete transfer of the Pillsbury business will take place Nov. 1. The purchasers are the English Syndicate heretofore mentioned. J. F. Pillsbury will retain an interest in the mills. C. A. Pillsbury declines to talk on the subject.

Killed by a Falling Tree.

BONCATORON, Oct. 29.—A young man named Elisha Johnston was killed yesterday morning while engaged in lumbering in Harvey. His brother Elayah had a tree at the point of falling and shouted to Elisha to look out. The latter replied, "What is the use of spouting before the tree begins to fall?" The tree fell, striking against another and broke, part of it coming back and striking Elisha on the head killing him instantly.

TOPICS FROM TORONTO.

THREE CONVICTS FLOGGED AT THE CENTRAL PRISON.

The West End Church Scandal—Taylor Sues Johnston for $5000 Damages—Death of Hon. Alex. Morris.

TORONTO, Oct. 29.—On Oct. 3 Patrick Sheehy, William Leader and William Turnbull were convicted by Judge Drew of an indecent assault on Elizabeth Richardson at Guelph on Sept. 14. The sentence on each was imprisonment for a year and 360 days at hard labor and to be thrice whipped with the cat in the presence of the jail surgeon. The first of these whippings was inflicted yesterday morning at the Central Prison shortly before noon in the presence of the warden, deputy warden and surgeon. Turnbull, a small man aged 25, took his instalment of ten strokes very badly, screaming at every cut. Leader, a much larger man, aged 31, winced and groaned, but otherwise took his punishment well. Sheedy, the only married man of the three, apparently suffered more than either of the others, and the skin was broken in his case, and his case only. All three of the men are skilled mechanics, and fairly well educated.

The special committee of the council regates and protection at level crossings within the city limits yesterday met representatives of the two railway companies—the C. P. R. and the G. T. R. An amicable arrangement was entered into whereby the railways will erect gates at the places most needed, the city to pay part of the expense.

William Wane admitted stealing $174 of his father's money and skipping to Port Huron, where he was arrested. Most of the money was recovered. The father pleaded on behalf of the boy, but the boy laughed in his face and he was sent down for fifty days.

Hon. Alex. Morris, ex-Lieut.-Governor of Manitoba, and ex-member of the Legislature for East Toronto, died at his residence on Jarvis street at 9 o'clock yesterday morning, from a malarial fever which he contracted in Muskoka. He was 68 years old, and, except in church matters and those institutions with which his name was identified for many years, has not been much before the public since his retirement from Parliamentary life. His brother, John Morris, Q.C., of Montreal, was at his bedside when he died. In politics Mr. Morris was a Conservative.

Albert W. Taylor, father of the girl Emma Taylor, has caused a writ to be issued for $5000 damages against W. F. Johnston, of the Massey Manufacturing Company, for the seduction of plaintiff's daughter. The Euclid-avenue church court reached a verdict last night on Johnston's case but refused to divulge it to the press.

Coroner Johnston held an inquest at the morgue yesterday afternoon on the body of David McLearie, who was found dead on Sunday at the foot of York-street. The jury returned a verdict of suicide while suffering from the effects of liquor. The body was sent to Paris, Ont., for burial.

Chief Arthur Re-Elected.

DENVER, Col., Oct. 29.—The Brotherhood of Engineers' convention yesterday re-elected Chief Arthur. On the first formal ballot he received 351 votes out of 416, Vrooman of North Platte 61, T. B. Fellows of Mississippi 3.

The great change in Arthur's favor in the feeling of the delegates is supposed to be the result of the recent trial and censure of Grand Officer Cavener of Chicago. Third Grand Engineer Joseph Sprague of Canada was re-elected unanimously. Nominations were then made for Second Assistant Grand Engineer. Hendrick of Pennsylvania and Hayes of California were the favorites, but after six ballots had been taken without result the convention adjourned until to-day.

Despondent from Illness.

ST. LOUIS, Oct. 29.—Oliver Garrison, one of the oldest and most prominent of St. Louis' citizens, committed suicide yesterday afternoon in Forest Park by shooting himself through the head. For sometime he has suffered from kidney trouble and during the past four years had not attempted to attend to business. Despondency at his incurable ailment is undoubtedly the cause of his suicide.

Preferred Not to Suffer.

CLAREMONT, N.H., Oct. 29.—Caleb Dinsmore, aged 75, committed suicide yesterday by placing the muzzle of a gun to his eye and firing it with a cane. He left a note saying he must soon die from cancer and preferred not to suffer. He made arrangements for his funeral and laid out a suit of clothes in which he wanted to be buried.

A Woolen Mill Burnt.

BINGHAMPTON, Oct. 29.—On Saturday evening about 8 o'clock fire was discovered in the dye house of William Pearson's woolen mills. The building and the machinery together with a large quantity of manufactured goods and about 3000 pounds of wool were destroyed. The origin of the fire is unknown. The loss is about $2200 insurance $1000.

The Harvey Murder Trial.

GUELPH, Oct. 29.—As Judge Street did not arrive here until 3 p.m., yesterday the fall assizes did not open until after that hour, consequently very little business was done. The Harvey murder trial is not likely to commence until Thursday.

The Ellis Contempt Case.

OTTAWA, Oct. 29.—In the Supreme Court yesterday the appeal of John V. Ellis, M.P., from the judgment of the New Brunswick Court finding him guilty of contempt of court was argued. Judgment was reserved.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is absundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

JOHN HACKETT

HE RAN TO HIS DEATH.

HOW CRONIN WAS LURED TO THE FATAL COTTAGE.

Mrs. Conklin's Story of the Messenger Who Drove the White Horse—Winnipeg Witnesses Wanted.

CHICAGO, Oct. 25.—In the Cronin trial yesterday Mrs. Conklin, at whose house Dr. Cronin last lived, told the story of how the doctor was called away from her house on the night of May 4. She said that at 7.20 p.m. a stranger, who seemed nervous and excited, rang the bell and when she opened the door inquired for Dr. Cronin. He seemed reluctant to enter but finally did so when told that the doctor was engaged. The stranger then took a seat in the waiting-room. When Dr. Cronin came out of his office the man advanced and said:

"Dr. Cronin, you are wanted to attend a man who has been hurt at O'Sullivan's ice office."

The doctor made a remark which witness did not hear. At that moment the man drew a card from his pocket and presented it to the doctor. Doctor Cronin took the card and said:

"Oh! Yes. What is the nature of the accident?"

He said: "A man has been run over by a wagon."

The doctor said: "I will be with you soon," or something to that effect. The man sat down again on the edge of a chair and the doctor turned, laying the card on the mantel piece. The man said O'Sullivan was out of town and left word that Dr. Cronin was to attend his men. Dr. Cronin ran to his private room and gathered together some bandages and cotton batting. He brought them out with his surgical case and a case of splints. Then drawing on his coat as quickly as possible he left, running out, carrying these things and the case in his arms. The two went hurriedly out of the house as fast as they could and did not even shut the door. Witness heard them running down stairs. Witness went to a window and saw a buggy with a white horse attached standing before the door. Dr. Cronin and the man who called for him got into the buggy which was driven northward.

Mrs. Conklin gave a description of the man who came for the doctor. On the day following Dr. Cronin's disappearance witness and her husband discovered the card which the man had brought, that of O'Sullivan the iceman.

Mrs. Conklin's cross-examination, which was conducted at great length by Mr. Forrest, brought out nothing of importance. It lasted until late in the afternoon, but the witness' statements on direct examination were not materially shaken. In reply to a question where Cronin kept his money, indicating a possible defence of murder for purposes of robbery, Mrs. Conklin named the bank in which the doctor kept his funds and said she was sure he had very little with him on the night of the murder because he never carried much money about his person.

Charles W. Beck, a reporter, testified to Mrs. Conklin's identification of the white horse.

Miss Sarah McNeary, who was in Dr. Cronin's reception room when the man came for him with the white horse, described that individual as appearing very nervous and with a piercing disconcerting stare which he fixed upon the witness. Her description of the man, the color of his moustache, of his coat, etc., accorded closely with that given by Mrs. Conklin.

Dr. Cronin's brother from Arkansas, the next witness, identified the Lake View corpse as that of his brother.

Frank Scanlan gave evidence as to seeing Dr. Cronin drive off from his office in the white horse rig.

T. T. Conklin, the saloon keeper with whom Cronin resided, was recalled by the State. He testified to starting out immediately after breakfast the first morning of Cronin's absence to search for the doctor. At O'Sullivan's house the iceman was seen and denied having sent for Cronin or that any of his men had been hurt. Conklin then went to police headquarters, proceeding afterward to the East Chicago-avenue police station. Capt. Schaack at the station thought evening time enough for alarm. Conklin went at once to the Pinkerton's.

Conklin was still on the stand when court adjourned.

Burke's Winnipeg Confession.

WINNIPEG, Oct. 29.—George A. Baker, Assistant State's Attorney of Chicago, arrived here yesterday. It is understood he is here in connection with the confession regarding the Cronin murder alleged to have been made by Burke to his fellow prisoners. Bob Heller, the released prisoner, vigorously asserts that every statement he has made is true. He says Burke, despite his protests that he did not want to be near him, persisted in telling him the details of the plot with its murderous outcome.

One of the three alleged recipients of Burke's confessions has rec ntly gone crazy and another has yet to stand trial for forgery. Heller is the only one available to the prosecution as a witness in Chicago. Baker will try to induce Chief of Police McCree to go to Chicago as a witness.

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

CANADIANS Work Too Hard!

The Result is Sleeplessness, Nervousness and a Broken-Down System, often

Ending in Insanity.

Thousands of overworked business men, wearied brainworkers industrious mechanics, and tried women, in all parts of the Dominion are to-day in a terrible position. Their nerves are weak, digestion poor, head aching, and they cannot sleep, work or live in comfort. This is what fills our Insane Asylums. This is the cause of that terrible Paresis Before it is too late, use Dr. Phelps' wonderful discovery, Paine's Celery Compound. It removes the results of overwork, restores strength, renews vitality, regulates the whole system, and tones up the overworked brain and body. Do not despair, but use this wonderful remedy, and be restored to health and happiness, the same as was Mr. John L. Brodie, of Montreal, who writes: "I have great pleasure in recommending your Paine's Celery Compound. My system was run down and I was not fit for business, could not sleep well at night and was nervous. I commenced taking Paine's Celery Compound and improved immediately. I am now able to transact my business and endure any amount of excitement without bad effect."

Paine's Celery Compound can be purchased at any druggist's for one dollar a bottle. If he should not have it on hand, order direct from WELLS, RICHARDSON & Co., Montreal.

Peterborough and Woodstock.

A Woodstock Alderman Compares the Two Towns—Peterborough Ahead of Its Western Rival—A Favorable Commentary on our Progressive Town.

A few weeks ago Mr. Sawtelle, a town councillor of Woodstock, spent a couple of days in town the guest of Mr. John McKee, and the results of his observations are made known in the following letter to the Woodstock *Sentinel-Review*:—

OTTAWA, Oct. 19—I trust that the simple fact of addressing you from the Capital will not lead your readers to suppose that I am the undiscovered, though widely-notorious "Ottawa liar." I disclaim any aspirations to such distinction, and do not intend to approach the domains of politics, where he has acquired his notoriety. I fact I am not sure that I will say anything to remind you that this is the place where our own and only "Jim Sutherland" immortalized his name, in company with the "noble thirteen."

The object of this letter is to make some reference to the place that has been so often held up to us as the only rival town to Woodstock in Ontario, in growth, beauty and general advancement—Peterborough.

In all my wanderings I never drifted in this direction till now, and could not resist the temptation to drop off at Peterborough to compare notes and form my opinion as to the position of the two great towns. In company with a friend, and with the aid of a good horse, I saw nearly every street, and most of the suburbs, the park, cemetery, waterworks, fire protection facilities, public institutions, manufactories, electric light plant, and very many of its numerous stores and business places. I had the pleasure of an introduction to many of its city fathers and business men. I have therefore considerable data on which to form my opinion and I must honestly admit that Peterborough, to use baseball lore, carries the highest average of points. While admitting this I want to add that with the marvellous advantages possessed it should now have been a city of 15,000 inhabitants, and unless more enterprise is infused into its business circles, Woodstock with its disadvantages will soon surpass it in many points where it is now behind. Peterborough is situated in the heart of a well settled and productive agricultural country. Many of its people are wealthy and able to restrain the grasp of the loan companies and have money to spare for luxuries if so disposed. The country is well supplied with railways and they centre in that lone town. Making a radius of thirty miles, they have only two towns, Port Hope and Lindsay, and a few unimportant villages, thus practically commanding the whole trade of the country; while Woodstock within the same area has to compete against five cities, three enterprising towns and over twenty villages, some of them of considerable importance. In this respect, then, it can be seen that in one instance trade is forced upon a people and in the other it is drawn by the keenest competition. A second great natural advantage is its water privileges. The river Otonabee passes directly through the town, or rather it separates the village of Ashburnham on one side, from Peterborough on the other, and there are practically one town. This river is large and its waters inexhaustible being supplied from a hundred lakes in the north. It is navigable up to the town, and thence northerly in nine miles, has a fall of 180 feet, which would give power for 100 times the extent to which it is now used. The waterworks, the electric light, woollen mills, flour mills, sawmills, in fact nearly all the machinery in the place, is driven by water; millions of logs are floated down the river without cost for transportation, and are cut up by the gang saws at the least possible expense, thus making a trade of great magnitude to the place, besides, producing a cheap quality of fire wood for its own people to burn. This of itself should convince any one that nature has favored this people above measure and they have not used it in the same lavish proportion. Another natural advantage is this: It furnishes an inexhaustible supply of pure water immediately at hand for fire and domestic purposes above the town, and supplies a perfect outlet for sewage below, and to where no complaint can arise in the future as to its becoming a nuisance to other places beyond.

Its locality, as a site for a city, is excellent, sufficiently rolling for drainage, but not enough to be abrupt, while the suburbs are a succession of gently sloping hills clothed occasionally with the rich foliage of evergreen and deciduous trees of great variety.

The streets are regular and at right angles, of a good width and mostly macadamized. Sidewalks are plank and no streets are block paved. There is but one or two sewers. It is intended to adopt a system of sewerage for every street and make all connections before making permanent roads.

The waterworks are owned by a company and supplied by two "Knowles" pumps made at Warren, Massachusetts—have been in use 9 years, and still look like new. The town is so well supplied with water and so few engines are in use that no dividend has been paid. They get $50 per annum for each hydrant for fire protection.

The electric light is owned by a company and also driven by water. It is remarkably steady and brilliant. The town renewed its contract lately for 20 cents a light till 12 o'clock. There are 51 paid by the town and over 100 private are lights besides incandescents. The poles are very high and the light well distributed and, as the trees here are fewer than in Woodstock, the town is better lighted.

Instead of starting two towns and building towards the centre, they began in the centre and built outwards. The consequence is that to-day they have a compact town of three blocks one way and three the other, a noticeable of business buildings nearly all three stories high and a good average, making a fine appearance. The retail stores more than double ours in number and, I think, present a better average. In one very large establishment I found some advances worthy of imitation. The whole block is heated by steam, the elevator driven by waterpower, and the lunch and waiting rooms luxuriously furnished. These ladies wishing a perfect fit may enjoy home pies even without a dread of hunger while waiting for a train or seeking an outside restaurant. The various stores visited were well stocked with the requirements mostly for a country trade, and are kept in fine order.

Among the various manufactories, those which attracted most were the bridge factory and lock factory and mill machinery. The bridge factory has lately erected immense buildings and now have some remarkable machinery for their heavy work. They were then engaged in a large contract which they had secured from a Toronto manufactory, viz: a new iron pipe of over four feet in diameter to bring in water two miles from out in the lake. I told the proprietor that Toronto would be uneasy till they had drawn his factory into their municipal corporation, but he said he was all right in Peterborough.

The lock factory is the only one in the Dominion and about eighty hands are employed. It is a piece of great interest and the work compares favorably with American manufactures.

The mill machinery manufactory is large and still enlarging. It is a common thing for them to supply a single contract of $40,000 for one equipment. Some heavy casting is done there.

Peterborough is ahead of us in public buildings. When I say that they have a new public post office, I need not tell you how they stand in politics. They have a fine court house, but the situation is even better than the building; it is on an elevation in the head of a small town park of about five acres, and is one of the prettiest and best kept parks you have seen anywhere, and it is at the point where I feel the work, by comparison. It is an admission that the council there have shown a higher appreciation of the beautiful than they have in Woodstock. This is humiliating. The same may be said of the cemetery; it is a public one and is large and very beautiful. Another advance is that they now have two hospitals in course of erection, one the gift of a widow, Mrs. Nicholls, at a cost of $40,000, exclusively for Protestants; the other, equally as fine, built by the Catholics, and is to be free to all. I wish I had time to give details on many of these points, but I must be honest to my constituents who sent me to represent them—not in the big house—oh, no, "Jim" has secured that in perpetuity—but all the same, I must be true to my lesser duties in the Baptist convention, of which, and also of the city, I may be able to say something, even if I have to steal the time from the "silent watches."

As a family medicine, Ayer's Pills excel all others. They are suited to every age, and being sugar-coated, are easy to take. Though searching and thorough in effect, they are mild and pleasant in action, and their use is attended with no injurious results.

Just Think!

16 lbs sugar for $1.00; 8 bars electric soap for 25c., 4 lbs raisins only 25c., best roller flour, per 100 lbs., $2.50; all kinds of meats kept in stock, cheap. Those who wish to partake of something very fine in the shape of a cup of tea should try W. J. Morrow's direct importations. Why is it farmers are giving up buying from pedlars and tea men? Simply because they can buy tea from ten to fifteen cents per lb. cheaper from us, as it does not pass through so many hands, owing to us importing direct. We are offering an extra Japan at 25c., a beautiful blend of Black at 40c., and all other lines away down to 5 lbs and 6 lbs for $1.00. W. J. MORROW, 340 Opera House Block, George street. dw

The Mystery Explained.

The mystery of the following inscription on a lead tablet found in the waterworks trenches has been solved:

· · tfy · ouw · antat · ip t · ogou · po · ofte · ago · tmu · atbu · yita · thawl · eyb · rou · te · esto · ro · 2 · 7 · 8 · go · org · est · ro · et.

Dr. Wilson, of the University writes:—'I have examined the inscription with great interest. From internal evidence I should say the plate was deposited about 1854. I regard it as one of the greatest phophecies ever made. It has amply been fulfilled as I can attest from actual trial. The translation reads thus:—

If you want a tip-top cup of tea, you must buy it at the tea store of Hawley Bros.', 378 George street. dw

How to Lace Your Shoes.

Not one person in a thou and laces his shoes correctly. The correct way is to put your foot when you are about to lace your shoe as much as possible in the heel of the shoe. You can do this best by lacing your shoes with the heel of your shoe resting in a chair standing in front of the one you are seated on. Over the instep the lacing should be drawn as tightly as possible. This will hold your foot back in the shoe, giving the toes freedom and preventing their being cramped. Lace about the ankle to suit your comfort.—*New York Truth.*

What Pianos Cost.

One of the most profound mysteries in the history of every day life in America is the cost of a piano. Apparently no two men ever pay the same sum for pianos which are similar in scheduled price and every detail of workmanship, and the manner in which prices are scaled down would astonish the manager of an English dry goods house. Grand pianos, which appear in the catalogue to cost $1,500, can be had at the ware rooms for about $1,200, and, if the purchaser says he is a professional musician, for $100 or $200 less. Then there are enormous discounts for cash, which bring the price down to about $800; and, after this, if the purchaser fights vigilantly, he will, in all likelihood, be able to throw off two or three commissions, so that the price would come to him at $500, or even below that sum. The inference is that there must be a very large profit on pianos when they are sold at the catalogued price—if they ever are. The expenses of piano ware houses in New York should, by all odds, be very great; for nearly all of the most eligible sites of Fifth avenue are occupied by firms of piano makers.

The writer, by the way, recently saw a remarkable product of the skill of piano makers, in the shape of an instrument which was built to harmonize with the music room of a magnificent house which a well known millionaire has just finished on Fifty-seventh street. The room is oval in shape, and so is the piano. The whole room is magnificently fitted out with bass wood, holly and white oak, and these woods were used in the manufacture of the piano case. All of the carvings and decorations of the room, which are exquisite, appeared in miniature on the piano case, and even the stool and legs were similar to the general spirit of the apartment. The cost of the case alone was $3,000. It indicates one way of spending a large income.—Once a Week.

Vinegar Injurious.

It is the general belief that vinegar is wholesome and a necessary adjunct to the diet of man. Occasionally, also, one hears of it being used daily in quite large quantities as a remedy for obesity. As a matter of fact, this acid might well be dispensed with altogether; and, certainly, if used at all, it should be with caution. As for its being efficacious as a flesh reducer, it is about as much so as typhoid fever or any severe disease, for it acts simply as a debilitator, and impoverishes the system. Several cases of death from its use in small glassfuls daily are on record. A little good vinegar is not likely to do any harm, and when rightly used it seems to favor the digestion of certain foods. But, without doubt, as it is generally used it does much more harm than good, and lemon juice would be far better. Even a moderately excessive use of vinegar causes intestinal irregularity, which may show itself by either constipation or diarrhœa, also flatulency, etc. One writer considers it capable of inducing cough, flushing of the head and watery eyes. When used very intemperately, it produces blood changes, which may become immediately dangerous; if not so, the decline in health is but certain. Besides using vinegar with caution, that used should be selected with exceeding care. Vinegar made from apples is very good, but not so good as that made from grapes. The latter is rather more expensive, but the chances are it will eventually be sold as cheap, and largely displace cider vinegar.—Boston Herald.

The Regular Way.

One evening, a few years ago, the late Elijah M. Haines, of Illinois, was called upon to preside at a meeting of lawyers assembled in Springfield for the purpose of considering the best means of passing a bill then pending in the legislature. Mr. Haines, on taking the chair, explained the purpose of the meeting and suggested what he thought would be the best way to insure the bill's passage. Interrupting him, a gentleman in one of the rear seats rose and said:

"By the way, Mr. Chairman, if I may make a suggestion right here"——

"The gentleman's suggestion is a very good one," said the keen chairman.

"How do you know?" asked the gentleman, a little miffed. "I haven't made it yet."

"Oh," replied Mr. Haines, "I thought you said 'buy the way,' and I am sure that is the quickest and easiest means of obtaining a way to pass a bill."—Washington Post.

Better Than Clubbing.

Public school children have a very kindly feeling for the policeman who helps them across crowded New York thoroughfares. And during the summer vacation they do not forget him. The other day two east side youngsters were sent on an errand to the west side, and they came up to the corner of Broadway where Jerry had been on duty when school was in. They were distressed to find another officer on duty there.

"Where's Jerry? Is he sick?" asked the elder of the children.

"No; he's workin' two blocks up Ye kin see him."

They ran up Broadway and into Jerry's arms.

"Oh! we thought you were sick, Jerry, when you were not at the old place."

"O, ye darlints!" exclaimed the policeman with a grateful smile, as he swung up his hand under a horse's nose and thus made a way for the children.—Epoch.

The American Blarney Stone.

Many years ago, at the celebration of the landing of the Pilgrims in New York city, much to Archbishop Hughes' surprise he was invited to be one of the guests, and perhaps to their surprise also he accepted. Among those who spoke on that occasion there was not lacking a sly dab at the church, which forms a part of the proceedings—but all in good fellowship. Finally the archbishop was called upon to respond to a toast, which he did in his usual happy manner, and ended by proposing "Plymouth Rock, the Blarney stone of America." It was received with shouts and cheers, and was the best bit of the evening.—Boston Transcript.

Women Who Make the Best Wives

Members of a Boston debating society have almost come to blows over the question, "What woman make best wives"? Culture was claimed by many to be the first essential, love and fidelity the second, and knowledge of household duties and ability to properly perform them, the third. None of the debaters, however, thought to add that very necessary qualification—health—without which a wife is far from perfection. Dr. Pierce's Favorite Prescription will renew the hue of youth in pale and sallow cheeks, correct irritating uterine diseases, arrest and cure ulceration and inflammation, and infuse new vitality into the wasting body. "Favorite Prescription" is the only medicine for women, sold by druggists, *under a positive guarantee* from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years. a

The Appetite

May be increased, the Digestive organs strengthened, and the Bowels regulated, by taking Ayer's Pills. These Pills are purely vegetable in their composition. They contain neither calomel nor any other dangerous drug, and may be taken with perfect safety by persons of all ages.

I was a great sufferer from Dyspepsia and Constipation. I had no appetite, became greatly debilitated, and was constantly afflicted with Headache and Dizziness. I consulted our family doctor, who prescribed for me, at various times, without affording more than temporary relief. I finally commenced taking Ayer's Pills. In a short time my digestion and appetite

three boxes of Ayer's Pills, and, at the same time dieting myself, I was completely cured. My digestive organs are now in good order, and I am in perfect health.—Philip Lockwood, Topeka, Kans.

Ayer's Pills have benefited me wonderfully. For months I suffered from Indigestion and Headache, was restless at night, and had a bad taste in my mouth every morning. After taking one box of Ayer's Pills, all these troubles disappeared, my food digested well, and my sleep was refreshing.—Henry C. Hemmenway, Rockport, Mass.

in the western part of the Town, and offer it in lots as per plan annexed. This affords a splendid opportunity to secure a location for your home in a rapidly improving and in every respect the best part of the town. The properties are situated on Cedar and Hazlen streets and within a stone's throw of the West Ward School and a short distance of the principal Churches and the Hamilton Co'y. Works.

"ELM COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had at a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and merchants should inspect this property as it offers the best sites available and convenient to the business part of the town.

Wedded at St. Peter's.

A Happy Hymeneal Event This Forenoon—Two Popular Young People United in Marriage.

The wedding of Mr. Geo. Ball, merchant tailor, and Miss Maggie McFadden, daughter of Mr. Jas. McFadden, was celebrated this morning shortly after eight o'clock in St. Peter's Cathedral. The sacred edifice long before the hour appointed contained a large congregation of the many friends and relatives of the contracting couple.

The bridal party drove up to the church about half-past eight o'clock, and as they entered the Cathedral doors the grand strains of the wedding march pealed forth from the organ. The bridesmaid was Miss Kate Navin, and the groom was supported by Mr. Chas. Marty. Both bride and bridesmaid were attired in charming dresses of cream-colored material. Arrived at the altar the ceremony was performed by Rev. Father Radkins, after which nuptial mass was celebrated. Miss Annie Dunn sang in splendid voice Millard's Ave Verum. The wedding party returned to the house of Miss Navin, cousin of the bride, Simcoe street, where dinner was partaken of and a pleasant day spent by a few of the friends of Mr. and Mrs. Ball. The newly married couple will at once take up residence on George street, doing away with the conventional wedding tour. The EXAMINER begs to add its quota to the congratulations showered upon Mr. and Mrs. Ball, whose popularity was shown by the long list of beautiful wedding gifts, including the tokens of esteem from the choir of St. Peter's Cathedral, a handsome silver tea set from the employees of Dolan's clothing establishment to the bride, and a handsome clock to Mr. Ball from his staff of workmen.

Mr. Ball is a rising young business man who has resided in town for a number of years and has made many warm friends. The bride is also a most popular and generally esteemed young lady whose bright disposition and amiability have endeared her to a large circle of friends. May felicity and prosperity ever attend them.

Changed by Request.

A number of ladies who promised to take part in the programme at the Royal Templars concert, has requested the committee to change the date from Friday, Nov. 1st to Thursday, Oct. 31st. Therefore the concert will take place Thursday evening next. Chair to be taken at 8 o'clock.

About Situations.

Of the very large number of students who have graduated from the Peterborough Business College during the present year there is not two per cent. out of lucrative employment. No other institution can show as good a record as this. Those who graduate from this college need have any fear of success because they are trained practically and can take control at once of any position.

Assuming Mammoth Proportions.

It would appear that one of our prosperous firms never daunted with keen city competition embarks into direct importation of fine ales, wines and brandies. A full list can be given intending purchasers by calling on W. J. Morrow, 340 Geo. street, or a look through his mammoth wine cellar will convince. He has also purchased from one firm alone a car load of their celebrated ale as well as handling numerous other brands. Parties requiring special brands of fine liquors should call and examine his mammoth stock before placing their order.

Otonabee Oddfellows.

At a meeting of Otonabee Lodge of Oddfellows last night a committee was appointed to arrange for the anniversary entertainment about December 8th. The entertainment will take the form of a concert and supper, and the committee being a large and capable one, no doubt the forthcoming anniversary will be the most successful in the history of the lodge.

Members of the lodge are reminded of the weekly team practice which takes place Friday evening. All the brethren are requested to be present and assist in the work.

Sons of England.

A regular meeting of Peterborough Lodge No. 64, S.O.E., was held last night. It was largely attended and enthusiastic.

Peterborough and Lansdowne Lodges are taking steps jointly to procure a grand new piano or organ for the lodge room.

At Monday night's meeting of Peterborough Lodge Past President Brundrette delivered an impressive and patriotic address upon "The Rose and Oak of England." Among other things he stated the rose was the emblem of England's beauty and the oak of her solidity. He has just received direct from the old country fine samples of the English rose and oak, and a leaf of the oak was passed around among the brethren in lodge. His address was fully appreciated and loudly applauded.

The Artillery Competition.

In this week's issue of the *Militia Gazette* the general efficiency credits of the field batteries are published. For weeks since the annual practice at Kingston, the 1,400 officers and men of the eighteen field batteries of the Dominion have been anxiously awaiting the publication of the official returns. The firing competition was remarkably close the highest score being, Quebec, 220; Hamilton, 218; "A" battery, Guelph, 217; Ottawa, 217—a difference of three points only in the scores of these four batteries. The efficient competition, as usual, was close, the place of honor being held by "A" battery, first brigade, Guelph, Quebec being within one and one-third points of "A." The complete figures of the Ontario batteries are: "A" battery, first brigade, Guelph, 260.23; Hamilton field battery, 254.47; Kingston field battery, 237.06; "B" battery, first brigade, Guelph, 232.51; Ottawa 226.22; Durham, 221.19; London, 218 30; Toronto, 202.58; Gananoque, 198.43; Welland, 177.75.

The Bridgenorth Church.

The dedicatory entertainment in the Bridgenorth church Monday night was a most successful affair. There were several hundred people present, and all could not be accommodated at once. A number of Peterborough people attended. While the second table was being served in the basement, those who had already tasted were entertained in the church above by addresses and an exhibition of ventriloquism by Rev. Mr. Leitch. The supper needless to say gave entire satisfaction, and reflected the highest credit upon the ladies. The entertainment proper was begun after eight o'clock, Mr. John Hall, of Lakefield, occupying the chair. After an opening hymn and prayer by Rev. M. L. Pearson, the Y.M.C.A. band of Peterborough rendered a musical selection. Addresses were then delivered by Reverend Messrs. Coon and Johnston, followed by more music by the band. Rev. J. B. Hall and Mr. R. R. Hall, of town, then spoke briefly on appropriate subjects, and the Y.M.C.A. glee club rendered a chorus. Rev. M. L. Pearson then came forward and appealed for liberal contributions to assist in wiping off the debt of the church. Rev. Mr. Hosack, pastor, read a financial statement, showing the present subscriptions to have been $1220; the proceeds of the laying of the corner stone $129.19, and subsequent donations by Mr. W. B. Kelly $100; the collections on Sunday 26th and small sums collected $2; estimated value of old church, $100; grand total, $1619.19. Against this there was the total cost of the building, $2731 12. The proceeds of the tea were estimated at $100, leaving a balance still unprovided for of $1,031.93. The entertainment was then brought to a close in the usual manner.

A Happy Hymeneal Event.

Nuptials of Mr. Alex Elliott and Miss Robina Cumming.

An interesting matrimonial event which has been exciting the attention of society for some time past, took place this morning, when Mr. Alex Elliott, merchant, was united in marriage to Miss Robina Cumming—known to her intimate friends as "Bina"—at the residence of her father Mr. Wm. Cumming, at 10 o'clock. The wedding was a very quiet affair, only the family and most intimate friends of the contracting parties being present. The ceremony was performed in the drawing room of the bride's home, corner of Charlotte and Reid streets, by Rev. E. F. Torrance. The bridesmaids were, the sister of the bride, Miss Bessie Cumming, and the niece of the bride, Miss Irene Brignall, of Belleville, while the groom was supported by Mr. H. W. Kent, town and Master Gordon Cumming, of Montreal, nephew of the bride. It being the intention of the bridal couple to take train shortly after the ceremony, the bride was simply attired in a neat brown travelling dress. At the conclusion of the ceremony the wedding party partook of the wedding breakfast and at 11.38 Mr. and Mrs. Elliott took the C. P. R. express for Ottawa and the east on a brief wedding tour, from which they will return in a few days to take up their abode in their elegant and complete new home corner of Gilmour and Park streets. Though the wedding was quiet one, and no general invitations issued, the popularity of both bride and bridegoom was shown by the array of bridal presents which came pouring in; and, by the value of the gifts and their beauty, is seemed as if their donors wished to thus give expression to their high sense of appreciation. Both the newly wedded pair and the family can regard with pride the evidence thus afforded of the great and general respect in which they were held. Both parties are well known in town and for years have enjoyed that popularity and respect, which only personal and social qualities of a high order could evoke. It is no mere hackneyed form of speech to say that their hosts of friends extend to them their warmest congratulations and most ardent wishes for a long life of happiness and prosperity in every relation of the new life upon which they have entered under such auspicious circumstances.

At the young men's meeting Saturday evening the attendance was good; much interest manifested.

Mr. Fred Saunders gave a helpful talk on "The Arm of the Lord"

Mr. R. M. Stuart, Hamilton, and Mr. Burt, Ashburnham, gave good addresses at the gospel and song service Sunday night.

Friends who have not reserved their seats for the Star Course should do so at once. The prospects are very bright for a large audience who are going to have a rare treat in the concert to be given by the Todmorden Hand Bell Ringers and Mr. Edward Stanley, bass soloist.

Plan still open at Schofield's, and to avoid the rush, secure seats at once.

The first successful blood-purifier ever offered to the public was Ayer's Sarsaparilla. Imitators have had their day, but soon abandoned the field, while the demand for this incomparable medicine increases year by year, and was never so great as at present.

The Cheese Market.

The cheese board met a sin to-day, and, though it was confidently expected the buyers and salesmen would come to terms, an adjournment had to be made without any sales of importance being effected. The board was about the same as before, Fenelon Falls having sold in the meantime and withdrawn. In all, 5,942 boxes of September and 3,363 boxes of October cheese were boarded. Liverpool quotations were lower than last week, 51s. There was a good attendance of buyers and salesmen, but bidding was slow and unsatisfactory. Mr. Cook offered 10c. for selections, and Mr. Hodgson the same for farther selections. Mr. Wrighton advanced to 10½c. for September selections, and Mr. Warrington then bid the quarter for the whole September make. Mr. Cluxton offered 10½c. for Warminster and North Smith, and Mr. Hodgson the same for Keene, Central Smith, Cherry Grove, Pine Grove and South Dummer. Mr. Warrington then bid the quarter for the whole Peterborough board, and 10c. for Lindsay section. Mr. Hodgson offered ⅛ for Shearer, and Mr. Cluxton the same for Warminster and North Smith. These offers were refused, and the only sale made was that of Keene to Mr. Warrington for 10¼c. The proceeding offers were refused, as was also one of Mr. Hodgson of 10⅛ for Central Smith, Cherry Grove and South Dummer. The Lindsay men offered to sell for 10½, and subsequently Mr. Cluxton offered 10½ for September and an eighth less for October, but they refused, holding out for the even quarter. The buyers and salesmen appeared to be unable to meet, and the board adjourned.

Literary Notes.

SCRIBNER'S MAGAZINE for November is of the usual sterling brand, full of special interest and general literary attractiveness. Its special article on Africa, is a continuation of a series of valuable contributions to our meagre knowledge of the dark continent. A good idea of the value of this number's contents is offered by the following list of contents:—Emin Pasha, Governor of the Equatorial Provinces. Frontispiece, from a drawing by J. Reich; engraved by A. Hutchings. Where Emin Is, by Colonel H. G. Prout (Baroud Bey) Illustrated by Herbert Denman, J. Reich, M. J. Burns, V. Perard, and W. C. A Correction.

To the Editor of the Examiner:—

Being in Peterborough since Saturday night and over Sunday, I had great pleasure in visiting several of your beautiful churches, the Salvation Army barracks and the nunnery, as well as admiring your lovely town. But I am sorry to say that in printing a letter of mine three weeks ago about you town, published in the *Empire* newspaper, I am made to say by the printer, your town had "five electric lights." That was an absurd mistake. My letter inserted should have read *five* electric lights, for I knew you had many more than five and did not, of course, count them—simply admired them. Some of your citizens spoke to me about this and I told them how it occurred.

Yours truly,

Land,

sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

NEWS OF THE DOMINION.

GUILELESS AGRICULTURALISTS DEFRAUDED.

A Society Wedding at Toronto—A Methodist Church Reformer Found Guilty of Seduction—Fire at Hamilton.

TORONTO, Oct. 30.—Henry Bible, a farmer hailing from Albion, told in the Police Court yesterday how Bruce Thomas defrauded him out of the price of a dressed hog on Tuesday last. The two had negotiated for the hog and shortly after had assisted Bible to sell the remainder of his load. On Queen street east the prisoner entered a store, saying he would get the money to pay for the hog, but Bible saw him no more until the detective arrested him. Other charges of defrauding guileless agriculturists are cropping up against Thomas, and he was remanded, $1500 bail being demanded. It is said he has operated in other cities of Canada.

William E. Hammond, who recently put in a six months' sentence in the Central, appeared in court to answer to a charge of fraud preferred against him by William T. Bear, a dealer in music boxes. Hammond was employed by Bear, and it is alleged that he charged up several music boxes which he never sold and pocketed the proceeds. Crown Attorney Badgerow asked and was granted a remand until Thursday, as he states he believes several forgeries have been committed.

Wm. McMillan, the young man already committed for trial on two charges of uttering forged checks upon the City Treasurer was up again yesterday to answer to a third charge, and the evidence as before was conclusively plain.

James Robinson arrived from Orillia Monday night with $435 in his pocket, and he fell in with Eddie Orr, a young man well known about town, who accompanied him to his room in the St James. Then Robinson fell asleep and he alleges that Orr abstracted $25 from his wallet and had him arrested therefor. Bail was refused.

At St. James' Cathedral yesterday afternoon Miss Mabel Augusta Heward, daughter of the late Stephen Heward, was united in marriage to Capt. Hugh Bruce Williams, of the Royal Engineers. The ceremony was performed by Rev. Canons Dumoulin and Cayley, and the company to witness it was fashionable and crowded the edifice. Attendant on the bride—who was attired in white silk, veil, orange blossoms and diamond ornaments were Miss Walker, Orillia; Miss Alice Heward, Miss McInnes, Hamilton, and Miss Grace Boulton. The groomsmen were Messrs. Robt. Shanley Duncan McInnes, Casimir Dickson, Hume Blake, and Arthur Murray. At the Heward mansion on Peter-street subsequently the guests were lavishly entertained.

An outbreak of diphtheria in East Toronto Village has been attended with fatal results. A number of cases are reported. Dr. Britton, a resident physician, has contracted the malady.

Ever since the University lectures commenced there has been trouble brewing between the second year arts men and the first year medicals. Starting first in the shape of a good-natured rivalry as to who should get the front seats in Prof. Loudon's lecture-room, the feeling has gradually grown stronger. Yesterday the young doctors brought along with them a large contingent of their second and third year men, and the result was a big row. Seats and desks were broken, medical and arts' men locked in deadly embrace rolled around the room, and pandemonium reigned supreme. Not until Prof. Loudon and his assistants had laid on the hose to clean out the room did the "scrappers" separate.

A BLAZE AT HAMILTON.

Lead Smelting Works and a Tallow Rendering Establishment Burnt.

HAMILTON, Oct. 30.—Fire broke out about 8 o'clock last evening in the yard of Williams' Oil Refiney. Flaherty & Wilson's lead smelting work were first ablaze, then McKillop's tallow rendering establishment caught fire and burned fiercely for about four hours. Flaherty & Wilson's works have only been in operation here a short time. The loss on this will be about $600; no insurance. McKillop's rendering establishment has been in operation for some time in connection with Morton's soap works. Loss on building, plant and stock about $1600; insured. C. J. Williams, who owns the refinery and varnish works, had $2000 worth of varnish stored in a small shed adjacent to Flaherty & Wilson's works. This was all destroyed; no insurance.

WAS HARVEY INSANE?

A Strong Effort to be Made to Save the Guelph Murderer's Neck.

GUELPH, Oct. 30.—The grand jury brought in yesterday three true bills against W. H. Harvey for the murder of his wife and daughters on March 26 last. The trial is likely to come up to-day. Great efforts will be put forth to prove that Harvey was insane at the time of the murder.

A true bill was also brought in against Hubert Leitch for the murder of his daughter's child. Leitch is supposed to be the father of the child.

A Fatal Fall.

STRATFORD, Oct. 30.—As Jas. Ballantyne of Longside, in the Township of Downie, was seeing that his stock were attended to for the night, he fell from the window of the straw house to the ground a distance of 28 feet, receiving such injuries as to cause instant death. Deceased was 44 years old and leaves a wife and two small children. He was a nephew of Thomas Ballantyne, M.L.A. for South Perth, and recently filled the position of president of the North Perth Agricultural Society.

Belleville Briefs.

BELLEVILLE, Oct. 30.—Alexander McGregor, who has served a month in jail for theft, was rearrested on his discharge yesterday morning and given another month for stealing a horse brush.

James Falconer's dwelling was burglarized Monday night and two overcoats stolen.

THE GRAND TRUNK'S SPUR.

An Application by the City of Hamilton for an Injunction.

HAMILTON, Oct. 30.—A writ has been issued out of the Queen's Bench Division, at the instance of the City of Hamilton, to restrain the Grand Trunk Railway Company from building the spur line through Solomon Gage's farm to connect the old Hamilton and Northwestern with the Great Western line. The application for an injunction will come up in Toronto at once.

When President T. H. Macpherson of the South Ontario Pacific was asked what he thought of the action of the City Council in rejecting the Finance Committee's recommendation to employ an expert on railway routes and relegating the matter to the city engineer, Mr. Macpherson said: "In view of the council's antagonism and its policy of delaying a speedy settlement of the question it is quite within the possibilities that the C P R will leave Hamilton out of its calculations altogether and construct a through line from Toronto to Niagara Falls by way of Burlington Beach."

EDMUND YATES' LETTER

THE QUEEN TO OPEN PARLIAMENT IN PERSON.

Mr. Gladstone's Political Perplexities—Serious Trouble in the Ranks of the Home Rule Party—A Typhoid Epidemic.

LONDON, Oct. 30.—The Queen attended public worship at Crathie church on Sunday a week ago, it being her first visit for a year past. It was the day fixed for the half yearly dispensation of the sacrament, and the Queen and Princess Beatrice, who sat in the manse pew took part in the first table of service and partook of the bread and wine, which were handed to them by Mr. Campbell, the parish minister.

I hear that the Queen will probably open Parliament in person, in compliance with Lord Salisbury's earnest wish. Of course nothing will be definitely settled for the next two months, but it is Her Majesty's intention, all being well, to preside at this function, which will most likely be fixed for a day in the first week of February, so the Queen may come to Buckingham palace for a couple of nights when on her way back to Windsor from Osborne.

The French, who are painfully anxious to be on good terms with Russia, point well enough to the fact that, although the anticipated visit of the czarewitch to the exhibition has not taken place, there were at the end of last week no fewer than seven members of the imperial family at Paris.

Lord Salisbury has every reason for holding the constituency of Brighton in the highest regard. When, in 1884, the Conservatives in the house of Commons were in a minority of 120, Brighton, in returning Mr. Marriott by a majority of 1,400, gave the first sign of the growing reaction, and last week, in the material and moral victory achieved by Mr. Loder, the same constituency has rendered a most important service by being the first to stem the flowing tide, of which we have heard so much.

Sympathy with Mr. Bradlaugh in his severe illness and hearty hopes for his recovery are almost universally expressed. Mr. Bradlaugh has lived down the animosity with which he was regarded some few years ago, his ability, fair fighting and industry are fully acknowledged by his chief opponents, and it is allowed that by his removal Parliament would sustain a very important loss.

I hear that the Irish land purchase scheme will be embodied in two, if not three, bills. A most urgent case for legislation is to be found in the congested districts. There poverty is chronic and there occur most frequently the differences between landlord and tenant which are the agitator's opportunity. The first bill will probably, therefore, deal with the congested districts. I believe the Irish government is satisfied that if these parts of Ireland are effectively treated the difficulties in the way of administration will be enormously lessened.

Mr. Gladstone's silence at Southport on the nature of the new home rule scheme is capable of easy explanation. He said nothing because a serious and, so far, incurable division of opinion exists among the Liberal leaders on the question. Mr. Gladstone summoned his most trusted advisors to Hawarden last week and endeavored to get them to agree upon some scheme framed on the basis of retaining the Irish members at Westminster. He found it, however, impossible to come to any understanding on the question. Some of Mr. Gladstone's colleagues are now moving in the direction of federation, and others like John Morley, are resolutely working at the old plan with a view of adapting it to the presence of the Irish members at Westminster, but he found it hard to invent any scheme defensible in theory or workable in practice. Another conclave will be held upon the subject before Mr. Gladstone speaks at Manchester. The announcement of Mr. Labouchere, that the next government must be half Radical in composition, has greatly disturbed official Liberals. It is clear that, if there is to be an irruption of Radicals into office, many gentlemen who were safe to return to the treasury bench must abandon that pleasant expectation. Let us see who are the doomed men. Mr. Childers is one; Shaw Lefevre, notwithstanding his Irish campaign, is another. Sir Lyon Playfair will also have to go; and it is whispered also that Mr. Mundella is one of the men whom the Liberals below the gangway will no longer tolerate. The hope of the official Liberals is that Mr. Gladstone, who does not like new faces, will stand by them. It may, however, be a long time before the Liberals have an opportunity of quarreling over a division of the spoils.

Typhoid fever has been so general in Dublin and its neighborhood that professional nurses were not to be got for the time being. All sorts of curious causes are sought for this particular outbreak, among others oysters, of which it is said a poisonous cargo arrived at Dublin. These are taxed with causing the epidemic, and extra clever analysers, of course, point to the facts that men, the chief devourers of oysters, are the principal sufferers, comparatively few women having been attacked.

In What the New York Ball Cranks are Saying Now.

NEW YORK, Oct. 30.—The ninth and final game of the series for the world's championship between the New York and Brooklyn teams was played at the Polo grounds yesterday. The Giants won their sixth victory. The weather was cold, damp and disagreeable yet 3063 people were present. The game was the most exciting of the series with the exception of the 2 to 1 game of Friday. Both teams played desperately, the men recognizing that on the result of the game depended everything. The score:

	R.	H.	E.
Brooklyn	2	4	2
New York	3	8	5

Batteries—Terry and Bushong; O'Day and Ewing. Umpires—Lynch and Gaffney.

The Benefit Companies.

OTTAWA, Oct 30.—R. L. Patterson of Toronto, president of the Commercial Travelers' Mutual Benefit Association, had an interview yesterday with the Deputy Minister of justice on matters relating to the association. The Commercial Travelers' Mutual is one of the associations whose certificates the Federal Government threaten to cancel on grounds of illegality, but Mr. Patterson is hopeful that no such act will be taken.

Died on the Train.

WINDSOR, Oct. 29.—A woman named Vincent died suddenly of heart disease on the Grand Trunk passenger coach between Chatham and Windsor yesterday morning. She was about 60 years of age, resided in Chatham and at the time of her death was coming to visit Windsor relatives.

Delayed His Departure.

MONTREAL, Oct. 29.—Thomas P. Waterhouse, who was on the point of leaving for India, has been arrested by Lilian Cott on a capias for breach of promise of marriage and seduction. He was admitted to bail in $300.

TO SAVE HIS OWN NECK.

DEFENDANT BEGGS CUTS LOOSE FROM HIS ASSOCIATES.

The Head of Camp 20 Will Go on the Stand if Necessary—Yesterday's Evidence in the Cronin Trial.

CHICAGO, Oct. 30.—At the opening of Judge McConnell's court yesterday Mrs. Winifred Dinan, wife of Patrick Dinan, the livery man, took the stand and testified to the facts about the white horse being taken and driven north on the night of May 4 and its return at 9.30, streaming with perspiration.

John F. O'Connor, a member of Camp 20 Clan-na-Gael, was placed on the stand. O'Connor was recording-secretary of the Camp when Beggs was senior guardian. After numerous details as to their meetings and methods of doing business, witness said: At a meeting of the Camp on Feb. 8 Thomas F. O'Conner asked if we had ever heard the report of this trial committee that tried what is known as the triangle. Mr. Beggs said he had not. O'Connor said it was strange that our camp never got the report when he heard it read in another camp in the city, that he heard a man read it and would state the name of the camp and the man who read it if we demanded it. Then somebody asked who it was. I did not hear who he said read it but there was some member there who did hear and I asked him, "What did he say?" and I understood him to say: "Dr. Cronin."

The State's Attorney was evidently of opinion that witness was an unwilling one and sought to have him detail at greater length the proceedings of the camp at that time but without success. Witness said he had no recollection that a man named Foy had made a speech in which he said the camp had better investigate the triangle because he had heard a report charging its members with wasting the funds of the order. After a long wrangle between the lawyers the court admitted the record of the proceedings of Camp 20 on Feb. 8 made by the witness, and he read it subject to many interruptions. Generally in referring to individual members of the camp numbers instead of names were used, and in one case in which it was noted that certain numbers were appointed a committee to investigate the qualification of an applicant for membership, the State's Attorney said he proposed to show that one of them was the number borne by one of the prisoners at the bar.

Coming to the matter of the camp's action on the supposed allegations against Dr. Cronin in connection with the trial of the triangle in Buffalo witness read as follows: "Moved and seconded that an imperative demand be made on the executive committee at once for the immediate publication of information in the hands of the trial committee. It was amended 'that the senior guardian notify the district member of the report that is going around regarding the report of the trial committee having been read right out in one of the camps in this city.' The motion was carried. Motion made and seconded that a secret committee of three be appointed by the senior guardian to investigate the rumors afloat regarding the trial of the executive body. Motion carried."

The senior guardian mentioned was John F. Beggs.

Q.—What occurred there before the motions were made on this committee? A.—As I stated before it was Tom O'Connor's remarks and asking if we got the report of the committee that tried the triangle. Beggs said he had not and O'Connor said it was strange our camps never got it, that he heard it read in another camp in this city and that he could tell the man who read it and the camp that he heard it read in if it was desired.

Witness further testified that when Captain O'Connor moved for the appointment of a committee to investigate the report that the report of the trial committee had been read in another camp, Senior Guardian Beggs said the camp had no power to investigate another camp and that the proper thing to do was to refer the matter to the district officer. Witness had no knowledge as to whether the committee to investigate the other camp was ever appointed.

Q.—Did you hear Captain O'Connor in any statement he made in Camp 20 mention Dr. Cronin's name that night. A.—I did not,

Witness in answer to further questions said the trial of the triangle as he understood the matter took place in Buffalo in October, 1888, and that the members of the triangle on trial were Sullivan, Feely and Boland.

Andrew Foy, a member of Camp 20, was next put on the stand. Foy was very non-committal and with the greatest pertinacity avoided giving a positive answer, even to the most innocent question. "I suppose so," "I guess so," "I can't say," were favorite forms of reply with him. Finally he was brought to admit that he made a speech at the meeting of Camp 20 when the matter of the report of the triangle committee came up. After making several attempts to explain the circumstances under which he made the speech and getting the narative mixed up with statements as to himself, so that it was impossible to understand what it was all about, he said: "As far as I remember Captain O'Connor made a statement that LeCaron who was a witness before the Parnell commission, at the time was a paid agent of the ex cutivebody of Irish organization in this country. He said, I think, that $38,000 or $40,000 of the funds of this organization had gone to LeCaron for some object in England or Ireland. He did not specify where it was spent exactly, but I have an impression it was spent in England. O'Connor spoke of having heard the report of the trial committee received in another camp." This speech the witness said caused much excitement in the camp and witness made a strong speech. After it he went down stairs and took a drink. What made the witness angry—"hot," as he expressed it—was the thought that LeCaron got any of the Clan's funds for any purpose whatever and it also made him "hot" to learn that the report of the trial committee had been given out in other camps sooner than in Camp 20. He supposed others felt the same way for they also got up and spoke.

Mitchael J. Kelly, junior guardian of Camp 20 at the time of the meeting of Feb. 8 last, testified of the proceedings though his memory was deficient as to details. He remembered Foy had called for the report of the committee which tried the triangle and that this demand grew out of a statement by O'Connor that he (O'Connor) had heard the report of that committee read in the camp of which Dr. Cronin was a member and that Cronin was the man who read it.

This last statement contradicts the evidence on this subject heretofore given and of all published statements heretofore made. They agree in saying that O'Connor did not mention Cronin's name but said he would give the name of the man and the number of the camp if the senior guardian demanded them.]

[The witness then said that it did not seem to him that any excitement resulted from O'Connor's speech, though he believed a couple of men demanded the appointment of a committee to investigate the read ing of the report in the other camps. The witness believed Dan Coughlin, one of the defendants, was present. The cross-examination of Kelly brought out the fact that though he knew of the trial of the triangle he did not know who constituted that body and only learned their names subsequently when published in the newspapers.

Anthony J. Ford, past guardian of Camp 20, testified that at a meeting of the camp on Feb. 22 last Patrick McGarry and Richard Powers made speeches denouncing the triangle and that Senior Guardian Beggs replied defending Alexander Sullivan, one of the members of the triangle. It was a pretty warm discussion and Beggs said it would have to be peace or war or words to that effect. Witness said that at a meeting of the camp in March he had called attention to a statement that there was danger that members of the opposition order, the United Order of Deputies, might get some of their number initiated into Clan-na-Gael camps and pointed to the defendant O'Sullivan as his authority for the statement. This was after a talk with O'Sullivan who had been present when Dr. Cronin instituted a camp of the Clan-na-Gael in Lakeview.

The fact that there is a division of interest in the defense in the Cronin case and that Senior Guardian Beggs is having his case conducted independently of the others was shown yesterday. When O'Connor was called to testify regarding the proceedings in Camp 20 Mr. Forrest, on behalf of the other defendants, objected to admitting O'Connor's testimony. Then Mr. Foster said: "On behalf of the defendant Beggs we want the record to show that no objection is made on his part to the introduction of this testimony. Mr. Beggs invites the fullest and clearest investigation of his connection with the Clan-na-Gael and he objects to the introduction of no testimony, material or immaterial, that will forward such investigation."

"What does all this mean? Has Beggs squealed?" was asked of Mr. Mills. The counsel for the people smiled.

To the same question Mr. Ames replied "We will wait and see whether the State brings any charge of gravity against him. We claim they can not. If they try it we will put Beggs on the stand."

NEWS OF THE OLD WORLD

The Queen Asks Balfour for a Personal Report on the Condition of Ireland

LONDON, Oct. 30.—General Simmons is gazetted as special envoy to the Pope with reference to the subject of church jurisdiction in Malta.

Mr. Balfour, Chief Secretary for Ireland, leaves Dublin Friday for Balmoral, the Queen having requested a personal report on the condition of Ireland.

Mr. Chamberlain speaking at a private caucus at Birmingham referred to his desire to retire from political life. He said that considering the abuse that had been heaped upon him he had more than once reflected whether the game was worth the candle. Only love of country had induced him to continue in public life.

Fortunes in Iron.

LONDON, Oct. 30.—The value of iron in Connal's stores since the bottom price was touched has increased £1,000,000. The turnover of the firm this year has exceeded £3,000,000. The profits of three of the leading brokers for the year are from a quarter to a half million each.

"In the Midst of Peace," etc.

BERLIN, Oct. 30.—The Reichstag yesterday discussed the Budget. Herr Von Maltzahn, Secretary of State for the Imperial Treasury, said that the Customs duties promised an increase of 40,000,000 marks. It was expected that expenditures in addition to those already announced would be required for the army. No matter how much confidence was felt in the continuance of peace the means to maintain the strength of the army and enable the country to face every contingency would not be left out of consideration.

Shot the Officials Dead.

ST. LOUIS, Oct. 30.—In the Seminole Indian Nation, I. T., the other day Robert Reed, a Mexican, and a Creek Indian named Wiley were deputized to arrest a negro horsethief Corley Brunner. Brunner fired upon the officers and was shot dead. Five of his friends, all negroes, laid in ambush for the officers and shot them without warning. The assassins are Cudge Barnett, Ross Riley, Prince Hawkins, Dong Brown and one Luke, all desperate characters.

Black Bart's Trial.

BESSEMER, Mich., Oct. 30.—The case of Reimund Holzhay, the notorious highwayman of Northern Wisconsin and Michigan, was called for trial in the Circuit Court yesterday morning. The attorney for the defense refused to disclose their line of action. One rumor has it that the defense will plead an alibi and another that it will try and prove that the highwayman is insane.

Johnstown Again in Danger.

JOHNSTOWN, Pa., Oct. 28.—The prospects of Johnstown being again under water are very good. Rain has been falling almost continuously for the past 36 hours and a great many of the streets are almost impassable to pedestrians.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

CANADIANS Work Too Hard!

The Result is Sleeplessness, Nervousness and a Broken-Down System, often

Ending in Insanity.

Thousands of overworked business men, wearied brain-workers industrious mechanics, and tried women, in all parts of the Dominion are to-day in a terrible position. Their nerves are weak, digestion poor, head aching, and they cannot sleep, work or live in comfort. This is what fills our Insane Asylums. This is the cause of that terrible Pneumonia. Before it is too late, use Dr. Phelps' wonderful discovery, Paine's Celery Compound. It removes the results of overwork, restores strength, renews vitality, regulates the whole system, and tones up the overworked brain and body. Do not despair, but use this wonderful remedy, and be restored to health and happiness, the same as was Mr. John L. Brodie, of Montreal, who writes: "I have great pleasure in recommending your Paine's Celery Compound. My system was run down and I was not fit for business, could not sleep well at night and was nervous. I commenced taking Paine's Celery Compound and improved immediately. I am now able to transact my business and endure any amount of excitement without bad effect."

Paine's Celery Compound can be purchased at any druggist's for one dollar a bottle. If he should not have it on hand, order direct from WELLS, RICHARDSON & Co., Montreal.

Iron Manufactures.

How They Would be Developed in Canada Under Reciprocity.

TO THE EDITOR:—Restrictionist journals are considerably exercised over my statement that under Reciprocity we could manufacture iron and steel profitably, and well they may be, for when this is proved one of the strongest objections urged against Reciprocity would be removed.

Nothing is more important to a country than iron manufactures; by far the greater value of finished iron is the labor expended on it; the principal part of the cost is distributed in wages among the people, and benefits the whole community more than almost any other industry. The state of the iron trade is considered an index to the prosperity of a country, and the amount of iron consumed is a considerable indication of a country's advancement in civilization.

Let me reply first to the smaller Restrictionist paper, the one, by the by, that exhibits more ability and indulges in less abuse than its heavier contemporary.

This paper admits that "Canada has iron ores of extra quality and very valuable just because ores like them are scarce." These, it says, the Americans will take from us to some extent, but will not buy our manufactured iron.

Why, if there were no duties, would they not buy our manufactured iron if it could be got as cheap and of as good quality as elsewhere?

Under Unrestricted Reciprocity trade would flow in its natural channels on this Continent, and the best and cheapest goods wherever manufactured would find ready sale; there would then be no imaginary boundary line to check the natural flow of trade, and we could find a market for everything we could produce which possessed the requisite merits. Our opponents say:—"This is not the kind of business our cute neighbors want to do with Canada. Not much." This would imply that all of our neighbors were iron manufacturers who would object to our manufacturing. But there are far more consumers than manufacturers in the United States, and the consumers would readily buy our iron if it were good and cheap enough.

Then the paper goes on to show that during the last quarter of a century, under high Protection, the advance of the United States in iron manufactures has been amazing, and that Chicago now possesses some of the largest iron manufacturing establishments in the world.

Yes, I know this and I also know that in Toronto we could get iron ore delivered at much less than it costs in Chicago. Bessemer ore is quoted at from $5 to $6 per ton in Chicago; we have Bessemer ores within 150 miles of Toronto which could be delivered to furnaces here at $2 50 to $3 per ton, or just half the price of similar ores in Chicago. We have cheaper labor here, probably at least one-third cheaper. Coke is taken all the way from Connellsville, Ohio, to Chicago and (barring the duty) could be delivered in Toronto just as cheaply.

Then, with ore at one-half the price, with labor one-third cheaper, and coke at the same price, why could we not manufacture as profitably as they?

No wonder that Mr. Samuel D. Mills should say that under Reciprocity he knew that these furnaces would start in Canada; our "cute neighbors" would be quick enough to avail themselves of our advantages and to start manufactures here. If there were money in it they would let no prejudices stand in their way, but enterprise would be started wherever they would pay best. If there were no restriction to our market, Toronto should become a great iron manufacturing centre. With its favorable position and its numerous railways it would be an an excellent distributing point. There are few places that would have so many natural advantages. Iron experts are of this opinion and Restrictionists have much assurance to to make statements at variance with the opinions of such men as Mr. Mills and others of high intelligence who have given attention to this subject.

The Restrictionist paper says:—"With very high protection long and unflinchingly maintained, the States have become a vast iron-making country, while Canada, with only hesitating and uncertain efforts in the same direction makes no such advance." Then it asks what makes the difference, and concludes that stiff, strong Protection in the States and the want of it in Canada is what does it.

Supposing that Protection is as beneficial as they say, do our opponents see no difference between our condition and that of the United States? Do they see no difference between a domestic market of sixty millions and one of five millions. Will Protection be as efficient in one case as in the other? and, if so, what is the limit to its application?

Follow out this Restrictionist doctrine to its logical conclusion and it leads to a reductio ad absurdum—it would lead to the folly of maintaining that, no matter how small a community was, it would still be benefitted by Protection. In showing what the United States have done under Protection, and supposing that Canada by itself could do the same, one of the most important points is lost sight of, namely, the immense market of the United States and their enormous power of consumption. Their business is so vast and so rapidly increasing, that they will buy whatever suits them if the price is right, no matter whence it comes.

To say one who is conversant with the markets of the United States, the objection that they produce similar goods, and, therefore, would not want ours, and the expression "carrying coals to Newcastle," is the merest nonsense.

It is hardly necessary to reply to the absurd misrepresentation of the *Empire*; it must indeed be a weak cause that renders it necessary to resort to such substitutes for argument. The *Empire* distorts what I say and then abuses me for its own distortion.

I have insulted nobody, but the *Empire* is continually insulting the intelligence of the people of Canada by its puerile utterances on the subject of Reciprocity.

I maintain that, with natural advantages on our side, it is disgraceful for Restrictionists to say that we cannot compete with our brethren across the line, and it is cowardly to refuse to throw down commercial barriers when we have cheaper raw materials and cheaper labor than they have.

Omemee.

(From Our Own Correspondent.)

Grain is moving freely, but at such low prices as to discourage the farmers, after their heavy efforts in saving the harvest.

By all appearances from old weather prognosticators around here, a cold and early winter is predicted.

Mr. King, of Peterborough, is in charge of the new Berpheson roller mill, and is the right man in the right place.

Mr. J. D. Thornton has the appointment of agent for Eastern Ontario of the U. S. Masonic Benevolent Association of Council Bluffs, Iowa, which is one of the most economic and reliable societies in existence, but only open to the Masonic fraternity in good standing.

Mr. J. G. Massie, miller, of this place, died last week after a lingering illness. The funeral was attended by a large number from Peterborough and other places.

The Misses Kincaid, of Peterborough, have been visiting Omemee during the opening services of the new Presbyterian church.

The church carpets, &c., were purchased from Messrs. Hall, Isaac & Co., of Peterborough, and are in accordance with the good taste and judgment shown by the ladies in all the other furnishings, of the most modern style.

CHURCH OPENING.—The opening services in connection with the new Presbyterian church at Omemee proved a grand success, the weather, speakers and music being all that could be desired. Rev D. McTavish, of Toronto, and Robt. Johnston, B.D., of Lindsay, conducted the services on Sabbath. The collections amounted to about $125.00. The tea meeting on Monday excelled any of the kind ever held. The attendance was very large, numbers being present from Peterborough, Lindsay and other neighboring towns. Rev. A. Bell, Peterborough, and the local ministers gave very pleasing addresses. Mr. Ewing, the pastor, filled the duties of chairman in his most happy style. Proceeds amounted to about $240 00 on both occasions. The church seats about 400 people, and cost about $4,000, of which $1,500 is now provided for.

The Right of Disallowance.

What Dr. Bourinot Says of the Powers Granted to the Dominion.

OTTAWA, October 25.—Dr. Bourinot, Clerk of the House of Commons, and a high constitutional authority, was asked for his opinion whether the Queen, as well as the Governor-General, could disallow provincial legislation. He declares: "By certain sections of the British North America Act the Imperial Government has practically, by these clauses, given to the Dominion Government that power over the provincial legislation which the Crown originally held and exercised immediately before confederation. In the exercise of this power the Governor-General has never claimed to act as an Imperial officer, for that would be an assertion not based on a correct interpretation of the clauses in question, and in entire conflict with the larger rights of self-government granted to Canada by the Union Act." Dr. Bourinot adds that at the time of the New Brunswick school law appeal it was authoritatively stated, on behalf of Her Majesty's Government, that "The power of confirming or disallowing provincial acts is vested by statute in the Governor-General of the Dominion, acting under the advice of his constitutional advisers, and that that statute does not confer upon Her Majesty-in-council any jurisdiction over such questions."

As a family medicine, Ayer's Pills excel all others. They are suited to every age, and being sugar-coated, are easy to take. Though searching and thorough in effect, they are mild and pleasant in action, and their use is attended with no injurious results.

Peculiarities of the Hair.

There are times when all persons require to pay some particular attention to the hair. To rekindle the life or energy of the roots is a simple matter if taken in time. Dr. Dorenwend's Great German Hair Magic will do the word, it works in accordance with nature, supplys fresh nourishment to the glands keeper, the hair luxuriant and natural in shade. SKINS ON FIRE.

Agonizing, Itching, Burning and Bleeding Eczema in its worst stages. A raw sore from head to feet. Hair gone. Doctors and Hospitals fail. Tried everything. Cured by the Cuticura Remedies for $5.

CURED BY CUTICURA.

I am cured of a loathsome disease, eczema, in its worst stage. I tried different doctors and been through the hospital, but all to no purpose. The disease covered my whole body from the top of my head to the soles of my feet. My hair all came out, leaving me a complete raw sore. After trying everything I heard of your CUTICURA REMEDIES, and after using three bottles of CUTICURA RESOLVENT, with CUTICURA and CUTICURA SOAP, I find myself cured at the cost of about $5. I would not be without CUTICURA REMEDIES in my house, and I think they are the only skin and blood medicines.

ISAAC H. GERMAN, Wurtsboro, N. Y.

Burning and Itching.

I was sick in the fall of 1888 with a burning and itching so bad that in three weeks I was covered with a rash, and could not sleep nights or work days. Some doctors thought it might be salt rheum (eczema), and said they never seen anything like it before. I received no help from any of them, or from any medicine that I could get hold of until I used your CUTICURA REMEDIES. After three weeks use I was able to work, and kept getting better, until I am now entirely cured. I recommend them to all suffering with skin diseases.

C. E. OSMER, Tatnville, Va.

Most Intense Itching.

I have used the CUTICURA REMEDIES successfully for my baby, who was afflicted with eczema, and had such intense itching that he got no rest day or night. The itching is gone, and my baby is cured, and is now a healthy, rosy cheeked boy.

Land, sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be taken in a cup of tea or coffee, without the knowledge of the person taking it; it is absolutely harmless and will effect a permanent and speedy cure, whether the patient is a moderate drinker, or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. STUCK TO THE SHIP.

A Plucky Schooner Captain—Disasters on the Atlantic.

NEW YORK, Oct. 29.—The old Dominion steamship Wyanoke, which arrived here from Norfolk yesterday reports that off the Delaware capes, the schooner J. G. Morse of Portland, Me., was spoken dismantled and disabled. Her captain and the larger part of his crew had been washed overboard and his vessel was unable to reach port. The mate had died of exposure. The captain and two sailors were the only ones on board and they were all sick and scarcely able to work. Captain Humphrey of the Wyanoke offered to take the schooner in tow but the schooner's captain declined his offer. He asked that enough men be given him to take his vessel into port. Captain Humphrey was unable to comply with the request. A life boat was sent with provisions to the schooner but the sea was so rough that the attempt to reach her was abandoned and the vessel was left to her fate. Five miles further north the Wyanoke spoke to two disabled Italian vessels.

The Bark Western Belle, from Ivilo, 107 days out, arrived here yesterday dismantled. Four of her crew were disabled by injuries received during rough weather.

Lawless' Marriage a Failure.

OTTAWA, Oct. 29. At the Chancery sittings yesterday, Hon. Chancellor Boyd presiding, Lawless v Chamberlin, an action to annul a marriage, was tried. The plaintiff is a clerk in the civil service here and lives in Hull, and defendant lives in Aylmer. The parties became acquainted with each other a year ago and kept company until July last when matters came to a crisis and, as plaintiff alleges, defendant's father forced him to marry her at the point of a revolver. Plaintiff now seeks to have the marriage voided on the grounds that he married defendant under duress, that he had not the consent of his father, and that the marriage was not performed by a clergyman entitled to perform the ceremony. Defendant denies that there was any duress exercised and contends that the marriage was legal.

THE FLOUR MOTH IN ONTARIO.

A Plague From the Mediterranean Visits the Land—How to Destroy It.

TORONTO, Oct. 28.—The Provincial Board of Health has issued a bulletin on "The Flour Moth." It points out that insects destructive to grain and flour have been introduced into Canada in two ways. The importation of grain from distant parts has brought weeds and insects injurious to grain and returning empty bags, which have been kept in storehouses and granaries infested with insects have introduced insects destructive to flour.

Up to the present time Canada has been fairly free from insects preying on grain and flour, but in order to keep that position the utmost care should be taken to prevent the prevalence of pests of this kind. As much rigor should be exercised in stamping out a pest as stamping out a dangerous contagious disease.

The flour moth, or Ephestia Kuhniella, has made its appearance in one of the Ontario mills. At first a few were seen flying about a steam pipe in the basement of the mill, but no attention was paid to them. Soon, however, they spread, filling every corner of the building. Repeated washings and fumings had no effect. Not until the machinery was taken apart, thoroughly steamed and the whole building thoroughly disinfected was the pest got rid of. It took two months to do the work.

The flour moth, when hatched from the egg, is in the larva stage. The grub feed, voraciously on starchy food. In a few days it takes on wings and becomes a full-fledged moth. The pest comes from countries bordering on the Mediterranean Sea, and was introduced, it is almost certain, by the introduction of milled foods, such as Indian carassa, Italian semolina, etc.

The bulletin recommends that no such foods be allowed to enter Canada until first quarantined in a warm place for a number of months. Also, bags having been used for transporting flour, grain and meal should be subjected to a thorough steaming, and millers should be on the alert to discover the pest and destroy it. Millers desiring detailed information about the subject can get it by address ing the Provincial Agricultural Department.

FROM SAMOA.

The Cable Reports of Recent Fighting Confirmed.

SAN FRANCISCO, Oct. 28.—The Associated Press correspondent at Apia, Samoa, under date of Oct. 9, confirms the report of the election of Mataafa as King of Samoa by the chiefs of the various districts. It was expressly provided that Mataafa should serve as King only until the agreement entered into by the three foreign powers should go into effect. Then, if necessary, a new election would be held. Tamasese's followers did not signify their assent to the election. The correspondent states that a number of Tamasese's followers on the Island of Savaii attacked some of Mataafa's followers. Mataafa's chief decided to punish them for this action, and 100 warriors left Apia Oct. 10 for Savaii. The departure of the warriors for Savaii makes certain that a battle occurred on that island, as reported

A Kansas Crash.

ABILENE, Kan., Oct. 29.—The Abilene Bank, owned by Mayor C. H. Sebold and Col. J. M. Fisher, suspended yesterday morning creating great excitement as it has been considered the strongest financial institution in Central Kansas. The deposits amount to $200,000, principally 1 cal. Rediscounts and individual loans swell the liabilities to $400,000. The firm claims to own $600,000 worth of real estate and notes and say they will pay in full if given time to realize.

Suicide of a Sailor.

DETROIT, Oct. 29. William Wilson, a sailor, committed suicide at Boyd's shipping office yesterday noon by taking laudanum. His home was either in Oswego or Ogdensburg.

The Appetite

May be increased, the Digestive organs strengthened, and the Bowels regulated, by taking Ayer's Pills. These Pills are purely vegetable in their composition. They contain neither calomel nor any other dangerous drug, and may be taken with perfect safety by persons of all ages.

I was a great sufferer from Dyspepsia and Constipation. I had no appetite, became greatly debilitated, and was constantly afflicted with Headache and Dizziness. I consulted our family doctor, who prescribed for me, at various times, without affording more than temporary relief. I finally commenced taking Ayer's Pills. In a short time my digestion and appetite

IMPROVED

my bowels were regulated, and, by the time I finished two boxes of these Pills my tendency to headaches had disappeared, and I became strong and well.—Darius M. Logan, Wilmington, Del.

I was troubled, for over a year, with Loss of Appetite, and General Debility. I commenced taking Ayer's Pills, and, before finishing half a box of this medicine, my appetite and strength were restored.—C. O. Clark, Danbury, Conn.

Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered Stomach and Liver. I suffered for over three years with Headache, Indigestion, and Constipation. I had no appetite, and was weak and nervous most of the time.

BY USING

three boxes of Ayer's Pills, and, at the same time dieting myself, I was completely cured. My digestive organs are now in good order, and I am in perfect health.—Philip Lockwood, Topeka, Kans.

Ayer's Pills have benefited me wonderfully. For months I suffered from Indigestion and Headache, was restless at night, and had a bad taste in my mouth every morning. After taking one box of Ayer's Pills, all these troubles disappeared, my food digested well, and my sleep was refreshing.—Henry C. Hemmenway, Rockport, Mass.

I was cured of the Piles by the use of Ayer's Pills. They not only relieved me of that painful disorder, but gave me increased vigor, and restored my health.—John Lazarus, St. John, N. B.

SPLENDID BUILDING SITES

I have placed on the market

That Desirable and Well Situated Property

in the western part of the Town, and offer it in lots as per plan annexed. This affords a splendid opportunity to secure a location for your home in a rapidly improving and in every respect the best part of the town. The properties are situated on Cedar and Hutson streets and within a stone's throw of the West Ward School and a short distance of the principal Churches and the Hamilton Co'y. Works.

"KRIN COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had at a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and merchanics should inspect this property as it offers the best sites available and convenient to the business part of the town.

Assuming Mammoth Proportions.

It would appear that one of our prosperous firms never daunted with keen city competition embarks into direct importation of fine ales, wines and brandies. A full list can be given intending purchasers by calling on W. J. Morrow, 340 Geo. street, or a look through his mammoth wine cellar will convince. He has also purchased from one firm alone a car load of their celebrated ale as well as handling numerous other brands. Parties requiring special brands of fine liquors should call and examine his mammoth stock before placing their order.

The Bishop of Toronto has issued a pastoral and programmme relative to the celebration of the fiftieth anniversary of the consecration of the first bishop of the diocese. In the city of Toronto it commences on Thursday, Nov. 21st, and lasts until the following Thursday, there being something of special note to mark each of the eight days. Members of the church throughout the diocese desiring to attend these services at Toronto, will, on sending their names to the secretary, have accommodation provided for them and will receive special rates for railway fares. On Sunday, Nov. 24th, special services are called for all the churches of the five dioceses of Toronto, Ontario, Huron, Niagara, and Algoma. It is needless to say that the occasion will be fittingly remembered in the English churches in this town.

THE BUILDING RECORD.

New Homes and Business Blocks Erected in 1889.

Over a Quarter of a Million Expended—To Which Ashburnham Contributes $64,200—The Record Satisfactory.

To-day we present the completion of the list of new buildings erected in Peterborough and that portion of it called Ashburnham. The list comprises the buildings erected by our chief building contractors, and and is as complete as possible; if there are any omissions, it is through inadvertance. There may be a few buildings in the outskirts of the town not given to regular contractors, but erected by the owners themselves. Whatever omissions may have been made, will be made up in a supplementary list. The total amount spent in new building this year, totals $227,500, including Ashburnham with $54,900, and including about $10,000 spent in repairs and small structures, too small to be separately specified.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

The Christian Endeav'r.

P'raps you haint hearn o' th' s'ciety they've hitched t' th' churches around,
Without regard to th' crowd, or th' creed, but a view to th' place where they'r bound?
They don't never pertend t' be Christians, they're only endeav'rin t' be;
But th' way our dominie prays for 'em 's no matter o' wonder to me.
For a town o' sech smallish pretensions, an' a church that was rather cold,
We cert'nly got an awakenin' when th' Christian Endeav'r took hold.

First go they were kinder shame faced a bit, that th' elders shou'd cast a frown
On young folks for givin' a supper that got th' dominie's wife a gown;
But th' rebelled but they past around froze th' deakins' blood—cold as an icycle—
'T was "drop a dollar in the slot an' see th' dominie rids his blackle!"
Th' deak'n they thot it a mackrifidge, but thet th' young folks coulan't see,
But they didn't pertend t' be Christians, but only endeav'red to be.

Our dominie was a deal worn out, so p'raps his sermons weren't all afire,
An' th' young folks 't seems they hed their views on gettin' th' worth o' his hire.
The deakins th-y tho't thet was uppish in 'em, an' so they labored with their views.
An' talked o' "years" an' "change o' scene," an' hinted some o' "disquiet in 'th pews?"
But, ouchow, th' boys a they gathered th' dollars about ev'ry where they past;
So th' dominie rides his blackle, an' says he's a growin' young fast.

They'll fill th' week night meetin's full, an' if th' speekin's hep'nin' kinder slow,
They don't no single minit pass w'hout they up and say a verse or so;
An' it spurs th' ol' folks mettle to see th' young folks try
T' carpet balls, an' paint th' walls, an' make th' meetin's spry.
An' dis-claim their bein' Christians, an' t' say they only endeav'r;
T' prove thet creed is in th' deed thet shall teach for the life forever.

For a town o' sech smallish dimensions, an' a church thet felt kinder old,
We cert'nly got an awakenin' when the Christian Endeav'r took hold;
For th' "billiard hall" hes varished quite, an scow, I know, now go t' th' church
Who wouldn't ha' dreamed how pleasant it seemed to leave th' "saloon" in t' lurch;
An' I've a boy o twenty or so, who ha bated the town, t-ll me
He didn't dare think he'd be Christian 'nless he'd all'ys endeav'r t' be.

For a town o' such prudish contention t' parry th' sight o' sin,
We cert'nly got an awak'nin' when the Christian Endeav'r stepped in.

EDWARD LEDGER SMITH.

The First of the Course.

A large and select audience greeted the hand-bell ringers at the opera house last night. It was the first concert of the Y. M. C. A. star course, and the officers of the Association must feel highly gratified with the result of their endeavor to place a good class of entertainment before the public at popular prices. No doubt the subsequent numbers of the course will be equally well patronized and appreciated. Mr. G. M. Roger, President of the Association, addressed the audience briefly from the stage, soliciting public sympathy and encouragement in their efforts to raise funds, and hoping their patrons would be satisfied with the programme offered. The concert consisted of selections by the bell-ringer's and songs. The troupe are just on from England and are everywhere meeting with success. Their numbers were all loudly applauded and encored, which is all that need be said regarding the quality of their performance. Bell-ringing is quite a novelty in Peterborough, and the Todmorden troupe scored a success. Their singers did not rise above mediocrity, though Mr. Stanley's rich bass voice pleased many. The imitation of chimes on one instrument somewhat resembling a banjo, but which when swung through the air gave a more resonant tone, also took the audience more from its novelty perhaps than any musical merit it may possess. Altogether the concert gave fair satisfaction. No one who was there can complain of not receiving full value for the low price of admission. The next entertainment takes place Nov. 26th, when the Castillian Troubadours will be the attraction.

Chartered Accountant.

At the examination of the Institute of Chartered Accountants of Ontario, held in Toronto on the 17th inst., Mr. J. J. Rooney, of the Peterborough Business College, was one of the candidates, and Tuesday morning he received a letter from the secretary of the Institute notifying him that he has been successful in passing and has been awarded a certificate of competency, entitling him to use the distinguishing letters C.A. (chartered accountant) after his name. There is no other business college principal in Canada who has succeeded in passing this examination and is entitled to such distinction, and Mr. Rooney is to be highly congratulated on his success. Out of the whole Province of Ontario only four were successful at the recent examination. The Institute of Chartered Accountants is a corporation composed of expert and practical accountants, auditors and financial managers, from the largest cities and commercial centres of Ontario, chartered by the Provincial Legislature, with power to confer degrees and award certificates and diplomas to competent persons. Membership of the Institute of Chartered Accountants is gained by payment of a small annual fee of $3, and is no guarantee of competency, while certificates and diplomas are awarded on passing a searching and practical examination, embracing difficult business forms, commercial calculations, and book-keeping in connection with any kind of business, including banking, joint stock companies, insurance, municipal and all financial corporations. The business college with a gentleman, of such distinction as Mr. Rooney has won for himself, at its head, must commend itself to the good judgment of all who require a thorough training in commercial science.

The first successful blood-purifier ever offered to the public was Ayer's Sarsaparilla. Imitators have had their day, but soon abandoned the field, while the demand for this incomparable medicine increases year by year, and was never so great as at present.

HARVEY FACES A JURY.

ON TRIAL FOR KILLING HIS WIFE AND DAUGHTERS.

The Prisoner Pleads Not Guilty—Several Witnesses Examined—Insanity Expert in Court

GUELPH, Oct. 31.—The Harvey murder trial was called at 2 o'clock yesterday afternoon and the prisoner took his place in the dock on the charge of murdering his wife and two daughters. On the clerk reading the indictment Harvey in a clear, calm voice pleaded not guilty.

The jury was empannelled but not before over two dozen were challenged, both for the prosecution and defence. All residents of the city were barred off the jury. Harvey appeared cool and quite unconcerned. His imprisonment does not seem to have had much effect on him.

After the jury had taken their seats they were addressed by E. F. B. Johnston for the prosecution. The evidence as far as adduced is similar to that taken at the inquest and the witnesses are the same. Drs. Richardson, Aikens, Clark and O'Reilly of Toronto will give evidence as to Harvey's sanity.

E. F. B. Johnston, Crown Attorney, assisted by County Crown Attorney Peterson are conducting the prosecution and Mr. William Lount, Q. C., and G. G. S. Lindsey of Toronto and K. McLean of Guelph look after the defence.

THE STORY OF THE CRIME.

Harvey's Three Victims—Failure of His Scheme to Kill His Son.

The usually quiet city of Guelph was startled on the morning of March 26 last when a report spread that William H. Harvey, book-keeper for J. W. Lyon, had been arrested the previous night for embezzling $400 from his employer. Harvey was bailed by Dr. Lett in the sum of $2000. When he did not put in an appearance at the Police Court that afternoon Chief of Police Randall and Constable Elliott went to his residence. Gaining an entrance the officers went upstairs when the first object on which their eyes rested was Harvey's fair haired 13 year-old daughter Geraldine lying on the floor of the front bedroom with her head in a pool of blood by the closet door. The bloody hole in her head at once told the means by which she had met her death. In the corner of the rear room the body of Lily, the eldest daughter, was found. She had her hands over her head as if protecting it. She was dead, her wrists and arms quite cold. There was a wound in the back of her head and blood was oozing out of it. On going downstairs and entering the bathroom another bloody spectacle met their eyes. On the floor lying on her left side was Mrs. Harvey with a bullet hole in the back of her head, from which were oozing out her brains.

The Toronto Detective Department, which had been advised of Harvey's non-appearance to answer the charge of embezzlement, were at once notified of the triple murder, it being suspected that Harvey, whose son, J. W. Harvey, was employed with C. A. Sandham, engraver, 40 Colborne-street, was heading for that city. Young Harvey had left for Guelph at 6 o'clock that evening in complete ignorance of the terrible crime that had been enacted there. Detective Black was detailed to go to the son's boarding house at 25 Grosvenor-street and await developments. At 8.45 an electric despatch messenger boy arrived at the house with this message addressed to his son:

"MY DEAR BOY: I am in town for the night. Will you come down and stay all night with me?

Walk down the west side of Yonge and north side of King to Palmer House. I may come up to meet you. YOUR FATHER."

Detective Black, accompanied by two youngmen who knew the murderer, walked down Yonge-street. At the south-east corner of Yonge and King-streets they saw Harvey walking leisurely up and down the sidewalk with his hands in the pockets of his mackintosh and smoking a cigar. Calling Policeman Leonard to his assistance Detective Black arrested the murderer, whose only remark as he was taken along King-street to Headquarters was, "Boys, don't haul me along."

In the pocket of Harvey's mackintosh was found a 32-calibre revolver, nickle plated, with a mother-of-pearl handle. The pistol held three unexploded charges and three exploded ones, the shells of the latter being still in the cylinder. In the same pocket were two boxes of cartridges. From one of the boxes six cartridges were missing. It is believed Harvey intended to kill his son and then himself, and thus remove all who would suffer from the shame occasioned by his alleged embezzlement.

The following morning Harvey appeared in the Toronto Police Court and was turned over to Chief of Police Randall of Guelph on the embezzlement warrant. The embezzlement case, however, was never tried, the authorities deeming it unwise to proceed with that while the capital charge was pending. Harvey has since been confined in the jail at Guelph awaiting his trial for murder. No word relating to his awful crime has ever passed his lips.

AFFIRMED AND DENIED.

That the Vanderbilts Have Secured Control of the Alton—Another Big Scheme

NEW YORK, Oct. 31.—The reports current that the Vanderbilts had bought a majority of the stock of the Chicago and Alton road are positively denied by the fiscal agent of the company in this city and by the officials of the company in Chicago. Vanderbilt interests, however, insist that the control of the property has been bought and it is stated that the Union Pacific collateral trust fund, which is to be used to take up all the stock, is now being printed.

Another railroad scheme of equal importance is also under way. It concludes a close traffic agreement between the Pennsylvania, Burlington and Quincy, Burlington and Northern and Manitoba. It is asserted that the negotiations between Burlington and Pennsylvania have been practically closed and only the details remain to be arranged.

The Strike Spreading.

BRUSSELS, Oct. 31.—The strikers in the Mons district now number 8000. Delegates sent here by the strikers waited upon M. de Bruyn, Minister of Industry, to-day and urged him to support the men's demands. The colliers in the Central and Charleroi coal fields are joining the strikers. The owners of the coal mines have issued a manifesto. They refuse to grant the strikers demands and assert that since 1887 the wages of the men have been in proportion to the price of coal.

A Burglar's Romance.

CHICAGO, Oct. 31.—A burglar entered the residence of Geo. W. High here Monday night and seeing his image in a large mirror supposed it was another man and so drew his revolver and blazed away at it. Mr. High and his family were at dinner on the floor below and were startled by the shooting and the noise of breaking glass. Mr. High grabbed a poker and headed a procession up the stairway, but when the room was reached nothing was found but the broken mirror and an open window.

TRANSATLANTIC NEWS.

SIR CHARLES TUPPER RETURNS FROM HIS SPANISH TRIP.

Germany Determined to Be in a Position to Wage War Victoriously—The Strike in Mons Spreading.

LONDON, Oct. 31.—Sir Charles Tupper has just returned from Spain. He says his visit was simply a short holiday, and also for the purpose of studying the copper mines at Rio Tinto. He has no reason to believe that there is any favorable change in the attitude of the Spanish Ministers respecting a treaty.

Compelled to Wear Heavy Armor.

BERLIN, Oct. 31.—During the debate on the Budget in the Reichstag yesterday Herr Veanois refuted a statement made by Herr Bebel, the Socialist leader, that Russia is Germany's hereditary foe. The sovereigns, he said, are united in desiring peace and hoped their efforts to maintain it would be successful.

Herr von Bennigsen said Germany's position in Europe compelled her to wear heavy armor and she would stake everything to enable her to wage a possible war victoriously.

Revolution in Guatemala.

CITY OF MEXICO, Oct. 31.—A telegram from Guatemala says a revolution is in progress in the Santa Rosa district and the Guatemala Government is shooting all prisoners. The revolutionists are holding their own and are aided by other forces in the direction of the Mexican frontier.

Gen. Barrundia, a Guatemala exile here, will publish a pamphlet, reciting alleged abuses committed by President Barillas and his party.

THE NEW PRINCESS' MOTHER.

Mourning in 'Frisco While the Hatzfeldt Wedding Bells Rang.

SAN FRANCISCO, Oct. 31.—While the bells of the great Brompton Oratory in "Merrie England" on Monday pealed forth the wedding chimes, a woman whose form is bent and whose hair is whitened by the storms of seventy years was mourning in San Francisco for a daughter who is dead to her forever. The heart-broken old lady is Mrs. Prentice, and the daughter for whom she weeps is the lady who became Princess Hatzfeldt. Instead of placing orange blossoms on her daughter's head the mother, 6000 miles distant from the wedding ceremony, placed lilacs on her tomb. The heiress whose adoptive father's dollars bought for her a husband with a name written high in the list of Germany's nobility never knew who her mother was until she reached the age of fourteen years. When it dawned upon her that Mr. Huntington, whom she had always been taught to call father, was in reality not her parent, that his wife was not her mother, the blow was such a shock to her that she was prostrated by a severe illness.

Poor Mrs. Prentice has never known her daughter Clara's lips to frame the sacred word "mother." When by accident they chanced to meet on a few different occasions the heiress has maintained a cold and austere demeanor, and has never ventured beyond extending the tips of her fingers for her mother to grasp. There have never been any of those affectionate intimacies between them that mark the lives of other mothers and their daughters. Twenty-seven years ago Clara Huntington was born in Sacramento. Edward Prentice, an obscure groceryman of the capital city, was her father. They had another child, a son, named Edward H. Prentice, who is now a clerk in the Railroad Building, Fourth and Townsend streets. Mr. Collis P. Huntington married the sister of Mrs. Prentice. In the great flood of 1862 that left death and devastation in the valley of Sacramento, the father of Clara Huntington was drowned. He left nothing but poverty as a legacy to his widow and orphans. Mr. Huntington had no children, so his wife offered to adopt and care for her sister's baby, a girl, who was not born until after her father's death.

The poor widow fought bravely to provide for her children, but the fates were against her, and she was worsted in the struggle. Mr. Huntington got hold of the baby. He was not then the great railroad magnate whose name is now known in the four quarters of the globe. But there came a change when the golden spike was driven in the last rail of the Central Pacific Railroad and Mr. Huntington became a power in the financial world almost before he knew it. During the years that followed her adoption by Mr. Huntington, Clara was not enlightened as to her real parentage until a gentleman calling at her adoptive father's residence unintentionally allowed a few remarks to drop that opened her eyes to the truth. She at once called upon Mr. Huntington for an explanation and he related to her the facts of the case. For long time after that incident Miss Huntington was despondent and refused to be comforted. The knowledge that she did not have an undeniable right to the name she bore preyed upon her mind. She was at that time about fourteen years old.

The old order of things was not changed, however, and Mr. Huntington and his wife continued to be as they always had been, "Papa" and "Mamma," and her mother and brother were "Auntie" and "Cousin." Her depressed spirits continued and Mr. Huntington thought that a change of residence would efface from Clara's mind the phantom that haunted it, besides placing her where daily association with the mother and brother whom she longed to forget would cease to remind her of the fact that she was not his child. He took her East with him and kept her there until her education was completed and she entered society. When Miss Huntington met her mother on the occasion of her first visit to California, after her long absence, there was, as before said, nothing but the iciest formality on the part of the young woman. The glamour of wealth and society had done its work—the child was estranged from the mother who bore her into the world. Clara avoided meeting her mother on every possible occasion, and her brother as well.

Ambitious City Voters.

HAMILTON, Oct. 31.—W. P. Walker applied yesterday morning to Judge Muir to have John Moore, who is now in jail charged with killing Reuben Shoaps, admitted to bail. Judge Muir ruled that, as there was a doubt whether the prisoner would be charged with manslaughter, or murder under the verdict of the jury he would not deal with the application.

Harry Spicer, the young man who shot Ruby Nelson, a Hamilton girl, in a Buffalo saloon a few months ago, was sentenced to twelve years in the Erie county penitentiary. If Spicer behaves himself while in prison he will get out in seven years and eight months.

QUEBEC, Oct. 31.—A rumor prevails among business men in this city that the will of the late millionaire, James Gibb Ross, has been found.

Pilot M. Norman, who was tried before the Harbor Commission on a charge of grounding the steamer Canopus on Point St. Valier, was found guilty of the charge and sentenced to be suspended from duty for eighteen months.

SECRETS OF THE CLAN.

BEGGS SAID THEY HAD BECOME PUBLIC PROPERTY.

Members of Camp 20 Testify in the Cronin Murder Trial—An Attachment Issued for Spellman.

CHICAGO, Oct. 31.—At the opening of court in the Cronin trial yesterday morning State's Attorney Longenecker asked for an attachment for Edward Spellman of Peoria, the district officer of the Clan-na-Gael. Mr. Longenecker said Spellman had been served with a subpœna and had agreed to come when called for. Two telegrams had been sent to him but he had not responded. The attachment was issued.

The first witness was Dennis O'Connor. He testified that he was a member of Camp 20 Clan-na-Gael. At a meeting of the camp on Feb. 8 the witness said he heard Thomas O'Connor state that he had heard read in Dr. Cronin's camp the minority report of the committee to try the executive body of the order. The names of the members of the executive body were not mentioned and witness said he never knew who composed the triangle. Then it was voted to appoint a committee to go up to Dr. Cronin's camp and investigate the matter of the minority report which Dr. Cronin had read.

Patrick Nolan, financial secretary of Camp 20, produced his record book and from it testified as to the numbers borne by Coughlin, Cooney, O'Sullivan, Beggs and Burke. Witness further testified that he was present at a meeting of the Camp on the night of May 3, the day preceding Dr. Cronin's death, that Beggs presided, that there was a call for the report of the Secret Committee appointed Feb. 8 and that Beggs replied that the Committee was to report to him alone. Witness said that on the Sunday following Dr. Cronin's disappearance he met Burke and Cooney about 3 o'clock in the afternoon in a saloon. This was before witness knew of Cronin's disappearance. They went to another saloon and played cards for a couple of hours.

The next witness was Capt. Thomas F. O'Connor, who created excitement in Camp 20 on the night of Feb. 8 by saying he had heard read in Dr. Cronin's camp a report of the committee that tried the triangle. Capt. O'Connor said Andrew Foy was the first man to speak. Foy arose in his place in the camp and addressed the senior guardian and stated that he arose under a terrible strain; that after the disclosures of LeCaron in London the organization as an organization was no more; that there were four British spies in the organization and that it should be reorganized and every one that was in the organization who had the slightest taint or suspicion attached to him should be expelled.

"I," continued the witness, "arose and stated that I was not surprised at hearing the gentleman talk as he had done; that I knew by positive information that the organization was run by a parcel of rogues known as our executive body. That they had squandered our funds even to the extent of $100,000 and not alone that but they had sent our best men across to England to have them put behind the bars. I stated positively that LeCaron was an agent of our executive body and received pay from them. At that moment I was interrupted by the brothers with a demand to tell where I got my information. I did not like the first brother who spoke to me and I said, 'You demand nothing.' There were two or three other brothers who joined in the demand and there was a general uproar, so I turned around to the senior guardian and I said to him, 'If the senior guardian demands of me where I got my information I will tell him.' He did not say anything. Then there was some more uproar. I turned a second time and a third time and said if the senior guardian would demand where I got my information I would tell him. Then I stated I had heard a terrible report of the trial committee in Buffalo and that I had also seen a written report, 300 pages of closely written longhand about the trial, and that I was positive of my statement.

"At that instant Dan Coughlin, a member of the camp, arose and said: 'Mr. Guardian, I move that a secret committee of three be appointed to find out the source of Capt. O'Connor's information.' These were his words. Then there was some one else on his feet and the senior guardian rapped the camp to order as it was such a tumultous time—such turmoil—and the senior guardian spoke and he said, 'I will have no more of this subject and I will appoint a committee.'"

Q.—Who was the senior guardian at this time? A.—John F. Beggs.

On cross-examination Capt. O'Connor said he did not say in his speech Feb. 8 that Cronin read the report of the trial of the triangle, nor did he say in what camp it was read. He said that after he was subpœnaed to appear before the coroner's jury he met Beggs and asked him if he should disclose the secrets of the organization. Beggs told him to go ahead, as they were already public property. The witness said he had heard of the "inner circle," as applied to the executive body, but never in connection with individual camps. O'Connor said he had been at work on the Cronin case without pay up to Sept. 26, when he was appointed a policeman.

On re-direct examination it was brought out that there were five or six members of Camp 20 present when the witness made his speech Feb. 8, who were in the other camp when the report regarding the triangle trial was given and were therefore cognisant of the facts as to the camp in which it was given and who gave it. He explained it was a verbal, not a written report. There were 18 or 20 members of Camp 20 in the other camp when the report was made by the late Dr. Cronin in Cronin's camp. Subsequently Cronin showed the witness the written report.

The next witness, Henry Owen O'Conner, a member of Camp 20, described the proceedings at the meetings Feb. 8 and 22, without bringing out any new points. At a subsequent meeting, however, he said Dan. Coughlin came to him and said information had been received in Chicago that a confederate of Le Caron was in the organization and indications pointed to Dr. Cronin as the man. The witness stopped him at that point.

Police Officer John M. Collins testified that he had been a member of Camp 20. He said that at the reunion given Feb. 22 Dick Powers and Pat McGarry made speeches denouncing the triangle. Then Beggs said this tirade against the triangle and Alexander Sullivan must cease or there would be war; that Sullivan had many friends there.

Patrick McGarry, senior guardian of the Clan-na-Gael camp in Lakeview instituted by Dr. Cronin and of which Dr. Cronin was a member, was the next witness. He described the re-union meeting, Feb. 22, without adding material information, and then told of a visit he made to the house of O'Sullivan on the Sunday following Dr. Cronin's death. He then questioned O'Sullivan very closely about his contract with Dr. Cronin to treat his man in case of accident and described the twitching of O'Sullivan's mustache.

The court then adjourned until to-day.

Beecham's pills act like magic on a weak stomach

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

THE BENDER BUTCHERIES.

Belief that Old Mrs. Bender is Now in a Michigan City.

NILES, Mich., Oct. 31.—Mrs. Eliza Davis was discharged yesterday on the charge of grand larceny. During the trial many facts were adduced tending to show that Mrs. Monro, Mrs. Davis' mother, was connected with the Bender murders in Kansas. By her own admission Mrs. Monro has had seven husbands and a number of them have mysteriously disappeared. Her daughter Eliza insists positively that Mrs. Monro is old Mrs. Bender. Officers from Kansas who have been in the state for 10 days investigating the case, are satisfied they have discovered the notorious Bender family. A requisition has been asked for and as soon as it arrives the parties will be taken to La Belle County, Kan., for trial.

The murders committed by the Bender family, were first brought to light in 1873, and at that time revolting details of the crimes were the talk of the civilized world. The homes of Thomas and William Bender the principal butchers, were near Cherryvale, Kan., both families occupying a large tavern. The mysterious disappearance of Dr. Wm. York of Fort Scott, Kan., led to the organization of a searching party, and the missing man was traced to the Bender tavern where all trace was lost, and the party abandoned the search although the Benders were strongly suspected of knowing more about the missing man than they were willing to divulge. Shortly after a farmer passing noticed it deserted, and when it dawned upon the community that the Benders had left that section of the country, the premises were searched, and the searchers were rewarded by finding the body of Dr. York and nine other bodies that the fiends had buried.

The country was aroused, and descriptions of the murderers sent broadcast, and although vigorous search has been made they have never been brought to justice.

TORONTO TOPICS.

Medical Students Severely Plucked—Mangled to Death by a Roller.

TORONTO Oct. 31.—In the examinations of the Ontario College of Physicians and Surgeons held in September the "plucking" has been wholesale, especially in the primary, only about 44 per cent. having passed. Sixty per cent. of the candidates in the final examination were successful.

Mr. Frank Mackelcan, Q.C., for the city of Hamilton yesterday at Osgoods Hall moved ex parte for an injunction restraining the G.T.R. from building the proposed spur between the Northern and Northwestern Railway and the G.W.R., about two miles east of Hamilton, thus forming a through line from Toronto to Niagara Falls without touching Hamilton. Owing to the serious questions involved Chief Justice Galt decided not to grant the injunction ex parte but to have the question argued before him by counsel for Hamilton and the G.T.R., and therefore directed notice to be given for Friday next.

A fatal accident occurred yesterday afternoon about 5 o'clock in Spadina avenue Willie Storey, the 7-year-old son of Mr. Charles Storey, conductor on the G. T. R., was playing with some lads around a heavy stone roller, which was being drawn behind a wagon. By some means he was caught in the roller and before the driver could stop the boy was mangled and crushed beyond recognition.

Fatal Accident Near Kemptville.

KEMPTVILLE, Oct. 31.—While Henry Johnson was driving home from town his horse took fright entering his own gate and upset the buggy, pitching him out on his head which caused rupture of the spinal cord. Mrs. Johnson hearing the noise ran out and found her husband lying unconscious. He never recovered consciousness. He leaves a wife and seven children.

Puget Sound at Our Mercy.

WASHINGTON, Oct. 31.—The annual report of Brig.-Gen. Miles, commanding the division of the Pacific, has been received at the war department. Pacific coast defences forms the subject of a considerable part of the report. Gen. Miles calls attention to the fact that there is not a single gun in position to protect the cities of Puget Sound and the great commercial interests of the Northwest. He says: "With all our boasted intelligence and pride of institutions, inventive genius and superiority in many of the arts, industries and commercial enterprises we are as far behind the modern appliances of war as the people of China and Japan."

The Actress and the Count.

NEW YORK, Oct. 31.—An evening paper says: Marie Halton, who played the Vivandiere in "The Drum Major" at the Casino here, sailed for Europe on the City of Paris this morning in company with a Russian nobleman known as Count B. She was domiciled in luxurious apartments here. Her departure was unexpected. It is evident she must have determined upon flight at the last moment. The count, who was in the Russian diplomatic service, was recently ordered to St. Petersburg. His approaching departure seemed to madden Miss Halton to a degree that affected her part at the Casino. Her flight caused a sensation among theatrical people here.

TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

IMPORTANT!

Remarkable Restoration to Health of Well Known Canadians whose Cases were given up as Incurable.

From the few of the hundreds of letters we have received from those who have been restored to health and strength by the use of that wonderful discovery, Paine's Celery Compound, we make a few extracts. We hope that the thousands of Canadian men and women who are suffering from nervous and wasting diseases, will profit by these true and plain statements of facts.

D. S. Davidson, of Montreal, suffered for years with nervous dyspepsia, pain in his back, and sleeplessness. He tried doctors without relief, was losing flesh rapidly, and had about given up heart when he commenced the use of Paine's Celery Compound. "Now," he says, "I am a new man. I sleep well and my food does not hurt me."

Mr. Jas. Johnson, 302 St. Charles Borromee Street, Montreal, was weak and nervous, had no appetite, and could not rest at night. His nerves were soothed and strengthened by Paine's Celery Compound, and he soon became well and strong.

Annie Gourley, of River Beaudette, P. Q., found the Compound a certain cure for weakness, and now feels as well as she ever did.

A customer of Harrison Bros., druggist, Hamilton, Ont., told them that he was entirely cured of nervous weakness by the use of two bottles of the Compound, after everything else has failed.

The little child of Mrs. G. E. Meredith, 76 D'Arcy St., Toronto, was cured of St. Vitus' Dance by Paine's Celery Compound.

A New Printing Scandal.

About two months ago a number of printers in the *Empire* office began work on the Dominion voters' lists.

The printers discharged from the Ottawa Bureau claimed that they had been engaged for a period that had not then expired. As they were found to be correct in this, the the Government took them on again at half-time, and so gave them some work at the expense of the other "compe" of that office.

The men engaged on the voters' lists in the *Empire* office have been steadily and fully employed.

Hansard shows that the Government bought at least $63,000 worth of plant for the special purpose of printing the voters' lists.

Last spring Mr. Foster, in Mr. Chapleau's absence, named $21,000 as the cost of setting type for "the entire voters' list" in the Government Printing Office. There is no doubt that all the lists were set there.

How does it come that the *Empire* establishment has been engaged upon this Government printing?

The Government, by the mouth of Mr. Chapleau, promised that the lists would be printed by the new Bureau. They said that the establishment would be conducted strictly on commercial principles. They asserted that they would save at least $20,000 a year by taking the public printing from a number of small Tory printing houses and confining it exclusively to the Bureau. Upon the strength of these pledges Parliament voted about $400,000 for buildings and plant, and undertook an establishment which will cost fully $500,000 when perfected.

One reason why the Opposition and the public did not more strenuously oppose the creation of the Bureau was that it promised to do away with the extravagance, jobbery and corruption incidental to the distribution of public printing among newspaper offices. Now we find the *Empire* subsidized according to the old plan. Of course the other Tory journals will demand, if they have not already received, their share of the work and the swag. How can the Government make a special pet of one wretchedly incompetent organ? The Montreal *Gazette*, the Hamilton *Spectator*, the St. Thomas *Times*, the Halifax *Herald*, the Toronto *Mail* (which, according to the Public Accounts, obtained only a few thousand dollars of plunder last year), the *Orange Sentinel*, *La Minerve*, *Le Monde*, *La Presse*, and all the other Tory journals that find the party in brains—how can they be expected to submit to get no pap when the *Empire* is getting the good thing in quantities—probably at the old Montreal *Gazette's* rate of fourteen prices. Is is plain that the system of farming out the voters' lists has been again revived, notwithstanding the creation of a Government Bureau at the cost of half a million, the outlay of at least $63,000 of public money on special voters' lists plant, and the expenditure of $21,000 in setting the lists.—*Globe*.

Temperance Topics.

Key-note of the W. C. T. U.

The following is a summary of the address of Mrs. Brethour, President of the W. C. T. U. at the opening of the Provincial Convention of that body in Galt on Tuesday:—

The next business was the reading of the President's address. This was a most comprehensive and able paper, and went over the whole ground of Temperance legislation and Temperance work throughout the world. Mrs. Brethour referred to the alarming spread of intoxicating liquor in Africa, and, coming down to our own country, commented adversely upon the action of Lieutenant-Governor Royal, of the North-west Territories, in introducing a law licensing the sale of beer of the standard of four per cent. of alcohol in those Territories, in spite of the fact that the Legislature, by a vote of 14 to 6, expressed themselves favorable to the prohibitory law which has been in force for fifteen years. The laid the responsibility for the subversion of the will of the people at the door of the

DOMINION GOVERNMENT,

whose sanction Mr. Royal had secured to his license law. Notwithstanding the discouragement arising from the repeal of the Scott Act throughout the entire Province, Mrs. Brethour said that the outlook was hopeful. "This repeal all along the line," she said, "has taught us some lessons of practical value which must be taken into the counsels of Temperance workers in future. The lesson is that any local option law, however good, will not satisfy the people. Another lesson is, we must have an

INDEPENDENT PARTY

in our Dominion and Local Legislatures, to whom we can look for agitation in those bodies which will lead to such Temperance and prohibitory legislation as the public sentiment of the country demands." The President endorsed the action of the Dominion Alliance, embodied in the following resolution:—That it is desirable to secure the election to the House of Commons of a number of independent Prohibitionists, charged with the responsibility of advocating our cause, and that the Executive be instructed to effect, in agreement with County organizations, a number of favorable constituencies where such candidates shall be nominated and supported under the auspices of the Alliance." She hoped that a resolution would be passed endorsing the action of the Dominion W. C. T. U. on the question of license and Prohibition, embodied in the following

RESOLUTION.

(1) That we are unalterably opposed to the liquor traffic and believe it cannot be licensed without sin. (2) We regret the defeat of the Scott Act in the counties of this Province, but trust that it will result in an immediate demand for a Dominion law prohibiting the manufacture and sale of intoxicating liquors. (3) That we have no hope of Prohibition from any political party which refuses to put the immediate abolition of the liquor traffic as a plank in its platform. (4) That we believe a revenue taken from the liquor traffic has a tendency to blind the eyes of the taxpayers to the evils of the trade, and demoralize the conscience of the public generally. (5) That we believe Prohibition should be made an immediate political issue. (6) That we pledge ourselves to give our individual support to the party which will unqualifyedly put the plank of Prohibition on its platform. (7) That we strongly condemn the present political parties for their truckling silence in their campaign documents and public addresses on the question of immediate Prohibition of the liquor traffic. (8) That we urge a constant agitation and education on all lines for the fuller knowledge of the public conscience and sentiment. (9) That we condemn the introduction of license in the North-west Territories in opposition to the law and public opinion of Canada.

LABOR REFORM.

Referring to the question of labor reform in its relation to the Temperance cause, the President said:—"It is our duty to recognize the signs of the times in the ecquemicines so frequently manifesting themselves in the industrial departments of the world's labor. They certainly point to the need of social and industrial reforms. Labor organizations and leaders are evidently impressed with the greatness of the danger to the best interests of the workingmen of this country from the liquor traffic. Some of the strongest and best things have been said by some of the wisest and safest leaders of labor reform in favor of advanced Temperance legislation." The subject of scientific Temperance instruction was also touched upon. She was gratified to say that such instructions was now compulsory in all Public Schools in the Province. By a recent order of the Department of Education the subject of Temperance had been made an optional subject for Christmas entrance to High Schools.

"THE HON. MR. ROSS,"

said the President, "deserves and receives our thanks for his willingness to grant our requests in this line of progress. These favors from the Hon. Minister lead us to hope that very soon Temperance will be placed on the departmental list with the other subjects for regular examination. There are over four hundred Common School teachers in the Province of Ontario and over 610,000 children of school age. The extent to which this instruction is given already is noteworthy. In 1886-7 the number of children receiving instruction in Temperance and hygiene was 75,286, in 1887-8 the number had increased to 90,103. It has been said of the Temperance people that they are neglecting the work of

MORAL SUASION

and giving their attention too much to political methods. In no sense have the Temperance people failed to make the moral suasion idea prominent. Some people limit its extent and apply it only to the drinkers. The W. C. T. U. applies moral suasion to the men who vote. The true principle of action in moral suasion for the drinker, moral suasion for the voter, and legal suasion for the maker, importer and seller of intoxicating drinks. Instruct the children. Our work is of vast importance to the welfare of their country. We teach them that alcohol is not only injurious to the human system, but absolutely harmful. It is stated that 93 per cent. of all children taking the Temperance pledge remain faithful to their early vows. This being true, we have the highest encouragement to prosecute with ceaseless effort and humble prayer this branch of loving toil."

As a family medicine, Ayer's Pills excel all others. They are suited to every age, and being sugar-coated, are easy to take. Though searching and thorough in effect, they are mild and pleasant in action, and their use is attended with no injurious results.

Peculiarities of the Hair.

There are times when all persons require to pay some particular attention to the hair. To reinvigorate the life or energy of the roots is a simple matter if taken in time. Dr. Dorsewend's Great German Hair Magic will do the word, it works in accordance with nature, supplys fresh nourishment to the glands keeper, the hair luxuriant and natural in shade. Be sure to get, you cannot afford to miss it. Every druggist sells it. It is money well spent. See Dorsewends advertisement in another column.

If the Sufferers from Consumption.

Scorfula and General Debility will try Scott's Emulsion of Cod Liver Oil, with Hypophosphites, they will find immediate relief and a permanent benifit. Dr. H. V. Mott, Brentwood, Cal., writes: "I have used Scott's Emulsion with great advantage in cases of Paralysis, Scrofula and Wasting Diseases. It is very palatable." How to Lace Your Shoes.

Not one person in a thousand laces his shoes correctly. The correct way is to put your foot when you are about to lace your shoe as much as possible in the heel of the shoe. You can do this best by lacing your shoes with the heel of your shoe resting in a chair standing in front of the one you are seated on. Over the instep the lacing should be drawn as tightly as possible This will hold your foot back in the shoe, giving the toes freedom and preventing their being cramped. Lace about the ankle to suit your comfort.—*New York Truth.*

Land, sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, it available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be taken in a cup of tea or coffee, without the knowledge of the person taking it; it is absolutely harmless and will effect a permanent and speedy cure, whether the patient is a moderate drinker, or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. For circular and full particulars, address GOLDEN SPECIFIC CO., 185 Race Street, Cincinnati, Ohio. eodw

The Appetite

May be increased, the Digestive organs strengthened, and the Bowels regulated, by taking Ayer's Pills. These Pills are purely vegetable in their composition. They contain neither calomel nor any other dangerous drug, and may be taken with perfect safety by persons of all ages.

I was a great sufferer from Dyspepsia and Constipation. I had no appetite, became greatly debilitated, and was constantly afflicted with Headache and Dizziness. I consulted our family doctor, who prescribed for me, at various times, without affording more than temporary relief. I finally commenced taking Ayer's Pills. In a short time my digestion and appetite

IMPROVED

my bowels were regulated, and, by the time I finished two boxes of these Pills my tendency to headaches had disappeared, and I became strong and well.—Darius M. Logan, Wilmington, Del.

I was troubled, for over a year, with Loss of Appetite, and General Debility. I commenced taking Ayer's Pills, and, before finishing half a box of this medicine, my appetite and strength were restored. —C. O. Clark, Danbury, Conn.

Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered Stomach and Liver. I suffered for over three years with Headache, Indigestion, and Constipation. I had no appetite, and was weak and nervous most of the time.

BY USING

three boxes of Ayer's Pills, and, at the same time dieting myself, I was completely cured. My digestive organs are now in good order, and I am in perfect health.—Philip Lockwood, Topeka, Kans.

Ayer's Pills have benefited me wonderfully. For months I suffered from Indigestion and Headache, was restless at night, and had a bad taste in my mouth every morning. After taking one box of Ayer's Pills, all these troubles disappeared, my food digested well, and my sleep was refreshing. Henry C. Hemmeway, Rockport, Mass.

I was cured of the Piles by the use of Ayer's Pills. They not only relieved me of that painful disorder, but gave me increased vigor, and restored my health.—John Lazarus, St. John, N. B.

I have placed on the market

That Desirable and Well Situated Property

in the western part of the Town and offer it in lots as per plan annexed. This affords a splendid opportunity to secure a location for your home in a rapidly improving and in every respect the best part of the town. The properties are situated on Cedar and Hatton streets and within a stone's throw of the West Ward School and a short distance of the principal Churches and the Hamilton Co'y. Works.

"ERIN COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had as a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and merchants should inspect this property as it offers the best sites available and convenient to the business part of the town.

Pushing the Law.

The government is evidently determined to enforce the law regarding sawdust in the streams, in so far as it refers to the Otonabee river. Inspector Gilchrist has received fresh instructions from the government to see that the fines imposed by the magistrate are collected, and also to continue prosecutions as long as the mill-owners violate the law.

It is the people's popular store.

A Lively Industry.

The Bridge Works are booming. Yesterday three carloads of a bridge were shipped to the N.T. & Q.R. Co. at Yarker, Ont., and more will follow to-day. Mr. Law yesterday secured the contract for the new Grand Trunk bridge at Campbellford. There are now about 100 men employed at the works, and thirty more are working outside. The staff has increased fully four fold in the past year.

A Thousand New Cars.

The railway freight traffic in the Midland district is terribly congested, and the Grand Trunk Company cannot supply cars enough to meet the demand. Mr. Arthur White, District General Freight Agent, of Toronto, states that the company has given orders for a thousand new cars, five hundred to be built by Cramps, of Cobourg, and five hundred in the Grand Trunk shops. The manscarcity of cars exists on the C.P.R., and the company are making every effort to meet the demand.

One Section Sold.

At the last meeting of the cheese board only one factory of Peterborough section was sold, namely, Keene. The salesmen from Victoria county held out for 10½c. all round, but the buyers did not quite come up to that figure. Since Tuesday however, Mr. Hodgson, of Montreal, has purchased the Victoria board at 10½c., though it is understood he intends inspecting pretty severely. The cutting process will probably reduce the actual figure considerably.

Assuming Mammoth Proportions.

It would appear that one of our prosperous firms never daunted with keen city competition embarks into direct importation of fine ales, wines and brandies. A full list can be given intending purchasers by calling on W. J. Morrow, 340 Geo. street, or a look through his mammoth wine cellar will convince. He has also purchased from one firm alone a car load of their celebrated ale as well as handling numerous other brands. Parties requiring special brands of fine liquors should call and examine his mammoth stock before placing their order.

"Wants."

You want a man for a special purpose. Possibly you know the very best man to fill the position, but he is employed by a friendly neighbor. It would seem an unfriendly act toward that neighbor to [illegible] to his assistant and tempt him to leave his employer. Consequently, you put an advertisement in the newspaper, stating what your want is. It may happen that the very man you want sees the advertisement and applies for the place. Possibly, he has already decided to resign where he is, or may be the employer is about giving up that branch of his business which this man has overlooked. The advertisement has broken the ice, and done work which could not so well have been done in any other way. An advertiser wants to secure certain services to be rendered in a specified manner, at a specified time, and at a specified price. Possibly, it is a service at which he may employ dozens, perhaps hundreds. Whether this be so, or only one is required, the advertisement may state all the conditions with the exactness of a legal contract, and so make it such, all that need be said in closing with the applicant is that he is engaged upon the terms which the advertisement sets forth.—*Printer's Ink.*

Avalanche of Wallpapers.

There was received and opened at the Peterborough Bookstore Thursday a consignment of 20,000 rolls of wallpaper, including the most superb line of ingrain wallpapers and ingrain friezes ever brought to town. And this is only the advance consignment of 75,000 rolls to arrive (as fast as they are finished to our order) at the Peterborough Bookstore direct from the most noted manufacturing establishments of England and this continent. The fall stock includes the widest possible range consisting of papers from three and a half cents per roll to three and a half dollars per roll. The public must not regard this as a mere puff announcement,—they are invited to call and inspect the most artistic, elegant, varied and complete stock of wallpapers ever gathered within four wall in Peterborough. The immense proportions which the wallpaper trade of the Peterborough Bookstore has gained—far in excess of any other year—warrants the proprietor in importing for the fall and spring trade so extensive a stock. The development of the public taste justifies this course, as is shown by the fact that this week paper was supplied from the Peterborough Bookstore, for a *dining* room, alone the cost of which was $217. When wallpaper of any kind is required, the best and largest stock, the finest selection and the best prices will be found at the *Peterborough Bookstore.*

J. R. STRATTON,

Hymeneal.

Kirby—Bradburn.

Another happy hymeneal event, one which has been looked forward to with interest in social circles, occurred last evening, when Mr. Halder S. Kirby, Ottawa, son of Mr. J. G. Kirby, city treasurer, was married to Miss Josey, daughter of the late Wm. Bradburn. The ceremony was conducted quietly at the residence of the bride's mother, "Maple Grove," in the presence of about twenty-five relatives and intimate friends of the young couple. Rev. I. Tovell, of St Catherines, a former esteemed pastor of the George Street Church, where the family were attendants, performed the nuptial rites in a happy manner. The bridesmaids were Miss Kirby, of Ottawa, sister of the groom, and Miss Maud Bradburn, cousin of the bride. The ladies were elegantly attired in charming wedding dresses. The bride wore cream silk, with train, and a beautiful bouquet of roses for ornament. Miss Kirby wore white China silk and Miss Bradburn a dress of cream nun's veiling. The groom was supported by Mr. Young, an Ottawa friend. Mr. Thos. Bradburn, uncle of the bride, acting *in loco parentis*, gave the bride away. After the ceremony, which took place about five o'clock in the afternoon, the bridal party and guests sat down to an elaborate wedding breakfast prepared by Mr. Harry Long, caterer. The newly married couple took the nine o'clock train for the east, via Port Hope; and will take up residence in the Capital city.

Needless to say, the gifts to the bride were of a splendid character, numerous, costly and elegant, and manifesting the high regard in which the young couple are held by their many friends. The bride was one of Peterborough's most charming and popular young ladies, and though she will be greatly missed from social circles in town, she will, nevertheless, have the unanimous best wishes of all with whom she associated for her future happiness. Mr. Kirby spent several years in town and made many warm friends by his manly bearing, and social qualities. The EXAMINER but voices the feelings of a large number of private citizens in wishing Mr. and Mrs. Kirby a happy and prosperous life.

The first successful blood-purifier ever offered to the public was Ayer's Sarsaparilla. Imitators have had their day, but soon abandoned the field, while the demand for this incomparable medicine increases year by year, and was never so great as at present

St. Luke's Young Men's Guild at the rectory to-night.

There were 96 pupils in one of the divisions of the public school on Wednesday.

The shed accommodation for country people who attend the Mark Street Methodist Church has been, during the past week, more than doubled by a wing being added between the back of the church and the old shed. This is the second change this year which has been found necessary from the ever increasing attendances. The first was in the interior, which increased the seating accommodation, and the second to give shelter to the farmers' teams. The Rev. A. C. Wilson will feel well repaid from the gratifying results of his arduous labor in promoting the good of his people.

Mr. J. Wright, who has been confined to his bed for the past four weeks by an attack of typhoid fever is gradually recovering, and expects to be able to be moved home about the last of next week.

Mr. J. T. Wright, who has been visiting in the old world for the past six or eight weeks, returned Tuesday evening after a very pleasant trip. He visited all the scenes of his boyhood in the southern part of Scotland and a great many places of importance in England. He attended church in an edifice built over 800 years ago, the building still being in a good state of preservation. While in England he had a drive of over seven miles along the dock of Liverpool. While there are many points of interest, he says that Canada is by far the better country to live in.

Thanksgiving Day.

Baillieboro.

An entertainment and social in connection with the Baillieboro Methodist Sunday school, will be held in the town hall, Baillieboro, on the evening of Thanksgiving Day, Thursday, 7th November. A good programme will be provided, consisting of addresses, music, readings, recitations and dialogues. Doors open at 7 o'clock; to commence at 7.30. Admission, adults, 15 cents; children, 10 cents. Mr. J. R. Stratton, M. P. P., will occupy the chair.

Cavanville.

The ladies of the Cavanville Methodist church intend holding a grand Thanksgiving dinner, to be served in Mr. George Fletcher's show room, Cavanville, on Thanksgiving Day, Thursday, 7th November. The dinner will consist of fowl, etc., and will be served from 4 o'clock to 7 o'clock p.m. After dinner an entertainment will be held in the church, when addresses will be delivered by Rev. S. J. Shorey, of Peterborough; Rev. D. N. McCamus, of Fraserville; Rev. J. C. Bell, of Bethany; intermingled with music, readings, recitations, etc. Tickets for dinner and entertainment, 25 cents. Proceeds to be devoted to church and parsonage fund. A cordial invitation is extended to all.

Remarkable Duel.

An Indian and a Mexican Settles a Dispute in a Peculiar Manner.

ALBUQUERQUE, N.M., Oct. 25.—A remarkable yarn comes from Taos County. An Indian settler named Wankensee and a Mexican cattleman, Juan Verege, were the principals in a duel recently fought. The conditions were that each should submit his hand to his opponent and have a finger cut off, the cutting to be done alternately, and the man who first showed a sign of pain was to be stabbed to the heart. The Indian won the toss, and cut off the Mexican's forefinger. There was no squeal and the Mexican took off the Indian's thumb. Then the Mexican lost another finger and the flow of blood was so great that the Mexican's second's cut short the proceedings by shooting the Indian dead and covering his seconds.

From Our Own Correspondent.

Meeting of Otonabee council, Monday, Oct. 21st. All the members present. Moved by Mr. Johnston, seconded by Mr. McIntyre, that Hanbridge be allowed to commute three years' statute labor to make a road through lot 18, con. 16. On motion a special grant of $10 was made to gravel Keefe's hill, Mr. Wood was appointed to have Keene bridge put in repair. The following accounts were ordered to be paid: R. Lane, cedars, $3.37; E. Howson, cedar, $4; James Robertson, gravel, $2.65; T. Crowley, cedars $9, $1.50 for drawing stones for roads opposite lot 23, con. 13; James Wilson, $30 50 for making a culvert and ditch opposite lot 23, con. 13; D. Knox, gravel, $7.30; R. McIntyre, $1 for cleaning council chamber and town hall. Council adjourned till 18th November.

—The Campbellcroft correspondent of the Port Hope *Times* writes:—Mr. M. Wilson, Perrytown, shipped over a hundred fine hogs to Peterborough, and he has also gone to Montreal with a car load of fine cattle. There is such good shipping accommodation here that he intends shipping from this point in the future. It saves the trouble of driving animals a long distance.

—George Chrowe spent a couple of days at Rice Lake with a companion and returns with heroic tales of what he did with the gun, and exhibits a stack of claws as proof of his statement that he shot 35 ducks. Of course it makes no difference that the claws at one time evidently belonged to farm yard poultry, which had been dressed for market.

The Apple Market.

TORONTO, Oct. 28.—At the present time there does not appear to be a noticeably large business doing here in this fruit. To some extent the comparatively high price of apples may be responsible for the apathy of consumers, but however this may be, it is very evident that wholesalers and commission men are not getting rid of their stocks on hand as rapidly as they could wish. It is probable that the best part of the crop is now in dealers' hands, and lately a great many apples have reached this city. From the immediate neighborhood dealers have received very little fruit, the farmers preferring so bring their stock to the market and sell it themselves, it apparently paying them better to do so, as they obtain from $2 to $3 per bbl. for loose apples. From outside points, however, pretty large supplies have been shipped in to city dealers, whose cellars are now well filled. All the apples received are reported to be very good stock. Fall stock is selling quietly at $2.50 to $2.75 per bbl., and winter apples are somewhat slow at $2.75 to $3.25 per bbl. Snows are in good demand, but scarce, selling at $3.25 mostly, although in some cases $3.50 per bbl. is asked and given. Local exporters have commenced operations, and hope this year to recoup the losses experienced in disastrous 1888. They have not sent forward any very large quantities as yet, but still moderate shipments are steadily being exported. This year exporters have had to pay not by any means low prices for their apples. One sale of an orchard near Burlington is reported at $2.05 per bbl. on the tree, while $2 is a common price, and in some cases considerably

Millbrook Market.

The *Reporter* says:—Last Saturday we again had the pleasure of seeing a large market in Millbrook. A large amount of good butter in rolls was offered, which was all bought at from 17 to 19 cents per pound; geese bought from 50 to 65 cents each; turkeys from 55 to $1 00; chickens from 25 to 30 cents; fresh pork by the quarter, 7 and 8 cents per pound; potatoes 25 to 30 cents per bushel; pumpkins 10 and 12½ cents each; eggs 16 cents per doz.; a fine load of carrots was sold for $5 00. Everything was disposed of, and some of the farmers left for home before one o'clock.

Toronto Markets.

TORONTO, Oct. 29.—The receipts of barley to day were much larger. The receipts of other grains were small. Wheat, steady, selling 80 to 85c; barley, easier, 42 to 53c, the latter for old; oats, firm, 32½ and 33½c; peas, not so firm, 57 to 63c; hay, steady, $7 to $9 for clover, $11 to $14 for timothy; dressed hogs, $6.75. On the market, butter 18 to 20c, and eggs in plenty at same figure per dozen; potatoes, 75c per bag.

LIVE STOCK MARKET.

Trade was fairly active in all lines at the local cattle market to-day. There were 40 loads in the market, including 200 sheep and lambs and 200 hogs. The export trade by the St. Lawerence for this season is about drawing to a close, and the demand was largely in the line of stockers and stock for local consumption. Export cattle and stockers brought 3 and 3½c. per pound; butchers cattle 3 to 3½, and common 2½ to 3¼; sheep 4 to 4½c. for export and 3½ to 4¼ for butchers' stock; hogs 4.50 per cwt.

Cheese Market.

MONTREAL, Oct. 28—The shipments for the week were 45,231 boxes, as against 64,090 for the corresponding week of last year. The total shipments to date for the season were 1,015,145 boxes, as against 1,003,080 for the same date of last year, save eight factories in the Brockville district were contracted for this past week at 10¼ to 10½c. There is said to be a general disposition on the part of country holders to sell at about these figures, but whether 10¼ will be generally given in the face of weaker cables is another matter. Finest September, 10 to 10½; finest August, 9¾ to 9¾c; good to fine, 8¾ to 9¼c.

The Grain Market.

LONDON, Oct. 28th. [illegible] J. B. Lawes states that the forecast of the British wheat crop must be considerably discounted, as the crop for 1889 is only 2,540,720 acres, or 120,000 less than 1888. He puts the crop at a little over eight million quarters, and the amount required for consumption, twenty million quarters. According to this the requirements from abroad will be higher than last year.

BRANDON, Oct. 29.—Wheat was still lower, buyers paying on the street 62c. for best. About 6,500 bushels was marketed to-day.

CHICAGO, Oct. 29.—Wheat—the market was weak and lower; corn—the market was stronger early on the cash demand, but a trifle lower at the close; oats—the market was stronger, with a fair business.

WAS HE SANE?

A STRONG FIGHT FOR THE PRISONER'S LIFE.

Many Witnesses Who Testify that the Accused's Mind was Diseased—Some of his Peculiarities.

GUELPH, Nov. 1.—The court opened yesterday morning at 9 o'clock. Long before that time, notwithstanding the rain, crowds began to assemble at the Court House seeking admission. The following witnesses were called:

Arch Frew, C. P. R., and C. H. Horning, G. T. R., gave evidence as to the departure of the trains for Toronto on the day of the murder. Dr. Howitt gave evidence as to how he found the bodies when notified by the Chief of Police, and on examination he found that Mrs. Harvey and the two daughters had been killed by wounds in the head, caused by a gun or pistol, and that in each case death was instantaneous. The body of Miss Geraldine was that of a healthy woman; Mrs. Harvey had two small growths on the brain, and Lily had some traces of a long affection. In both cases these affections had nothing to do with their death. Dr. McKinnou, the family physician, corroborated the above evidence. This closed the case for the crown.

For the defence, James Hay was the first witness. He said: I was working at the Bolt works in Toronto in 1882; the prisoner was working there about the year 1884; I found him as compared with other men to act a little strange; he always seemed to keep pretty much to himself; on one occasion, while in the packing room, there was a great deal of noise beingmade and he got so excited that he could not make figures; he appeared to lose control of himself for the time being.

To Mr. Johnston—I do not know that I could compare anyone with Mr. Harvey; as to keeping to himself outside of our business relations, he would never speak to me; he was more methodical than any man round the Bolt works.

George H. Day, real estate dealer and money brooker in Toronto, said: I had some dealings with Mr. Harvey in 1883 and 1884; He came to me to obtain a loan upon his chattels and I loaned him the money; the mortgage ran until April 1884 and during that time I saw him about 20 times. He was so strange that to protect my property I issued a distress warrant which was executed by myself. I saw him after I issued the warrant at his house and he appeared to be in great distress and his mind was unhinged. When I was talking to him he would start off intelligently and would then wander off the subject and he appeared to be dazed and I thought his mind was unhinged.

To Mr. Johnston: Assuming that my relationship had ended before the distress warrant was issued, there was something about the man which would have caused a lasting effect on me. I found him unable to answer a question; he would start off intelligently and then go off on some subject foreign to that under discussion. I should think that it would be unusual if a man under such circumstances could not carry on a conversation intelligently. I found Mr. Harvey dazed in appearance when I met him at his residence.

John Langdon stated that he was the bailiff who executed the distress warrant at Harvey's house in Toronto. I saw Harvey there; several times after that he acted very strange, and would then go off and talk about something else. He told me he had lost a lot of money in the Bolt Works and was in great trouble.

To Mr. Johnston—He was talking with me when I was walking with him. It was on account of the conversation I had with him and the holding of his head down that made me think he was demented.

James Lumley Swore—I live in Toronto and am a traveller for the Dominion Paper Co. I have known Mr. Harvey for fourteen years and our relationship has been most intimate. Mr. Harvey was most morose and retired and would not make friends easily. He had some peculiarities such of wearing long hair and letting his fingernails grow to the length of half an inch. He was very easily excited if anything concerned his family or was going to give them pain.

D. Lamb swore—I live in Toronto and am retired. Have known the prisoner since 1886. I thought he was a very reserved man and took no interest in affairs of the day. He seemed to be a man whose heart was crushed up.

Ven. Archdeacon Dixon swore—I have known Wm. Harvey since October last year. He had been appointed superintendent of the Sunday school in my absence by the Rev. Mr. Harvey. His outside appearance was of a morose and reticent man. He appeared to walk with his head down as if his mind was intent on something. Mrs. Harvey told me she was concerned about Mr. Harvey's head; he came up to me and spoke to me about the Sunday school and then suddenly stepped and put his hands up to his head and rubbed it. On resuming conversation he made an effort to resume the subject which we were speaking on, but could not grasp the theme of his discourse. He was a most proud and sensitive man.

Mr. Davidson, mathematical teacher, also gave evidence as to his being of a morose and reticient disposition.

A. E. Lyon swore as to his illness in March last. George Everson, turnkey, gave evidence as to the dazed condition of the prisoner when he was first brought to jail and how he continued in that condition for some days. Other evidence as to his moroseness was also given by other persons in the city.

Dr. Lett of the Homewood Retreat, Dr. Clarke, Superintendent of the Asylum, Toronto, Dr. Workman, ex-superintendent, and Dr. Clarke, Kingston asylum, gave evidence as to the causes of insanity and how it affected different people and instances that came under their notice during their connection with asylums as to the cunning that could be displayed by some insane persons. The court adjourned till 9 o'clock this morning.

Matters in Montreal.

MONTREAL, Oct. 31.—A woman named Elizabeth Orr of Boston was arrested here for attempting to blackmail a Montreal lady.

Sir Adolphe Caron stated yesterday in an interview that at the next session of Parliament steps would probably be taken to have the militia system extended to the North-west Territories.

Judgment was rendered yesterday in the case of J. P. Noyes against Le Monde for $10,000 damages. When Mr. Noyes was a candidate for Dominion Parliamentary honors in Shefford Le Monde accused him of being an Orangeman and Freemason. It was admitted that he was a Freemason but proved that he was not an Orangeman and that he was damaged by the statement, and in consequence the newspaper was condemned to pay $500 damages.

A meeting was held yesterday at the Board of Trade rooms to consider the advisability of forming a cattle market here. A committee was appointed to obtain information on the subject and report to the council of the Board of Trade.

A FIGHT AT A REVIVAL.

WARRING METHODISTS AND CATHOLICS IN KANSAS.

A Methodist Preacher Attacks the Catholic Church in a Sermon and a Row Ensues—A Militia Company Called Out.

TOPEKA, Kan., Nov. 1.—Adjt.-General Roberts received a telegram yesterday from the Mayor of Axtell asking that militia be sent at once to quell a riot there. General Roberts ordered out Company "G" of the Third Regiment at Marysville and left on the first train for the scene. Only meagre particulars have been received.

Axtell, a town of 700 people, is settled largely by Catholics. Wednesday a Methodist minister named Johnson from the eastern part of the State arrived at Axtell to hold a revival meeting. In the audience were a number of Catholics. The minister assailed the Catholic Church so abusively that a Catholic present called him a liar. He continued his remarks and four Catholics rushed to the pulpit and taking the preacher by the collar threw him down. In a moment the pulpit was surrounded by an angry mob and a general row ensued. Although the Catholics were in the minority they were too much for the Methodists and succeeded in throwing the preacher and two others out of the house.

The whole town was soon aroused. Four Catholics were arrested and put in the city prison. This enraged the Catholic population and they organized to assist their imprisoned associates. The town of St. Bridges, a few miles distant, is settled entirely by Catholics and it is reported the whole town is organizing to go to the rescue of the Axtell Catholics. The mayor says he is powerless to control the mob, and fears a conflict between the two elements.

A BIG CRASH.

Impending Failure of a Prominent Manufacturing Concern at Montreal.

MONTREAL, Nov. 1.—A sensation is on the tapis in the shape of the failure of one of the largest manufacturing concerns in the city. The failure has not yet been announced, but will probably be made known today. The house is a very old one and has always enjoyed the highest confidence of the financial circles of the Dominion. The news of the embarrassment comes like a thunder clap. Outside of the members of the firm and their bankers no one had the least idea that the slightest stringency existed. Unless the failure is averted widespread disaster will result. The liabilities are placed at $2,000,000, but this is probably an exaggerated estimate. One of the members of the firm is a dire tor of a bank which is largely interested. There is a branch factory in a small town in Ontario.

THEY FOUND HER GUILTY.

A Young Society Woman of Princess Anne, Md., Convicted of Arson.

PRINCESS ANNE, Md. Nov. 1.—The trial for arson of Miss Sarah F. Hall and Levin B. Hall, her brother, which has been in progress here for a week, was concluded with a verdict of guilty. The punishment for arson in this State is death or imprisonment for from five to twenty-five years. Sentence was deferred at the instance of counsel for the accused. During the arguments, which occupied two days, the court-room was packed, a great many ladies being present. It was shown that Miss Hall, being piqued because she had been unable to prevent her neighbors from painting the wall of their house adjoining her own, got her brother to set fire to the property.

Miss Hall and her brother belong to the best society in the county and engaged the best legal talent, while the State's Attorney has counsel to assist him. George W. Cox, who occupied the lower portion of the burned house as a store, testified that he asked permission of Miss Hall to use her property in painting his wall. She not only refused, but threatened him with dire consequences if he made the attempt. He persisted, when his painter was first threatened by the Halls, who then cut the ropes of his scaffolding and let him down, where he was confronted by Miss Hall with a knife and Mr. Hill with a pistol. That night the house was set on fire. The case has attracted much attention because of the high social standing of the accused.

BURGLARS ARRESTED.

A Bad Gang Broken Up at Chatham—Stolen Goods Recovered.

CHATHAM, Nov. 1.—A number of burglaries have been committed in Chatham and vicinity recently. Houses were quietly entered and watches and jewelry stolen. The other night Chief of Police Young, with a squad, surrounded the house of a colored man named Charles Daniels on Colborne-street. When the Chief entered the house at the front door a white man, who was playing cards, tried to make his escape by the back door, and was immediately arrested, together with the inmates of the house. Quite a large assortment of revolvers, watches and other articles was found in the house. The burglar gives his name as Charley Thomas, from Detroit, about 25 years of age, short, with red hair. The name is probably fictitious. Some of the stolen property has been identified. Chief Young intends to trace him in Detroit.

Chamberlain as a Peace Preserver.

LONDON, Nov. 1.—Mr. Chamberlain has succeeded in making arrangements for a conference of Conservatives and Liberal-Unionists at Birmingham next Monday. He intends to preside over the meeting himself. The chief object which Mr. Chamberlain has in view is to endeavor to remove the soreness of feeling between his own clique and the Tories ever since the death of John Bright. He desires to smooth over the angry disappointment which the Conservatives felt at their failure to get Lord Randolph Churchill into the seat left vacant by Mr. Bright's death.

Under the auspices of the young men's Liberal Club Mr. Erastus Wiman last night discussed the commercial relations of the United States and Canada before an audience which filled Association Hall. Mr. Wiman, after referring to his start in life as a newsboy in the Queen City, presented an argument for Commercial Union. He said that it would develop the boundless resources of Canada and that no political change was necessary to secure this advantage. Commercial Union did not tend towards annexation; its tendency was precisely opposite. The good which was to be obtained from Commercial Union would take all the wind out of Annexation sails. The time would come, however, if Commercial Union was not brought about, when the son would approach the father and ask him why it was that their chickens could not be sold in the United States without paying duty, why other produce could not enter free, and when the father would reply to the son "it's because of British connection." The son would enquire from the father what this British connection amounted to after all. Canada, and especially Ontario, was the best governed country in the world and could receive no benefit by being annexed to the United States outside of commercial advantage. "Annexation," he declared, "was unnecessary undesirable and impossible." [Loud applause.]

THE CRONIN TRIAL.

CIRCUMSTANTIAL EVIDENCE AGAINST THE SUSPECTS.

"Major" Sampson Tells How Coughlin Tried to Hire Him to Slay Cronin—The Bloody Trunk Identified.

CHICAGO, Nov. 1.—When the Cronin trial was resumed yesterday counsel for the defense moved to strike out all of that part of Patrick McGarry's evidence given Wednesday in which McGarry describes his visit to the house of defendent O'Sullivan after Cronin's murder and at which time he questioned O'Sullivan about his contract with Cronin. After argument it was decided to postpone a decision on the point till afternoon in order to allow counsel time to present authorities.

George Reilly, a barkeeper, was called. He testified that in the latter part of March Coughlin, Sullivan and others were in the saloon talking politics when Coughlin said a certain North Side Catholic was talking too much and that if he did not keep his mouth shut he would get the worst of it.

The State's Attorney sought to introduce the correspondences between Beggs and Spellman. Mr. Foster, attorney for Beggs, said he was ready to admit anything that Beggs ever wrote but that he could say nothing about letters written by any one else. So the matter went over pending the appearance of Spellman.

W. P. Hatefield, salesman for Revell & Co., told of selling to "J. B. Simonds" the furniture taken to the flat at No. 117 Clark-street and subsequently conveyed to the Carlson cottage. The only new point developed was that Simonds said the furniture was "for temporary use."

The trunk in which Cronin's body was carried away was brought into court. Hatefield testified that it was similar to the one sold to Simonds. On cross-examination he said he could not swear it was the identical trunk because the firm kept such on hand always and perhaps other dealers did also. It came out that Mr. Forrest, of counsel for the defense, had bought such a trunk from the witness. Witness could not swear positively that the furniture in the Carlson cottage was the same furniture sold to Simonds, but he said it was precisely like it.

After recess the jury was excluded and the matter of striking out McGarry's evidence as to what was said during his visit to Sullivan's house on the Sunday following the murder was taken up. The court finally decided to exclude all the talk regarding a former attack on Dr. Cronin. This was not satisfactory to the defense, and another flow of eloquence resulted. Finally the cross-examination of McGarry was resumed.

Major John W. Sampson afterwards testified that about two years ago Coughlin tried to hire him to "slug" Dr. Cronin. The witness on cross-examination admitted that Coughlin had arrested him three or four times, once for robbery; that he had been convicted for passing counterfeit money; that he was a gambler by profession but denied that he followed Mr. Blaine through Michigan when he was making speeches last fall, or Governor Hill or Senator Thurman, for the purpose of picking pockets. He said he went to some of these places for the purpose of securing sporting privileges. He naively explained that he was "playing he shells," which is a variation of what is known as three-card tricks.

William Lyon testified that he was with Sampson at the time that Coughlin and Sampson had a conversation, the purport of which he did not hear.

Joseph C. O'Keefe, Dr. Cronin's tailor, said he attended a meeting of Camp 20 in September, 1888. After the meeting he had a conversation with Alexander Sullivan. The witness said: "We spoke first in reference to the union of the two rival factions of the order. Beggs said he did not have much confidence in the new executive. The trial committee was discussed and he said Cronin was not the proper man to put on the committee to try Alexander Sullivan. I said Cronin did not have as unsavory a record as James Rogers of Brooklyn, another one of the trial committee. Beggs then said Cronin had admitted Coughlin as a member of Camp 96 without a formal initiation and had furnished him with pass words. I told him Cronin was too sincere a patriot to do anything of that kind. I said I would ask Cronin in regard to it. Beggs then said Cronin was not a fit man to belong to Irish societies."

On cross-examination it was brought out that Beggs objected to Cronin being on the committee to try the triangle because he was an enemy of Alexander Sullivan.

Cornelius Flynn, who was with Beggs and O'Keefe, corroborated O'Keefe's testimony.

Several other witnesses gave unimportant testimony and the court adjourned until to-day.

An afternoon paper says that soon after the disappearance of Cronin the State put spies upon Camp 20 and a man concealed in the hall during some of its meetings took notes of its proceedings.

A Disappointment for the State.

CHICAGO, Nov. 1.—The reason Assistant State's Attorney George Baker went to Winnipeg was not to interview the man who shared Martin Burke's cell there, but the officers who were concerned in the fugitive murderer's capture and detention. He went to Winnipeg to persuade Chief McRae, the man who arrested Burke just as the latter was about to leave Winnipeg for Montreal, to come to Chicago and take the stand for the State.

It is a well-known fact that Burke made important admissions to McRae while he was in that officer's custody. Within an hour after he was arrested he had confessed to McRae that he left Chicago because he had taken a hand in the assassination of Dr. Cronin. He also admitted that he had received pecuniary assistance from an ex-Chicagoan in St. Paul and that he expected to receive a large sum of money when he reached Montreal.

McRae, following the custom of Canadian police, did not press the prisoner for further details before turning him over to the governor of the jail, but made an arrangement to have a further chat with him in the event of the court ordering his extradition. In the meantime, Senator Kennedy of Wisconsin had reached Winnipeg and had secured an interview with the prisoner. Kennedy, it is known, learned from Burke all about the latter's promise to McRae, and cautioned him not to say a word to the chief or anybody else.

Not satisfied with Burke's promise of obedience Kennedy visited an Irish priest—the only one in Winnipeg by the way—and sent him to the jail to see Burke. From the moment the priest saw the prisoner the latter declined to say a word about his case to anybody. The same priest furnished him with food and fruit when he started for Chicago, and through a third party cautioned him to beware of the wiles of the police party that had him in custody.

The attorneys for the State had relied a good deal on Chief McRae coming to Chicago and taking the stand on behalf of the people, because McRae in correspondence with Chief Hubbard, had frequently stated his intention to do so. The other day, when word was sent to McRae to come to Chicago and bring with him all the other witnesses who live in Winnipeg, he sent back a reply that so clearly indicated his intention to remain in Canada while the trial is on that he startled the prosecutors.

The latter sent him telegrams demanding an explanation, and receiving no reply they made inquiries in other directions, the results of which satisfied them that no less an influence than the British Government is working to prevent the Winnipeg officers from doing their duty. Enough evidence has been collected to show that orders from London to Ottawa were sent to Winnipeg, and that they commanded Chief McRae and his subordinates to have nothing whatever to do with the case. McRae obeyed the order to the letter, and it is extremely doubtful if his evidence against Burke will ever be heard.

When George Baker was dispatched to Winnipeg his instructions were to see McRae and to use every inducement to get him to Chicago. Baker telegraphed Judge Longenecker that he doubted if he could persuade the chief to leave Queen Victoria's land. He added, however, that negotiations were pending to bring about an annulment of the original order, and that he expected to send more definite news within a day or two. If McRae does not came to Chicago the lawyers for the prosecution will be very much disappointed, for the simple reason that his evidence has a more direct bearing on the assasination then any other they will introduce.

HIS TELEPHONE WAS LOADED.

A Vagrant Electric Current Made Things Hum in Dr. Rice's Office.

SPRINGFIELD, Mass., Nov. 1.—Dr. A. B. Rice was a pretty thoroughly frightened man for about half an hour last evening. While in his office he suddenly heard a sizzling sound like water escaping. Thinking the service-pipes might have burst he ran upstairs to investigate. While he was inspecting the pipes an unearthly shriek from a young woman in his office made his hair stand on end. Smoke was coming out of the door as he ran back to his office. His telephone was fairly roasting before his eyes, and the charring wood sent out thick smoke, while a small artillery fire was in progress from the tips of the melting wires. A messenger was sent for help, and while the family stood before the burning telephone with buckets of water, a telephone company employee rushed in, gave a frightened glance at the smouldering telephone and ran into the back yard. Grasping a hoe lying near, he tore the wires from the side of the house.

The remains of the telephone then cooled down, but the live wires spat at each other in an alarming way and the family did not recover from their fright until the current was cut off. The electric-light extension on Temple street has just been started and has already burned out three telephones, but two of them were destroyed in a much less startling way than the instrument in Dr. Rice's house. But for the timely arrival of the telephone company's employee it is thought the dwelling would have been set on fire. The electric-light wires crossed those of the telephone and the current was transmitted from one to the other.

Telegraphing Below Cost.

NEW YORK, Nov. 1.—With reference to the new schedule of rates for Government telegraphic service promulgated by Postmaster-General Wanamaker, Dr. Norvin Green, president of the Western Union Telegraph Company, says: The rate fixed by the Postmaster-General is undoubtedly below cost, but I am not prepared to say what the attitude of the company will be until after the matter has had the consideration of the executive committee next Wednesday.

A Fatal Fall.

EVANSVILLE, Ind., Nov. 1.—When Adolph Rice and Louis Heck were putting fire proof paper on the dome of the new court house the rope of their scoffold broke. Heck fell 75 feet, slighting on a pile of tiling. He was seriously injured. Rice attempted to catch Heck, and in doing so lost his hold on the upper end of the rope, fell to the tiling below and was instantly killed.

But He Isn't Tascott.

PHILADELPHIA, Nov. 1.—Albert Sutherland, the criminal who resembled Tascott, was given another hearing yesterday on charges of passing forged checks. The magistrate held Sutherland in $3800 bail on five charges and in default of bail the prisoner was taken to Moyamensing prison to await trial.

A Desperado Shot.

SCRANTON, Pa., Nov. 1.—Patrick Hughes, a desperate character, entered the house of Martin Schultz and tried to force a 12-year-old girl to give him money. She called her father who attempted to eject the ruffian. Hughes drew a knife and made a murderous assault upon Schultz who fatally shot Hughes with a gun.

A Brooklyn Blaze.

BROOKLYN, Nov. 1.—Joseph L. Camp's factory was burned yesterday. Loss $30,000.

Dr. Peters Recalled.

BERLIN, Nov. 1.—The Imperial committee has recalled Dr. Peters from East Africa.

M. Zola, the author, is a candidate for the seat in the Academy made vacant by the death of Emile Augier.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

AT
TURNBULL'S

Our Millinery Room is aglow with Millinery and Millinery belongings. We have all the New Shapes that are worth having; many of them are very becoming.

The Millinery season is upon us, and our staff of hands are very busy. It requires forethought to prepare a fresh Bonnet for every one that takes its departure. We aim at pleasing everybody, which, consequently, involves keeping a large stock to select from.

The cold weather touches you. You draw the curtains earlier; the fire blazes on the hearth. You overhaul last winter's wardrobe, and think of needed comforts.

If Warm Underwear or Hosiery is deficient, you make a note of it, and then need to add another note concerning Turnbull's. We have an immense range, commencing Underwear at 50c. a Suit. All the finer and heavier makes in stock. It is surprising how cheap we show them this season. We are especially strong in boys', showing several makes.

Ladies' Boltonian Underwear requires your attention. To see it will be to purchase it in preference to all other kinds.

Men's Overcoats to the front again. When you want one, remember we handle them cheap.

The public are realizing that we do the Tailoring Trade, well judging by the constant incoming of new customers. Have you given us a trial yet?

We have a quantity of Scotch Wheeling Yarn, which goes at 60c. a lb. Never mind how or where we got it; it is a straight bargain to all who want it.

IMPORTANT!

Remarkable Restoration to Health of Well Known Canadians whose Cases were Given up as Incurable.

From the [illegible] of the hundreds of letters we have received from those who have been restored to health and strength by the use of that wonderful discovery, Paine's Celery Compound, we make a few extracts. We hope that the thousands of Canadian men and women who are suffering from nervous and wasting diseases, will profit by these true and plain statements of facts.

D. S. Davidson, of Montreal, suffered for years with nervous dyspepsia, pain in his back, and sleeplessness. He tried doctors without relief, was losing flesh rapidly, and had about given up heart when he commenced the use of Paine's Celery Compound. "Now," he says, "I am a new man. I sleep well and my food does not hurt me."

Mr. Jas. Johnson, 302 St. Charles Borromee Street, Montreal, was weak and nervous, had no appetite, and could not rest at night. His nerves were soothed and strengthened by Paine's Celery Compound, and he soon became well and strong.

Annie Gourley, of River Beaudette, P. Q., found the Compound a certain cure for weakness, and now feels as well as she ever did.

A customer of Harrison Bros., druggists, Hamilton, Ont., told them that he was entirely cured of nervous weakness by the use of two bottles of the Compound, after everything else has failed.

The little child of Mrs. G. E. Meredith, 76 D'Arcy St., Toronto, was cured of St. Vitus' Dance by Paine's Celery Compound.

The Daily Examiner.

FRIDAY, NOVEMBER 1, 1889.

A RECENT census of Switzerland shows that during the past eight years the French speaking residents of the republic increased twenty-one per cent, or from 608,027 to 637,940. The German element increased from 2,936,792, to 2,092,563, while the Italian element actually declined from 161,923 in 1880 to 156,502 in 1889.

THE business troubles of the firm of Brown, Balfour & Co., Hamilton, are regrettable, and personally the members of the firm are to be sympathized with. But one of the members of the firm who is a politician, should show how a failure in perpetual prosperity and financial fatness could take place under the beneficent N.P., of which he is, or at least has been, so staunch an advocate. The question of the efficacy of high taxation to enrich a people wealthy and prosperous, is a pertinent one.

As a result of the efforts of the Minister of Education in promoting the study of English in Eastern Ontario, the trustees of the village of Plantagenet have already offered the use of their Public School for Model School purposes. The county council of the united counties of Prescott and Russell, at its last session, voted the sum of $500 to assist the board of trustees in furnishing adequate accommodation. The school will be opened at the beginning of the year, and it is expected that at least twenty teachers will enter for training.

MR. WYNDHAM, M. P. for Dover, who is Secretary to Mr. Balfour, Chief Secretary for Ireland, announced to his constituents recently that the Government will introduce an Irish land purchase bill at the coming session of Parliament. This is an admission that the Irish tenantry have substantial grievances, and that the agitation for land law reform, which Mr. Balfour and his colleagues treat as a seditious and criminal movement, is in the highest degree justifiable. The Coercion act was not passed with the view of suppressing or preventing crime, but for the purpose of restraining freedom of speech and political liberty.

SAYS the *Globe*:—"More probable than the ordinary political rumor is the story that the Hon. George E. Foster is to retire into the comfort, the seclusion and $3,000 a year of the St. John Customs of collectorship, and is to be succeeded by Sir Leonard Tilley. The reversion of the collectorship is likely soon to fall in. Mr. Foster has ceased to be of any strength to the Government. His talents are not extraordinary. He has lost his following; indeed, it is doubtful whether his continuance in the cabinet is not a source of exasperation to temperance people. As to another event, which is in every one's mind when Mr. Foster is named, it is necessary only to say that it has not strengthened Mr. Foster's position as a public man."

GREAT Britain's trade returns for the month of September and the first three quarters of 1889 ending with that month, are highly satisfactory—notwithstanding the great London strike, which seriously interfered with the exporting and importing business. The value of the goods imported into the United Kingdon during September was £33,382,561, compared with £28,414,372 in the same month of 1888. The exports also increased by £38,713. The nine month's figures show imports amounting to £309,816,121, an increase of £31,193,690, or 11 per cent., and the export amounted to £182,001,713, an increase of £7,730,171, or four per cent. over the nine months' figures of last year. The total trade amounts to $491,817,834, an increase of £38,923,861, or 8½ per cent. over the nine months of 1888. The increases noted appear to have been due to a general enlargement of trade, no one line being responsible for the bulk of the increase shown. In the matter of exports only one line, viz: articles of food and drink, shows a decrease.

THE Ottawa *Free Press* reports that another young Englishman, only a few weeks in the country, has been given a position in the department of justice. Men who come to Canada with credentials from the "Primrose League," attesting that their toryism is of the proper standard, never fail to get situations from the Dominion Government, while competent and deserving Canadians have to seek employment in the United States. Is this so? The declamation has been repeated, oft and many a time, and Canadians have a right to know of its correctness. It is possible that governments, like individuals, have to go abroad for experts in certain kinds of work? The department of justice ought to be easily supplied out of all the Canadian talent at its disposal. The young Canadians who have passed the civil service examinations and been "listed" for government employment have reason to complain if they have been ignored and a preference shown to those who have not a claim upon public office and have not qualified for it. The government for effect has preached the doctrine of "Canada for the Canadians." Does, or does it not, apply to the civil service? That's what the young men of this country want to know, and what they will find out?

Don't disgust everybody by hawking" blowing and spitting, but use Dr. Sage's Catarrh Remedy and be cured. 0

AMBITIOUS CITY NOTES.

Supposed Case of Infanticide—A Man Who Thinks He Was Robbed.

HAMILTON, Nov. 1.—A young man named Martin Roos found the body of a child about two days old in rear of a barn at 50 East-avenue south yesterday afternoon. The body was perfectly nude. It was taken to the morgue and Coroner White has ordered that an inquest be held. The detectives are working on the case to try and discover the murderer of the babe.

The solicitors of Fred G. LeCain the Cincinnati commercial traveller who died suddenly at the Royal Hotel here Monday night, have been heard from. The body has been embalmed and will be taken to Cincinnati for burial in charge of friends of the deceased.

An employee of the Ontario Rolling Mills named Andrew Fuller reported to the police yesterday that he had been robbed of $275 in the St. Nicholas hotel Wednesday night. Fuller has been on a spree for some days and it is thought he spent his money on wine and women.

Sudden Death at St. Catharines.

ST. CATHARINES, Nov. 1.—Albert Begy, foreman in J. C. Harris' cigar factory, dropped dead at his home yesterday afternoon. Heart disease was the cause. He leaves a wife and child.

The Galena Not Damaged.

NEW YORK, Nov. 1.—The Galena arrived at the navy yard yesterday afternoon. She is not damaged.

HOUSE FURNISHING GOODS.

Anticipating a lively demand for Stoves this season, I have bought from the Most Reliable Manufacturers, A VERY LARGE STOCK of the Leading and

MOST POPULAR STOVES

on the market. I am not compelled, nor do I confine myself, to purchase from one firm only, but select the best patterns and best designs that are offered for sale.

It is well known that I do the Stove Trade of the four counties and as we buy in such large quantities that no other dealer can approach, we are enabled to sell Stoves at prices that bewilder small dealers.

A special invitation is extended to all to visit the Giant T. and see the beautiful stock now on exhibition. If you do not want to buy yourself, some of your friends may, and they can find no better place than at

Land, sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

WOMEN AND THEIR WAYS

THEIR SHORTCOMINGS DIFFER FROM THE FAULTS OF MEN.

Why Some Women are Subtle Marriot Prescott Spofford Disputes the Truth of a Poetical Proposition Long Current and Often Quoted. Woman's Progress.

For me to say that women have no sins that are not shared by men, that there are no distinctively feminine sins, is but to declare a platitude. Without doubt the sins of women are the sins of humanity; there are none so peculiar to themselves as to deserve mention; and they differ from the sins of men in being of minor degree.

"Woman is the lesser man, and all her motions matched with mine
Are as moonlight unto sunlight and as water unto wine,"

says one of the men in splenetic mood; but so far as fact has anything to do with his lines, it is in reference to her sins only that she is the lesser man, since they are in general as much slighter than her brother's sins as her body is weaker and her temptations smaller. For indeed, if the sins of woman are generally less, their virtues are generally greater than those of the other half of humanity, and there is every reason why they should be in their nature, their education and their seclusion.

If, according to the new theory, woman is the race and man the variation, woman should be the conserver of the virtue of the race; and certainly nothing bends more strongly to this than the urgency of the duties of motherhood and the tenderness that motherhood evokes.

The baby does not go alone before she is nursing and loving another baby in her doll; any two little girls in the street will have their arms about each other's shoulders; the boys of a family are off at their play when the girls are at home helping their mother; the son marries when he will, the girl as frequently lets love go by because the old parents need her; and she is not praised for any of it; no one expects it to be otherwise; duty, kindness, love, and sacrifice are recognized to be parts of her personality, and she would not be hers if she did differently.

Were woman out in the world as her brother is she might by possibility lose much that now seems hers by right, although she might gain in breadth of view and in large nobility. It is close upon large nobility, indeed, that women find their weakest points; the narrow view hinders them from the wide, as one's hand held up before the eyes can obscure the sun; they do not look at the good of the race so much as at that of their own home; and where not themselves, but those they love are injured, they find it all but impossible to forgive; if this is sin, all the concentrated sweetness of their being has gone to make a crust round that sin.

In fact, there is but one sin of which women are possibly more guilty than men, and for that men are more responsible than they; it is the cowardice which where it exists—and, thank the heavenly powers, it does not exist among all women—makes some women subtle, cunning, treacherous, false.

The captive of the strong arm in primitive times, their only recourse has been to please; their only weapons have been amiability, concession, craft. Their sense of justice told them they had a human right to attain these ends, and, of course, they neglected no means in their power to do so. They had abuses and punishments, too, to escape; they had children to be shielded from cruelty; they had faults to be hidden from hard masters; they availed themselves, then, of what in great commanders is called strategy, in great statesmen diplomacy, but in ethics is called deceit.

Weak in body and timid by consequence, a captive, a slave, a drudge for generations that became ages, the sentiment of the community, with all its later enlightenment, never so the present day quite relinquishing the essence of the idea of the slave in connection with her, although cherishing it, perhaps, unconsciously, woman has had to resort to craft to carry her ends till she has found herself in danger of becoming sly as a matter of second nature. With this acquired predisposition of hers from the ancestral bond slave, a man has only needed to be of a too domineering and autocratic turn in his family in order to develop the objectionable quality in wife and daughters, till brutality has brought about shuffling, evasion, concealment, and dissembling, and tyranny had been followed by cunning.

The man who will not let his wife do what she wishes and innocently might, without worrying all peace out of the house, without a storm, without abuse, without the withdrawal of his good will and a condign punishment of one sort or another, forces his wife, unless she is a spiritless shadow, into doing what she would, and deceiving him in relation to it very likely to the point of lying. Guilty as she herself may be, yet if his children are born liars, he has himself to thank for it.

The man who, able to meet expense, denies his wife righteous money for her deeds, should not be surprised if the whispering serpent supplies his deficiency, and his wife debases herself and her blood enough to filch money from his pocket. If his children are born thieves, the fault is in the first instance his. If to any the statement seems shameful, and women recoil at the lie and the theft, or at the bare idea, the virtue is theirs. But it is owing to the great tyrannies of old days, the small tyrannies of modern days, that deception, and arts and wiles have become familiar demons of so many women who have no other faults than these and those to which they lead.

As the woman stands up more and more on equal ground with the man, as the husband acknowledges the rights of the wife, as the community comes to expect and exact it of him, there will be less and less to call this artifice into use, its capacity will become dormant and and atrophied honesty will rise uppermost, the fearlessness of the decendant will have conquered the pusillanimity of the grandam, unfaltering truth will shine out on her forehead, and woman will have annihilated possibly the only sin that was ever hers.

The Appetite

May be increased, the Digestive organs strengthened, and the Bowels regulated, by taking Ayer's Pills. These Pills are purely vegetable in their composition. They contain neither calomel nor any other dangerous drug, and may be taken with perfect safety by persons of all ages.

I was a great sufferer from Dyspepsia and Constipation. I had no appetite, became greatly debilitated, and was constantly afflicted with Headache and Dizziness. I consulted our family doctor, who prescribed for me, at various times, without affording more than temporary relief. I finally commenced taking Ayer's Pills. In a short time my digestion and appetite

IMPROVED

my bowels were regulated, and, by the time I finished two boxes of these Pills my tendency to headaches had disappeared, and I became strong and well.—Darius M. Logan, Wilmington, Del.

I was troubled, for over a year, with Loss of Appetite, and General Debility. I commenced taking Ayer's Pills, and, before finishing half a box of this medicine, my appetite and strength were restored. —C. O. Clark, Danbury, Conn.

Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered Stomach and Liver. I suffered for over three years with Headache, Indigestion, and Constipation. I had no appetite, and was weak and nervous most of the time.

BY USING

three boxes of Ayer's Pills, and, at the same time dieting myself, I was completely cured. My digestive organs are now in good order, and I am in perfect health.—Philip Lockwood, Topeka, Kans.

Ayer's Pills have benefited me wonderfully. For months I suffered from Indigestion and Headache, was restless at night, and had a bad taste in my mouth every morning. After taking one box of Ayer's Pills, all these troubles disappeared, my food digested well, and my sleep was refreshing.—Henry C. Hemmenway, Rockport, Mass.

I was cured of the Piles by the use of Ayer's Pills. They not only relieved me of that painful disorder, but gave me increased vigor, and restored my health.—John Lazarus, St. John, N. B.

SPLENDID BUILDING SITES

I have placed on the market

That Desirable and Well Situated Property

in the western part of the Town, and offer it in lots as per plan annexed. This affords a splendid opportunity to secure a location for your home in a rapidly improving and in every respect the best part of the town. The properties are situated on Cedar and Hazlen streets and within a stone's throw of the West Ward School and a short distance of the principal Churches and the Hamilton Cy. Works.

"ERIN COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had at a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and mechanics should inspect this property as it offers the best sites available and convenient to the business part of the town.

A Contrast.

Seven years ago to-day was the re-opening of St. John's church after its restoration. That day the weather was bright and warm. Ladies attended the church services in summer attire and used parasols to shade their faces from the heat of the sun. To-day is considerably different in the matter of sunshine and temperature.

A Temperance Big Gun.

Canon Wilberforce, who, it will be remembered, visited Canada about three years ago, will sail for India on the 8th of November, his object being to study the opium question and the licensed liquor traffic in that country. He is one of the leaders of the temperance movement in the Church of England, which has a very large number of supporters among its dignitaries and clergy.

All Saints' Day.

To day being All Saints' Day, there was service in St. John's Church at ten o'clock. To-night there will be another service at 7.30. To-day being the anniversary of the re-opening of the church, a large congregation will, no doubt, be present. The service will consist of the ordinary Evening Prayer, followed by a brief address and the Litany of Intercession.

The Young Men's Club.

The members of the St. John's Bible Class assembled in large numbers last night, in spite of the attractions of Hallowe'en elsewhere. The rest of the articles purchased were on hand and the club's equipment is now complete. Two sets of the very best boxing gloves were especially admired, and the spring board, made by Mr. "Bert" Roberts, was much appreciated. In the absence of the President, the Vice-President, Mr. Salisbury, took charge of the club and looked after things generally.

A Remarkable Coincidence.

Though this is the month of matrimony, it is not every week that marriages take place with such remarkable coincidences as two that are to occur this week. Both marriages took place the same day, both couples have their houses ready for them, and both have for the entertainment of their callers, laid in a stock of Hawley Bro.'s warranted tea. The best in the market at the best prices. Also coffees fragrant and good and first-class glassware. 378 George street. dw

A Quiet Time.

Hallowe'en passed off very quietly in town. The "b'hoys," no doubt from a wholesome apprehension of the "peelers," confined their fun to legitimate pranks, and so far no complaints have been made to the police of unruly conduct. The only casualty reported is the breaking of a plate glass window in Mr. J. J. Howden's butcher shop. Some boys fresh from a taffy pull, daubed the sticky stuff over the window, and in scrubbing it off this morning the glass was cracked. Fortunately for Mr. Howden the loss is not his, as the window was insured with Messrs. Mulholland & Roper.

Greenfield's Sentence.

Town Clerk Macdonald was in Owen Sound yesterday, and on the way back had a talk with Detective Spence, of the G.T.R. Speaking of Greenfield, the burglar, Mr. Spence says *he is* now serving a five years' sentence for his connection with the Whitby affair, and after that term is up he will have to put in the ten years he was given for the burglary of Gough's store. So that his actual time will be fifteen years.

A Goose's Gizzard.

A gentleman in town has left at the EXAMINER office a segment of the internal aspect of a goose's gizzard. When the fowl was being dressed a piece of the point of a shingle nail was found sticking through the wall of the gizzard. The nail was bright and showed evidence of being worn by the action of the digestive juices or the gravel usually employed in operating a goose's grist mill. The iron seems to have sunk into the goose's soul for some time, yet she survived, fattened and died a natural death—for a goose—had her head chopped off.

Assuming Mammoth Proportions.

It would appear that one of our prosperous firms never daunted with keen city competition embarks into direct importation of fine ales, wines and brandies. A full list can be given intending purchasers by calling on W. J. Morrow, 340 Geo. street, or a look through his mammoth wine cellar will convince. He has also purchased from one firm alone a car load of their celebrated ale as well as handling numerous other brands. Parties requiring special brands of fine liquors should call and examine his mammoth stock before placing their order.

Special to Horsemen.

Liverymen and all owners of horses will find W. J. Devlin's new stock of robes, rugs and horse clothing specially attractive and of more than ordinary extent this season. He has carefully chosen them from the most reliable dealers in Canada, and can boast of the largest, best selected, as well as the cheapest stock in Peterborough, and can confidently lay claim to the title of "Headquarters" for all goods of this kind. Everyone can be suited as the stock has been laid in with a view to meet all classes of trade, and he has pleasure in soliciting a call from any one requiring anything in this line. Visitors to his shop will also find a very fine stock of trunks, valises, and satchels from which to select, and everyone requiring anything in the harness line can be suited to a T. Announcement.

We are requested to announce that the Reverend J. R. Teefy, M. A., O. S. B., will deliver a lecture in St. Peter's Cathedral here on Sunday evening, November 10th, in aid of the fund of the St. Vincent de Paul Society for the poor. The society is to be congratulated on securing the services of this well known reverend gentleman, who stands foremost of Toronto's most fluent and eloquent pulpit orators. Father Teefy is a graduate and gold medalist in mathematics of Toronto University, and now holds the position of examiner in arts and mathematics in that institution. So great is his popularity amongst the students that he was twice elected by acclamation to the envied post of President of the University Literary Society, for which there is usually so keen a contest. Father Teefy is also principal of St. Michael's College, Toronto, and a member of the Order of St. Basil, and was instrumental in bringing about the amalgamation of the college and the University of Toronto. He is deservedly popular with all classes and denominations, and we bespeak for him a large number of hearers on the occasion of his lecture.

Avalanche of Wallpapers.

There was received and opened at the Peterborough Bookstore Thursday a consignment of 20,000 rolls of wallpaper, including the most superb line of ingrain wallpapers and ingrain friezes ever brought to town. And this is only the advance consignment of 75,000 rolls to arrive (as fast as they are finished to our order) at the Peterborough Bookstore direct from the most noted manufacturing establishments of England and this continent. The fall stock includes the widest possible range consisting of papers from three and a half cents per roll to three and a half dollars per roll. The public must not regard this as a mere puff announcement;—they are invited to call and inspect the most artistic, elegant, varied and complete stock of wallpapers ever gathered within four wall in Peterborough. The immense proportions which the wallpaper trade of the Peterborough Bookstore has gained—far in excess of any other year—warrants the proprietor in importing for the fall and spring trade so extensive a stock. The development of the public taste justifies this course, as is shown by the fact that this week paper was supplied from the Peterborough Bookstore, for a dining room, alone the cost of which was $217. When wallpaper of any kind is required, the best and largest stock, the finest selection and the best prices will be found at the Peterborough Bookstore.

Hallowe'en Festival.

The Ladies of St. Andrew's Church Entertain their Friends.

Hallowe'en, an occasion dear to Scottish memory, was celebrated in a happy manner by the people of St. Andrew's Church. The festival, under the auspices of the Ladies' Aid, was a gratifying success. The school room was prettily decorated with harvest products, while a couple of gaping "jack lanterns" on the piano were reminders of Hallowe'en. The supper continued from half past five till nearly eight o'clock, in which time probably two or three hundred people were served with the substantial repast provided by the ladies.

Rev. A. Bell, pastor of St. Andrew's, filled the position of chairman in a happy manner. The following admirable programme was rendered:—

Chairman's address.
Piano duet ..... Misses Wrighton
Song ..... Miss Mary Paterson
Recitation ..... Miss Gorman
Chorus—Oh, Joyous Bird ..... The Choir
Impromptu speech ..... Rev E F Torrance
Song ..... Rev. Mr Leitch
Piano solo ..... Miss Clark
Recitation ..... Mr Rowse

Song ..... Miss Pearson
Impromptu speech ..... Mr Frank Payton
Song ..... Mr Ketchum
Reading ..... Mr Earle
Solo—(encored) ..... Miss Sophie Cameron
Duet—(encored) ..... Mr and Mrs Ketchum
Chorus, medley ..... The Choir

GOD SAVE THE QUEEN.

Every number was deservedly applauded, and several were encored. The last chorus by the choir proved particularly pleasing. Under Mr. Ketchum's training the choir is making a marked improvement. The credit for the excellent programme provided belongs entirely to Mrs. Van Every, who was indefatigable in her efforts to make this portion of the entertainment a success. Just before the singing of the National Anthem a vote of thanks was passed to all those who had contributed to the programme. Mention must not be omitted of the fact that Miss Nellie Wrighton acted as accompanist for most of the singers, a secondary part, which, by her skilful and intelligent rendition, added much to the effect of the songs.

After the entertainment the ladies of the church invited their friends who had assisted in the programme to a light lunch, and a pleasant time was spent over the festive board. The Ladies' Aid are satisfied with the results of their entertainment, financial and otherwise.

Parlour Concert.

The Conversazione in Aid of St. Johns Church.

A very pleasant evening was spent Thursday night by those who assembled in the Sons of England Hall, most kindly placed at the disposal of the ladies of St. John's for the purpose of a conversazione. The following programme was rendered:—

Organ solo ..... Mr. Seward
Song ..... Miss Cottingham
Reading ..... Miss Wallace
Song ..... Mr. Greatrix
Duet (vocal) ..... Mrs. Seward and Mrs. Stapleton

INTERMISSION.

Duet (violin and organ). Miss Yokome and Miss Ealand
Song ..... Mrs. Seward
Reading ..... Rev. Mr. Kenrick
Song ..... Mr. C. Shaw
Organ solo ..... Mr. Seward

The unfortunate weather rather interfered with the attendance, but the numerous company appeared to appreciate the entertainment provided for them. Mr. Seward's playing on the large two manual and pedal bass cabinet organ was thoroughly enjoyable, and the audience was so delighted by Miss Ealand and Miss Yokome's duet, that they demanded an encore. The people also wanted "more" from Mr. Shaw. The Sons of England hall is admirably adapted for the purpose of a "conversat," and the general moving about and talking between the music was most pleasant.

The entertainment was given in Rev Mr. Kenrick's rooms, which were obligingly thrown open. These were used during the evening as parlours, and the ladies were apparently glad of the opportunity, for they did not fail to improve it by inspecting with housewifely interest a bachelor's quarters at close range, while the Sons of England hall adjoining was devoted to the concert proper.

The Templars' Entertainment.

A Successful Concert in Their New Hall—An Interesting Programme.

The Royal Templars of Temperance held an entertainment in their new hall Thursday night, which was fairly successful considering the strong opposition it had to contend against. A low price of admission was charged, and the hall was comfortably filled.

Dr. Goldsmith occupied the chair until called out during the recess, when Rev. M. L. Pearson took his place. The programme rendered was one composed entirely of local talent, with the exception of the address by Rev. C. L. Thompson, of British Columbia. This gentlemen gave an interesting account of his life and observations in the Pacific Province. A number of the performers "doubled up" with the festival at St. Andrew's church, and their names appear on both programmes. Following is the programme, which gave every satisfaction to the audience:—

Opening Address ..... The Chairman
Solo ..... Miss Pearson
Reading ..... Mr E Earle
Recitation ..... Miss Gorman
Solo ..... Mrs Hamilton
Reading ..... Mr Turner
Address ..... Rev C L Thompson
Solo ..... Miss Butcher
Recitation ..... Miss Loosley
Impromptu addresses—Messrs Doxsee, Armstrong, York, Turner and Wyatt.

Personal.

His Lordship Bishop O'Connor is with Archbishop Cleary in Kingston.

Rev. B. Canfield Jones, of Lindsay, has accepted the invitation from the First Presbyterian church, Port Hope, to become its pastor.

Mr. M. McClelland, of Bensfort, who formerly attended the Peterborough Collegiate Institute, creditably passed the primary examinations of the Ontario College of Physicians and Surgeons, Toronto. The EXAMINER congratulates Mr. McClelland on his taking so creditable a stand.

News Nuggets.

—This is All Saints' Day. Special services were held to-day in the Anglican and Roman Catholic churches.

—During October there were 12 births, 7 marriages and 5 deaths registered at the town clerk's office.

—The jubilee singers, who appear in the George street church to night, are stopping at the Grand Central hotel.

A Peterborough Favourite's Success.

Very many will remember with delight the presence in Peterborough a few years ago, of Miss Lenora Clench then a promising young violinist. Since that time she has spent five years in Leipzig, Germany, perfecting her performance on the violin. Miss Nora (as she has has shortened her name with considerable sacrifice of euphony) Clench, made her debut in Hamilton on Thursday night and below is what the *Globe* says of her appearance and performance. This will be read with the more interest as it is probable that an effort will be made to secure Miss Clench's presence in Peterborough at an early date. The *Globe* says:—"Mr. Joseph W. Bauman gave a concert in the Grand Opera House Hamilton, Thursday evening, which introduced Miss Nora Clench, the young Canadian violinists, to Canada after her return from Germany. The house was crowded to its utmost capacity by an extremely fashionable audience, which was most generous in its applause. The young artiste has a wonderfully pure and rich tone, and shows absolute fidelity to intonation. She plays with thoroughly artistic taste and her phrasing and expressional rendering are admirable. Her executive ability is great, and is remarkable for its ease and certainty. She played Wieniawski's "Concerto" and Ernst's "Airs Hongrois," and overcame their technical difficulties with the greatest ease, showing an almost inexhaustible resource in her double stopping and harmonic playing. Her encore pieces, "Home, Sweet Home" and "Auld Robin Gray," were charming pieces of pathetic playing. Flowers were showered on her with profusion and the utmost enthusiasm prevailed.

Wiman and Workingmen.

If Chicago, with fewer advantages for manufacturing iron than Toronto would possess under Unrestricted Reciprocity, has, among other iron manufacturing houses, one that employs thousands of men and turns out $110,000 worth of goods every day, how many men would be employed here in similar industries if we had free access to the American demand? This question is suggested by a published letter from Mr. T. D. Ladyard. There is no escape from the conclusion that Unrestricted Reciprocity would give this city immense iron industries. Restrictionists agree with us that the natural advantages for making iron here are greater than are possessed by almost any American district. The best of ore is within easy access by water and by rail. The best of coal and coke could be laid down here as cheaply as at Chicago. Toronto has within easy reach a population of iron consumers as numerous as those whom Chicago supplies. But we are not free to supply our neighbors with iron. Chicago is. That is the one advantage which Chicago possesses, and that advantage would accrue to Toronto by Unrestricted Reciprocity.

Well may Mr. Ladyard remark upon the monstrous impudence of those who call themselves "patriotic" and "loyal" because they bolster up tapeany-ah'peany industries by giving them a share in the public taxes, and who denounce as "traitors" the men who propose to establish immense industries here by removing oppressive taxes.

The iron mining and iron making concerns that Ontario would gain by Unrestricted Reciprocity would not merely employ thousands of highly-paid workmen, who, with their families, would consume vastly more farm products than all the people employed in tariff supported industries, but these workmen, with their accompanying body of clerks, supervisors and resident capitalists, would consume largely of the products of all other mechanics, operatives and laborers. This is a fact that the workmen now in Toronto should keep in mind. Collectively and individually, directly and indirectly, they stand to gain by the fiscal policy that will remove all existing barriers against Continental Free Trade. They have it in their power to bring this policy to pass. By declaring their favor for it they can easily compel the quaking Tories to join hands with the Liberals in seeking the boon. Therefore the workmen should lose no opportunity for encouraging the advocates of Unrestricted Reciprocity.

Mr. Wiman is one of them. He has done great, incessant and valuable work in bringing our neighbors to a favorable disposition. He has never fought against the interests of workingmen, but he has fought many a day on their behalf. Beginning in a very humble occupation in this city, he has, by sheer force and brains, won his way into the ranks of the millionaires and become one of the most conspicuous commercial men on the continent, without ever ceasing for an instant to be the same old Erastus Wiman, not a bit ashamed of his beginnings, not a bit stuck up, not in the least purse-proud, but a thorough democrat in all his ways; kindly, generous, unassuming, and just as ready to have a "crack" with a Knight of Labor as with a Napoleon of Finance or a Prince of the Blood. If the workingmen of Toronto have the spirit to stand by one of their own class against the arrogant upstar s who calumniate him, if they have any right sense of their own interest, if they wish this country to prosper and this city to grow, if they desire their boys and girls to go through life unarmed and undisturbed by wars and rumors of wars, if they wish amity between Canada, England and the States to be established on a secure basis, if they favor a scheme which is formulated on the broadest lines of sense and human feeling and Christian sentiment, they will muster in force at Association hall this evening, and give Mr. Wiman the hearty welcome that he has fairly earned.—*Globe.*

Police Court.

FRIDAY, Nov. 1.

Several young men were before the magistrate this morning charged with being disorderly on a street corner. The evidence showed that the prosecutor had very little to complain of and the case was dismissed.

It seems that mud-slinging is not confined to newspapers and political writers. John Turner was charged with this offence by Archie Moore, who stated that Turner and some other boys ran up behind a bus in which was a party of young people and threw mud over them. Turner was the only one caught. He denied the charge and the case was enlarged till Tuesday to give both parties opportunity to procure witnesses.

50 KILLED A GLASGOW.

BY THE FALL OF CARPET FA[illegible]

The Terrible Loss of Life and Property That Overtook the Scottish Metropolis—Searching the Wreck by Electric Light

GLASGOW, Nov. 2.—The gable wall of a building which was being erected alongside of Templeton's carpet factory was blown down to-day. An immense mass of debris fell on the roof of the weaving department of the factory, crushing it in and burying fifty girls and women employed in the weaving rooms.

The work of searching the ruins for bodies is being carried on this evening with the aid of electric light. Six corpses have been recovered. Eighteen persons were badly injured. The accident happened shortly after the workmen had left the new building. There were 140 girls at work in the carpet factory. The majority of them made their way out safely, but many had narrow escapes.

The latest estimate of the loss of life is that fifty persons have been killed. The loss of property aggregates $75,000.

THE NAVASSA RIOTERS.

Landing of a Big Batch of Murderers in the Baltimore Jail.

BALTIMORE, Nov. 2.—About 1 o'clock yesterday morning the United States revenue cutter Ewing arrived in the harbor conveying the brig Alice, which arrived in the Capes yesterday with part of the Navassa rioters. The Romance, with the remaining rioters, was left down the bay in charge of the revenue cutter Lot M. Merrill. The prisoners captured on the Alice were lodged in the city jail.

In the examination of those on board the Alice important facts were elicited. It was shown by some of the negroes that a conspiracy to murder the white men was planned some days before Sept. 14.

The attack commenced in conformity to the plans by striking in the head of Charles W. Roby, the superintendent of the mines. He was left for dead. The crowd then proceeded to the quarters of the superintendent and before night and after the whites had delivered up all their arms five men were murdered in cold blood. Mr. Foster was dismembowaled.

District Attorney Hayes, who has been since Oct. 17 on the Ewing, off the Clewes, considers the Government has a strong case against a dozen or more of the ringleaders. The cases will be pressed for trial at once. There were 124 persons brought up by the brigs Alice and Romance, all of whom are held either as prisoners or witnesses.

DR. BOURINOT AT HARVARD.

The Political System of Canada and the United States Contrasted.

BOSTON, Nov. 2.—Dr. J. G. Bourinot, clerk of the House of Commons of Canada addressed the Harvard Historical society last Monday evening at the house of Justin Winsor, librarian of the university. Dr. Bourinot contrasted the salient features of the political systems of Canada and the United States, and showed the immence advantages of ministerial responsibility as it exists in Canada. His essay was remarkably able, and was warmly applauded by those students of political economy and history who were fortunate enough to hear it. Dr. and Mrs. Bourinot were the guests of Mr. Windsor, the president of the society. From Cambridge they go to Baltimore, where Dr. Bourinot will speak before the students of the Johns Hopkins university.

A Serious Charge at Belleville.

BELLEVILLE, Nov. 2.—Thomas Duncan, assistant post master, was charged in the Police Court today with criminial assault upon the person of Rosa Dean, a domestic in his service. Duncan declares that the accusation is false and is the result of a conspiracy to ruin him. The girl, who is 16 years old, and was brought from England four years ago by Dr. Barnardo, testified that on Tuesday last Mrs. Duncan went to Picton to visit, and that on the night of the same day prisoner had thrice assaulted her but failed of his purpose. The charge was dismissed and that of aggravated assault substituted. T. S. Clarke, who lives in the next dwelling to Duncan's in a terrace, testified that at the time alleged by the girl he heard a noise as if of two persons scuffling and one subsequently falling in the hall at prisoner's dwelling. Mrs. Clarke confirmed her husband's evidence. Prisoner's counsel objected to the substitution, and the magistrate reserved his decision on the point until Monday.

West Virginia's Bloody Era.

MELTON, W. Va., Nov. 2.—Another bloody chapter was added to the story of the Hatfield-McCoy vendetta last night by a skirmish in which Mrs. James Brown was killed and John Blumfield wounded by a detachment of the McCoy party in ambush. The feud has now assumed the aspect of a war of extermination, and the battle which has been delayed for forty-eight hours may begin at any minute. This last affair has stirred up the feeling here to the highest pitch, and it has been determined to call on the Governor for troops. Every one recognizes, however, that the regular militia can do little, for they will be ignorant of the country and its thousands of hiding places, and would be shot down from ambush. There is some talk of organizing a company of State rangers, modeled on the Texas plan, but no one can be found to assume the leadership.

A Snow Storm Out West.

OMAHA, Neb., Nov. 2.—Heavy snow has been falling here since early this morning. The storm played havoc with the railway and telegraph wires and the overland trains generally. The fall of snow is about six inches, as reported from several towns in western Nebraska, while in Wyoming a blizzard prevails and it is feared a blockade will compel suspension of trains. The telegraph wires on the Burlington are broken at several points west of Omaha. Trains on the Elkhorn branch were delayed more or less owing to the snow. Snow is reported to have fallen as far west as Valentine, where the mercury is rapidly falling and a cold wave prevails.

They Own 6,000,000 Acres.

JACKSONVILLE, Fla., Nov. 2.—One of the largest transactions in land ever consummated in the South has recently been perfected. All the unsold lands in Florida of the Plant system of railroads and steamships of the Florida Southern Railroad, of the Jacksonville, Tampa and Key West system, including the Florida Southern Railway, and of the Florida Commercial Company have been consolidated under the name of "The Associated Railway Land Department of Florida," with head-quarters at Sanfords Over six million acres of land are thus brought under one management.

A PASS FOR THE GIBBET.

OLD MAN CARLSON'S STARTLING EVIDENCE AT THE CRONIN TRIAL.

Martin Burke Identified by the Owner of the Famous Cottage as "Frank Williams"—A Startled Court Room.

CHICAGO, Nov. 2.—Martin Mitchell, a carpet layer, was the first witness in the Cronin trial this morning. He testified that the carpet bought by "J. B. Simonds" in February last was laid by him on the floor of a room at 117 Clark-street. Witness was shown a piece of carpet, presumably from the Carlson cottage, and identified it as the same in pattern as that which he had laid in the Clark-street room.

Annie Carlson was then placed on the stand. The young woman began her testimony very timidly. She stated that on March 20 she was at the Carlson cottage when a man came to rent the cottage. He said his sister was to keep house for him, and he had some furniture he wanted to move in at once. He gave his name as Frank Williams. Miss Carlson then identified Martin Burke as the man. This ended her examination.

The Owner of the Cottage.

Jonas Carlson, owner of the cottage, was the next witness. He corroborated the testimony of his daughter-in-law about the stranger coming to rent the cottage. Witness said he had met and talked with O'Sullivan, one of the defendants, many times. O'Sullivan lived in the immediate vicinity. The stranger after renting the cottage walked to O'Sullivan's stable and talked with O'Sullivan. Witness heard Burke say to O'Sullivan, "The cottage is rented." On the afternoon of May 4, a few hours before Dr. Cronin was murdered, witness saw Burke on the front steps of the cottage. At 7 o'clock that night witness heard two men talking in the cottage "in a loud voice." In April the witness conversed with O'Sullivan about the men who rented the cottage. O'Sullivan said he knew one of them and he was "all right." On May 19, Carlson told O'Sullivan the cottage was vacant and he had received a letter from the man who rented it asking him (Carlson) to put the furniture in the basement and saying he had painted the parlor floor to save his sister the trouble of scrubbing it. O'Sullivan remarked that Carlson was having hard luck with his cottage. The letter was put in evidence. May 20 witness entered the cottage. He described the conditions apparent. The witness said he had seen "Frank Williams" three times.

At this point Mr. Mills paused for a moment as if realizing that a crisis in the examination was near at hand. Leaning slightly forward he said: "That's the man."

"I will ask you if you see that man now."

A sudden hush fell upon the court. The old gentleman sat apparently unmoved as the audience breathlessly awaited his answer.

Slowly raising his head, the witness glanced first over the group of lawyers and reporters at his feet and then in a bewildered way to the back of the court room in an endeavor to pick out from the sea of faces the man he wanted.

Mr. Mills, extending his hand, indicated the back of the court room and invited the witness to step down and pick out the man he wished him to identify.

The old gentleman advanced with a hesitating step and scanned the faces of the counsel for the defence.

"Look back of the lawyers," said Mr. Mills.

He had hardly uttered the word when the witness walking straight up to Martin Burke, shook his hat at him and exclaimed, "that's the man."

Despite his utmost efforts to appear unconcerned it was evident Burke fully realized the damaging nature of Carlow's testimony.

The witness, in reply to a question, again unhesitatingly identified Burke as "Frank Williams."

John Garrity, a teamster, testified that two years ago Coughlin told him he wanted to see "Major" Sampson to get him to "slug" a man. He wanted the man disfigured for life and if he was killed it would not make much difference.

Counsel for the defense sought to show witness had a grudge against Coughlin, but he denied that such was the case.

The court then adjourned till to-morrow.

A Wild Story of The Murder.

CHICAGO, Nov. 2.—A Winnipeg despatch states that the convict Gillette informed Mr. Baker that Burke told him the murder of Dr. Cronin was committed by Burks, Coughlin, Cooney, a man named Dennis and a man whose name Gillette cannot recall. Another man was to have assisted in the murder but backed out. The deed was done with clubs. After the doctor was dead his face was pounded out of shape to prevent recognition. The body was first thrown into the lake but the water washed it ashore. The motive of the murder was the betrayal of the Order's secrets by the Doctor and his informing on a man who was short in his accounts.

States Attorney Longenecker ridicules this story, and says he has Gillette's story locked in his safe. It is unlike that of the despatch. Attorney Ingram also pronounced the story a wild one.

Detectives are looking for the woman whom Gillette says Burke spoke of. A woman with whom Coughlin was acquainted left for the Old Country last spring. It is hinted she went to England to receive the tin box containing Cronin's clothes.

His Wicked Partner.

CHICAGO, Nov. 2.—Sylvester F. Brown, partner of Thomas Kavanagh, one of the men indicted for trying to bribe the Cronin jury, brought suit to-day for a dissolution of the partnership. Brown says all the contracts the firm had on hand were cancelled. It is impossible to make any more contracts on account of the prejudice which the indictment of Kavanagh caused. Judge Jemison issued an injunction restraining Kavanagh from interfering with the business.

Atkinson Not Guilty.

ORANGEVILLE, Nov. 2.—The trial of Henry Atkinson, manslaughter, was resumed before Mr. Justice Falconbridge yesterday. His Lordship's address to the jury lasted an hour and a half. The jury was out an hour. Upon the foreman pronouncing the words "not guilty" the jury were applauded by the audience. J. K. Kerr, Q.C., appeared for the prosecution and Mr. Elgin Myers and W. L. Walsh, both of Orangeville, for the defense.

Raising the Wind in Australia.

SYDNEY, N.S.W., Nov. 2.—The members of the Parnellite party who have been traveling through Australia have finished their tour. They have collected $20,000 to advance to the Irish cause. They will now go to New Zealand.

The Failures of a Week.

NEW YORK, Nov. 4.—Business failures number 251 in the United States this week, against 190 last week and 220 this week last year. Canada had 35 this week against 28 last week. The total failures in the United States from Jan. 1 to date is 9363, against 8294 in 1888.

THE GRAND TRUNK'S COUP

THE H. AND N. W. AND GREAT WESTERN CONNECTED IN THE NIGHT.

The Spur Line Put Down, Moved and a Train Run Through—A Land Boomer's Borrowed Plumes—Hawkins Dismissed.

HAMILTON Nov. 2.—When the rain was coming down yesterday forty or fifty sturdy laborers were at work building the spur line through the farm of Solomon Gage, to connect the main line of the Grand Trunk with the Northern and Northwestern division.

The Grand Trunk put the men to work laying the rails on Wednesday afternoon about three o'clock, as soon as the officials heard the result of the injunction proceedings, and it was finished at seven o'clock last night. A reporter went over the spur on a hand car this afternoon and found the rails laid on the unballasted ties in a rather loose and uneven style, evidently done as a mere formality. At the south end there is a point automatic switch, the same as that at the Junction cut, and the other is a stub switch of the ordinary kind. About a hundred men are at work digging ditches along the road, and no work is being done ballasting. They are apparently satisfied with getting the rails down somehow.

Yesterday a writ of replevin was issued against J. S. Ralston by Christopher Moody, jeweller. Rolston is a John street real estate agent and has property for sale in "The Soo." According to the plaintiff's story, Ralston borrowed a diamond ring worth $200 from him to add dignity and prestige to his personal appearance on a visit to Toronto to boom this property, and though Moody has often tried to get the ring back, he has been unsuccessful in his efforts. Moody was deeded six lots in "the Soo," to help boom property there as he claims, but, Ralston alleges, in exchange for the ring. Moody says he was given to understand that these were city lots, but afterwards discovered they were in the county. He denies that they were given in exchange. The ring is now held by Sheriff McKellar pending further proceedings.

Constable Hawkins appeared before the magistrate to-day charged with manslaughter. This is the latest phase of the shooting of the lunatic Douglas by the Hamilton police some weeks ago. Mr. Nesbitt argued for the constable, and Mr. Crerar for the Crown admitted that the contention of the counsel for the defense was a valid one; he rested his case entirely on the one question, "Had Hawkins a right to fire the shot?" Police Magistrate Cahill and his advisers retired, and after a short discussion their decision was announced. It was "not guilty," and Hawkins was at once declared discharged from custody.

Drs. Wallace and Anderson have formulated charges against the Medical Board of the Hospital of violation of the city bylaw: that the members of the board do not give their services gratuitously; that they charge patients fees, and use the hospital conveniences for their own patients.

Lieut. Albert E. Carpenter of the 13th Batt. has been gazetted to "A" Company of the Infantry School, stationed at Fredricton.

John Hackett.

Aye, There!

THE POPULAR VOICE.

The Ayes Have It!

"ACTIONS speak louder than words. The popular preference for HACKETT'S GOODS is abundant evidence that if a vote was taken on the question, "Is Hackett selling the Best and Cheapest Goods in Peterborough," the entire population would answer—

AYE

Instead of saying this collectively, they are saying it individually every day in the year, by their purchases. Those who are interested in the fact will naturally ask why

ALL TRADE WITH HACKETT?

The answer will be given in a few words. People trade where they can get the best goods; they trade where they can get the best goods at lowest prices; they trade where they get fair treatment and a reliable deal every time. Wild horses won't keep people from trading where they get these advantages. This is why they trade with Hackett, and that is why

You Should Trade with Hackett.

Hackett's store is positively Headquarters for the Finest and Best Goods ever bought or sold. He takes the lead in Bargain making, and will yield to no competitor the palm for low prices on good goods.

TORONTO NEWS.

Victoria University and the Board of Regents—a Lover's Revenge.

TORONTO, Nov. 2.—For six hours to-day the Board of Regents of the Methodist Church argued in Wesley Buildings, Richmond-street, over the latest development of the Victoria University squabble. All the old ground was traversed and numerous were the calls to order. The upshot of the heated debates was the passing of a resolution declaring that the board accepts the Cobourg proposals for settlement by arbitration. This will be submitted to plaintiffs to-day and if accepted the injunction will be removed; if rejected the suit goes for trial on Tuesday next at the assizes at Cobourg and will probably occupy several days.

Some time ago a young man named Robert Long of 665 Bathurst-street became engaged to a lady residing in Seaton Village. She, however, proved fickle, and changed her choice to another, also a resident of Bathurst-street by name Matthew Brimacomb. This was resented in a very vigorous manner by Long who met his rival in company with the young lady on Wednesday night. After some angry words it is alleged that Long struck Brimacomb and knocked him down. He swore out a warrant but his assailant surrendered himself to the police yesterday afternoon. The young lady is now evidently relenting for she threatens that if her former lover is prosecuted she will never go to the altar with her later choice. And for this reason Long is trying his best to have the warrant withdrawn.

THE HARVEY MURDER TRIAL.

All the Evidence in—Counsel's Addresses—The Judge to Charge the Jury this Morning

GUELPH, Nov. 2.—The Court opened this morning at 9 o'clock and from that hour till 4.30 p. m. the time was taken up with examining W. J. Cockburn, H.J. Doughty, guards, and R. McKim, sheriff, as to the conduct of the prisoner and his conduct while in jail.

Dr. Herod gave evidence as to the appearance of the prisoner when he first was arrested and as to his treatment during confinement. He also gave evidence as to the cause of insanity and quoted medical works to substantiate his statements. He was followed by Drs. Aikens and Richardson who gave their version of the cause and effects of insanity and this closed the evidence for the defense.

Mr. Lount, Q.C., and Mr. E. F. B. Johnston addressed the jury for about two hours when the court adjourned till 9 o'clock this morning, when the judge will deliver his charge to the jury. The jury were locked up for the night.

MISS VANKOUGHNET'S DEATH.

A Distressing Suicide at Cornwall—Mental Depression the Cause.

CORNWALL, Nov. 1.—The entire community were shocked this morning when it was made known that Miss Kate Vankoughnet, daughter of the Hon. P. Vankoughnet, had committed suicide by hanging herself with a dish towel in the cellar of her residence on Amelia-street, between midnight and six this morning. Miss Vankoughnet has been in depressed spirits for some time and her actions were noticed and strict watch kept on her. Last evening she appeared to be in the best of spirits and played with Mr. Poole's children with whom she was living. Mrs. Poole went to the deceased's bedroom at midnight and found her lying with her clothes on upon the bed. She woke her; deceased said she would go to bed in a few minutes. That was the last seen of her alive. When the servant girl entered the cellar about 7 this morning she was horrified at seeing Miss Vankoughnet's body hanging on a hook in a beam. She alarmed Mr. Poole, who cut the body down. A doctor was summoned and pronounced life extinct. A verdict of suicide while under a fit of mental depression was rendered.

Thought Jack Was After Her.

LONDON, Nov. 2.—In Kilburn to-day a woman made a determined attempt to strangle to death her two daughters and was only prevented from accomplishing her purpose by the prompt intervention of neighbors. The woman was taken into custody and in explanation of the act that she wanted to put her daughters out of the way in order that they might escape becoming victims of "Jack the Ripper." It is said that the woman has become insane from reading and brooding over the press accounts of the Whitechapel murders.

The Are Wanted at Whitby Too.

WHITBY, Nov. 2.—Jarvis and Patton, in jail at Toronto, will be wanted here to answer for burglarizing Cormack's stationery shop last month. The pencils, pocket-books, etc., are certainly Cormack's. A copy of the private mark was mailed to the Toronto authorities.

A Railroad Agent Fatally Hurt.

TRENTON, Nov. 2.—Yesterday a serious if not fatal accident happened to Arthur Chapman, agent of the Central Ontario Railway at Frankford, while breaking on a car as it was being shunted. It is supposed he slipped when about to put on the brakes and fell off the top of a car in front of it. One of the wheels passed over his right arm close to the shoulder almost severing it. The wheel on the opposite side passed over his left foot crushing it. He also sustained some injuries about the head. His recovery

AT LAST!

A Wonderful Vegetable Discovery That Removes the Terrible Results of Overwork.

A True Invigorator.

Weakness and prostration of the nervous system surely follow that overwork and worry which brings sorrow and suffering to so many Canadian homes. The terrible results of nervous weakness, are seen on every hand. Pains in the back, poor and overwhelming sleep, lack of appetite dyspepsia, and lost energy and strength, are the first symptoms of more serious and danger. ous trouble. This is the way that Paralysis, Paresis and Insanity begin. Do not delay a moment longer, for some time it will be too late to regain your lost health and vitality. Use Paine's Celery Compound now, and the dull eyes will regain their brilliancy, the cheeks will grow rosy, the brain become clear, the nerves strong and steady, your sleep restful and refreshing, appetite good, and health and happiness will take the place of misery and suffering.

A. Sabiston, the well known lithographer of Montreal, writes: "In the summer of 1883 I had to work very hard, and was troubled considerably with insomnia (sleeplessness). I resolved to try your Paine's Celery Compound, and after taking the contents of two bottles, felt like a new man. A good night's rest gave me strength for the duties of the day, and instead of starting out to business in the morning feeling as if I had completed a day's work instead of being about to commence one I started out in good spirits, feeling fresh and strong. My wife and various friends, to whom I recommended the medicine, have been benefited greatly, and in fact 'Paine's Celery Compound is a household word in our family."

The Daily Examiner.

SATURDAY, NOVEMBER 2, 1889.

Filial Duty.

Sermon By Laymen.

To the Editor of the Examiner:

Forty or fifty years ago the love and obedience of children were unbounded. They were the universal characteristics of domestic life. There were children in those days, and children who obeyed and respected their parents. Nothing else was looked for and nothing else was given, children knew their places and they kept them. Even going and returning from school they invariably bowed to the passer-by. Children in those days had many duties to perform and they performed them willingly. They helped their parents in the work at home in the morning and again they did so after their return from school at night. Their time was not spent in frivolous amusements and they, as a consequence, grew up to be robust and healthy. And when they grew up to manhood and womanhood and the time for separation came, they were ready to go forth into the world and do for themselves. Their habits were plain and their wants were few and their hands were ready for the work assigned them. And they never thought of looking to their parents to help them on their way. Their lives were natural and not artificial as they are now. They were content and industrious and happy. Their wants were few and these they easily supplied. They rose early and they retired to rest early, and their thoughts were occupied with their daily avocations, and not with seeking after pleasures, as is the case now. And the people were honest, independent and friendly; and they were sociable, and when they met together they passed their hours in comfort and peace. The false pride of the present day was, to them utterly unknown. These are the people who contributed much to make Canada what it is to-day. Their fathers cut down the forest and their sons followed and finished the work. They had to endure many privations.

THEY HAD MANY DIFFICULTIES

to contend with and they overcame them. But their lives were happy and the earth returned them five fold. They had no gorgeous churches and no palatial school houses and they dressed in cloth of their own making, and their word was as good as their bond. As an instance of this, I may state what I once heard the late Chief Justice Robinson relate on one of his visits to this county to hold the assizes. He said that in the early days of this province a man was convicted on a charge of treason and was sentenced to be hanged, but, that owing to the want of a suitable place in which to keep him in the meantime, he was told to go home and return again on the day appointed for his execution. He went home, and on the day appointed, he was seen going towards his place of trial, and when asked about his journey, he said he had given his word to return and he was going to fulfil his promise. That one instance shows the mind of people who lived in those early days. A hundred years have now elapsed since the first settlement of Ontario, and what do we see. We see a population of nearly two millions, and smiling fields and waving grain and cities and towns on every side. We see steamboats and railroads, telegraphs and telephones and electric light and every means of rapid motion. We see the people feverish with impatience, and striving to run in the race after riches and win. And as a consequence we see pride and extravagance in a race after pleasures, and everyone trying to outdo his neighbor. We see people dressed in broadcloth and fine linen, and churches all bedecked with showy attractions in order the better to worship God, the friend of the humble and the poor. And we see fine dressed and stately men, who say the are the Lord's shepherd's, but who let the sheep take care of themselves. And

THE LAMBS MAY GO WITH THE SHEEP.

They say they are called of God to do his work among men, and that they alone can properly do it. Yet once, at least, every year they forsake that holy work for the sake of a month's holidays of amusement and pleasure. As if God's work was too much for them to do. In the olden times good men took upon themselves the duty of proclaiming the Gospel through the wilderness, and they travelled on foot and on horseback among the county settlers by day and by night, content with their hard fare, cheered on by Divine love and grace. And they never tired in the good work, and never claimed a month's holiday, not even one day's rest. The farmer has no holidays, the laborer has none, and it is singular that men who preach the Gospel find it so hard to read two sermons during the week and are obliged to spend a month every year at watering places and other fashionable resorts in order to recuperate their exhausted minds and bodies and so enable them to go back again to their neglected flocks and lead them in the way of truth and righteousness. The young people, of course, imitate the examples thus set before them. Their minds are filled with high notions and they want rest and pleasure, and if their parents advise them to pursue a different course and tell them of the necessity of labor and how much more profitable and honorable it would be for them to work and to earn their own living, they simply laugh at them for their foolishness, and refuse to be guided by those whom it is their duty to listen to and respect. Parental authority is all very well so long as it suits the young, but if it does not suit them they will follow their own devices and treat their parents with contempt.

THEY WANT LUXURIES AND MANY ENJOYMENTS,

and many comforts, but they don't want to provide them for themselves. They want their parents to provide them; and thus what their parents save they spend; and they do it as a matter of course and as if all their parents had to do was to provide for their wants. What is the cause of this great change in the conduct of the young from what it was fifty years ago? And why are children now so restless and wearied and so impatient of the advice and control of their parents? And, I may add, why are they so forward and so disrespectful to others? And why do they fancy themselves to be men and women by the time they are twelve years of age? These are questions which I will not undertake to answer. It is plain, however, that a great change in this respect has taken place; it is plain that we are living in a fast age. People are not content now to follow after oxen; even horses go too slow for them. They want to travel at the rate of forty miles an hour, and even that speed will be too slow by-and-by. Everything must be done with lightning speed. And then, again, look at the mighty strides which our educational system has made of late years; look at the fine school houses and the changes (I was going to say the great advances) made in the various branches of learning. The children are being trained to despise poverty and poor dress and country surroundings. And thus it comes to pass that we are training up a new class of people, who are to be all ladies and gentlemen; a class who are ashamed of their humble homes and almost ashamed of their hard-working and humble parents. I have often heard it asked, in view of these things, what the world is coming to, and what kind of children there will be two or three generations hence? But

SUFFICIENT FOR THE DAY IS THE EVIL THEREOF,

and so it need not concern us, and we need not worry ourselves about that which we will never see. In those days perhaps people will live without work. Perhaps they wont eat, or if they feel hungry perhaps, like the Children of Israel of old, their wants will be supplied from above. There is no pleasanter sight than a dutiful and an affectionate child. A child who respects and loves his parents, and who obeys all their reasonable commands. A child who, when mother or father is sick, stands at their bedside and anticipates their every want. Who never complains but who is ever cheerful and ready to minister to their comforts and to cheer them in their loneliness, and who tries to make everything bright and happy. A child who feels grateful for their protecting care and kindness, and who does not forget how often its mother denied herself great luxuries to make, and who nursed and sang it to sleep in its infancy, and rocked it and sang to it when sick. And now when it has grown and is able to return these kindnesses it is ever ready to do so, and mother is never neglected or forgotten. It is a comfort to look upon such a child as this and it shows us the good side of human nature and makes us feel that there are some good hearts left in the world yet. They may be few and far between, but these few are able to redeem the world and to bring sunshine and light upon the dark places. Their presence must always bring peace, and joy, and happiness, and make the heart feel lighter and brighter,

To the Public.

Our aim has been and will continue to be to give the consumer the highest grade of goods consistent with prices charged. We do not manufacture so-called cheap cigars; fine goods are our specialty. Purchasing only the best of tobaccos, irrespective of price, we are in a position to manufacture as fine a class of goods as can be obtained anywhere; Havana not excepted. Insist upon having our well known brands, "Cable," "El Padre" "Mungo," and "Madre E Hijo," and thereby obtain full value for your money. The immense sums expended in introducing our goods, the exceptionally fine quality of tobacco used in their manufacture, and the labor of nearly half a century should convince the most skeptical that the quality of same will not be allowed to deteriorate. me

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and $1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

An Awful Sore Limb

Seven Entirely Gone. Flesh a mass of disease. Leg Discolored one third its size. Condition hopeless. Cured by Cuticura Remedies in two months.

Cured by Cuticura.

For three years I was almost crippled with an awful sore leg from my knee down to my ankle; the skin was entirely gone and the flesh was one mass of disease. Some physicians pronounced it incurable. It discolored about one third below the other and I was in a hopeless condition. After trying all kinds of remedies and spending hundreds of dollars I was induced by what I got relief whatsoever. I was persuaded to try your CUTICURA REMEDIES and the result was as follows:—After three days I noticed a decided change for the better, and at the end of two months I was completely cured. My flesh was perfect, and the sore (which had been exposed for over a year) gone. The limb became as it was before, and to day, and for nearly two years past my leg has been well as ever it was, and in every respect, and may I say of the cause to be cured. S. O. AHERN, Dodge Co., Dodge Co., Ga.

Skin Disease 17 years.

I have been troubled with a skin and scalp disease for seventeen years. My head at times was one running sore and my body was covered with sores as large as a half dollar. I tried a great many remedies without any benefit. I used the CUTICURA REMEDIES and one bottle of the CUTICURA, two boxes of CUTICURA SOAP and I feel to my entire and entirely cured. I feel it my duty to use this public way to say so. L. L. McDOWELL, Jonesboro, N.J.

Another Marvellous Cure.

The CUTICURA, CUTICURA RESOLVENT and CUTICURA SOAP have been the instrument of marvellous cures in the case of a skin disease on my little son, six years old. Land,

sold on George street within the memory of many of its inhabitants, at from $200 to $400 per half acre. The same land, if available now, would sell for as many hundred dollars per foot. Land in other parts of the town has increased in the same proportion. Therefore, can any person go wrong by buying a lot on my "Novel Plan" in a rising town like this? On my plan, at my low prices and easy terms, everyone should buy.

FARMERS will pay from sixty to eighty dollars per acre for land from ten to twenty miles from this market, inferior in many respects to 100 acres which I have for sale just outside the town, and which I am offering, on easy terms, at $35.00 per acre. Less than half its value. Any person wishing a profitable investment in either Lots or Farm should see me without delay.

OUTVYING RICH AUTUMN.

GOWNS FOR GRACE AND HER SISTERS AND LOVELY COUSINS.

Semi-Lowcut House Dresses — Very Little Fuss-fance to be Noticed in the Tasteful Costumes of the Fall.

Miss Fashionia peers out from the curtains of home-life in the daintiest of house gowns nowadays. She has a peek-a-boo coyness yet she receives her callers in semi-lowcut robes. That is an idea new this Autumn and likely to get into vogue during the Winter. In the general anxiety to dress picturesquely, I am afraid we shall unconsciously revert to some of the hideous fashions which one hoped had passed away completely with the age of ugliness. The craze for dressing after old pictures is one to be commended, as long as models of the really picturesque periods are chosen, but the fatal desire to be unique is leading us astray in this direction and it is sad to see some of the prettiest girls disfiguring their faces with rows of side curls, kept in place with those hideous little flat combs that were in vogue with short puffed sleeves, low bodices and scanty one-frilled skirts.

What woman has not at some time or other had memories awakened by the sight of a piece of some special gown suddenly brought to light? To some, therefore, it will be welcome news, perhaps, to learn that an ingenious woman has hit upon the idea of a "dress album," in which tiny cuttings of every gown belonging to its owner are to be chronologically arranged, under the dates on which they were first or specially worn. There is a decided touch of pathos in the notion, for an occasional review of this curious volume as the years rolled by could scarcely fail to bring back to memory many by-gone hours of happiness and sorrow connected with the collection. What a picture would arise to the mind, for instance at the fragment of one's first ball dress, or of one's wedding gown, or that first shred of black that stood out in terrible contrast to the gaudy samples surrounding it.

Grandness is not the chief aim, or perhaps the best, in women's toilets at home. Simplicity is as apt as fussiness to be effective, and a neat costume composed in a tasteful combination of fabrics, is good for any woman to wear. It is open to no accusation of flummery, and the wearer runs no risk of absurdity. That should be a comfort to anybody who has seen the outlandish get ups sometimes displayed in the streets. I lately saw two girls, one wearing a gray and the other a brown skirt, while both had white blouses, long, fluffy, dark boas and white jockey caps of a particularly flat and graceless shape. The wearers of this extraordinary array had not even the justification of piquant beauty to which it might have happened to be becoming, but their plainness was intensified by it and its unsuitability for a gray October day had the further disfiguring effect of making them look blue with cold.

The other day I came across some new smelling bottles of the latest design which positively appalled me by their size. I was shown some of finely cut glass, nine inches in diameter, with silver and gold tops of proportionate size. Most of these are square in shape; others, not quite so large, are round; and the latest idea is to have the salts they contain perfumed with the odor of some special flower—lily of the valley for preference—so that these elaborate smelling bottles, when unstopped, diffuse a most delightful scent through the room, as well as affording real relief to the victim of headache or fatigue.

After all, I don't know but a girl, if she be dressed in a white, loose, spiritueltea-gown lanicer with her hands unarmed. A maiden with a long, heavy bottle in her hand, doesn't seem a strike-you-with-a-feather creature, but a brain-you-with-a-glass-club sort of girl. And no belle desires to scare off all the beaux, no matter how much she may wish she could club some of them.—New York Lester.

THIS AND THAT.

This is what comes of having too much "paternalism" in the government. Female telegraph clerks in Russia are not allowed to marry any but telegraph officials, and there is, consequently, bitter dissatisfaction.

Grocer—"I've a lot of Limburger cheese that I'm going to sell at cost. I want to stick up some taking notice of the sale. Can't you give me something?" Reddiwit—"How would 'unapproachable bargain' suit you?"

Ethel—Don't you think Charley Desmond a tremendously nice young man? Clara—Yes, if he didn't dress with such awfully poor taste. "I hadn't noticed it." "Why, he carries the same cane in the afternoon that he does in the morning."

My lady is not fair, but a clear light

My lady is not learned, but she knows
The way to every heart; straight there she goes.

Though neither fair nor learned, she is one

Bishop Doane—A New York letter to the Chicago Herald, says of Bishop Doane of Albany: This cultivated gentleman is somewhat of an Anglo—it wouldn't do to say Anglomaniac in connection with a bishop, would it? However, he believes that bishops in this country should be spoken of as they are in England, and he has his trunks, or boxes, I should say, marked "William of Albany." "William of Albany—who the deuce is William of Albany?" asked an irreverent drummer from western New York, as he stood staring at the pile of sacerdotal luggage, which the bishop was carrying about with him on one of the trips. "Why the bishop—Bishop Doane. He likes to be spoken of as William of Albany," returned the baggageman. "He does, eh? Pity he don't live out in Buffalo," said the drummer. "Why?" was queried. "We'd call him Buffalo Bill," was the wicked retort.

In a short time my digestion and appetite

IMPROVED

my bowels were regulated, and, by the time I finished two boxes of these Pills my tendency to headaches had disappeared, and I became strong and well.—Darius M. Logan, Wilmington, Del.

I was troubled, for over a year, with Loss of Appetite, and General Debility. I commenced taking Ayer's Pills, and, before finishing half a box of this medicine, my appetite and strength were restored.—C. O. Clark, Danbury, Conn.

Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered Stomach and Liver. I suffered for over three years with Headache, Indigestion, and Constipation. I had no appetite, and was weak and nervous most of the time.

BY USING

three boxes of Ayer's Pills, and, at the same time dieting myself, I was completely cured. My digestive organs are now in good order, and I am in perfect health.—Philip Lockwood, Topeka, Kans.

Ayer's Pills have benefited me wonderfully. For months I suffered from Indigestion and Headache, was restless at night, and had a bad taste in my mouth every morning. After taking one box of Ayer's Pills, all these troubles disappeared, my food digested well, and my sleep was refreshing.—Henry C. Hemmenway, Rockport, Mass.

I was cured of the Piles by the use of Ayer's Pills. They not only relieved me of that painful disorder, but gave me increased vigor, and restored my health.—John Lazarus, St. John, N. B.

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists and Dealers in Medicine.

Have placed on the market

That Desirable and Well Situated Property

in the western part of the Town, and offer it in lots as per plan annexed. This affords a splendid opportunity to secure a location for your home in a rapidly improving end in every respect the best part of the town. The properties are situated on Cedar and Hudson streets and within a stone's throw of the West Ward School and a short distance of the principal Churches and the Hamilton Co'y. Works.

"ERIN COTTAGE," late the residence of Mr. Elias Thompson, is situated in the centre of the block. This property is for sale or can be had as a bargain. It is a desirable suburban residence.

The lots have good frontages on streets of the standard width and are splendidly located. From the upper lots is afforded one of the best views of the town with ample facilities for drainage.

Several fine dwellings are already contracted for to be built on these lots during this season.

Tradesmen and purchasers should inspect this property as it offers the best sites available and convenient to the business part of the town.
